Contemporary missions often include evangelistic and socio-economic dimensions. For effective missions, some way of assessing what is being achieved is needed beyond just the common metrics touching on the spiritual and/or economic which neglects social transformation that ideally should also be occurring. This book seeks to identify key factors for holistic evaluation based on salient characteristics that emerged as three Entrepreneurial Church Planting sites were studied in San Francisco (Redeemer Community Church), Selma, Alabama (Blue Jean Church), and Lynch, Kentucky (Meridzo Ministries). What emerges from these case studies is the importance of relationality, general emphasis on growth and development, and a well-established focus on holistic transformation. The mechanisms for the operation of holistic transformation are spelled out to reflect the operation of the three actors of the Trinity in missions. The practical component of the book is the conceptual framework that reveals the operation of holistic transformation and ways to measure the dynamic relationships that occur. Guidance for church leaders to develop their own maps and chart new paths toward stronger, more vibrant, and more missional congregations In the burgeoning missional church movement, churches are seeking to become less focused on programs for members and more oriented toward outreach to people who are not already in church. This fundamental shift in what a congregation is and does and thinks is challenging for leaders and congregants. Using the metaphor of map-making, the book explains the perspective and skills needed to lead congregations and denominations in a time of radical change over unfamiliar terrain as churches change their focus from internal to external. Offers a clear guide for leaders wanting to transition to a missional church model Written by Alan Roxburgh, a prominent expert and practitioner in the missional movement Guides leaders seeking to create new maps for leadership and church organization and focus A Volume in the popular Leadership Network Series This book is written to be accessible to all Christian congregational styles and denominations. The outrageous idea of this book is that God wants to use professors as professors to reach others, transform the academy, and

meet the needs of the world. God is on a mission to redeem and restore this fallen world, and as members of one of the most influential institutions in society, Christian professors in the university play an important role in that mission. Becoming a missional professor will require a clear vision of God's heart for the lost as well as humankind's purpose and calling under the banner of Christ, an understanding of the significance of the university as a cultural shaping institution and mission field, and a desire for Christian wholeness in a fragmented world. This idea is outrageous because many Christian professors struggle to live missionally and need a clear vision of such a life as well as role models to lead the way. Many professors already living missional lives need encouragement to "excel still more" (1 Thess 4:10). We all need God's grace and mercy as we try to faithfully follow Christ within the university. Paul M. Gould (PhD. Purdue University) teaches philosophy and apologetics at Oklahoma Baptist University and is the founder and president of the Two Tasks Institute. D. Keith Campbell (PhD. Southeastern Baptist Theological Seminary) is Global Partnerships Vice President at Global Scholars. Li Ma (PhD. Cornell University) is Senior Research Fellow at the Henry Institute for the Study of Christianity and Politics at Calvin College. Omar Montero (PhD. Candidate, University of Buenos Aires) is Associate Professor and Researcher for Undergraduates and Postgraduates in the Architectural and Design Department at the University of Buenos Aires. Granville W. Pillar (PhD. University of Newcastle) is Associate Professor of Philology at Ferenc Rákóczi II Transcarpathian Hungarian Institute, Ukraine. Osam Edim Temple (PhD. University of Ibadan) is former Professor of Philosophy at the American University of Nigeria and Special Advisor to the Honourable Minister of Niger Delta Affairs. Bee-Lan C. Wang (PhD. University of Chicago) taught at the Science University of Malaysia, Northern Illinois University, and Wheaton College (Illinois). A gentle new way for church leaders to survive stress and burnout Bruce Miller debunks the idea of balance—basically trying to have it all, all the time. Most churches and their pastors try to do everything at once and feel guilty if any one aspect (worship, ministries, outreach, etc.) is neglected. He replaces the exhausting concept of balance with the idea of rhythm: churches, like people, need to give attention to different programs and ministries at different times, basically by attending to their seasons and cycles. Offers an innovative new model for church leaders Miller has been influential in the formation and promotion of "Church-Based Training" as in international movement Offers a proven method for avoiding burnout for church leaders and members by doing the right things at the right time The author offers much-needed help to overwhelmed leaders and shows them how to apply Miller's seasonal/cyclical approach to church life. Written for those who are trying to nurture authentic faith communities and for those who have struggled to retain their faith, The Tangible Kingdom offers theological answers and real-life stories that demonstrate how the best ancient church practices can re-emerge in today's culture, through any church of any size. In this remarkable book, Hugh Halter and Matt Smay "two missional leaders and church planters" outline an innovative model for creating thriving grass-roots faith communities. Christ's Body, Human Flesh If we're honest, no one really cares about theology unless it reveals a gut-level view of God's presence. According to pastor and ministry leader Hugh Halter, only the incarnational power of Jesus satisfies what we truly crave, and once we taste it, we're never the same. God understands how hard it is to be human, and the incarnation—God with us—enables us to be fully alive. With refreshing, raw candor, Flesh reveals the faith we all long to experience—one based on the power of Christ in the daily grind of work, home, school, and life. For anyone burned out, disenchanted, or seeking a fresh honest-to-God encounter, Flesh will invigorate your faith. Written for those who are trying to nurture authentic faith communities and for those who have struggled to retain their faith, The Tangible Kingdom offers theological answers and real-life stories that demonstrate how the best ancient church practices can re-emerge in today's culture, through any church of any size. In this remarkable book, Hugh Halter and Matt Smay "two missional leaders and church planters" outline an innovative model for creating thriving grass-roots faith communities. Offers a first of its kind resource for developing engaged congregations Lead author Scott Thumma is a noted researcher and writer on congregational studies Warren Bird is coauthor of Culture Shift and Viral Churches This book offers advice for moving church members from being spectators to living a life of discipleship and faith. The authors provide expert insight on church culture and church vision casting, along with case studies of successful modern missional churches. The third book in the trilogy that explores the popular missional movement From Reggie McNeal, the bestselling author of The Present Future and Missional Renaissance, comes the third book in the series that helps to define and illuminate the popular missional movement. This newest book in the trilogy examines a natural outgrowth of the move toward a missional orientation: the deconstruction of congregations into very small Christian communities. For all those thousands of churches and leaders who have followed Reggie McNeal's bold lead, this book details the rise of a new life form in churches. Discusses how to move a church from an internal to an external ministry focus Reggie McNeal is a recognized leader in the missional movement Outlines an alternative to the program church model that is focused on the projects and passions of the congregants This book draws on McNeal's twenty years of leadership roles in local congregations and his work over the last decade with thousands of clergy and church leaders. How ministry leaders can help older adults be a vital part of Christian community With the explosion of the older adult population, this important book explores the opportunities and challenges that this presents for the Christian community. Amy Hanson challenges us to let go of many old stereotypes regarding aging and embrace a new paradigm that sees older adults as active, healthy and capable of making significant contributions. Debunks the myths of aging that keep us from fully embracing the potential of people in life's second half Offers suggestions on how to re-invent ministry with older adults Focuses on unleashing older adults to serve and make an impact on churches and congregations A volume in the Leadership Network series The author shows church leaders how they can unleash the power of the baby boomer population to strengthen their congregations. A blueprint for missional, multi-ethnic Christian community Efrem Smith, an internationally recognized and innovative African-American leader, offers a workable plan for connecting theology, practical ministry models, and real stories of people in multi-ethnic Christian communities. Using the example of Jesus, Smith develops a theology of multi-ethnic and missional leadership. Embracing urban and ethnic subcultures such as hip-hop, this book provides a rich mix of multi-ethnic church development, reconciliation theology, missional church thinking, and Christian community. Provides a common-sense approach to creating a multi-ethnic Christian community Includes practical ministry models and real stories of people who are members of thriving multi-ethnic congregations Author is acclaimed African-American thought leader who planted and led a multi-ethnic churches of close to 1,000 and now leads a regional division of a denominational committed to ethnic, multi-ethnic, and missional churches This book is written for anyone wrestling with what it means to be a Christian in an increasingly multi-ethnic world polarized by

class, politics, and race. In *The Missional Leader*, consultants Alan Roxburgh and Fred Romanuk give church and denominational leaders, pastors, and clergy a clear model for leading the change necessary to create and foster a missional church focused outward to spread the message of the Gospel into the surrounding community. *The Missional Leader* emphasizes principles rather than institutional forms, shows readers how to move away from “church as usual,” and demonstrates what capacities, environments, and mindsets are required to lead a missional church. Small groups are a great place to connect with other churchgoers, but many wonder, is this all there is? Is sitting in a living room, talking about a book or watching a video the extent of what we can do together? Isn't being a Christian community about something more than this? Pastor and author Scott Boren thinks so. In this latest release from missional thinktank Allelon, Boren gives leaders and members of small groups the tools they need to make an impact on their communities. Beginning with a gentle critique of current small group models, Boren goes on to show how a uniquely Christian paradigm can set groups free to transform their communities. The final section of the book offers over twenty practices that groups can do to become more missional. Ultimately *Missional Small Groups* is about helping groups follow Jesus by equipping them to bring his message and healing to a hurting world. Explores how contemporary context and Anglican liturgical tradition can be fused together to create engaging and transformative worship. Using the basic patterns of *Common Worship*, it offers new, imaginative ideas for creating worship that is incarnational, sacramental, Trinitarian and revelatory in today's culture. This book offers a historical assessment and balanced critique of contemporary church movements, especially in light of missional ecclesiology. An expert on Lesslie Newbigin and an expert on contemporary church models show how Newbigin's ideas have been developed and contextualized in three popular contemporary church movements: missional, emergent, and center church. In addition, the authors explain that some of Newbigin's insights have been neglected and need to be retrieved for the present day. This book calls for the recovery of the missionary nature of the church and commends church practices applicable to any congregation. Alan Hirsch's paradigm-shifting classic remains the definitive statement of the church as dynamic missional movement. The bestselling first edition ignited a conversation about how to harness the power of movements for the future growth of the church. In this major update, Hirsch shares significant insights gained along the way, provides fresh new examples of growing churches, and reflects on the last ten years of the missional movement. The new edition has been thoroughly updated and revised throughout and includes charts, diagrams, an expanded glossary of terms, new appendices, an index, a new foreword by Ed Stetzer, and a new afterword by Jeff Vanderstelt. Known for his innovative approach to mission, Hirsch is widely acknowledged as a thought leader and mission strategist for churches across the Western world. He considers *The Forgotten Ways* the guiding work to all of his other writings. The book explores the factors that come together to generate high-impact, exponentially explosive, spiritually vibrant Jesus movements in any time and context. This extensive update to Hirsch's influential work offers a system of six vital keys to movements that will continue shape the future of the missional movement for years to come. Strategies for transforming a toxic church culture Why is it that the best strategic plans and good leadership often are not able to move churches in the desired direction? Sam Chand contends that toxic culture is to blame. Quite often, leaders don't sense the toxicity, but it poisons their relationships and derails their vision. This work describes five easily identifiable categories of church culture (inspiring-accepting-stagnant-discouraging-toxic), with diagnostic descriptions in the book and a separate online assessment tool. The reader will be able to identify strengths and needs of their church's culture, and then apply practical strategies (communication, control and authority, selection and placement of personnel, etc.) to make their church's culture more positive. Discusses how to diagnose the state of a church's culture Reveals what it takes to put in place effective strategies for creating a more positive church culture Author served on the board of EQUIP (Dr. John Maxwell's Ministry), equipping five million leaders world-wide. This important book offers a clear guide for understanding and recreating a healthy church culture. Here is the long-awaited volume that provides both the theoretical foundations and practical guidance for developing new monastic and missional communities in

contexts that are theologically progressive, racially and economically diverse, and multicultural. This book contains the wisdom and perspectives of people who live and serve in missional, new monastic communities in United Methodist and other mainline traditions, and it describes new forms of theological education that are emerging to resource a new generation of Christian leaders. Heath and Duggins challenge Methodists, Lutherans, Episcopalians, Presbyterians, and other Christians to reach into their own robust, mainline heritage for resources to develop small, intentional communities that practice a rigorous life of prayer, hospitality, and justice. "With Wayfaring, Jacobs continues his tradition of exploring Christian theology and experience by way of the essay-- Jacobs muses on the usefulness and dangers of blogging, the art of dictionary making, the world of Harry Potter, and an appreciation of trees."--Publisher's description. Prison ministry needs to be reevaluated. It just is not working. The typical approach to prison ministry is to lead an inmate to Christ to save his or her wretched soul from the pits of hell. However, what about the hell that a particular inmate will face upon release? Michael Bowe introduces a more wholistic approach that engages in the social gospel and restorative justice to address many of the concerns people face when leaving prison. He utilizes systems theory as an approach to address societal and family issues. Getting Out engages the reader with conversations and struggles real people face when leaving prison. A new brand of apostolic ministry for today's world The Permanent Revolution is a work of theological re-imagination and re-construction that draws from biblical studies, theology, organizational theory, leadership studies, and key social sciences. The book elaborates on the apostolic role rooted in the five-fold ministry from Ephesians 4 (apostles, prophets, evangelists, shepherds, and teacher), and its significance for the missional movement. It explores how the apostolic ministry facilitates ongoing renewal in the life of the church and focuses on leadership in relation to missional innovation and entrepreneurship. The authors examine the nature of organization as reframed through the lens of apostolic ministry. Shows how to view the world through a biblical perspective and continue the "permanent revolution" that Jesus started Outlines the essential characteristics of apostolic movement and how to restructure the church and ministry to be more consistent with them Alan Hirsch is a leading voice in the missional movement of the Christian West This groundbreaking book integrates theology, sociology, and leadership to further define the apostolic movement. A well-integrated and sophisticated investigation into the development of religious life in an influential early medieval monastic community. Written by church consultant Will Mancini expert on a new kind of visioning process to help churches develop a stunningly unique model of ministry that leads to redemptive movement. He guides churches away from an internal focus to emphasize participation in their community and surrounding culture. In this important book, Mancini offers an approach for rethinking what it means to lead with clarity as a visionary. Mancini explains that each church has a culture that reflects its particular values, thoughts, attitudes, and actions and shows how church leaders can unlock their church's individual DNA and unleash their congregation's one-of-a-kind potential. JR Woodward and Dan White Jr. have trained church planters all over North America. In this interactive field manual, they help you and your team gain eight key competencies crucial for church planting so that you can create churches that flourish and launch their own sustainable missional and incarnational congregations. Praise for Whole Church "Mel is a thoughtful analyst of church life today. Best of all he actually does what he writes about. This book can lead to new levels of engagement for your church." John Ortberg, author and pastor, Menlo Park Presbyterian Church "Mel Lawrenz's vision of a local church that actually reflects the wholeness and beauty of God as it engages with the Lord, one another, and the community is a much-needed call back to God's original Plan A a plan that has too often been cast aside in the name of specialization, church growth, and expediency." Larry Osborne, North Coast Church, and author, Sticky Church and Spirituality for the Rest of Us "Wow! This book is for every Christian leader who wants to move their church from a narrow self-focus to active engagement in the world with all the resources and possibilities of heaven." Mike Slaughter, Ginghamburg Church "While Mel Lawrenz's 'four kinds of engagement' aims at congregational application, it also creates a template that individual Jesus-followers can use for self-evaluation of what it means to be the church

today. The final 'dynamics' section is worth the price of admission for church leaders." Reggie McNeal, author, *The Present Future and Missional Renaissance* "Having known Mel Lawrenz for thirty-five years in various capacities as student, intern, colleague, and eventual successor as senior pastor of Elmbrook Church, I can testify to his keen mind, his profound respect for and knowledge of history, his forward-looking curiosity, and his undoubted communication gifts. Add all these to his many years as a seasoned practitioner of church ministry, and the result is this very helpful book, *Whole Church*." Stuart Briscoe, author, *Flowing Streams* and broadcaster, *Telling the Truth* In a time when the need for and the relevance of the Gospel has seldom been greater, the relevance of the church has seldom been less. *The Shaping of Things to Come* explores why the church needs to rebuild itself from the bottom up. Frost and Hirsch present a clear understanding of how the church can change to face the unique challenges of the twenty-first century. This missional classic has been thoroughly revised and updated. Revised and updated edition of the classic work on spiritual leadership *In A Work of Heart*, bestselling author and missional expert Reggie McNeal helps leaders reflect on the ways in which God is shaping them by letting us see God at work in the lives of four quintessential biblical leaders: Moses, David, Jesus, and Paul. McNeal identifies the formative influences upon these leaders, which he sees as God's ways of working in their lives: the same influences at work today forming leaders for ministry in our times. He explores the shaping influence of culture, call, community, conflict, and the commonplace. Offers guidance for church leaders to let God shape their hearts from the inside out Reggie McNeal is the author of the bestselling book *Missional Renaissance* Gives reassurance for maintaining perspective while doing the demanding work of ministry The book includes illustrative stories of contemporary leaders opening their hearts to God's guidance. Delving into the widespread, contemporary longing for a more serious and communal experience of Christianity, this book provides important theoretical underpinnings and casts a vision for a new monasticism within the Wesleyan tradition. Elaine Heath and Scott Kisker call for the planting of neo-monastic churches which embody the Wesleyan vision of holiness in postmodern contexts. This book also points toward some vital shifts that are necessary in theological education in order to equip pastors to lead such communities. *Longing for Spring* helps Wesleyans of all stripes understand the theory and praxis necessary for planting neo-monastic communities as a new model of the church that is particularly important in the postmodern context. The authors write in an engaging, conversational style that is conversant with postmodern culture, yet thoroughly informed by critical research. Heath and Kisker boldly challenge the imagination of the church, both within and beyond Wesleyan traditions, to consider the possibility of revitalizing the church through the new monasticism. A powerful, biblically based model of leadership development based on the life of the Apostle Paul All churches, denominations, and parachurch organizations are eager for new models of leadership development. Cole uses the life and leadership lessons of the Apostle Paul to show how to develop leaders who are skilled, dedicated, and always open to learning from experience. Cole, a trusted, innovative authority, uses the four journeys of Paul to show how leaders can grow to be more influential. A publication from the acclaimed Leadership Network Paul, the original "church planter," was very instrumental in the growth of Christianity—and a perfect model for today's leaders. Shows how Paul's leadership developed over the course of his life to get better and better with time and maturity—and how they can do the same. Missiologist and church planter JR Woodward offers a blueprint for the missional church—not small adjustments around the periphery of the infrastructure but a radical revisioning of how a church ought to look that entails changing how we think about leadership and what we expect out of discipleship. As the Christian church in the West moves further into the post-Christian era a dilemma rises for those thoughtful followers of Jesus Christ who find themselves in venerable, older church institutions that have become forgetful of their reason for being in the purpose of God. Such Christendom church institutions, as Henderson designates them, rather become somewhat idolatrous of their traditions, their sanctuaries, their ecclesiastical accoutrements, not to mention their dependence on a questionable category of persons called clergy. A younger generation, involved in many of these churches, is raising insistent questions about the integrity of so much of this--

while at the same time being appreciative of so much that is good. Henderson's long career as a teaching pastor and mentor to the younger generations help us walk through this dilemma with refreshing insights about purpose (teleology), Kingdom integrity, form, and the disciplines necessary to transform these communities from the underside. He employs the term refounding as indicating something much more profound than renewal--a reclaiming of its original intent in the heart and mind of God. Where is God? How do we encounter God? How do we know it is God we encounter and not some figment of our imagination? Is it possible to know God in some sort of relational way? Richard Peace believes it is. But it requires a certain level of awareness, a certain discipline of the heart. Peace calls it the "spiritual discipline of noticing God." In this book he unpacks what it means to make a conscious practice noticing God in daily life. He explores the various ways people experience and recognize God's presence, including mystical encounters, ordinary daily life, within our hearts, through other people, through Scripture, nature and the church. Throughout he returns to the question of discernment, helping you understand how you can know that it is indeed God you are meeting in each of these places, not just some fanciful figment of the imagination. God is deeply present in our world, and you can actually encounter him. Here's how. Written for those who are trying to nurture authentic faith communities and for those who have struggled to retain their faith, *The Tangible Kingdom* offers theological answers and real-life stories that demonstrate how the best ancient church practices can re-emerge in today's culture, through any church of any size. In this remarkable book, Hugh Halter and Matt Smay "two missional leaders and church planters" outline an innovative model for creating thriving grass-roots faith communities. The purpose of the letter to the Ephesians is unknown. The book suggests that the purpose of Ephesians is about missions and being missional. The author of Ephesians committed the task of missions to the church. The author located the mission of the church in the redemptive plan of God. The redemptive "plan" (oikonomia) of God consists of historical epochs of missions: the mission of Israel, the mission of Christ, the mission of the disciples, the mission of the apostles, and the mission of the church. The term "missional" has been used ambiguously. The existence of a distinction between the mission of the church and missional church is demonstrated, and both expressions of mission are grounded in the biblical text of Ephesians. The mission of the church is grounded in an exposition of Eph 1-3, and the missional church is grounded in an exposition of Eph 4-6. The author of the letter intended for the mission to the nations to be continued by the church (this is the mission of the church). He intended for the members of the church to continue to reach out to their local community (this is expressed by the missional church). The mission of the church has been grounded in the Great Commission. The missional church is grounded in the values, morals, and lifestyle principles set out in Eph 4-6. A completely revised and expanded edition of this collection of liturgies for morning, day, evening, Holy Communion and healing services and there are revised liturgies from the original edition. Aimed primarily at participative worship with shared leadership, it includes optional methods of scriptural reflection and prayer with symbolic action. There is also a preface of comments on leading worship, dealing with all the issues which ordained clergy never tell lay people but presume they should know.
