This is the first volume of three
about the life of Saint
Josemaría Escrivá. He has been
hailed as a pioneer in helping
ordinary Christians find God in
their daily lives. Moved as a
teenager by footprints of a
barefoot Carmelite priest in the
snow, Josemaría felt called to

greater generosity in the
priesthood and in his struggles
to build up Opus Dei during the
outbreak of the Spanish Civil
War. This latest biography is
the most extensively
researched work on his family
history, childhood,
adolescence, and young
adulthood. The reader benefits
from an enormous wealth of
details in extensive notes and
appendices. Accompanying
them are excerpts from his
correspondence, spiritual
writings and testimonials from
dozens of friends and
acquaintances. The remarkable
story continues in volumes II
and III. "In my lifetime,
worship has changed from
something we do before an
audience of God to something a
few semi-professionals do for
an audience of us. Danny was
my worship leader for years,
and he has earned the right to
be heard." —Philip Yancey,
Author, *What's So Amazing
About Grace? Worship
experiences of today's
Christians remain diverse.*
Wallpaper Worship challenges
the status quo of the modern-

day worship service and illustrates how to move worship from an observation-based to an active-participant-centered activity. Drawing from John 4, Danny Byram identifies the cause of the passive, wallpaper worship experience and provides practical solutions. This book is a must-read for all worship leaders and anyone seeking powerful participation from church congregants. Explores the family life of the Founding Fathers, providing intimate portraits of the households of such revolutionaries as George Mason, Patrick Henry, George Washington, Thomas Jefferson, and James Madison. The result of research PRODUCTORA initiated as winners of the Mies Crown Hall Americas Prize for Emerging Practice at Illinois Institute of Technology, *Being the Mountain* examines the relationship between architecture and the ground it occupies, an interaction so obvious—a building must touch the ground—that it often remains underexplored. Richly illustrated contributions by Carlos Bedoya, Frank Escher, Wonne Ickx, Véronique Patteeuw, and Jesús Vassallo revisit significant moments in architectural history that cast

new light on the techniques and legacies of modernism, especially in settings like Mexico and California, where architects such as Ricardo Legorreta and John Lautner incorporated dramatic natural topography in their agendas. Additional essays investigate the role of the ground in the thought of Kenneth Frampton in the 1980s and Luis Moreno Mansilla in the 1990s, as well as point to important parallels between premodern land practices, twentieth-century art, and today's architecture. The *Grove Encyclopedia of Decorative Arts* covers thousands of years of decorative arts production throughout western and non-western culture. With over 1,000 entries, as well as hundreds drawn from the 34-volume *Dictionary of Art*, this topical collection is a valuable resource for those interested in the history, practice, and mechanics of the decorative arts. Accompanied by almost 100 color and more than 500 black and white illustrations, the 1,290 pages of this title

include hundreds of entries on artists and craftsmen, the qualities and historic uses of materials, as well as concise definitions on art forms and style. Explore the works of Alvar Aalto, Charles and Ray Eames, and the Wiener Werkstätte, or delve into the history of Navajo blankets and wing chairs in thousands of entries on artists, craftsmen, designers, workshops, and decorative art forms. Founded by Charles II 'for the succour and relief of veterans broken by age and war,' designed by Sir Christopher Wren, and opened in 1692, the Royal Hospital Chelsea, London, still serves its original purpose as lodgings for former soldiers. Today this historic site, with its elegant buildings and verdant grounds, is home to more than 300 'in-pensioners', men and, since 2009, women. Photographer Patricia Rodwell was granted rare, behind-the-scenes access to the Hospital and all its activities over the course of a year, and her evocative images reveal for the first time the daily lives of the

in-pensioners and the staff at this world-renowned establishment, from the moving Founder's Day ceremony to scenes of light-hearted recreation, and from intimate moments in the in-pensioners' accommodation to fittings for their famous scarlet uniforms. The book also features an engaging introduction and informative captions, providing an absorbing insight into the history of this remarkable institution and the lives of its residents today. Award-winning photographer Matt Black traveled over 100,000 miles to chronicle the reality of today's unseen and forgotten America. When Magnum photographer Matt Black began exploring his hometown in California's rural Central Valley—dubbed "the other California," where one-third of the population lives in poverty—he knew what his next project had to be. Black was inspired to create a vivid portrait of an unknown America, to photograph some of the poorest communities across the US. Traveling across forty-six states and Puerto

Rico, Black visited designated “poverty areas,” places with a poverty rate above 20 percent, and found that poverty areas are so numerous that they’re never more than a two-hour’s drive apart, woven through the fabric of the country but cut off from “the land of opportunity.” *American Geography* is a visual record of this five-year, 100,000-mile road trip, which chronicles the vulnerable conditions faced by America’s poor. This compelling compilation of black-and-white photographs is accompanied by Black’s own travelogue—a collection of observations, overheard conversations in cafe’s and public transportation, diner menus, bus timetables, historical facts, and snippets from daily news reports. A future classic of photography, this monograph is supported by an international touring exhibition and is a must-have for anyone with an interest in witnessing the reality of an America that’s been excluded from the American Dream. First ever historical survey of the design

and production of wallpaper throughout Europe and America. This book traces the evolution of wallpaper from the early days of wall coverings, to the latest developments in popular taste and production techniques. This fresh look at the Arts and Crafts Movement charts its origins in reformist ideals, its engagement with commercial culture, and its ultimate place in everyday households. The explosive finale to the *Feral* series by New York Times best-selling author Cynthia Leitich Smith. Anti-shifter sentiment is at an all-time high when Kayla’s transformation to werecat is captured on video and uploaded for the world to see. Suddenly she becomes a symbol of the werebeast threat and—along with fellow cat Yoshi, lion-possum Clyde, and human Aimee—a hunted fugitive. Meanwhile, a self-proclaimed weresnake has kidnapped the governor of Texas and hit the airwaves with a message of war. In retaliation, werepeople are targeted by law enforcement,

threatened with a shift-suppressing vaccine, terrorized by corporate conspiracy, and enslaved by a top-secret, intelligent Cryptid species. Can Clyde rally his inner lion king to lead his friends—new and old—into battle against ruthless, media-savvy foes? A rousing blend of suspense, paranormal romance, humor, and high action.
