A quilt is about home, daily life, where you've been and who you've known. It's about stories and history. A quilt is imbued with the power to rediscover memories, open up conversations and bring people together. For Julius Arthur of House of Quinn, this idea extends into our design ethos bringing together stories and narratives to create everyday items and objects. Modern Quilting highlights how traditional quilting and sewing techniques can be utilized to create contemporary items and objects for the home. Showcasing 20 stunning projects, Julius shows you the beauty of renewing textiles and materials by giving them a new life. Contemporary quilting honors the traditional processes but allows you to create the rules of what you want to create. With a more creative and free approach to working with textiles, quilts and making, Julius guides the reader through four skill based workshops, and techniques, such as stitching, quilting, collage and mark making, before opening up into a range of modern quilt-based projects that can be created from combining these fundamental skills. With stunning photography and step-by-step illustrations throughout, fall in love with this age-old craft and discover how to create meaningful items for your own living spaces, places and daily rituals. As well as promoting the traditional origins of handmaking craft skills, this lavish book explains the latest techniques and opportunities that exist for today's designer silversmith. It emphasizes the importance of acquiring fundamental skills as a basis to creating stunning and innovative designs, and illustrates this with fabulous case studies from leading silversmiths. Alla Prima is a comprehensive guide to direct painting, characterised by bold, expressive brushwork and a painterly, atmospheric surface. It covers the history of the direct methods in both Europe and America. From there, it includes detailed step-by-step lessons and discussions on drawing structure, broken and smooth brushwork, and colour development. Landscapes in Oil is the first-ever comprehensive guide to classical landscape painting reinterpreted for the twenty-first century. Drawing from the tradition established by American painters of the Hudson River School--artists like Thomas Cole, Frederic Church, and George Inness--author and painter Ken Salaz reveals great masters' philosophy and methods, updating their approaches for the contemporary landscape painter. Beginning painters are given the basic tools and step-by-step demonstrations, intermediate painters are challenged with unpublished techniques that allow them to break through to the next level, and advanced painters learn to apply their skills under unified theories. Landscapes in Oil devotes a chapter to each of the fundamental elements of landscape painting--drawing, value, color, composition, and light quality--and offers critical advice on selecting tools and materials, choosing colors, and structuring your palette for best results. Emphasizing the necessity of plein air drawing and painting, Salaz demonstrates how to translate small, quick studies made outdoors into full-scale studio paintings. He provides detailed step-by-step breakdowns of the creation of four of his own paintings, focusing not only on application but also on the ideas that underpin every decision a landscape painter must make. The scores of landscape masterworks, past and present, that illustrate this book have been carefully chosen for their aesthetic power and because each embodies a specific aspect of the landscape painter's craft. For Salaz, landscape painting is a noble pursuit, and the goal of the landscape artist is not to paint "pretty pictures" but to create compelling images that express human beings' profound connection to nature in all its diversity and grandeur. At a time when classical landscape is enjoying a renaissance in art schools, ateliers, and galleries across North America, this book is an essential resource for beginning and experienced painters alike. In the past thirty years, historians have broadened the scope of their discipline to include many previously neglected topics and perspectives. They have chronicled language, madness, gender, and sexuality and have experimented with new forms of presentation. They have turned to the histories of non-Western peoples and to the troubled relations between "the West" and

the rest. Allan Megill welcomes these developments, but he also suggests that there is now confusion among historians about what counts as a justified account of the past. In Historical Knowledge, Historical Error, Megill dispels some of the confusion. Here, he discusses issues of narrative, objectivity, and memory. He attacks what he sees as irresponsible uses of evidence while accepting the art of speculation, which incomplete evidence forces upon historians. Along the way, he offers succinct accounts of the epistemological road historians have traveled from Herodotus and Thucydides through Leopold von Ranke and Alexis de Tocqueville, and on to Hayden White, Natalie Zemon Davis, and Lynn Hunt. This is a guide to Russian usage for those who have already acquired the basics of the language and wish to extend their knowledge. It gives special attention to those areas of grammar and vocabulary which cause most difficulty to English speakers. Learn how to create stunning, heirloom-quality quilts for your home with the 23 designs in Quilting by Hand. The projects in this book are diverse, versatile and fit for a bed, a couch, or for a new baby to grow into. Riane starts with the basics: instructions will include tutorials for both hand piecing and machine piecing, as well as other beginner-friendly handwork techniques. With thoughtful details that are interesting but minimal, designs will provide a mix of quilt complexity; some quilts can be completed in a weekend, and others may take weeks or months. Riane Elise brings quilting to the forefront with her natural and modern approach, focussing on craftsmanship, tradition, contemporary design, slow stitching, and making with intention. A national bestseller and acclaimed guide to Buddhism for beginners and practitioners alike In this simple but important volume, Stephen Batchelor reminds us that the Buddha was not a mystic who claimed privileged, esoteric knowledge of the universe, but a man who challenged us to understand the nature of anguish, let go of its origins, and bring into being a way of life that is available to us all. This new, sophisticated, comprehensive reference book will inspire and instruct painters on how to handle today's acrylics in innovative and individualistic ways. Acrylics have grown into the most adaptable art material for the modern age. Developments in the pigment industry have given acrylics a remarkably permanent, rich, and abundant palette, making it the favorite medium of many contemporary artists. As colors are being developed, their chemical components are also enhanced for better texture and handling. Art-supplies vendors now offer acrylic mediums for thinning, thickening, glazing, molding, pouring, texturing, and dozens of other uses. Even experienced acrylic painters can be confused—even intimidated—by this staggering diversity of products. Painter and art materials expert Rhéni Tauchid simplifies this daunting subject, clearly explaining each type of medium and suggesting ways it can enhance your painting practice. Over twenty step-by-step demonstrations teach you how to apply mediums to create vibrant colors, sensuous surfaces, and striking visual effects. Hundreds of beautiful photos illustrate mediums' almost limitless potential and show you how other artists—both abstract and realist—are employing mediums to push their art in new creative directions.
