Beam Piper attained literary acclaim with his inventive forays into science fiction, but he also tried his hand at the mystery genre. Murder in the Gunroom features a detective whose expertise in antique guns makes him the perfect candidate to crack the case of a collector felled by one of his own weapons. Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better. Li-emba is the cause of any and everything, it explains any and everything, and it solves nothing and nothing at all. Along with its brother, Nyongo, Li-emba is a Community Destroyer that has wreaked havoc in communities both rural and urban, a discord exploited by the Nga-nga (Yoworite) business enterprise, living off a people who are bent on chasing the shadows of their compatriots. The Nga-nga entrepreneur must ensure the maintenance of the Li-emba-Nyongo status quo in order to continue to reap the economic benefits, while the victims of Li-emba continue the search of what seems like an illusionary and an endless search, for solutions to their problems. Vols. 9-17 include decisions of the War Labor Board. Thomas Mann

predicted that no manner or mode in literature would be so typical or so pervasive in the twentieth century as the grotesque. Assuredly he was correct. The subjects and methods of our comic literature (and much of our other literature) are regularly disturbing and often repulsive -- no laughing matter. In this ambitious study, John R. Clark seeks to elucidate the major tactics and topics deployed in modern literary dark humor. In Part I he explores the satiric strategies of authors of the grotesque, strategies that undercut conventional usage and form: the de-basement of heroes, the denigration of language and style, the disruption of normative narrative technique, and even the debunking of authors themselves. Part II surveys major recurrent themes of grotesquerie: tedium, scatology, cannibalism, dystopia, and Armageddon or the end of the world. Clearly the literature of the grotesque is obtrusive and ugly, its effect morbid and disquieting -- and deliberately meant to be so. Grotesque literature may be unpleasant, but it is patently insightful. Indeed, as Clark shows, all of the strategies and topics employed by this literature stem from age-old and spirited traditions. Critics have complained about this grim satiric literature, asserting that it is dank, cheerless, unsavory, and negative. But such an interpretation is far too simplistic. On the contrary, as Clark demonstrates, such grotesque writing, in its power and its prevalence in the past and present, is in fact conventional, controlled, imaginative, and vigorous -- no mean achievements for any body of art.
