Accidental Chef is a sobering account of what it's really like to be a professional chef, not the glamorized, sugar-coated depictions we see on cable television. This book offers a glimpse of what it really like to work in a hotel patry shop and a busy restaurant. When you read Accidental Chef you can't help feeling that you right there with Charles in the kitchen. Through his vivid descriptions you'll be able to imagine the sights, sounds and smells of a real kitchen. Accidental Chef puts a real face on the hospitality industry in America. Charles reveals many of the unsavory aspects of the hotel and restaurant business. For example, he relates true life stories about how our food supply isn't always as sanitary as we might believe. You'll get an idea of just how prevalent drug abuse and sex are in the food world. Through Accidental Chef, Charles also shares some of stories of the colorful characters he's worked with throughout his long career. He illusrates how professioanl cooking attracts a variety of characters. Charles introduces you to some of the bizarre people he's worked with. In his own words, Charles gives us the captivating story of how he abandoned a prosperous career in hospital administration to become a chef in New Orleans. It's an inspiring story for those who are disenchanting with their career, but are afraid of the risks of a career transition. Above all, Charles reveals the irrepressible determination and genuine love of cooking that made his success possible. "I thought I was destined for great things. Turns out, I was meant to sell blue jeans." Dana Goldstein had dreams of being a foreign correspondent, covering the news from a far off land. When she graduated from journalism school into a recession, her visions of globetrotting were replaced by the reality of needing to pay her bills and eat. Working in retail was meant to be a temporary measure, a stop-gap on the road to her future as a journalist. Ten years later, she had found herself accidentally well into a career, lured by the steady and reliable paycheck. But she was a crap manager, at least from the corporate view. Dana put employees first, took risks with merchandising

that did not always play by the rules, and opened her mouth to call out the stupidity that sometimes trickled down from head office. Over the course of decade, she witnessed fights among customers, stopped thieving employees, and blew the whistle on managers having sex on company time. Join her on the journey as she explores the best and worst of humanity, viewed from the sales racks and the sales floor. Australia's leading biographer Brenda Niall, now in her nineties, turns the spotlight on her own story in this fascinating memoir of a remarkable life and career.

When Julia Zarankin saw her first red-winged blackbird at the age of thirty-five, she didn't expect that it would change her life. Recently divorced and auditioning hobbies during a stressful career transition, she stumbled on birdwatching, initially out of curiosity for the strange breed of humans who wear multi-pocketed vests, carry spotting scopes and discuss the finer points of optics with disturbing fervour. What she never could have predicted was that she would become one of them. Not only would she come to identify proudly as a birder, but birding would ultimately lead her to find love, uncover a new language and lay down her roots. *Field Notes from an Unintentional Birder* tells the story of finding meaning in midlife through birds. The book follows the peregrinations of a narrator who learns more from birds than she ever anticipated, as she begins to realize that she herself is a migratory species: born in the former Soviet Union, growing up in Vancouver and Toronto, studying and working in the United States and living in Paris. Coming from a Russian immigrant family of concert pianists who believed that the outdoors were for "other people," Julia Zarankin recounts the challenges and joys of unexpectedly discovering one's wild side and finding one's tribe in the unlikeliest of places. Zarankin's thoughtful and witty anecdotes illuminate the joyful experience of a new discovery and the surprising pleasure to be found while standing still on the edge of a lake at six a.m. In addition to confirmed nature enthusiasts, this book will appeal to readers of literary memoir, offering keen insight on what it takes to find one's place in the world.

Derek Esp didn't set out to forge a career in education: but, after enrolling in an Education course at university, he discovered a love for learning and a passion for teaching. Appointed as the Youth Officer for Central Shropshire in 1959, Derek found that he had a talent for leadership. He later worked in three counties as an education officer, moving on to various other roles in which he led a number of education initiatives and helped to develop new schools. His final role in public education was that of Director of Education in Lincolnshire. Derek retired early from local government and became an education consultant. He went on to lead national projects, became a county politician and chaired an education committee. In *An Adventure in Education*, he explains how education transformed between 1960 and 1990 outlining important initiatives of the time and their relevance to current issues in education. He simultaneously entertains readers with humorous anecdotes.

One woman's midcareer misadventures in the absurd world of American retail. After losing her job as a journalist and the security of a good salary, Caitlin Kelly was hard up for cash. When she saw that The North Face—an upscale outdoor clothing company—was hiring at her local mall, she went for an interview almost on a whim. Suddenly she found herself, middle-aged and mid-career, thrown headfirst into the bizarre alternate reality of the American mall: a world of low-wage workers selling overpriced goods to well-to-do customers. At first, Kelly found her part-time job fun and reaffirming, a way to maintain her sanity and sense of self-worth. But she describes how the unexpected physical pressures, the unreasonable dictates of a remote corporate bureaucracy, and the dead-end career path eventually took their toll. As she struggled through more than two years at the mall, despite surgeries, customer abuse, and

corporate inanity, Kelly gained a deeper understanding of the plight of the retail worker. In the tradition of Nickel and Dimed, Malled challenges our assumptions about the world of retail, documenting one woman's struggle to find meaningful work in a broken system.

Celebrating the life of an admired pioneer in statistics In this captivating and inspiring memoir, world-renowned statistician George E. P. Box offers a firsthand account of his life and statistical work. Writing in an engaging, charming style, Dr. Box reveals the unlikely events that led him to a career in statistics, beginning with his job as a chemist conducting experiments for the British army during World War II. At this turning point in his life and career, Dr. Box taught himself the statistical methods necessary to analyze his own findings when there were no statisticians available to check his work. Throughout his autobiography, Dr. Box expertly weaves a personal and professional narrative to illustrate the effects his work had on his life and vice-versa. Interwoven between his research with time series analysis, experimental design, and the quality movement, Dr. Box recounts coming to the United States, his family life, and stories of the people who mean the most to him. This fascinating account balances the influence of both personal and professional relationships to demonstrate the extraordinary life of one of the greatest and most influential statisticians of our time. An Accidental Statistician also features:

- Two forewords written by Dr. Box's former colleagues and closest confidants
- Personal insights from more than a dozen statisticians on how Dr. Box has influenced and continues to touch their careers and lives
- Numerous, previously unpublished photos from the author's personal collection

An Accidental Statistician is a compelling read for statisticians in education or industry, mathematicians, engineers, and anyone interested in the life story of an influential intellectual who altered the world of modern statistics. When Jim Body joined Great Northern Railway in 1916, he could never have imagined that it would become 'the family business', with both his son Geoff and his grandson Ian taking to the rails. Through the eyes of three generations of Bodys, the rail industry changed beyond recognition, going through two world wars, grouping, nationalisation, the end of steam and privatisation before ending up as the industry we know today. With tales that include being suspected of spying, dealing with dramatic flooding, and the first Glastonbury Festival, Three Generations of Railwaymen is a rare behind-the-scenes look at one family's life and experiences in the railway industry

In 2012, Beck Dorey-Stein is working five part-time jobs and just scraping by when a posting on Craigslist lands her, improbably, in the Oval Office as one of Barack Obama's stenographers. The ultimate D.C. outsider, she joins the elite team who accompany the president wherever he goes, recorder and mic in hand. On whirlwind trips across time zones, Beck forges friendships with a dynamic group of fellow travelers—young men and women who, like her, leave their real lives behind to hop aboard Air Force One in service of the president. As she learns to navigate White House protocols and more than once runs afoul of the hierarchy, Beck becomes romantically entangled with a consummate D.C. insider, and suddenly the political becomes all too personal. Against a backdrop of glamour, drama, and intrigue, this is the story of a young woman learning what truly matters, and, in the process, discovering her voice. Praise for From the Corner of the Oval "Who knew the West Wing could be so sexy? Beck Dorey-Stein's unparalleled access is obvious on every page, along

with her knife-sharp humor. I tore through the entire book on a four-hour flight and loved reading all about the brilliant yet hard-partying people who once surrounded the leader of the free world. Lots of books claim to give real insider glimpses, but this one actually delivers.”—Lauren Weisberger, author of *The Devil Wears Prada* “Dorey-Stein . . . writes with wit and self-deprecating humor.”—*The Wall Street Journal* “Addictively readable . . . Dorey-Stein’s spunk and her sparkling, crackling prose had me cheering for her through each adventure. . . . She never loses her starry-eyed optimism, her pinch-me wonderment, her Working Girl pluck.”—Paul Begala, *The New York Times Book Review* (Editors’ Choice)

What is the purpose of black colleges? Why do black colleges continue to exist? Are black colleges necessary? Historically Black colleges and universities (HBCUs) are at the same time the least studied and the least understood institutions of higher education and the most maligned and the most endangered. This unique study examines the mission of four-year HBCUs from the perspective of the campus president, as a foundation for understanding the relevance and role of these institutions. This is the first research to focus on the role of presidents of black colleges; is based on extensive interviews with fifteen presidents; and takes into particular account the type of campus environments in which they operate. Unlike community colleges, women’s colleges, men’s colleges, and Hispanic-serving colleges, Black colleges are racially identifiable institutions. They also vary significantly in, among other characteristics: size, control (public or private), religious affiliation, gender composition, and available resources. Although united in the historic mission of educating African Americans, each black college or university has its own identity and set of educational objectives. The book examines how presidents define and implement mission in the context of their campuses, view the challenges they face, and confront the factors that promote or hinder implementation of their missions. "Explains how to create terms and relationships, select taxonomy management software, design taxonomies for human versus automated indexing, manage enterprise taxonomy projects, and adapt taxonomies to various user interfaces." - cover.

Wes Anderson's beloved films announce themselves through a singular aesthetic - one that seems too vivid, unique, and meticulously constructed to possibly be real. Not so - in *Accidentally Wes Anderson*, Wally Koval collects the world's most Anderson-like sites in all their faded grandeur and pop-pastel colours, telling the story behind each stranger than-fiction-location. Based on the viral online phenomenon and community of the same name, *Accidentally Wes Anderson* celebrates the unique aesthetic that millions of Anderson fans love - capturing the symmetrical, the atypical, the unexpected, the vibrantly patterned, and distinctively coloured in arresting photographs from around the world. Authorised by Wes Anderson himself, and appealing to the millions who love his films, this book is also for fans of *Cabin Porn* and *Van Life* - and avid travellers and aspiring adventurers of all kinds. Sales may have chosen you--and you’ve suddenly found yourself in a profession you’re not fully prepared for. Learn how to navigate your career effectively with this invaluable resource. Sales training expert and author Chris Lytle offers advice and inspiration new salespeople might have missed when they skipped the career-planning stage--and provides the tools you need to fast-track your sales success. Filled with money-generating strategies, humorous yet instructive anecdotes, thought-provoking axioms, and powerful tools, *The Accidental Salesperson* includes guidance on: selling to people who don't have time to meet, differentiating between information seekers and genuine prospects, using social media and other online tools, and building relationships competitors can't steal. Lively, entertaining, and mercifully free of the dull theories, manipulative methods, and high-pressure tactics of

most sales books--the fully updated second edition of *The Accidental Salesperson* guides you through every aspect of selling to customers in today's marketplace. This is book 1 in a new series which looks at self-publishing for beginners and the skills needed for ongoing book marketing and promotion. This e-books series is based on the experiences of author Sarah Jane Butfield who writes travel memoirs, non-fiction books and romance short stories. *The Accidental Author* introduces the author and this series of self-help e-books for new or aspiring self-published authors. The introduction starts with how and why Sarah Jane came to write and self-publish *Glass Half Full: Our Australian Adventure*. Find out how an aspiring author aims to be discovered while learning on the job how to write, publish and launch a new career in writing. Beta reader Shontae Brewster says, "A must read for any aspiring author or readers interested in the life of a self-published author. Sarah Jane's never give up approach to life and anything she turns her hand to is beyond admirable." Book 2 *The Amateur Authorpreneur* is out now! Relates the meteoric rise of Steve Jobs, the co-founder of Apple Computer, his career at Apple, his influence on the personal computer industry, and his eventual ouster from Apple Life as a temp can be hard. In fact, sometimes it's murder...Hilary Darke's dreams of being a successful novelist seem further away than ever and dealing with bullying boss, Ros, would be enough to push anyone close to the edge. But Hilary's resourceful and she'll do whatever it takes to survive. Ronald Ziffer has been in sales for almost forty years. The book is a concise but tell-all account of all the trials and tribulations and successes and failures of his unintended career in sales. It is a gut level account of all the experiences that formed and shaped his feelings. It is a "must read" for those who are considering a career in sales, as well as those who wish to re-invent their selling skills. Ziffer pulls no punches! Country music boasts a long tradition of rich, contradictory gender dynamics, creating a world where Kitty Wells could play the demure housewife and the honky-tonk angel simultaneously, Dolly Parton could move from traditionalist "girl singer" to outspoken trans rights advocate, and current radio playlists can alternate between the reckless masculinity of bro-country and the adolescent girlishness of Taylor Swift. In this follow-up volume to *A Boy Named Sue*, some of the leading authors in the field of country music studies reexamine the place of gender in country music, considering the ways country artists and listeners have negotiated gender and sexuality through their music and how gender has shaped the way that music is made and heard. In addition to shedding new light on such legends as Wells, Parton, Loretta Lynn, and Charley Pride, it traces more recent shifts in gender politics through the performances of such contemporary luminaries as Swift, Gretchen Wilson, and Blake Shelton. The book also explores the intersections of gender, race, class, and nationality in a host of less expected contexts, including the prisons of WWII-era Texas, where the members of the Goree All-Girl String Band became the unlikeliest of radio stars; the studios and offices of Plantation Records, where Jeannie C. Riley and Linda Martell challenged the social hierarchies of a changing South in the 1960s; and the burgeoning cities of present-day Brazil, where "college country" has become one way of negotiating masculinity in an age of economic and social instability. Introduces reader to the Core Themes process: declutter; clarity in career direction; identify your unique core themes; how to make critical changes to move forward; chart your path to a purpose driven career and more fulfilling life. Royce Moser, Jr., M.D., dreamed of being an Air Force pilot during his boyhood in World War II. Although his vision would disqualify him in that role, dreams as potent as his didn't fade away; they found another way. At Harvard Medical School, owing to a fortuitous meeting with Dr. Ross

McFarland, one of the "fathers" of aerospace medicine, Moser pursued a future as a flight surgeon. His first "accidental" career spanned twenty-three years in the Air Force, including tours of duty during the Cuban Missile Crisis and the Vietnam War, as well as during the Cold War at the North American Aerospace Defense Command. Having found another way into the skies, he accumulated over two thousand flight hours in more than thirty types of aircraft, including the F-106, which took him faster than the speed of sound. In 1985, having retired as a decorated USAF colonel and Commander of the USAF School of Aerospace Medicine, he began his second "accidental career" at the University of Utah, serving as a professor and in several management positions in the areas of preventive medicine, occupational medicine, and worker safety and health. His textbook, *The Effective Management of Occupational and Environmental Health and Safety Programs: A Practical Guide*, is now in its third edition.

Workaholic Lillian Mahoney has given everything to her job. The hugely popular lifestyle show she helped create monopolizes her time, energy, creativity, and anything remotely resembling a life. But all it takes is the show's womanizing, egomaniac star throwing a massive hissy on live TV to utterly implode Lillian's career in a New York minute. Now Lillian's hiding out in the gorgeous and completely unknown seaside village of Blink, Maine. Out of gas. A stolen wallet. A broken heel. And worse, she's somehow managed to completely piss off the town's resident hunk, Caleb Wright. She'll show that hot, grumpy single father exactly what she's made of. But Blink isn't quite what Lillian expects—and neither is Caleb...or his feisty teen daughter she can't help but love. And while her entire life and career are in shreds, Lillian might just discover what happens when she gives her bad first impression a second chance...

The journalist and poet who also had a successful business career discusses the challenges of leadership. *** THE SUNDAY TIMES BESTSELLER 'A heroic outsider - a pleasure to read.' - The Guardian 'A fulsome evocation of football before the Premier League.' - The i 'Such a good storyteller...joyous.' - Financial Times 'Honest, raw, revealing and very funny. How to live a life and career to the full. Insightful book about the most successful outsider inside football ever...' - Henry Winter, Chief Football Writer, The Times 'Pat is a wonderful one-off...and this is the story of why that is.' - John Murray, Chief Sports Correspondent, BBC Radio 5 Live 'Unusually vibrant and elegant with heroic doses of humour, insight and self-effacement, this is an absolute must-read for the football connoisseur.' - Omid Djalili 'The biggest influence of my professional career both on and off the pitch.' - Graeme Le Saux 'I grew up captivated by Pat Nevin the player. As a man he taught me even more about the beauty of the game. One of football's great mavericks, and Chelsea's greatest players. And he can spin a mean tune too.' - Sam Matterface 'I used to walk miles to see Pat Nevin play football and I'd do the same now to read his thoughts. Always challenging, always entertaining.' - Lord Sebastian Coe 'A refreshingly honest and thought-provoking autobiography. As deftly delivered as some of Pat's ball skills in his 1980's heyday.' - ToffeeWeb Pat Nevin never wanted to be a professional footballer. His future was clear, he'd become a teacher like his brothers. There was only one problem with this - Pat was far too good to avoid attention. Raised in Glasgow's East End, Pat loved the game, playing for hours and obsessively following Celtic. But as he grew up, he also loved Joy Division, wearing his Indie 'gloom boom' coat and going on marches - hardly typical footballer behaviour! Placed firmly in the 80s and 90s, before the advent of the Premier League, and often with racism and violence present, Pat Nevin writes with honesty, insight and wry humour. We are transported vividly to Chelsea and Everton, and colourfully diverted by John Peel, Morrissey and nights out at

the Hacienda. *The Accidental Footballer* is a different kind of football memoir. Capturing all the joys of professional football as well as its contradictions and conflicts, it's about being defined by your actions, not your job, and is the perfect reminder of how life can throw you the most extraordinary surprises, when you least expect it.

Career Exploration and Development in Childhood presents chapters from leading figures in the field of childhood career exploration and development. The first substantive edited collection of its kind, this book makes an important contribution to our understanding of children's career development. It provides cutting-edge theory, research and practice for understanding and fostering career exploration and development during childhood, across a wide spectrum of international settings. Divided into five sections that reflect the authors' perspectives on critical aspects of children's career development, chapters include relevant research, as well as the practical application of concepts, issues and strategies for career interventions with children. The book includes sequential sections on theory, research, contextual influences, assessment, and the facilitation of career exploration and development. Perspectives from both developed and developing world contexts consider traditional approaches to career education, as well as career development learning in childhood. The collaborations evident in the chapter authorship reflect the significant internationalisation of the field of child career development. The book synthesises key issues and presents innovative recommendations that will not only enhance our understanding of children's career development, but will set the agenda for the future of the field. It will be of key interest to researchers, academics and postgraduate students in the fields of career development, career guidance, education, childhood, child development and counselling.

Confessions of the Accidental Career Coach helps those who want to start their own self-sustaining business and not worry about money – start now! Cara Heilmann, CEO of Ready Reset Go® and bestselling author of *The Art of Finding the Job You Love*, has trained many people to become profitable career coaches. *Confessions of the Accidental Career Coach* helps readers obtain the tools they need to start making a difference in others' lives. Within *Confessions of the Accidental Career Coach*, readers learn: Why so many coaches fail in their first year—and what they can do to avoid it How getting clear on their ideal client makes everything easier How to help their client answer the question, “What do I want to do when I grow up?” How connecting with love during the sales process is the most effective – even if they hate sales How they can have the confidence to support their clients Begin the journey today of launching a thriving career coaching business and making a difference in this world with *Confessions of the Accidental Career Coach*. When will you get a real career? When will you stop working nights and weekends? When do you plan to use your college degree? If you work in retail, these are questions you often hear. Does this make you feel like the career you love was all just an accident? You're not alone. The retail industry employs millions, yet most people don't end up there by design. Ron Thurston wrote *Retail Pride* as an indispensable guide for every retail employee, manager, and multi-store leader looking to accelerate their potential and grow their career. It's filled with straightforward, practical tips for developing your talents, connecting with customers, and building your leadership skills. Based on more than twenty-five years of Ron's retail leadership experience, you'll discover a sense of belonging in the words of someone who has been a champion for the industry and shares your journey. When will you get a real career? When will you stop working nights and weekends? When do you plan to use your college degree? If you work in retail, these are questions you often hear. Does this make you feel like the

career you love was all just an accident? You're not alone. The retail industry employs millions, yet most people don't end up there by design. Ron Thurston wrote *Retail Pride* as an indispensable guide for every retail employee, manager, and multi-store leader looking to accelerate their potential and grow their career. It's filled with straightforward, practical tips for developing your talents, connecting with customers, and building your leadership skills. Based on more than twenty-five years of Ron's retail leadership experience, you'll discover a sense of belonging in the words of someone who has been a champion for the industry and shares your journey. Combining current knowledge from psychology, sociology, labor studies, and economics, *The Oxford Handbook of Job Loss and Job Search* presents one of the first comprehensive overviews of the knowledge and research on job loss and job search. It provides readers with suggestions for further research and offers hands-on practical advice. When it comes to creating ideas, we hold ourselves back. That's because inside each of us is an internal editor whose job is to forever polish our thoughts, so we sound smart and in control, and so that we fit into society. But what happens when we encounter problems where such conventional thinking fails us? How to get unstuck? For Mark Levy, th... Life as a temp can be hard. In fact, sometimes it's murder... Hilary Darke's dreams of being a successful novelist seem further away than ever since she's been sucked into the daily grind of the civil service. And dealing with bullying boss, Ros, would be enough to push anyone close to the edge. Hilary's resourceful, though, and she's determined to prove herself, whatever it takes.

For people in the workplace, there is a great deal to learn from Joseph in the book of Genesis. He spent time both at the top and at the bottom—as a leader and as a slave in Egypt. In this new book about faith and work, author Albert M. Erisman shares lessons learned from the frontlines of business, government, and education, and how they connect to Joseph's life. Through the author's own work experiences and interviews with business leaders across the world, you'll learn that Joseph dealt with issues that are still common in the business world today. Studying his life can offer guidance and encouragement in any workplace.

A rising by the pro-gun lobby brings the government to its knees. The story begins when Henry Bowman, a geologist in Iowa, fires on federal agents, thinking they are terrorists. The conflict escalates, agents and congressmen die, and to bring peace the president agrees to repeal anti-gun laws and pardon the rebels. The Resting B!#*ch Face Coloring Book is for nice women who have an unintentionally judgy look on their face while in a neutral expression. It is a blessing & a curse- people avoid you, but people avoid you! This funny adult coloring book contains lots of vintage style pictures with varying difficulty. Dozens of funny pictures with sayings. Vintage and retro style images. Intended for adults. Contains cuss or swear words! Not safe for work or kids! Fun & relaxing activity. Multiple skill levels. Great gift! Your choice of coloring tool: colored pencils, crayons, gel pens. Markers too- but put a piece of paper in between pages to prevent bleed through! Created by someone who suffers from RBF & is sick of people asking her why she is mad. **AN UNINTENTIONAL ACCOMPLICE: A PERSONAL PERSPECTIVE ON WHITE RESPONSIBILITY** by Carolyn L. Baker follows a white woman's journey growing up in segregated Southern California coming of age in the counter-cultural 1960s. Baker's "aha" moment came, decades later, in her mid-sixties during Black History Month when she first learned of the 1955 murder of Emmett Till.

From this revelation, Baker shares her personal journey and observations on her awakening of cultural white privilege and unintentional racial harm to becoming an ally in building a more humane community. An Unintentional Accomplice recalls America's reality versus the American dream, highlights institutionalized discrimination, and calls for a redesigned feminism. Of particular importance to Baker are the principles of "nothing about us without us," and the role of the community to heal and sustain all of its members. Her goal is to create a space for individuals who, like the author, might recognize themselves in the midst of the racial divide, and to challenge, inspire, and uplift them to do the personal work required to foster a bridge of respect among all people. AN UNINTENTIONAL ACCOMPLICE is a non-judgmental personal narrative designed to encourage readers to appeal to, and act upon, "the better angels of our nature." Because of the "fun-filled" perceptions and "pleasant memories" commonly associated with hotels, many individuals are attracted to both jobs and careers in this business. Those that find themselves in a career in the hotel business say that there is nothing else like it. In fact, it has often been said that; "Once you have worked in the hotel business and enjoyed it, you will never lose the desire to serve others." Working in this business is nothing like the predictability found in an eight-to-five job, stuck in the confines of a "cookie cutter cubicle." You will soon discover through the stories found on the pages of "An Accidental Hotelier," to expect the unexpected in the hotel business. Hopefully, these stories will spark your imagination. You may enjoy reading this book just for the fun of it. Or, if you are planning a career in the hotel business, think of it as a realistic job preview! As you journey through the pages of this book, hopefully, you will find yourself asking, what would you have done when faced with similar challenges and opportunities?
