**Babe** May 16 2022 The definitive life story of the legendary Yankee slugger: "The best biography ever written about an American sports figure" (Sports Illustrated). Nearly a century has passed since George Herman Ruth made his major league debut, and in that time millions of words have been used to describe baseball's greatest hero. But for a man like the Babe, for whom the phrase "larger than life" seems to have been coined, those millions of words have created a mythologized legacy. Who was the real Babe Ruth? Relying on exhaustive research and interviews with teammates, family members, and friends, historian Robert W. Creamer separates fact from fiction and paints an honest and fascinating portrait of the slugger. This is the definitive biography of a man who was, in legend and in truth, the best who ever lived.

**Can't Anybody Here Play This Game?** Feb 01 2021 A "hilarious" look back at the worst baseball team in history—the 1962 Mets—by the New York Times–bestselling author (Newark Star-Ledger). Five years after the Dodgers and Giants fled New York for California, the city's National League fans were offered salvation in the shape of the New York Mets: an expansion team who, in the spring of 1962, attempted to play something resembling the sport of baseball. Helmed by the sagacious Casey Stengel and staffed by the league's detritus, the new Mets played 162 games and lost 120 of them, making them statistically the worst team in the sport's modern history. It's possible they were even worse than that. Starring such legends as Marvin Throneberry—a first baseman so inept that his nickname had to be "Marvelous"—the Mets lost with swashbuckling panache. In an era when the fun seemed to have gone out of sports, the Mets came to life in a blaze of delightful, awe-inspiring ineptitude. They may have been losers, but a team this awful deserves to be remembered as legends. This ebook features an illustrated biography of Jimmy Breslin including rare photos and never-before-seen documents from the author's personal collection.

**October 1964** Mar 02 2021 The "compelling" New York Times bestseller by the Pulitzer Prize–winning journalist, capturing the 1964 World Series between the Yankees and Cardinals (Newsweek). David Halberstam, an avid sports writer with an investigative reporter's tenacity, superbly details the end of the fifteen-year reign of the New York Yankees in October 1964. That October found the Yankees going head-to-head with the St. Louis Cardinals for the World Series pennant. Expertly weaving the narrative threads of both teams' seasons, Halberstam brings the major personalities on the field—from switch-hitter Mickey Mantle to pitcher Bob Gibson—to life. Using the teams' subcultures, Halberstam also analyzes the cultural shifts of the sixties. The result is a unique blend of sports writing and cultural history as engrossing as it is insightful. This ebook features an extended biography of David Halberstam.

**Curveball** Jan 12 2022 2011 Selection for the Amelia Bloomer Project. From the time she was a girl growing up in the shadow of Lexington Park in Saint Paul, Minnesota, Toni Stone knew she wanted to play professional baseball. There was only one problem—every card was stacked against her. *Curveball* tells the inspiring story of baseball's "female Jackie Robinson," a woman whose ambition, courage, and raw talent propelled her from ragtag teams barnstorming across the Dakotas to playing in front of large crowds at Yankee Stadium. Toni Stone was the first woman to play professional baseball on men's teams. After Robinson integrated the major leagues and other black players slowly began to follow, Stone seized an unprecedented opportunity to play professional baseball in the Negro League. She replaced Hank Aaron as the star infielder for the Indianapolis Clowns and later signed with the legendary Kansas City Monarchs. Playing alongside some of the premier

athletes of all time including Ernie Banks, Willie Mays, Buck O'Neil, and Satchel Paige, Toni let her talent speak for itself. *Curveball* chronicles Toni Stone's remarkable career facing down not only fastballs, but jeers, sabotage, and Jim Crow America as well. Her story reveals how far passion, pride, and determination can take one person in pursuit of a dream.

**The Making of a Miracle** Oct 09 2021 On the fortieth anniversary of the historic "Miracle on Ice," Mike Eruzione—the captain of the 1980 U.S. Men's Olympic Hockey Team, who scored the winning goal—recounts his amazing career on ice, the legendary upset against the Soviets, and winning the gold medal. It is the greatest American underdog sports story ever told: how a team of college kids and unsigned amateurs, under the tutelage of legendary coach—and legendary taskmaster—Herb Brooks, beat the elite Soviet hockey team on their way to winning the gold medal at the 1980 Lake Placid Olympics. No one believed the scrappy Americans had a real shot at winning. Despite being undefeated, the U.S.—the youngest team in the competition—were facing off against the four-time defending gold medalist Russians. But the Americans' irrepressible optimism, skill, and fearless attitude helped them outplay the seasoned Soviet team and deliver their iconic win. As captain, Mike Eruzione led his team on the ice on that Friday, February 22, 1980. But beating the U.S.S.R was only one of the numerous challenges Mike has faced in his life. In this inspiring memoir, he recounts the obstacles he has overcome, from his blue-collar upbringing in Winthrop, Massachusetts, to his battle to make the Boston University squad; his challenges in the minor leagues and international tournaments to his selection to the U.S. team and their run for gold. He also talks about the aftermath of that stupendous win that inspired and united the nation at a time of crisis in its history. Eruzione has lived a hockey life full of unexpected twists and surprising turns. Al Michaels' famous call in 1980—"do you believe in miracles? YES!"—could have been about Mike himself. Filled with vivid portraits—from his hard-working, irrepressible father to the irascible Herb Brooks to the Russian hall of famers Tretiak, Kharlamov, Makarov, and Fetisov—this lively, fascinating look back is destined to become a sports classic and is a must for hockey fans, especially those who witnessed that miraculous day.

**The Summer Game** Feb 13 2022 The author shares his funny, insightful vision into the game of baseball, discussing a wide variety of topics, from the birth of the Mets and the classic Pirates vs. Orioles 1971 World Series to the great players in the 1960s and 1970s. Reprint.

**3 Nights in August** Dec 11 2021 This inside view with the Cardinals' Tony La Russa by the #1 New York Times–bestselling author of *Friday Night Lights* "should appeal to any baseball fan" (Publishers Weekly). A Chicago Tribune Best Book of the Year "Plenty of books have taken us inside baseball, but August takes us directly inside players' heads."

—Entertainment Weekly *3 Nights in August* captures the strategic and emotional complexities of baseball's quintessential form: the three-game series. As the St. Louis Cardinals battle their archrival, the Chicago Cubs, we watch from the dugout through the eyes of legendary Tony La Russa, considered by many to be the greatest manager of the modern era. In his thirty-three years of managing, La Russa won three World Series titles and was named Manager of the Year a record five times. He now stands as the third-winningest manager in the history of baseball. A great leader, La Russa built his success on the conviction that ball games are won not only by the numbers but also by the hearts and minds of those who play. Drawing on unprecedented access to a major league skipper and his team, Buzz Bissinger portrays baseball with a revelatory intimacy that offers many surprisingly tactical insights—and furthers the debate on major league managerial style and strategy in his provocative afterword. "Superb . . . Will be devoured by hard-core strategists." —The New York Times Book Review

**The Big Fella** Sep 08 2021 NEW YORK TIMES BESTSELLER • From Jane Leavy, the award-winning, New York Times bestselling author of *The Last Boy* and *Sandy Koufax*, comes the definitive biography of Babe Ruth—the man Roger Angell dubbed "the model for modern celebrity." A Publishers Weekly Best Book of 2018 "Leavy's newest masterpiece.... A major work of American history by an author with a flair for mesmerizing story-telling." —Forbes He lived in the present tense—in the camera's lens. There was no frame he couldn't or wouldn't fill. He swung the

heaviest bat, earned the most money, and incurred the biggest fines. Like all the new-fangled gadgets then flooding the marketplace—radios, automatic clothes washers, Brownie cameras, microphones and loudspeakers—Babe Ruth "made impossible events happen." Aided by his crucial partnership with Christy Walsh—business manager, spin doctor, damage control wizard, and surrogate father, all stuffed into one tightly buttoned double-breasted suit—Ruth drafted the blueprint for modern athletic stardom. His was a life of journeys and itineraries—from uncouth to couth, spartan to spendthrift, abandoned to abandon; from Baltimore to Boston to New York, and back to Boston at the end of his career for a finale with the only team that would have him. There were road trips and hunting trips; grand tours of foreign capitals and post-season promotional tours, not to mention those 714 trips around the bases. After hitting his 60th home run in September 1927—a total that would not be exceeded until 1961, when Roger Maris did it with the aid of the extended modern season—he embarked on the mother of all barnstorming tours, a three-week victory lap across America, accompanied by Yankee teammate Lou Gehrig. Walsh called the tour a "Symphony of Swat." The Omaha World Herald called it "the biggest show since Ringling Brothers, Barnum and Bailey, and seven other associated circuses offered their entire performance under one tent." In *The Big Fella*, acclaimed biographer Jane Leavy recreates that 21-day circus and in so doing captures the romp and the pathos that defined Ruth's life and times. Drawing from more than 250 interviews, a trove of previously untapped documents, and Ruth family records, Leavy breaks through the mythology that has obscured the legend and delivers the man.

**Summer of '49** Jul 06 2021 This #1 bestselling baseball classic of the Yankees-Red Sox rivalry is "dazzling . . . heart-stopping . . . A celebration of a vanished heroic age" (The New York Times Book Review). The summer of 1949: It was baseball's Golden Age and the year Joe DiMaggio's New York Yankees were locked in a soon-to-be classic battle with Ted Williams's Boston Red Sox for the American League pennant. As postwar America looked for a unifying moment, the greatest players in baseball history brought their rivalry to the field, captivating the American public through the heart-pounding final moments of the season. This expansive story captures an era, incorporating profiles of the players and their families, fans, broadcasters, baseball executives, and sportswriters. Riveting in its blend of powerful detail and exhilarating narrative, *The Summer of '49* is Pulitzer Prize winner David Halberstam's engrossing look at not only a sports rivalry, but a time when America's very identity was wrapped up in its beloved national game. This ebook features an extended biography of David Halberstam.

**Dark Summit** Dec 31 2020 Everest - the highest mountain in the world and the ultimate climbing challenge. In 2006, 11 people died attempting to reach the summit, the most fatalities since 1996. But unlike 1996, 2006 saw no surprise blizzard, only the constant dangers posed by unstable ice, merciless cold, thin air - and human nature. Nick Heil tells the shocking true stories of David Sharp, a young British solo climber, who was passed by 40 mountaineers as he lay dying on the slopes of the mountain, and Lincoln Hall who was left for dead yet miraculously survived, and asks: what does climbing the world's highest peak really mean for those who take on the challenge? And how far will they go in their single-minded pursuit of the ultimate mountaineering prize?

**Management By Processes In Practice** Feb 25 2023 A book written for those who really practice process management! This book was born of an internal corporate training, in which I presented the designed infographic that illustrates the cover page...repeatedly through several years. Participating in other trainings, audits and events, I came to consider that some of my peculiar approaches could always be seen as great nonsense or as a solid experience and its many scars...always being to the taste or criticism of the public. I was careful to name each chapter as a question that someone has already asked me or that I believe I might be asked, and, then, I hope I have been able to put myself in the seated place of the audience rather than on the lighted stage.

**Enterprise Gamification** Oct 21 2022 Research shows when people are engaged they are more productive. That's why gamification has caught on in the corporate world. The clever combination of fields such as game design, psychology, motivation theory, neurophysiology, and behaviorism has been shown to benefit stakeholders in surprisingly effective ways. This landmark book examines the prevailing notion that simple rewards and competition are effective means for engaging people, and shows how gamification designs can be applied to support long-term collaboration, creativity, productivity, loyalty, and learning. Based on evidence from many research papers, use cases, and practical examples you will learn

how to create effective and fun gamification designs for one or multiple systems in a local or global context. *Enterprise Gamification* is the most comprehensive and scientifically rigorous book yet written in this exciting new field.

**Fast Girl** Apr 03 2021 NEW YORK TIMES BESTSELLER The former middle distance Olympic runner and high-end escort speaks out for the first time about her battle with mental illness, and how mania controlled and compelled her in competition, but also in life. This is a heartbreakingly honest yet hopeful memoir reminiscent of *Manic*, *Electroboy*, and *An Unquiet Mind*. During the 1990s, three-time Olympian Suzy Favor Hamilton was the darling of American track and field. An outstanding runner, a major sports apparel spokesperson, and a happily married wife, she was the model for an active, healthy, and wholesome life. But her perfect facade masked a dark truth: manic depression and bipolar disorder that drove her obsession to perform and win. For years after leaving the track, Suzy wrestled with her condition, as well as the loss of a close friend, conflicted feelings about motherhood and her marriage, and lingering shame about her athletic career. After a misdiagnosis and a recommendation for medication that only exacerbated her mania and made her hypersexual, Suzy embarked on a new path, and assumed a new identity. Fueled by a newfound confidence, a feeling of strength and independence and a desire she couldn't tamp down, she became a high-priced escort in Las Vegas, working as "Kelly." But Suzy could not keep her double life a secret forever. When it was eventually exposed, it sent her into a reckless suicidal period where the only option seemed out. Finally, with the help of her devoted husband, Suzy finally got the proper medical help she needed. In this startling frank memoir, she recounts the journey to outrun her demons, revealing how a woman used to physically controlling her body learned to come to terms with her unstable mind. It is the story of a how a supreme competitor scored her most important victory of all—reclaiming her life from the ravages of an untreated mental illness. Today, thanks to diagnosis, therapy, Kelly has stepped into the shadows, but Suzy is building a better life, one day at a time. Sharing her story, Suzy is determined to raise awareness, provide understanding, and offer inspiration to others coping with their own challenges.

**Applied Nonlinear Control** Jul 18 2022 In this work, the authors present a global perspective on the methods available for analysis and design of non-linear control systems and detail specific applications. They provide a tutorial exposition of the major non-linear systems analysis techniques followed by a discussion of available non-linear design methods.

**From Wives to Widows in Early Modern Paris** Aug 19 2022 Looking especially at widows of master craftsmen in early modern Paris, this study provides analysis of the social and cultural structures that shaped widows' lives as well as their day-to-day experiences. Janine Lanza examines widows in early modern Paris at every social and economic level, beginning with the late sixteenth century when changes in royal law curtailed the movement of property within families up to the time of the French Revolution. The glimpses she gives us of widows running businesses, debating remarriage, and negotiating marriage contracts offer precious insights into the daily lives of women in this period. Lanza shows that understanding widows dramatically alters our understanding of gender, not only in terms of how it was lived in this period but also how historians can use this idea as a category of analysis. Her study also engages the historiographical issue of business and entrepreneurship, particularly women's participation in the world of work; and explicitly examines the place of the law in the lived experience of the early modern period. How did widowed women use their newly acquired legal emancipation? How did they handle their emotional loss? How did their roles in their families and their communities change? How did they remain financially solvent without a man in the house? How did they make decisions that had always been made by the men around them? These questions all touch upon the experience of widows and on the ways women related to prevalent structures and ideologies in this society. Lanza's study of these women, the ways they were represented and how they experienced their widowhood, challenges many historical assumptions about women and their roles with respect to the law, the family, and economic activity.

**Chesapeake Requiem** Oct 29 2020 A brilliant, soulful, and timely portrait of a two-hundred-year-old crabbing community in the middle of the Chesapeake Bay as it faces extinction. A BEST BOOK OF THE YEAR: Washington Post, NPR, Outside, Smithsonian, Popular Science, Bloomberg, Christian Science Monitor, Chicago Review of Books, Science Friday, and Kirkus "BEAUTIFUL, HAUNTING AND TRUE." —

Hampton Sides • "GORGEOUS. A TRULY REMARKABLE BOOK." — Beth Macy • "GRIPPING. FANTASTIC." — Outside • "CAPTIVATING." — Washington Post • "POWERFUL." — Bill McKibben • "VIVID. HARROWING AND MOVING." — Science • "A MASTERFUL NARRATIVE." — Christian Science Monitor • "THE BEST NONFICTION BOOK OF THE YEAR." — Stephen L. Carter/Bloomberg A Washington Post bestseller • An Indie Next List selection • An NPR All Things Considered and Axios "Book Club" pick Tangier Island, Virginia, is a community unique on the American landscape. Mapped by John Smith in 1608, settled during the American Revolution, the tiny sliver of mud is home to 470 hardy people who live an isolated and challenging existence, with one foot in the 21st century and another in times long passed. They are separated from their countrymen by the nation's largest estuary, and a twelve-mile boat trip across often tempestuous water—the same water that for generations has made Tangier's fleet of small fishing boats a chief source for the rightly prized Chesapeake Bay blue crab, and has lent the island its claim to fame as the softshell crab capital of the world. Yet for all of its long history, and despite its tenacity, Tangier is disappearing. The very water that has long sustained it is erasing the island day by day, wave by wave. It has lost two-thirds of its land since 1850, and still its shoreline retreats by fifteen feet a year—meaning this storied place will likely succumb first among U.S. towns to the effects of climate change. Experts reckon that, barring heroic intervention by the federal government, islanders could be forced to abandon their home within twenty-five years. Meanwhile, the graves of their forebears are being sprung open by encroaching tides, and the conservative and deeply religious Tangiermen ponder the end times. Chesapeake Requiem is an intimate look at the island's past, present and tenuous future, by an acclaimed journalist who spent much of the past two years living among Tangier's people, crabbing and oystering with its watermen, and observing its long traditions and odd ways. What emerges is the poignant tale of a world that has, quite nearly, gone by—and a leading-edge report on the coming fate of countless coastal communities.

**Uncommon** Sep 27 2020 The New York Times bestseller is now in softcover with a bonus chapter on how the "Dare to Be Uncommon" movement is reaching schools, teams, and families across the country and an update on Tony's life since retiring as head coach of the Indianapolis Colts. What does it take to live a life of significance? When Indianapolis Colts coach Tony Dungy took home the trophy in Super Bowl XLI, fans around the world looked to him as the epitome of success. Athletic victory, professional excellence, fame and celebrity, awards and honors—he had it all. But even in that moment, he knew those achievements had little to do with his ultimate significance as a man. Coach Dungy still passionately believes that there is a different path to significance—a path characterized by attitudes, ambitions, and allegiances that are all too rare but uncommonly rewarding. In the New York Times best seller *Uncommon*, Dungy reveals secrets to achieving significance that he has learned from his remarkable parents, his athletic and coaching career, his mentors, and his walk with God.

**The Arm** Jun 24 2020 Yahoo's lead baseball columnist offers an in-depth look at the most valuable commodity in sports—the pitching arm—and how its vulnerability to injury is hurting players and the game, from Little League to the majors. Every year, Major League Baseball spends more than \$1.5 billion on pitchers—five times more than the salary of every NFL quarterback combined. Pitchers are the game's lifeblood. Their import is exceeded only by their fragility. One tiny band of tissue in the elbow, the ulnar collateral ligament, is snapping at unprecedented rates, leaving current big league players vulnerable and the coming generation of baseball-playing children dreading the three scariest words in the sport: Tommy John surgery. Jeff Passan traveled the world for three years to explore in-depth the past, present, and future of the arm, and how its evolution left baseball struggling to wrangle its Tommy John surgery epidemic. He examined what compelled the Chicago Cubs to spend \$155 million on one arm. He snagged a rare interview with Sandy Koufax, whose career was cut short by injury at thirty, and visited Japan to understand how another baseball-mad country treats its prized arms. And he followed two major league pitchers, Daniel Hudson and Todd Coffey, throughout their returns from Tommy John surgery. He exposes how the baseball establishment long ignored the rise in arm injuries and reveals how misplaced incentives across the sport stifle potential changes. Injuries to the UCL start as early as Little League. Without a drastic cultural shift, baseball will continue to lose hundreds of millions of dollars annually to damaged pitchers, and another generation of children will suffer the same problems that vex current players. Informative and hard-hitting, *The Arm* is essential reading for everyone

who loves the game, wants to keep their children healthy, or relishes a look into how a large, complex institution can fail so spectacularly.

**Solo** Aug 07 2021 "My family doesn't do happy endings. We do sad endings or frustrating endings or no endings at all. We are hardwired to expect the next interruption or disappearance or broken promise." Hope Solo is the face of the modern female athlete. She is fearless, outspoken, and the best in the world at what she does: protecting the goal of the U.S. women's soccer team. Her outsized talent has led her to the pinnacle of her sport—the Olympics and the World Cup—and made her into an international celebrity who is just as likely to appear on ABC's *Dancing with the Stars* as she is on the covers of *Sports Illustrated*, *ESPN The Magazine*, and *Vogue*. But her journey—which began in Richland, Washington, where she was raised by her strong-willed mother on the scorched earth of defunct nuclear testing sites—is similarly haunted by the fallout of her family history. Her father, a philanderer and con man, was convicted of embezzlement when Solo was an infant. She lost touch with him as he drifted out of prison and into homelessness. By the time they reunited, years later, in the parking lot of a grocery store, she was an All-American goalkeeper at the University of Washington and already a budding prospect for the U.S. national team. He was living in the woods. Despite harboring serious doubts even about the provenance of her father's last name (and her own), Solo embraces him as fiercely as she pursues her dreams of being a world-class soccer player. When those dreams are threatened by her standing within the national team, as when she was famously benched in the semifinals of the 2007 World Cup after four shutouts and spoke her piece publicly, we see a woman of uncompromising independence and hard-won perseverance navigate the petty backlash against her. For the first time, she tells her version of that controversial episode, and offers with it a full understanding of her hard-scrabble life. Moving, sometimes shocking, *Solo* is a portrait of an athlete finding redemption. This is the Hope Solo whom few have ever glimpsed. Signed poster inside.

**Bounce** Aug 27 2020 Why have all the sprinters who have run the 100 meters in under ten seconds been black? What's one thing Mozart, Venus Williams, and Michelangelo have in common? Why are baseball players so superstitious? We love to win and hate to lose, whether it's on the playing field, in the office, or in the classroom. In this bold new look at human behavior, award-winning journalist and Olympian Matthew Syed explores the truth about our competitive nature—why we win, why we don't, and how we really play the game of life. *Bounce* reveals how competition—the most vivid, primal, and dramatic of human pursuits—provides vital insight into many of the most controversial issues of our time. From biology and economics to psychology and culture, from genetics and race to sports and politics, *Bounce* shows how competition provides a master key with which to unlock the mysteries of the world.

**The Best Seat in Baseball, But You Have to Stand!** May 04 2021 A fascinating and revealing look inside the lives of umpires, from the godfather of creative nonfiction In 1974, Lee Gutkind walked into Shea Stadium, then home of the New York Mets, with an unusual proposal. He wanted to chronicle one of the least celebrated cadres in professional baseball: the umpires. Gutkind spent one exhilarating season traveling with the officiating crew he found that day—Doug Harvey, Nick Colosi, Harry Wendelstedt, and Art Williams, the first African American umpire in National League history. Gutkind's narrative reveals much about the peculiarities of the men charged with the "thankless and impossible task of invoking order"—their work ethic, fallibility, and perhaps most strikingly, their pride. As resonant today as when it was first published, *The Best Seat in Baseball, But You Have to Stand!* is an engrossing story of the men who work on one of the nation's biggest stages, their victories and their failures, and their inner worlds that are rarely—if ever—explored.

**Freezing and Refrigerated Storage in Fisheries** Dec 23 2022 This document is intended to serve as a background paper as well as an introduction to the operations and equipment used in the freezing and cold storage of fish both on shore and at sea. It gives a broad outline on

how deterioration of fish quality can be reduced by the application of low temperatures. It reviews various types of freezing equipment for use ashore or at sea; the requirements for cold stores and their construction; the factors affecting cold storage conditions, etc. In addition, the publication describes the methods used to calculate cold storage refrigeration loads as well as the costs of freezing and cold storage. Safe operation of cold stores is also covered. A list of publications on the subject is given in the list of references.
