journals, all demonstrate that it is as international as science. The report reviews the role of engineering in development, and covers issues including poverty reduction, sustainable development, climate change mitigation and adaptation. It presents the various fields of engineering around the world and is intended to identify issues and challenges facing engineering, promote better understanding of engineering and its role, and highlight ways of making engineering more attractive to young people, especially women.--Publisher's description.

The mission of The Girl with 35 Names is all about giving back. To fulfill that promise our gift is to donate 100% of profits raised from the sale of the book to charity. Ever since that snowy Russian winter's night when she was born, Molly has longed to know the secret behind each of her 35 names. When Molly

unearths a pair of time-worn spectacles in her garden, she is drawn into a mysterious realm of vivid, magical discoveries. Who are these women she is named for and what have they gifted her? What are those fantastic colors swirling around the people she sees and the young man she meets on her wedding day? Will she have enough time to learn all she is meant to before the soldiers of the Red Army invade her small village, exploding her world into chaos and war? Fearing for her safety, Molly must flee her family home and travel across the Atlantic to the strange and frozen New

England town of Peabody. The power of the spectacles becomes Molly's connection and her hope in her new home, as they weave her once again into a world of wonder and tiny miracles that will change her life and the lives of her community forever. Dear Reader, Molly is the girl with 35 names, each one of them special and not one the same... but this book is not only about Molly, it is about you too. Before you begin reading Molly's story, take a moment to think about your name. Why was it chosen for you and what does it mean? Take a moment to think about where your family came from,

and take another moment to consider your roots as far back as they might go. Think about how an ancestor's decision to immigrate has made a difference in the life you now lead. Think about the talents, values, and desires you have; might these have come from someone before your time? How have you been touched by someone you may never meet? When you do, you will discover how very special and unique each one of us is. We each have a story to tell. I have made this journey of discovery and that is how I came to write *The Girl with 35 Names*. The character of Molly is based on the life

of my Grandmother Malkah who grew up in a small village in Russia. She was married to a man she first met on her wedding day and because of the war that came to her country, she was forced to emigrate and build a new life in America. Her strength and courage, her adaptability and endless optimism, her joy of giving to others as well as her deep and tender love of family, inspired me to write this narrative of her life. It is my hope that readers today will discover through Molly's experiences the joy of giving to others, and the importance of learning who we really are and where we come

from. Together, let's make connections to our past and understand the impact these connections may have on our future. Molly's journey of self-discovery and sometimes magical experiences is one that mothers and daughters of all ages can relate to today. Her story celebrates women and the individuality of spirit that binds us all together.
