From the late 19th century the progress of the movies has paralleled that of the motorcar. Now, for the first time, these developments are chronicled through the medium of the Movie Poster. The book celebrates the progression from the simple and crude, through the functional, the ambitious, the barking mad, right up to today's high-tech, computer generated, often soulless examples of both cinema and automobile. By charting the poster art of the movies chronologically, the book takes you on a journey through the 20th Century in black and white, sepia, hand coloring, stone-litho, and glorious Technicolor. The book shows the obsessively accurate, the artist's impression, the photographic and the wildly imaginative depictions of the automobile. The development of product placement in marketing is well-illustrated. Why did the Mustang appear in so little publicity for Bullitt? Where was the Mini in most of the world's publicity for The Italian Job? Why wasn't the Alfa Romeo Dueto prominent in the advertising of The Graduate? The book doesn't provide intricate plot lines or vast cast lists; there are many reference works, both in books and on-line that supply this detail. Instead it shows how different

countries promoted the same movie and give a brief guide to buying posters of movies safely. Primarily this is a book to wallow in, beautifully photographed artwork is guaranteed to bring memories favorite cars in movies and gives a fascinating insight into the evolution of cinema, marketing and the automobile. With 250 color photos, this book is a fascinating feast in all respects. With 250 pictures of rare and original posters and a star rating system for rarity, this is a beautiful book to browse and a valuable investment guide. Dune Buggies have been around for over four decades. In this stunningly comprehensive volume you can relive their colorful history from crude off roaders developed in the 1960s, to the superb show vehicles of the 1980s and 1990s, and take a glimpse into the future of these unique, fun vehicles. This totally revised, updated and enlarged book is THE complete guide to building a fast MG Midget or Austin-Healey Sprite for road or track. Daniel has been continuously developing his own 'Spridget' for years, and really does know what works and what doesn't when it comes to building a fast Midget or Sprite. Best of all, this book covers every aspect of the car, from the tyre contact patch to the rollover bar, and from radiator back to exhaust tailpipe. This new edition contains updated information for parts and

suppliers, many new photos, and features new material covering aerodynamics, including results from testing the effect of modifications at the MIRA wind tunnel. With over 400 mainly colour photos and exclusive tuning advice, this is a MUST for any Sprite or Midget owner. For courses in Engine Theory and Rebuilding. This is one of the Chek-Chart series texts directly correlating to the ASE testing areas for certified automotive mechanics. The entire series is job-oriented, especially designed for students who intend to work in the automotive service profession. A student will be able to use the knowledge gained from these texts and from the instructor to get and keep a job in automotive repair or maintenance. Learning the material and techniques in these volumes is a giant leap toward a satisfying, rewarding career. The second in a series of five books which chronicle in definitive depth the history of the evergreen 911, from earliest design studies to the water-cooled cars of today. Takes up the story from the 2.4 litre cars, & covers the 2.7 litre machines & the first of the legendary Turbos. RS/RSR models are included, as is the 912E. Describes the basics of automotive engineering to help master the techniques of drawing and painting a variety of automobiles. Particularly famous for their great adventures in the Monte Carlo rally,

works Minis humbled many bigger and more powerful cars during the 1960s and 1970s. Mechanic Brian Moylan spent 22 years in the workshops of the BMC Competitions Department where the works cars were built. Here, all the secrets of how ordinary production line Mini Coopers were converted into the mighty giant-killing Minis of motorsport are revealed in full. Contributions from ‘Ginger’ Devlin & ‘Jumping Jeff’ Williamson reveal in detail the modifications to the works racing and rallycross cars respectively. “ ... invaluable to anyone restoring a period car ... good stuff if you’re into nuts and bolts, and top value.” – Classic & Sports Car “ ... a technical profile on the various modified Minis that were produced by the BMC competitions department for racing, rallying and rallycross. Separate chapters ... all backed up by appendices on the race and rallycross cars ... complete a package that will interest competitive Mini pilots” – Classics A practical guide on how to blueprint any 4-cylinder, four-stroke engine's short block to obtain maximum performance and reliability without wasting money on over-specified parts. It includes choosing components, crankshaft & conrod bearings, cylinder block, connecting rods, pistons, piston to valve clearances, camshaft, and engine balancing. Dune (Beach) Buggies are still immensely popular today

due to their fun factor, stylish appearance and lifestyle associations. This 2nd volume of the Dune Buggy Phenomenon explores the lesser known buggy brands from around the world. Employing exhaustive knowledge, unpublished photographs and rare archive material this is a fantastic addition to the collection of Dune Buggy literature. Written by award-winning journalist and television presenter Alistair Weaver, and illustrated by some of the world's leading automotive photographers, A Drive on the Wild Side, takes you on a fascinating journey across some of the world's most challenging roads. This book tells the fascinating, hair raising and moving stories experienced during a career-spanning automotive adventure in style, with 400 stunning photos. Presents sixty four pictures from the popular Up N Smoke Engine Project. Also tells the story of the project and the years it took to bring it from an inspired idea to a tangible reality. The full story of coachbuilder Karmann Ghia's long association with Volkswagen and the creation of the famous CoupT and Cabriolet models. Arguably, Karmann Ghia produced the most beautiful bodies ever to adorn VW chassis. Today, all Karmann Ghia-badged Volkswagens are recognised classics and are highly desirable collectibles throughout the world. Contains full details of all the Karman Ghia-

badged CoupT and Cabriolet models Type 1 & Type 3 from 1955 to 1974. Today, touring with a caravan is a leisuretime activity enjoyed by millions; the hobby and the industry it supports having grown explosively since the early 1960s. The modern trailer caravan is a true 'home from home' offering every amenity and truly comfortable living accommodation - a far cry from the 'vans of the 1960s and before. This book traces the evolution of the trailer caravan by describing and picturing milestone models and telling the stories of their manufacturers. Every caravan enthusiast will find something of interest in this book, and its images and text will bring back happy memories of holidays in caravans long ago traded-in for newer models. The photos in this edition are black and white. Dyno Testing and Tuning is the first book to explain the proper testing procedures that everyone should use to get accurate and useful results from either an engine or chassis dyno. Authors Harold Bettes and Bill Hancock, recognized experts in the performance and racing industry, apply their wealth of knowledge and experience to deliver the definitive work on dynamometers and dyno testing. This book will be useful to anyone who wants to squeeze more power out of their car or engine, but should also be required reading for performance shop owners and

dyno operators. The book explains how a dyno works, describes what kinds of data a dyno test can produce, and then shows you how to plan a test session that will give you the results you're looking for. You'll learn what to look for in a dyno facility, how to conduct a dyno test and ensure the accuracy and repeatability of your test, and how to troubleshoot any problems that arise. Sample forms and checklists round out what is sure to be an indispensable book for anyone who wants to make the most of their dyno testing. This book provides a step by step guide to building your own Tiger Avon. Available again after a long absence! Always big on character and charm, Fiat's little cars played an important international roll in providing affordable and practical private transport for millions who had previously thought their dream impossible. With particular emphasis on the now classic 600 and Nuova 500 cars, this book tells the full story of these 'baby' Fiats. Built, and exported to, many countries outside of the marque's native Italy, over 6.5 million Topolinos, 600s and Nuova 500s were sold, and an amazing number survive to this today. Also covered are the wonderful models built on these cars' tiny chassis by Italy's leading coachbuilders, and the motorsport success achieved by the Abarth versions of the little cars that everybody loves. The

definitive history of the dignified Rover P4 from 1949 until 1964, which includes Marauder and jet-powered, experimental cars. Affectionately known as the 'auntie' Rovers, these models have become much-loved classics and represent the epitome of Britishness. Automakers are as prone to turn out clunkers as politicians are to lie. Their cars may be ugly, misconceived, badly built, diabolical to drive, ridiculously thirsty, or just plain unreliable. So which were the worst of the past 20 years? This book covers the process of building 4-stroke engines to a professional standard, from selecting materials and planning work, right through to methods of final assembly and testing. It is written for the DIY engine builder in an easy-to-understand style, supported by approximately 200 photographs and original drawings. Containing five engine inspection and build sheets, and the contact details of approximately 45 specialist manufacturers and motorsport suppliers, it explains build methods common to all 4-stroke engines, rather than specific makes or models. An essential purchase for all engine-building enthusiasts. This book contains a year-by-year account of Lino Tonti's development and evolution of the V7 Sport into the stylistic 850 Le Mans. A really practical and heavily illustrated guide to the art of good preparation and achieving a paint

finish to be proud of. Hillclimbing & Sprinting is one of the most popular ways of getting into UK motorsport. Over 400 such events take place each year. This book shows competitors how to get started, how to improve and how to drive the top courses, with extensive information on this sport. Clearly describes tools and procedures for setting the timing, adjusting the carburetor, and servicing the battery, coil, distributor, and other components of an internal combustion engine Enlarged new edition of the definitive international history of Mazda's extraordinary successful Wankel-engined coupes & roadsters right up to the end of production and the introduction of the RX-8. Buying a car is an expensive business and mistakes can prove costly financially and in time, effort and stress. Wouldn't it be great if you could take an expert with you? With the aid of this book's step-by-step guidance from a marque specialist, you can! You'll discover all you need to know about the car you want to buy. The unique points system will help you to place the cars value in relation to condition while extensive photographs illustrate the problems to look out for. This is an important investment - don't buy a Triumph TR6 without this book's help. Having worked at Triumph from 1954 until its closure in 1974, Hughie tells the story of his life in the famous

Meriden factory and of his many adventures with Triumph motorcycles and people. A nostalgic pictorial record of Goodwoods' motor racing heyday. A detailed account of how the British caravan industry developed in its first 30 years, and of the caravans - from Alcock to Winchester - it produced. The designs in this period ran the full gamut from weird to wonderful, but all contributed to the caravan's evolution. This book provides a nostalgic trip back to the past for caravan enthusiasts; it also serves as a record of the industry's fledgling years and as a useful work of reference. A unique collection of rare original colour photographs of Grand Prix and sports cars, taken between 1954 and 1959 at races and hillclimbs in England & Ireland. This book is an absolute must for Revivalists and all lovers of classic motorsport. After Armistice the motor industry built cars for export and new vehicles were largely, unavailable for the home market. Motorists using pre-war cars were determined to continue driving despite petrol rationing and raw material shortages, leading them to adopt some unique innovations. New Updated Fourth Edition, now in paperback. The Rolls-Royce Silver Shadow & Bentley T-Series were a revolutionary step forward when launched in 1965. Here's the full story, including related coachbuilt
