Anderson's commentaries for the Revised Common and Catholic lectionaries are accompanied by theological reflections exploring the relationships between the texts, a suggested sermon title for each week, Sermon Angles which briefly develop the

theological themes for the day, and two to four illustrative stories per chapter. Other convenient features include wide margins for taking notes and a stay-flat binding. The Tower Talk series is the main combined text and workbook for children and teenagers taking weekly lessons at Tower English school in Abiko, Japan. This book is intended for non-native learners of English, typically in their second year of junior high school. But I designed the book to be of equal use to the child studying English at home with the help of a parent English speaker. Tower Talk Junior High 2 provides 45 clearly structured lessons that children take throughout one year of study.. Each lesson is presented over a double-page spread that is designed to be the main element of a 45-minute class or home-study lesson. The textbook examples of target language are on the left of every lesson, with the workbook exercises for students to complete typically on the right. The lessons in this book are organised into groups of two following a topic, such as travel, school or entertainment. The first of each lesson is a sample speech with options for students to change to make their own speech on the topic. The second lesson of each topic is designed to focus on grammar or vocabulary with a chance to use new forms through prompts to write and speak. Each lesson is designed to build on students' existing knowledge and expose them to new language structures that they can make their own with practice. But at the same time, students are following a syllabus that will give them a thorough foundation in English, covering every major grammar form they will encounter in their second year of junior high school. The Tower Talk syllabus complements the Oxford University Press Let's Go series (popular with private schools) and the New Horizons series that 40% of all junior high school students in Japan use to learn English, but with some major differences: A clearer focus on what the student can learn lesson by lesson, which helps the teacher and parent alike know what the student is doing in the classroom. Four "Homestay" lessons are spread through the book to offer review practice for students with the theme of useful communicative language for their likely first experiences of speaking English outside of the classroom. Even while learning grammar and doing reading exercises, the focus is on building up a store of useful English expressions that students can use in realistic situations to communicate through building their active skills of speaking and writing. I hope your budding English-speaker enjoys using this book as much as I had creating it. Feel free to contact me at www.towerenglish.wordpress.com if you have any questions, comments or suggestions to make about the book. Highlights: 1. 45 clearly structured lessons that children take throughout one year of weekly lessons. 2. The first of each topic is designed as a lesson for the student to write and deliver their own speech. 6. Book 2 opens with a new My Own Song improvisation on CDEFG. Unit 1 introduces phrasing and legato touch, and also presents harmonic 2nds and 3rds with staccato touch. The following two units are dedicated to the introduction of 4ths and 5ths. Also in Unit 3, sharps are introduced in a diatonic setting starting on D, and flats are introduced as blues notes. Most pieces in the second half of Book 2 coordinate hands playing together. This book works very well for transfer students. Whether you call them Sensitivity Readers, Diversity Editors or Targeted Beta Readers; their goals are the same: to add authenticity to manuscripts, scripts, marketing materials, gaming storylines which feature marginalized groups... and it's a booming business in need of trained individuals. Sensitivity Readers, Diversity Editors and Targeted Beta Readers are not hired to edit out creativity, but to simply offer suggestions or alternatives, if needed. It is up to the client whether to use any of the suggestions or not. Sensitivity Readers, Diversity Editors and Targeted Beta Readers have personal experience within a certain niche and are available to authors, publishers, gaming or marketing companies who include diversity within their creative content and want to make sure they are not unintentionally including bias or misrepresentation of a particular group. To explain it even further, it is just another tool in the writer's belt to use. Example: If you wrote a TV show based in a hospital or courtroom and you have zero experience in either, wouldn't you hire a consultant who is a doctor or attorney to read over your script to make sure you're getting it correct? You now understand what Sensitivity Readers, Diversity Editors and Targeted Beta Readers do. What Are *Some* of These Groups?- Minority Groups- Different Cultures- Different Religious Groups- The Disabled or Physically Challenged- The LGBTQ community- Medial/Mental Disorders, etc. If you are an avid reader, a writer or author and want to offer this service, then

All over the world, thousands of people are verbally abused, physically assaulted, maimed or murdered every day because of anger and rage. Families are ruined, marriages ended, children traumatized, careers lost, opportunities missed and personal and public property destroyed. The habit of anger abuse is one that is reinforced socially. People learn to abuse anger from the examples set by parents, peers and the media. This workbook, the official text for the self-help anger management program of the same name, helps people to unlearn these destructive patterns. It shows chronically angry people how to replace their anger habit with peaceful alternatives and respond to their anger triggers in nonviolent ways. The program outlined in this workbook will help readers discover how they learned their anger pattern, focus on values and goals that support a rage-free lifestyle, and learn skills that will help them avoid relapsing into angry behavior. The workbook has eighteen sessions, each complete with personal stories and questions designed to help the reader understand their past experiences and how to move forward. The *Pathways to Peace Anger Management Workbook* provides real answers for men and women who know that they have an anger problem and are looking for positive change. Book jacket. *Wider World* is the portal to a fascinating world of English Language knowledge and skills for the 21st century learner. Preachers must understand the teaching techniques of parable and hyperbole, not to mention having a good background in systematic theology, in order to understand what the Bible's writers really meant.... But our responsibility is also to reduce the complexities of Bible study to such simplicities that our many listeners, ranging from busy young professional people to aging men and women of failing health to youngsters facing a variety of new temptations, can take away a saving word. (from the Preface) E. Carver McGriff provides the tools preachers need for their daunting task with some of the most timely and thought-provoking research on the lectionary texts ever made available. Included for each scriptural lesson in the lectionary are: - A listing of the applicable Revised Common, Roman Catholic, and Episcopal lectionary texts. - A description of the Psalm of the day. - A prayer for the day. - Commentary that is more than academic exegesis -- McGriff brings to the forefront those points in the lessons that relate most poignantly to our contemporary reality. - Suggested sermon titles for each of the three texts for each Sunday. - Themes and suggested directions for preaching on each text. - Several additional illustrations to enliven your preaching. Known in the Indianapolis community as a preacher with extraordinary gifts, it is no surprise at all that this work by Carver McGriff brings remarkable insights to those who look for integrity in their preaching. Carver looks at the texts with a freshness that is sure to stimulate the thought process.... Careful use of these suggestions will bring

serendipities to preacher and congregation. George H. Tooze Senior Minister, First Baptist Church Indianapolis, Indiana One of America's premiere preachers, E. Carver McGriff returned home after earning two Purple Hearts during World War II to earn a degree in business administration from Butler University. Following a career as a salesman and business owner, McGriff entered Garrett Theological Seminary, where he was voted Best Preacher by the faculty and graduated with distinction. During his 26-year ministry at St. Luke's Methodist Church in Indianapolis, McGriff spearheaded his congregation's remarkable growth in membership from 900 to 4,400, with average Sunday attendance increasing from 300 to over 1,850. McGriff received an honorary degree from the University of Indianapolis and the Outstanding Alumnus award from Butler University and was voted the Distinguished Alumnus of the year by Christian Theological Seminary. McGriff was also honored in 1993 by the Governor of Indiana with the "Sagamore of the Wabash." His sermons have been distributed nationwide by the United Methodist Publishing House.
