Jet skis are immensely popular coastal 'playthings' - but they need careful handling and maintenance. This is a highly illustrated hands-on manual providing advice , hints and tips on choosing, driving, handling, maintaining and repairing a jet ski - the complete owner's manual. Many owners will prefer to service and maintain their own machine (much like they would with an outboard motor), rather than take it to a service agent, and the step by step photos in this book will enable them to do just this. This is a brand new, highly illustrated step-by-step guide for the jet ski owner (of which there are many in the UK alone) which provides helpful advice on all the aspects of

ownership, handling and maintenance. There is no other book on the market which does this. This is the third edition of the RYA Personal Watercraft Handbook, the essential text for anyone taking an RYA personal watercraft course. Clearly written text, technical illustrations, and full-colour photographs teach personal watercraft riders old and new about everything from pre-launch checks to offshore cruising. This new edition also advises on legal requirements, towing, passage planning, and contains the syllabuses for both the RYA Personal Watercraft Proficiency Course and the RYA Introduction to Personal Watercraft Safety Course. This is a must-have for anyone interested in this fast-growing water sport! This publication conforms to accessibility standard WCAG 2.0 AA. Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it ' s practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle. Este manual se destina à queles que desejam aprofundar o conhecimento relativo à apuração de enriquecimento ilícito, em sede de Sindicância Patrimonial, no âmbito da Administração Pública, sejam como agentes públicos, advogados, estudantes ou servidores efetivamente atuantes em investigação patrimonial. Com clareza, simplicidade e objetividade, os temas

aqui abordados não se afastam, contudo, de relevantes premissas assentadas em fundamentos legais, conceituais, doutrinários e instrumentais, que orientam o agir da Administração no combate aos nefastos efeitos provocados pelo cometimento de atos ímprobos por parte de agentes públicos. Nesta segunda edição, os autores abordam as recentes alterações na Lei de Improbidade Administrativa promovidas pela Lei no 14.230/2021, relativamente às hipóteses de enriquecimento ilícito presumido, previsto no artigo 9º, inciso VII, da Lei no 8.429/92, bem como se aprofundam no entendimento da melhor Doutrina e na majoritária Jurisprudência dos Tribunais Superiores. Finalmente, espera-se que esta obra venha reforçar e reafirmar a prevalência dos valores éticos e morais da Administração, na incessante luta contra a endêmica corrupção no serviço público.

This book explains how to take surreptitious photographs and record video of people and property in a safe and effective manner while producing excellent results. It is the most comprehensive text on clandestine photography available. It takes the reader through conventional as well as the most sophisticated clandestine photography methods in practice today, and it covers the use of all types of equipment ranging from off-the-shelf to the most high-tech equipment available. The ultra-long-range night vision photography methods discussed in this book were devised by the authors

and only exist here. Readers will discover esoteric techniques for photographically recording recognizable human and vehicle plate images from distances of over a mile in both daylight and night conditions. Myriad methods for secretly photographing people and property under diverse and difficult conditions are presented. Readers will discover innovative applications of combinations of old and new photographic-related technologies—some combined in unexpected ways that produce surprising results. It is written and extremely well illustrated in an easy to understand style for all photographers regardless of skill level. The book is appropriate for anyone in law enforcement, military operations, and private investigation. It will also benefit government surveillance specialists and those responsible for detecting and thwarting manual clandestine photography.
