Personal Finance for Real People Nov 24 2022 In Personal Finance for Real People, you'll find articles that cover typical personal finance topics in an easy-to-understand way, and provide you with the additional resources you need. This book is meant to be a resource to, well, real people—people like you or me, with very common money problems. Problems that you didn't have answers to—until now! How do you create a budget? Should you loan money to family? How do you work your way out of debt? Don't worry—we'll cover many more subjects. There is a large population in our country, whose people choose to live (or have to live) away from the world of banks, financial analysts, and investment consultants. Those who DO live in the world of banks have plenty of people to help them, and more than plenty of resources of which they can avail themselves. But what about people who don't have personal banking relationships? People who are maybe just like you, or me. Where do we go to get advice and answers to the financial issues we face? How can we handle our paychecks and bills, and what about savings? Sometimes the answers to money questions are fairly easy and common sense; but sometimes they require a lot of research. That's time and possibly facilities you may not have available to you. But still, you need to find out what to do if you owe back taxes, how to budget and ways to meet that budget, what are other ways to make extra income, how can government programs help you when you need it, how to get started saving, the ins and outs of credit and loans, and how you can get out of debt—realistically. This is why we published this book. Each section focuses on one of the larger issues and how it can help you manage your life. Each section will go into specific details on the most common issues and problems people face. We know you are smart enough to figure these issues out once you have the resources, and a place to go for advice. There are 116 topics under these major category headings: Managing Your Income Saving and Investing Selecting, Managing, and Using Credit Banking and Banking Alternatives Don't Be Afraid of Tax Time Handling the Unexpected When You Need Help Legal Matters Employment Topics Housing Issues Education Protect Yourself Shopping Strategies With so much content, you're sure to find the answers you need to your real-life money questions

[Don't Be Stupid About Money](#) Nov 12 2021 Money can make you happy. Or not. It all depends on you. Most money decisions are bad. They're made without critical thinking. Stupid is normal these days when it comes to money. People just keep paying without thinking until the stress wears them out. Wouldn't it be better to Think For Yourself? Stop doing what everyone else does and start making better money decisions. Your money can make you happy if you know how to use it. This is not the same advice you get everywhere else. This is for when you realize all that commonly repeated BS is not what's best for you. It's your money. You don't have to do what everyone else does. Why not Think For Yourself and choose your own course? This book will give you a real world understanding of money. Some people call it "street smart." Whatever you call it, you will make better decisions because reality makes a better foundation. For example; When did qualifying for a mortgage become the guide for buying a house? That's just stupid... read our book and you'll understand the reality. How about budgeting? Expense tracking sounds smart and the apps are easy to write, so you get plenty of advice to do it. But wouldn't you rather budget simply and effectively? That's how you make your life better instead of wasting time. And investing? You don't really think anyone playing at home beats Wall Street, do you? Wall Street is more profitable than ever, for themselves and not for you. If you're playing their game then you are just paying their salaries. Think for Yourself and invest where you get the best real returns. Our books use critical thinking to make life better. And when you think critically

about money, you get different answers from the rest of the herd. We Simplify and we keep it fun. Money is just another tool we use to live. Once you understand it, money is just another hammer in the toolbox. Why not spend a couple of hours with us and be wealthier for the rest of your life? You already know that's a good investment. Real Money Answers for Every Woman Jun 19 2022 Now widely available, the popular, award-winning, self-published guide to help women get out of debt, rebuild their credit, and fulfill their financial dreams.

Patrice Washington rationalized her excessive spending. "I work hard, I deserve this." "I bought it on sale." But at twenty-two, the recent college graduate was \$18,000 in debt and sinking fast. It was time to take control. Patrice educated herself about finance, adopted a new attitude toward money, and most importantly, adjusted her spending habits. By twenty-five she was debt free—and used the wisdom she gained to start her own successful real estate and mortgage brokerage—and by twenty-nine started her own financial counseling business. Patrice's former bad spending habits aren't unique, and women find themselves in financial hot water for a host of reasons. Women earn less than men and have to stretch those hard-earned dollars further. They contribute more to caregiving and aging parents, live longer, and

many—including most African American women—are choosing to stay single. *Real Money Answers for Every Woman* teaches you how to take responsibility for your financial future, whether you're just starting out or need a fresh start. In a handy Q & A format, it offers relatable and easy to understand and implement advice on everything from managing credit cards, home ownership, and student loans to affordable childcare and even negotiating for a higher salary. Following Patrice's practical advice, you'll learn to form "wealthy" habits, establish an "opportunity fund," stop collecting STUFF that causes debt, and discover the freedom that comes from feeling financially secure.
