***Women in Public, 1850-1900* Feb 26 2021** Assembling a full and comprehensive collection of material which illustrates all aspects of the emergent women's movement during the years 1850-1900, this fascinating book will prove invaluable to students of nineteenth century social history and women's studies, to those studying the Victorian novel and to sociologists. Women's pamphlets and speeches, parliamentary debates and popular journalism, letters and memoirs, royal commissions and the leading reviews, are all used to document the conflicting images of women: 'surplus women' and the issue of emigration; women's work and male hostility to it; the opening of education by Emily Davies; the claim to equity at law; the attack on the sexual double standard, led by Josephine Butler; women's public service from philanthropy – exemplified in a Mary Carpenter or Louisa Twining or Octavia Hill – to local government; and finally women's entry into politics led by Lydia Becker. The contents range from Caroline Norton on her battle for child custody in the 1830s to Annie Besant's inspiration of the match-girl's strike in 1888, and from W. T. Stead on child prostitution to Mrs Humphrey

**A Vindication of the Rights of Woman Nov 18 2022**

Writing in an age when the call for the rights of man had brought revolution to America and France, Mary Wollstonecraft produced her own declaration of female independence in 1792. Passionate and forthright, *A Vindication of the Rights of Woman* attacked the prevailing view of docile, decorative femininity, and instead laid out the principles of emancipation: an equal education for girls and boys, an end to prejudice, and for women to become defined by their profession, not their partner. Mary Wollstonecraft's work was received with a mixture of admiration and outrage. Hugh Walpole called her "a hyena in petticoats." Yet it established her as the mother of modern feminism.

The documents reveal aspects of the women's working lives, educational experiences, involvement in politics and of their private lives such as contraception, childbirth, love, marriage and

As the first major survey of Irish women's lives during this period, it will appeal to those who want a deeper understanding of how women of all classes lived their lives and it will prove indispensable to second and third level students, those attending women's studies courses, as well as a wide general readership interested in assessing the role of women in nineteenth and early twentieth-century Irish history.**

**From Reverence to Rape Aug 15 2022 A revolutionary classic of feminist cinema criticism, Molly Haskell's From Reverence to Rape remains as insightful, searing, and relevant as it was the day it was first published. Ranging across time and genres from the golden age of Hollywood to films of the late twentieth century, Haskell analyzes images of women in movies, the relationship between these images and the status of women in society, the stars who fit these images or defied them, and the attitudes of their directors. reception and the evolution of her views.

**Animals and Women Oct 05 2021** *Animals and Women* is a collection of pioneering essays that explores the theoretical connections between feminism and animal defense. Offering a feminist perspective on the status of animals, this unique volume argues persuasively that both the social construction and oppressions of women are inextricably connected to the ways in which we comprehend and abuse other species. Furthermore, it demonstrates that such a focus does not distract from the struggle for women's rights, but rather contributes to it. This wide-ranging multidisciplinary anthology presents original material from scholars in a variety of fields, as well as a rare, early article by Virginia Woolf. Exploring the leading edge of the species/gender boundary, it addresses such issues as the relationship between abortion rights and animal rights, the connection between woman-battering and animal abuse, and the speciesist basis for much sexist language. Also considered are the ways in which animals have been regarded by science, literature, and the environmentalist movement. A striking meditation on women and wolves is presented, as is an examination of sexual harassment and the taxonomy of hunters and hunting. Finally, this compelling collection suggests that the subordination and degradation of women is a prototype for other forms of abuse, and that to deny this connection is to participate in the continued mistreatment

**of animals and women.**

**Women in the Military Jul 14 2022** The role, status, and treatment of women is one of the major issues confronting the military today. This volume provides a range of perspectives on the magnitude of concerns, the sources of problems, how issues might best be addressed, and the future for women in the armed services. It is based on a special issue of the journal *Gender Issues*, supplemented with additional contributions from leading scholars. Historical and theoretical perspectives are provided by Lorry M. Fenner and Jean Bethke Elshtain. Fenner focuses on the role of women in the military since 1940, and argues for broader inclusion of women as well as other groups that have previously been restricted from full participation. Elshtain analyzes the extraordinary ability of war to draw both women and men into civic life, and observes how it calls forth and establishes a sense of particular identity for both men and women. Critical views are provided by other scholars. Laura L. Miller examines the feminist movement's insistence on full participation in combat units. Former Army chaplain Marie deYoung provides qualitative and quantitative data on military readiness and unit cohesion in mixed gender units. Leading military scholars (Mady W. Segal, David R. Segal, Jerald G. Bachman, Peter Freedman-Doan, and Patrick M. O'Malley) review national surveys comparing male and female high school seniors' responses to surveys conducted

on questions about their propensity to enlist. Male-female differences are also addressed by Judith Hicks Steihm, who looks at the opinions each group has about the capabilities and performance of women. She finds differences by rank on questions as to how hard female soldiers work as compared to male soldiers and whether women are ready for combat duty. Historically, the military has provided minorities equal opportunity. Brenda L. Moore and Schulyler C. Webb examine whether or not this is still perceived to be the case in today's Navy. They focus on different perceptions by women and men, and by African American women in particular. Finally, William O'Neill examines whether the post-cold war downsized military will find women soldiers more or less important. Drawing upon social science research, historical data, and contemporary opinion surveys, *Women in the Military* is a cutting-edge assessment of a major gender issue in the United States. It will be valuable to researchers in women's studies, as well as those teaching courses in sociology, history, and military studies. Rita James Simon is University Professor in the School of Public Affairs and the Washington College of Law at American University. She is the editor of *Gender Issues* and author of *The American Jury*, *the Insanity Defense: A Critical Assessment of Law and Policy in the Post-Hinkley Era* (with David Aaronson), *Adoption, Race and Identity* (with Howard Alstein), *In the Golden Land: A Century of*

**Anglo-Irish and Gaelic Women in Ireland, C.1170-1540 Jun 20 2020** Gillian Kenny provides a coherent picture of the lives of women in medieval Ireland through an examination of their marital circumstances. By comparing and contrasting the differing lives of Anglo-Irish and Gaelic singlewomen, wives, widows and nuns of late medieval Ireland, the author tries to identify how their functions and roles in society were affected by the differing rights enjoyed and by the restrictions imposed by their different societies. The book is constructed to reflect thematically the standard marital progression of women in medieval Ireland (both Gaelic and Anglo-Irish) from singlewomen to wives to widows. The machinery of church

**and state dominated and controlled how women conducted their lives. Within these structures, however, women were able, to differing extents, to transmit and receive land and movables, to work for a living as tradeswomen, craftswomen or merchants, or to devote themselves to the spiritual life as singlewomen, wives or widows.**

We have not yet done enough to create a more equal world: one where women and men share power, responsibility and opportunity. One that is potentially happier and more peaceful. **The Illustrated Virago Book of Women Travellers Mar 30 2021 Women move through the world differently from men. The constraints and perils, the perceptions and complex emotions women journey with are different. For many women, the inner landscape is as important as the outer. This does not mean that the woman traveller is not politically aware, historically astute or in touch with the customs and language of the place, but it does mean that a woman cannot travel and not be aware of her body and the limitations her sex presents. This illustrated edition of The Virago Book of Women Travellers captures 300 years of wanderlust. Some of the women are observers of the world in which they wander and others are more active. Often they are storytellers, weaving tales about the people they encounter. Whether it is curiosity about the world or escape from personal tragedy, these women approached their journeys with wit, intelligence, compassion and empathy for the lives of others.**

**Madeline Zilfi, University of Maryland Was the century of Voltaire also the century of women? In the eighteenth century changes in the nature of work, family life, sexuality, education, law, religion, politics and warfare radically altered the lives of women. This study pays attention to queens as well as commoners; respectable working women as well as prostitutes; women physicists and mathematicians as well as musicians and actresses; feminists as well as their critics. **Violence Against Women in Asian Societies Apr 11 2022**  
**Violence against women is a violation of women's human rights and a priority public health issue. It is endemic worldwide. While much has been written about it in industrialized societies, there has been relatively little attention given to such violence in Asian societies. This book addresses the structural and interpersonal violences to which women are subject, both under conditions of conflict and disruption, and where civil society is relatively ordered. It explores sexual violence and coercion, domestic violence, and violence within the broader community and the state, avoiding sensationalised accounts of so-called cultural' practices in favour of nuanced explorations of violences as experienced in Cambodia, Thailand, Burma, Indonesia, Malaysia, the Philippines, Bangladesh, and India.**

**A Vindication of the Rights of Woman Mar 18 2020** A manifesto for women's rights stresses the need for the education of women, defines the female character, and applies the egalitarian principles of the era to women.

**Pioneering Women Sep 23 2020** Few topics have produced more heroines than the struggle of women for their right to education. Foremost amongst the pioneers of third-level education for women in the north of Ireland were Eliza

**and Isabella Riddel. Never themselves having had the opportunity of university education, in 1913 they founded Riddel Hall as a residence for women students. Ruth Duffin, the hall's formidable first warden, had very strong ideas about citizenship, culture, and physical exercise that proved to be visionary in every sense. The personal chronicle she kept, recording how she realized her ambition to bring culture and self-empowerment to sometimes reluctant female students, is one of the fascinating features of this book. The reports of two of Ruth's successors as wardens, and the reminiscences of former students, outline how the challenges posed by the new educational order in the post-World War Two era and into the swinging sixties were met. Later events and a series of problems leading to the eventual closure of what had remained a haven of sanity in a quickly-changing educational world, are recounted with the help of the recollections of former students, in a sensitive and affectionate narrative. In its last phase, the Hall was occupied by the Arts Council of Northern Ireland. This short but intriguing interlude is recounted by Marcus Patton. And, of course, no one is better placed than Patton to describe the physical attributes of a building that holds warm memories for thousands of students and which played not only a formative role in their young lives but also provided a crucial facility for women's third-level education in Northern Ireland.**

**Women in Swedish Society May 20 2020** Women in Swedish Society is a groundbreaking study by two general practitioners, Annika Forssén and Gunilla Carlstedt, who believed that the medical profession and accepted medical science was inadequately responding to the health problems presented by their female patients. Rejecting the tendency of the medical profession to link women's symptoms with female psychological issues or reproductive biology, the authors undertook their own in-depth research, drawing on systematic, wide-ranging interviews with 20 carefully chosen subjects. Their goal was to identify how women's daily lives, in particular their personal circumstances and work experiences - both in salaried employment and in the home - impacted on their health. Women in Swedish Society incorporates the detailed and intimate testimonies of these women. Through them, Forssén and Carlstedt illustrate how changes in female health and wellbeing reflect the radical changes in Swedish society during their lifetimes, which spanned the twentieth century. The authors also make comparisons with the situation of contemporary Swedish women, finding that despite the shift in social attitudes and improved opportunities for women, many issues surrounding power, class and division of labor as well as

medical care remain unresolved.

**Women and the City, Women in the City Nov 13 2019** An attempt to reveal, recover and reconsider the roles, positions, and actions of Ottoman women, this volume reconsiders the negotiations, alliances, and agency of women in asserting themselves in the public domain in late- and post-Ottoman cities. Drawing on diverse theoretical backgrounds and a variety of source materials, from court records to memoirs to interviews, the contributors to the volume reconstruct the lives of these women within the urban sphere. With a fairly wide geographical span, from Aleppo to Sofia, from Jeddah to Istanbul, the chapters offer a wide panorama of the Ottoman urban geography, with a specific concern for gender roles.

**Lean In Nov 25 2020** Sheryl Sandberg's *Lean In* is a massive cultural phenomenon and its title has become an instant catchphrase for empowering women. The book soared to the top of bestseller lists internationally, igniting global conversations about women and ambition. Sandberg packed theatres, dominated opinion pages, appeared on every major television show and on the cover of *Time* magazine, and sparked ferocious debate about women and leadership. In Lean In, Sheryl Sandberg – Facebook COO and one of Fortune magazine's Most Powerful Women in Business – draws on her own experience of working in some of the world's most successful businesses and looks at what women can do to help themselves, and make the small changes in their life that can effect change on a more universal scale.**

Providing the first comprehensive study of the policy activity of male and female legislators at the federal level, Michele L. Swers persuasively demonstrates that, even though representatives often vote a party line, their gender is politically significant and does indeed influence policy making. Swers combines quantitative analyses of bills with interviews with legislators and their staff to compare legislative activity on women's issues by male and female members of the House of Representatives during the 103rd (1993-94) and 104th (1995-96) Congresses. Tracking representatives' commitment to women's issues throughout the legislative process, from the introduction of bills through committee consideration to final floor votes, Swers examines how the prevailing political context and members' positions within Congress affect whether and how aggressively they pursue women's issues. **Women in World History Feb 15 2020 Women in World History brings together the most recent scholarship in women's and world history in a single volume covering the period from 1450 to the present, enabling readers to understand women's relationship to world developments over the past five hundred years. Women have served the world as unfree people, often forced to migrate as slaves,**

**trafficked sex workers, and indentured laborers working off debts. Diseases have migrated through women's bodies and women themselves have deliberately spread religious belief and fervor as well as ideas. They have been global authors, soldiers, and astronauts encircling the globe and moving far beyond it. They have written classics in political and social thought and crafted literary and artistic works alongside others who were revolutionaries and reform-minded activists. Historical scholarship has shown that there is virtually no part of the world where women's presence is not manifest, whether in archives, oral testimonials, personal papers, the material record, evidence of disease and famine, myth and religious teachings, and myriad other forms of documentation. As these studies mount, the idea of surveying women's past on a global basis becomes daunting. This book aims to redress this situation and offer a synthetic world history of women in modern times.**

**Invisible Presence Apr 30 2021 This book looks at the representation of female characters in French comics from their first appearance in 1905. Organised into three sections, the book looks at the representation of women as main characters created by men, as secondary characters created by men, and as characters created by women. It focuses on female characters, both primary and secondary, in the francophone comic or bande dessinée, as well as the work of female bande dessinée creators more generally.**

**Until now these characters and creators have received relatively little scholarly attention; this new book is set to change this status quo. Using feminist scholarship, especially from well-known film and literary theorists, the book asks what it means to draw women from within a phallogentric, male-dominated paradigm, as well as how the particular medium of bande dessinée, its form as well as its history, has shaped dominant representations of women. This is the first book to study the representation of women in the French-language drawn strip. There are no other works with this specific focus, either on women in Franco-Belgian comics, or on the drawn representation of women by men. This is a very useful addition to both general discussions of French-language comics, and to discussions of women's comics, which are focused on comics by women only. As it is written in English, and due to the popularity of comic art in Britain and the United States, this book will primarily appeal to an Anglo-American market. However, the cultural and gender studies approach this text employs (theoretical frameworks still not widely seen in non-Anglophone studies of the bande dessinée) will ensure that the text is also of interest to a Franco-Belgian audience. With a focus on an art-form which also inspires a lot of public (non-academic) enthusiasm, it will also appeal to fans of the bande dessinée (or wider comic art medium) who are interested in the representation of women in comic art, and to comics**

**Women's History of the Christian Church Dec 07 2021**  
**Tracing two thousand years of female leadership, influence, and participation, Elizabeth Gillan Muir examines the various positions women have filled in the church. From the earliest female apostle, and the little known stories of the two Marys - the Virgin Mary and Mary Magdalene - to the enlightened duties espoused by the nun, the abbess, and the anchorite, and the persecutions of female "witches," Muir uncovers the rich and often tumultuous relationship between women and Christianity. Offering broad coverage of both the Catholic and Protestant traditions and extending geographically well beyond North America, A Women's History of the Christian Church presents a chronological account of how women developed new sects and new churches, such as the Quakers and Christian Science. The book includes a timeline of women in Christian history, over 25 black-and-white illustrations, a glossary, and a list of primary and secondary sources to complement the content in each chapter.**
