Creating Context in Andean Cultures Nov 14 2019 This collection of  
previously unpublished papers explores various indigenous Andean  
languages and cultures in the context of new anthropological thinking  
about `texts' and textuality. The contributors focus on the ways  
socially subordinated cultural groups construct distinctive  
historical identities.

Manual de mecanización de los aprovechamientos forestales Dec 08 2021 El texto que presentamos bajo el título "Manual de mecanización de los aprovechamientos forestales" proporciona información imprescindible para la aplicación de los importantes avances tecnológicos de los últimos años a la gestión forestal sostenible. Es, por tanto, una herramienta necesaria tanto para los técnicos que planifican y dirigen las operaciones forestales como para los operarios que desarrollan esas tareas. Igualmente, se convierte en un texto muy indicado para apoyar y complementar la formación de los estudiantes universitarios de disciplinas forestales y medioambientales, y también para los de estudios profesionales relacionados con el sector forestal, muy especialmente los correspondientes al Certificado de Profesionalidad AGAR 0108: Aprovechamientos Forestales. También complementa y amplía los libros de esta misma editorial (bajo el sello Paraninfo, perteneciente al mismo Grupo Editorial) sobre mecanización y aprovechamientos correspondientes a las Unidades Formativas UF 0267, UF 0269, UF 0270, UF 0273, UF 0274. El libro proporciona información detallada sobre la maquinaria portátil y automotriz empleada en el monte, describe sus características y técnicas de uso, propone normas de organización de los trabajos que se realizan con ellas y analiza las consecuencias de esos trabajos sobre el entorno. También se recogen y explicitan las principales normativas que los regulan, haciendo especial hincapié en los aspectos medioambientales y de seguridad y salud. Se incluyen recomendaciones de mantenimiento y utilización de motosierras, desbrozadoras, tractores forestales, autocargadores, cosechadoras y procesadoras, se analizan en detalle sus componentes y su mecánica y se desglosa su empleo en aprovechamientos madereros para trabajar correctamente. Todos los contenidos se enfocan y desarrollan de forma eminentemente práctica, buscando que sean de fácil aplicación y se acompañan de fotografías, dibujos, ilustraciones y gráficos que complementan con claridad lo expuesto en el texto.

Empowering Women May 21 2020 The expansion of married women's property rights was a main achievement of the first wave of feminism in Latin America. As Carmen Diana Deere and Magdalena Leon reveal, however, the disjuncture between rights and actual ownership remains vast. This is particularly true in rural areas, where the distribution of land between men and women is highly unequal. In their pioneering, twelve-country comparative study, the authors argue that property ownership is directly related to women's bargaining power within the household and community, point out changes resulting from recent gender-progressive legislation, and identify additional areas for future reform, including inheritance rights of wives.
