**Military Jeep** Feb 25 2021 The Jeep was the primary light four-wheel-drive vehicle of the US Army and allies during the Second World War and the post-war period. It was originally designed to meet a 1940 US Army specification, and over 600,000 examples were built in both Ford and Willys forms. The Jeep saw service all over the world, and a healthy number of restored authentic military examples can still be seen today in the hands of enthusiasts. This book provides a brief history of this iconic vehicle, and a fascinating behind-the-scenes insight into what is involved in restoring, operating and maintaining a Jeep today, 70 years after the prototype first appeared.

Rip Ford's Texas Jul 21 2020 The Republic of Texas was still in its first exultation over independence when John Salmon "Rip" Ford arrived from South Carolina in June of 1836. Ford stayed to participate in virtually every major event in Texas history during the next sixty years. Doctor, lawyer, surveyor, newspaper reporter, elected representative, and above all, soldier and Indian fighter, Ford sat down in his old age to record the events of the turbulent years through which he had lived. Stephen Oates has edited Ford's memoirs to produce a clear and vigorous personal history of Texas.

Black Puritan, Black Republican Sep 22 2020 Born in Connecticut, Lemuel Haynes was first an indentured servant, then a soldier in the Continental Army, and, in 1785, an ordained congregational minister. Haynes's writings constitute the fullest record of a black man's religion, social thought, and opposition to slavery in the late-18th and early-19th century. Drawing on both published and rare unpublished sources, John Saillant here offers the first comprehensive study of Haynes and his thought.

**Pioneers, Engineers, and Scoundrels** Oct 16 2022 2005 Thomas McKean Memorial Cup Winner - Voted most important original research in automobile history by The Antique Automobile Club of America Best Of Books Winner, 2005 International Automotive Media Awards Author Beverly Rae Kimes, 2005 International Automotive Media Award for Lifetime Achievement Honorary This "cast of characters" provides the lens through which award-winning author Beverly Rae Kimes focuses on the early years of the American automobile industry. While some names - Ford, Dodge, Buick, and more - are easily recognized, this book also introduces snapshots of lesser known, but vitally important actors in this dramatic saga. The famous, the infamous, and the unknown are brought together by their common dedication to this great invention - and united by the fascinating stories that characterize each person.

Mississippi's Federal Courts May 19 2020 This resource produces the first comprehensive history of the state's federal courts from the inception of the Mississippi Territory to the late twentieth century. Using archival material and legal documents, David M. Hargrove untangles the state's complex legal history, which includes slavery and secession, the Civil War and Reconstruction, Jim Crow and civil rights. In this important overview of the United States courts in Mississippi, Hargrove surveys the state's federal judiciary as it rules on key issues in Mississippi's past. He examines the court as it mediates conflict between regional and national agendas as well as protects constitutional rights of the state's African American citizens during the Reconstruction and civil rights eras. Hargrove traces how political activities of the state's federal judges affected public perceptions of an independent judiciary. Growing demands for federal judicial and law enforcement infrastructure, he notes, called for courthouses that remain iconic presences in the state's largest cities. Hargrove presents detailed judicial biographies of judges who shaped Mississippi's federal bench. Commissioned by the state's federal judiciary to write the book, he offers balanced perspectives on jurists whose reputations have suffered in hindsight, while illuminating the achievements of those who have received little public recognition.
