Want to stop being held hostage by deadlines? Tired of seeing what truly matters rarely getting completed? Would you like to live a fuller life? One where you achieve results, have a rewarding personal life whilst nurturing your whole personal and professional being? The Grid can unlock the secret to success for you... Magdalena Bak-Maier, trained neuroscientist (PhD, Caltech), top coach and author of *Get Productive!* provocatively suggests that you can 'have it all'. In this her second book, Bak-Maier shows how to cultivate balance and truly thrive using her original, tested, creative and easy to master Grid system. The Grid is for you if you find yourself saying... 'I work hard but feel I'm not getting anywhere.' 'I lack time for life outside my work (dating, hobbies, friends, holidays or family).' 'My to-do list is never-ending.' 'I don't have energy for anything other than work and need

weekends to recover.' 'I'm settling for less because "having it all" seems unattainable.' Too many lives are skewed towards work, careers, care for others and neglect of self she says. What's even worse, many people hardly notice how out of balance their lives have become while they "chase their tail," feel stressed, overwhelmed and unfulfilled. Bak-Maier makes a case for an attractive alternative using her tried and tested Grid method. This practical book sets out to help you transform your life by teaching you how to surf your energy so that instead of tiring and reacting to life, you continuously refuel your heart and mind to be the artist of it. The Grid shows you how to create results and success by engaging with key parts of life you choose to have. Once you start applying the Grid approach to your life, you will start to feel clear, inspired and energised. The Grid will help you balance your energy and effort in a way that restores you and helps you achieve more. With exercises to get you started, the Griding process is your key to succeed, thrive and sustain yourself and others. The Grid is a useful approach for those who want results without burnout and those in leadership roles who want to model good practice and create cultures grounded in wellbeing. Committed 'Gridders' find that they live more in tune with their values, act with integrity, achieve more and find time to be spontaneous and creative more often. Their confidence soars as they see the practical steps they take towards creating lives they truly want. In other words their heart and mind get on the same track and what's important gets done more often and better than what seems urgent. This book will show you how to take the same approach and make it your own to help you truly make time count." St. Paul and Dante are six miles apart; measured in other ways, the distance can be greater. Dante, for decades a company town controlled at all levels by the mine owners, has only a recent history of civic initiative. In St. Paul, which arose at a railroad junction, public debate, entrepreneurship, and education found a more receptive home. The speakers are men and women, wealthy and poor, black and white, old-timers and newcomers. Their concerns and interests range widely, including the battle over strip mining, efforts to control flooding, the 1989-90 Pittston strike, the nationally acclaimed Wetlands Estuaries Project, and the grassroots revitalization of both towns led by the St. Paul Tomorrow and Dante Lives On organizations. Their talk of the past often invokes an ethos, rooted in the hand-to-mouth pioneer era, of short-term gain. Just as frequently, however, talk turns to more recent times, when community leaders, corporations, unions, the federal government, and environmental groups have begun to seek accord based on what will be best, in the long run, for the towns. It is true that not a few men kill themselves by overwork; but the proportion of such is small to the number who die from violating the laws of health; and death from excessive activity is far preferable to death from rust. The spirits may be exhausted by employment, but they are utterly destroyed by idleness.-from "Choice of a Profession" William Mathews may have been the perfect 19th-century source for advice on personal achievement: in his long, busy life; he was a successful lawyer, newspaper publisher, university professor, and journalist. This collection of essays on making one's way in the world began as an 1871 series of articles for the Chicago Tribune that were reconsidered and expanded for this 1872 book. Mathews shares his still pertinent wisdom on such success-minded topics as: .the concept of luck, and how it is abused.why concentration and focus are key.the importance of maintaining physical health.how to cultivate self-reliance.why originality is vital to success.the necessity of practical talent and knowledge.being economical with your time.being smart about money.and much more.American writer WILLIAM MATHEWS (1818-1909) also wrote Words, Their Use and Abuse (1876), Hours with Men and Books (1877), and Monday-Chats (1877). The HTML 5 Visual Learning Guide fills a gap in the learning and reference works on introductory web design. Instead of the terse definitions written for experts found in online documentation resources, or long commentaries to ease novices into programming, this volume strikes a balance between succinct explanation and complete visualizations of code so that the key concepts are learned through easy-to-follow examples. This book assumes no previous knowledge of HTML, web development or programming. You will very quickly gain the skills you need to write the original source files for creating websites. As we age, the exorbitant cost of long-term care is, by far, the greatest risk to one's financial security. From hiring a home-health aide, to paying for assisted living facilities or nursing home care, five years of long-term care can easily cost between \$200,000.00 and \$600,000.00 - which will completely decimate the life savings of most Americans. Most people don't realize that Medicaid is available to pay for long term care expenses. Even fewer know that one can legally and ethically qualify for Medicaid before going broke! This book was written by a Florida elder law attorney and includes an overview of Medicaid Planning, with chapters devoted to: - The Medicaid Income and Asset Tests - Countable vs. Non-Countable Assets - What is a Qualified Income Trusts (Miller Trust), and when is one needed? - How to Protect Your Home (or sell the house and still be Medicaid eligible) - Clarifying the 5-year look back period (no, you shouldn't have to wait 5 years to engage in Medicaid Planning) - Personal Services Contracts (Caregiver Agreements) - Special Needs Trusts - How to minimize or avoid Medicaid estate recovery - other lesser-known Medicaid Planning techniques The book will explain how to take someone with too many assets and qualify them for Medicaid. It will also explain how to protect one's Medicaid eligibility after receiving a sudden influx of assets (such as from a personal-injury settlement or after receiving an inheritance). Given the amount of misinformation being disseminated about Medicaid, and who is able to obtain those long-term care benefits, this guide (written by a Florida Medicaid lawyer - <https://www.elderneedslaw.com/> - for the benefit of non-lawyers) seeks to provide clear steps to enable you to understand how you can tap valuable resources in order to care for yourself, your spouse, or your elderly loved one.
