In the mid-1800s, a group of painters based in New York turned their focus to the theme of the natural landscape to demonstrate the

beauty of the wilderness. Their work enjoyed a popular national success that no other group of artists has achieved since. This seminal survey of the artists marks the first presentation of the outstanding collection at the New-York Historical Society. It features works by all the greatest artists of the group, including Thomas Cole, Asher Durand, Albert Bierstadt, and Frederic Church. Accompanying a major traveling exhibition, the book is also timed to coincide with the 400th anniversary of Henry Hudson's first voyage up the Hudson River. Publisher's description: Jordan

unravels the imagery of God's prophecies revealed in Daniel, events that were dawning in Daniel's lifetime. Alexandra Juhasz asked twenty-one women to tell their storiesOCowomen whose names make up a who is (and who will be) who of independent and experimental film and video. What emerged in the resulting conversations is a compelling (and previously underdocumen" "The creation of the United States of America is the greatest of all human adventures," begins Paul Johnson. "No other national story holds such tremendous lessons, for the American people themselves and for

the rest of mankind." In his prize-winning classic, Johnson presents an in-depth portrait of American history from the first colonial settlements to the Clinton administration. This is the story of the men and women who shaped and led the nation and the ordinary people who collectively created its unique character. Littered with letters, diaries, and recorded conversations, it details the origins of their struggles for independence and nationhood, their heroic efforts and sacrifices to deal with the 'organic sin' of slavery and the preservation of the Union to its explosive economic

growth and emergence as a world power. Johnson discusses contemporary topics such as the politics of racism, education, the power of the press, political correctness, the growth of litigation, and the influence of women throughout history. He sees Americans as a problem-solving people and the story of their country as "essentially one of difficulties being overcome by intelligence and skill, by faith and strength of purpose, by courage and persistence... Looking back on its past, and forward to its future, the auguries are that it will not disappoint

humanity." Sometimes controversial and always provocative, *A HISTORY OF THE AMERICAN PEOPLE* is one author's challenging and unique interpretation of American history. Johnson's views of individuals, events, themes, and issues are original, critical, and in the end admiring, for he is, above all, a strong believer in the history and the destiny of the American people. This inventive volume includes all the core liturgical elements of worship while also introducing innovative ventures into the fine arts -- all revolving around each week's lectionary

passages. In addition to stately calls to worship, litanies, and prayers, Schiffrin shows how not-so-traditional dance, art, and drama can be used to bring glory to God and a fresh sense of his blessing to worship services. There are also a wealth of musical suggestions that reinforce the main themes and ideas of the prayers, including a wide variety of hymns, psalm settings, and choral anthems. The *Lectionary Worship Workbook* is a comprehensive library of creative material that will keep worship services fresh, passionate, and stimulating. *THE ENDURING VISION's* engaging

narrative integrates political, social, and cultural history within a chronological framework. Known for its focus on the environment and the land, Boyer, et al's text is also praised for its innovative coverage of cultural history, public health and medicine, and the American West -- including Native American history. The ninth edition maintains these strengths while enhancing coverage of women's history and incorporating new scholarship. A thoroughly redesigned last chapter discusses topics such as income inequality and mass incarceration, while bringing the discussion up to

date with coverage of the 2016 presidential campaign. The ninth edition also incorporates new features that support learning. Each section begins with a historical question; new conclusions include summaries organized around each of the chapter questions. Available in the following split options: THE ENDURING VISION, 9th Edition Complete, Volume 1: To 1877, and Volume 2: Since 1865. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. \* Antique knotted-pile transport bags and other

collectible small-format weavings, both utilitarian and decorative, made by the nomadic tribes of the Caucasus region and Iran \* The best of the best in a widely collected area of textile arts The Michael and Amy Rothberg Collection of knotted-pile tribal and nomadic bags and other rare small format pile weavings, among them many pieces made for women's dowries and other ceremonial functions, is recognized as the best of its kind anywhere in the world. The collection has been carefully and thoughtfully assembled over the past four decades. Michael Rothberg's collections are

above all distinguished by the collector's acutely sensitive and perceptive eye for the best museum-quality material available on the international market. Specialists in the field and other collectors and tribal weaving enthusiasts have awaited the publication of this part of the Rothberg Collection for many years, ever since a selection of the material was shown at Sotheby's in Los Angeles in a feature exhibition during the American Conference on Oriental Rugs in January 1996. The scope of the collection includes antique pile bags, from the Transcaucasus

region, as well as from the Shahsavan, Kurdish, Varamin region, Qashqa'i, Khamseh, Luri, Bakhtiari, Afshar and Baluch tribes of Iran. HISTORY BY RENOWNED HISTORIANS FOR HIGH SCHOOL STUDENTS ALSO AVAILABLE AS A FULL SURVEY EDITION: THE AMERICAN VISION Drawing on the features of "The American Vision," this program motivates students, helping them understand the connections between recent events and issues. "The American Vision: Modern Times" boasts an exceptional author team. The full panorama of modern American

History comes alive through the vivid and accurate narrative. The co-authorship of National Geographic ensures that the program's new maps, charts, and graphs are correct to the last detail. Features - Glencoe's one-of-a-kind content reading strategy makes it easier for your students to become active, critical readers. Strategies include: - Reading Intervention Tools -- Graphic Organizers in section openers and assessments -- Prior Knowledge Activators in every lesson -- In-text Reading Checks -- Reading and Writing Prompts - Our industry-leading technology allows us to bring

you The American Vision in three formats--printed textbook, interactive multimedia online edition, and StudentWorks Plus--a CD-ROM edition with workbooks, Student Presentation Builder, and full audio. You and your students have access to the program's vast resources whenever and however you wish. This ambitious book examines Saint Oscar Romero's words to understand how his thoughts fit into the broader context of Catholic theology. On March 24, 1980, Archbishop Óscar Romero was assassinated as he celebrated mass in El Salvador.

Canonized as a saint by Pope Francis on October 14, 2018, Edgardo Colón-Emeric explores the life and thought of Romero and his theological vision, which finds its focus in the mystery of the transfiguration. Romero is now understood to be one of the founders of liberation theology, which interprets Scripture through the plight of the poor. His theological vision is most succinctly expressed by his saying, "Gloria Dei, vivens pauper": "The glory of God is the poor who lives." God's glory was first revealed through Christ to a landless tenant farmer, a market woman, and an

unemployed laborer, and they received the power to shine from the church to the world. Colón-Emeric's study is an exercise in what Latino/a theologians call *ressourcement* from the margins, or a return to theological foundations. One of the first Latin American Church Fathers, Romero's theological vision is a sign of the emergence of Christianity in the Global South from "reflection" Church to "source" Church. The hope for this study is that scholars in the fields of theology, religious studies, and Latin American studies will be captivated by the doctrine of this

humble pastor and inspired to think more clearly and act more decisively in solidarity with the poor. The first interdisciplinary study of America's best-known filmmaker. The American West has taken on a rich and evocative array of regional identities since the late nineteenth century. Wilderness wonderland, Hispanic borderland, homesteader's frontier, cattle kingdom, urban dynamo, Native American homeland. *Hell of a Vision* explores the evolution of these diverse identities during the twentieth century, revealing how Western regionalism has

been defined by generations of people seeking to understand the West's vast landscapes and varied cultures. Focusing on the American West from the 1890s up to the present, Dorman provides us with a wide-ranging view of the impact of regionalist ideas in pop culture and diverse fields such as geography, land-use planning, anthropology, journalism, and environmental policy-making. Going well beyond the realm of literature, Dorman broadens the discussion by examining a unique mix of texts. He looks at major novelists such as Cather, Steinbeck, and Stegner, as

well as leading Native American writers. But he also analyzes a variety of nonliterary sources in his book, such as government reports, planning documents, and environmental impact studies. *Hell of a Vision* is a compelling journey through the modern history of the American West—a key region in the nation of regions known as the United States. Robert Hughes begins where American art itself began, with the Native Americans and the first Spanish invaders in the Southwest; he ends with the art of today. In between, in a scholarly text that crackles with wit, intelligence and insight, he tells

the story of how American art developed. Hughes investigates the changing tastes of the American public; he explores the effects on art of America's landscape of unparalleled variety and richness; he examines the impact of the melting-pot of cultures that America has always been. Most of all he concentrates on the paintings and art objects themselves and on the men and women - from Winslow Homer and Thomas Eakins to Edward Hopper and Georgia O'Keeffe, from Arthur Dove and George Bellows to Jackson Pollock and Mark Rothko - who created them. This is an uncompromising

and refreshingly opinionated exploration of America, told through the lens of its art. By 1991, following the disintegration first of the Soviet bloc and then of the Soviet Union itself, the United States was left standing tall as the only global super-power. Not only the 20th but even the 21st century seemed destined to be the American centuries. But that super-optimism did not last long. During the last decade of the 20th century and the first decade of the 21st century, the stock market bubble and the costly foreign unilateralism of the younger Bush presidency, as well as the financial

catastrophe of 2008 jolted America -- and much of the West -- into a sudden recognition of its systemic vulnerability to unregulated greed. Moreover, the East was demonstrating a surprising capacity for economic growth and technological innovation. That prompted new anxiety about the future, including even about America's status as the leading world power. This book is a response to a challenge. It argues that without an America that is economically vital, socially appealing, responsibly powerful, and capable of sustaining an intelligent foreign engagement, the

geopolitical prospects for the West could become increasingly grave. The ongoing changes in the distribution of global power and mounting global strife make it all the more essential that America does not retreat into an ignorant garrison-state mentality or wallow in cultural hedonism but rather becomes more strategically deliberate and historically enlightened in its global engagement with the new East. This book seeks to answer four major questions: 1. What are the implications of the changing distribution of global power from West to East, and how is it being affected by the new

reality of a politically awakened humanity? 2. Why is America's global appeal waning, how ominous are the symptoms of America's domestic and international decline, and how did America waste the unique global opportunity offered by the peaceful end of the Cold War? 3. What would be the likely geopolitical consequences if America did decline by 2025, and could China then assume America's central role in world affairs? 4. What ought to be a resurgent America's major long-term geopolitical goals in order to shape a more vital and larger West and to engage cooperatively the

emerging and dynamic new East? America, Brzezinski argues, must define and pursue a comprehensive and long-term a geopolitical vision, a vision that is responsive to the challenges of the changing historical context. This book seeks to provide the strategic blueprint for that vision. Blending numerous heritages, wisdoms, and teachings, this powerfully wrought book encourages people to take charge of their lives, heal themselves, and grow. Movingly rendered, *The Book of the Vision Quest* is for all who long for renewal and personal transformation. In this revised edition—with two

new chapters and added tales from vision questers—Steven Foster recounts his experiences guiding contemporary seekers. He recreates an ancient rite of passage—that of “dying,” “passing through,” and “being reborn”—known as a vision quest. A sacred ceremony that culminates in a three-day, three-night fast, alone, in a place of natural power, the vision quest is a mystical, practical, and intensely personal journey of self-knowledge. The United States is at a crisis point. The economy is crumbling. Dysfunction in Washington is rampant. A

remarkable Vision that prescribes the remedies. The 20/20 Vision charts the course of action to: the America our forefathers built for our children an America safe and secure from war and terrorism an America with a small, limited federal government an America free of deficits and crushing debt a just, simplified tax proposal free of bureaucracy an America of opportunity with high paying jobs for all an America with a forward looking immigration solution an America that brings all together with a common goal Get 20/20 TODAY! Someday we may say that we never saw it coming. After

seventy-five years of peace in the Pacific, a new challenger to American power has emerged, on a scale not seen in generations. Working from a deep sense of national destiny, the Chinese Communist Party is guiding a country of 1.4 billion people towards what it calls "the great rejuvenation of the Chinese nation," and, with it, the end of an American-led world. Will this generation witness the final act for America as a superpower? Can American ingenuity, confidence, and will power outcompete the long-term strategic thinking and planning of China's Communist Party? These are

the challenges that will shape the next decade and more. China's Vision of Victory brings the reader to a new understanding of China's planning, strategy, and ambitions. From seabed to space, from Africa to the Arctic, from subsurface warfare to the rise of China's global corporations, this book will illuminate for the reader the new great game of our lifetimes, and how our adversary sees it all. Suggests techniques and therapeutic exercises for the eyes to keep them healthy. Emphasizing the need for collaboration and cooperation across medical, education, rehabilitation, and

social service disciplines, this volume provides a primary reference tool for those engaged in work related to low vision rehabilitation and service delivery. It provides information about the funct. "In an age when business and finance are dominated by technology and data analysis, award-winning journalist and anthropology PhD Gillian Tett presents a radically different strategy for success: businesses and investors can revolutionize their understanding of behavior by studying consumers, markets, and organizations through an

anthropological lens"--Jacket. Stress Management Community involvement in planning and placemaking through early, inclusive participatory methods can build consensus, speed up planning and add social, economic and environmental value to projects, leading to healthier, happier and more sustainable places. 20/20 Visions is an inspiring and visually stimulating introduction to the practice of participatory planning. 20 worldwide case studies, spanning 1960's projects in USA to present day UK, explore the context, implementation and

follow up of the participative design process to illustrate its effectiveness in engaging all stakeholders/communities and tackling difficult regeneration issues. A New York Times bestseller and enduring classic, All About Love is the acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation" trilogy. All About Love reveals what causes a polarized society, and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a

noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in All About Love. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart.

Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The Utne Reader declared bell hooks one of the "100 Visionaries Who Can Change Your Life." All About Love is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better. The electrifying true crime story of Dr. Jeffrey MacDonald, the handsome, Princeton-educated physician convicted of savagely slaying his young pregnant wife and two small children—murders he vehemently

denies committing... Bestselling author Joe McGinniss chronicles every aspect of this horrifying and intricate crime and probes the life and psyche of the magnetic, all-American Jeffrey MacDonald—a golden boy who seemed destined to have it all. The result is a penetration to the heart of darkness that enshrouded one of the most complex criminal cases ever to capture the attention of the American public. It is a haunting, stunningly suspenseful work that no reader will be able to forget. Includes photographs and a Special Epilogue by

the author OVER ONE MILLION COPIES SOLD This comprehensive analysis of the complex relationship of black political thought identifies which political ideologies are supported by blacks, then traces their historical roots and examines their effects on black public opinion. The world of the Caucasian Americans comes alive through history lessons, puzzles, and word games for all ages. The history, material culture, mores, and lifeways of the people now collectively known as the “Caucasian Americans” have often been discussed but rarely comprehended.

Until now. This revised edition of Basic Skills Caucasian Americans Workbook provides young readers with accurate accounts of the lives of the Caucasian Americans, who long ago roamed our land. Caucasians are as much a part of American life as they were one hundred years ago. Even in times past, Caucasians were not all the same. Not all of them lived in gated communities or drove SUVs. They were not all techie geeks or power-hungry bankers. Some were hostile, but many were friendly. It is important for young people to study our Caucasian

American forebears in order to learn how they enriched the heritage and history of the world. We hope that the youngsters who read these pages will realize the role that Caucasian Americans played in shaping the United States, and in making the world the remarkable place that it is today. "From the founding of the colonies to the declaration of the Supreme Court, America's heritage is built upon the principles of the Christian religion. And yet the secularists are dismantling this foundation brick by brick, attempting to deny the very core of our national life. Gary DeMar presents well-

documented facts which will change your perspective about what it means to be a Christian in America; the truth about America's Christian past as it relates to supreme court justices, and presidents; the Christian character of colonial charters, state constitutions, and the US Constitution; the Christian foundation of colleges, the Christian character of Washington, D.C.; the origin of Thanksgiving and so much more."-- Publisher's description Told from the Native American point of view, Black Elk's Vision provides a unique perspective on American history. From

recounting the visions Black Elk had as a young boy, to his involvement in the battles of Little Big Horn and Wounded Knee, as well as his journeys to New York City and Europe with Buffalo Bill's Wild West Show, this biographical account of Black Elk—an Oglala-Lakota medicine man (1863-1950)—follows him from childhood through adulthood. S. D. Nelson tells the story of Black Elk through the medicine man's voice, bringing to life what it was like to be Native American in the mid-to-late nineteenth century and early twentieth century. The Native people found their

land overrun by the Wha-shi-choos, or White Man, the buffalo slaughtered for sport and to purposely eliminate their main food source, and their people gathered onto reservations. Through it all, Black Elk clung to his childhood visions that planted the seeds to help his people—and all people—understand their place in the circle of life. The book includes archival images, a timeline, a bibliography, an index, and Nelson's signature art. Praise for the work of S. D. Nelson Western Writers of America Spur Storyteller Award Chicago Public Library Best of the Best Oppenheim Toy Portfolio Gold

Award "An appealing story full of excitement, warmth, and wisdom." —The Five Owls, starred review "A fine choice for story hours, this will also find wide curricular use." —Booklist "A modern-day story in the Sioux tradition of storytelling." —Winston-Salem Journal "Splendid acrylic artwork captures the action, humor, and spirit of the tale. A solid addition to collections of Native American tales and an enjoyable read-aloud." —School Library Journal "Nelson pulls it off with his confident style as a storyteller . . . polished illustrations . . . informative, well written." —Kirkus

Reviews F&P level: U F&P genre: B Our national identity is defined by what it means to be an American and whom we include and why when we talk about "the American people." A country's national identity is fluid, and Ian Reifowitz argues that President Barack Obama, by emphasizing the ideals Americans hold dear, hopes to redefine ours in a fundamental way. Obama's conception of America emphasizes two principles of national unity: First, all Americans, regardless of their heritage and cultural traditions, should identify with America as their country, based

upon shared democratic values, a shared history, and a shared fate. Second, America should embrace all its citizens as active participants in one "family." Reifowitz explores Obama's belief that strengthening our common bonds will encourage Americans to rectify the injustices and heal the racial divisions that still plague our country. We have the opportunity to demonstrate to the world that a society of many races and cultures can truly become one people. In facing terrorism, violent fundamentalism, and other security issues, Obama's response centers on a powerful, inspiring, and truly

inclusive American narrative. By bolstering America's identity as diverse yet unified, he aims both to counter the anxieties and fears that radicalism stokes and give proponents of religious and political freedom a model they can defend. The stakes couldn't be any higher in determining America's future. Tenderly, observantly, incisively, Edith Pearlman captures life on the page like few other writers. She is a master of the short story, and this is a spectacular collection. This 2007 edition of *An American Vision*, originally published in connection with the exhibition by

the Brandywine River Museum and exhibited around the world, contains art from Andrew Wyeth, N.C. Wyeth and James Wyeth and essays by Andrew Wyeth, James Duff, Thomas Hoving and Lincoln Kirstein. Published by Bullfinch Press and Borders, it is filled with full color plates of the paintings and drawings of all three of the Wyeth clan. Moving through the pages is not unlike strolling the museums where this exhibition traveled throughout the USA and in Russia, England and Japan. It is a book of revelations about the three artists and an homage to a family talent and vision

that persists. *Troubling Vision* addresses American culture's fixation on black visibility, exploring how blackness is persistently seen as a problem in public culture and even in black scholarship that challenges racist discourse. Through trenchant analysis, Nicole R. Fleetwood reorients the problem of black visibility by turning attention to what it means to see blackness and to the performative codes that reinforce, resignify, and disrupt its meaning. Working across visual theory and performance studies, Fleetwood asks, How is the black body visualized as both familiar and disruptive? How

might we investigate the black body as a troubling presence to the scopic regimes that define it as such? How is value assessed based on visible blackness? Fleetwood documents multiple forms of engagement with the visual, even as she meticulously underscores how the terms of engagement change in various performative contexts. Examining a range of practices from the documentary photography of Charles "Teenie" Harris to the "excess flesh" performances of black female artists and pop stars to the media art of Fatimah Tuggar to

the iconicity of Michael Jackson, Fleetwood reveals and reconfigures the mechanics, codes, and metaphors of blackness in visual culture. *Troubling Vision* is a path-breaking book that examines the problem of seeing blackness—the simultaneous hyper-visibility and invisibility of African Americans—in US visual culture in the last half century. Weaving together critical modes and methodologies from performance studies, art history, critical race studies, visual culture analysis, and gender theory, Fleetwood expands Du Bois's idea of double vision into a broad questioning

of whether 'representation itself will resolve the problem of the black body in the field of vision.' With skilled attention to historical contexts, documentary practices, and media forms, she takes up the works of a broad variety of cultural producers, from photographers and playwrights to musicians and visual artists and examines black spectatorship as well as black spectacle. In chapters on the trope of 'non- iconicity' in the photographs of Charles (Teenie) Harris, the 'visible seams' in the digital images of the artist Fatimah Tuggar, and a coda on the un-dead Michael Jackson,

Fleetwood's close analyses soar. Troubling Vision is a beautifully written, original, and important addition to the field of American Studies."—Announcement of the American Studies Association for the 2012 Lora Romero First Book Publication Prize Do you spend more time watching television than you do reading your bible? How much of your news and information do you get by watching television as opposed to reading God's inspired Word- the Bible- is still the source of the truth in the world today. In this thought-provoking book, the author examines how television affects

what we believe and what we can do about it. "This production offers an engaging, original way for children to learn about a Native American hero. Renowned Abenaki author Bruchac has selected interesting facts that reveal how a young boy is transformed into brave Crazy Horse. ..." AudioFile Magazine
