Paige Lassiter has stirred up emotions in this gentle giant of a man—emotions that he has never allowed himself to feel. Then Paige's ex-husband turns up in Virgin River. New York Times bestselling author Lexi Blake is back with an all-new heartwarming, small-town contemporary romance series set against the spicy southern backdrop of Louisiana's Butterfly Bayou. When her Hollywood studio head husband unexpectedly divorces her to marry a pop starlet, Gracie seeks refuge at a friend's Malibu mansion, witnesses the impact of the divorce on her young daughter, and interacts with a series of dysfunctional men. Love is a wonderful thing, But Love can Eat you alive. Spanning 50 years, this novel chronicles the cycles, the joys, and the animosity that make up the

relationship between a mother and daughter. Each woman, a product of her generation, is influenced, and sometimes limited, by the expectations of the era in which she lives. Original. "U.S. policy toward the Middle East has relied heavily on military instruments of power and has focused on regional threats--particularly the Iranian threat--with the goal of keeping partners on "our side." These long-standing policies have largely fallen short of meeting core U.S. interests and adapting to new regional realities and strategic imperatives. RAND researchers offer an alternative framework, suggesting that the U.S. strategic priority must center on reducing regional conflict and the drivers of conflict. This revised strategic approach puts a greater focus on addressing conflict and socioeconomic challenges that are creating unsustainable pressures on the region's states and immense suffering among its people. Researchers analyze how the tools of U.S. policy--political, security, economic, diplomatic, and informational instruments--would need to adjust to more effectively address such challenges in ways that are mindful of limited resources at home. Researchers also examine how the United States deals with both partners and adversaries in and outside the region and consider how to better leverage policies to the benefit of U.S. interests and the region. The researchers recommend specific actions organized into the following three pillars: (1) shifting resources from the current heavy reliance on military tools to a more balanced approach that prioritizes economic investments, governance, diplomacy, and programs focused on people; (2) favoring a long-term time horizon to reduce regional conflict and support growth and development, even at the cost of short-term risks; and (3) working multilaterally with global and regional partners to address key challenges." -- from the publisher.

"Three brothers, a war and secrets. Some years later, a niece and nephew come looking for answers. It is time for revelations"--Publisher description. When virtuous Hannah Bunch set out to trap herself a husband at the spinsterly age of 26, she hardly dreamed she'd be compromised by a blue-eyed stranger. Her reputation shattered, she promises to honor and cherish him always--never suspecting that his secret will threaten her life. From the author of *Courting Miss Hattie*. 'Poor Fellow My Country is an Australian classic, perhaps THE Australian classic' - The Times Literary Supplement. From Australia's oldest publisher comes the longest Australian novel ever published. The winner of the 1975 Miles Franklin Award is now back in print with a new introduction by Russell McDougall. In *Poor Fellow My Country*, Xavier Herbert returns to the region made his own in Capricornia: Northern Australia. Ranging over a period of some six years, the story is set during the late 1930s and early 1940s; but it is not so much a tale of this period as Herbert's analysis and indictment of the steps by which we came to the Australia of today. Herbert parallels an intimate personal narrative with a tale of approaching war and the disconnect between modern Australia and its first inhabitants. With enduring portraits of a large cast of local and international characters, Herbert paints a scene of racial, familial and political disparity. He lays bare the paradoxes of this wild land, both old and wise, young and flawed. Winner of the Miles Franklin award on first publication in 1975, *Poor Fellow My Country* is masterful storytelling, an epic in the truest sense. This is the decisive story of how Australia threw away her chance of becoming a true commonwealth and it is undoubtedly

Herbert's supreme contribution to Australian literature. Will we ever reach the dream of 'Australia Felix' - the happy south land? After finding herself single again and without a job, Jesse Winsloe heads to Onery Cabin to stay with her elderly aunt Will, but Jesse soon finds herself mixed up in local remedies and a new romance. "The Making of a Marchioness" is a novel by Frances Hodgson Burnett. It was followed by a sequel, *The Methods of Lady Walderhurst*, but both have been subsequently published together, either under the original name "The Making of a Marchioness" or as "Emily Fox-Seton". Emily Fox-Seton is a young woman of good birth but no money who works as a companion and assistant for various members of the upper class. Her chief employer is Lady Maria Bayne, who is both very selfish and very funny, although she does come to care for Emily. In a "Cinderella-like" ending, Emily eventually marries a much older man, James, the Marquess of Walderhurst, thus herself becoming a marchioness. In the sequel, originally "*The Methods of Lady Walderhurst*", Emily has Walderhurst's child, and his former heir, Alec Osborn, attempts to regain what he sees as his birthright. What happens when ethnographers go public via books, opinion papers, media interviews, court testimonies, policy recommendations, or advocacy activities? Calling for a consideration of this public moment as part and parcel of the research process, the contributors to *If Truth Be Told* explore the challenges, difficulties, and stakes of having ethnographic research encounter various publics, ranging from journalists, legal experts, and policymakers to activist groups, local populations, and other scholars. The experiences they analyze include Didier Fassin's interventions on police and prison, Gabriella Coleman's multiple roles as intermediary between hackers and journalists, Kelly Gillespie's and Jonathan Benthall's experiences serving as expert witnesses, the impact of Manuela Ivone Cunha's and Vincent Dubois's work on public policies, and the vociferous attacks on the work of Unni Wikan and Nadia Abu El-Haj. With case studies from five continents, this collection signals the global impact of the questions that the publicization of ethnography raises about the public sphere, the role of the academy, and the responsibilities of social scientists. Contributors: Jonathan Benthall, Lucas Bessire, João Biehl, Gabriella Coleman, Manuela Ivone Cunha, Vincent Dubois, Nadia Abu El-Haj, Didier Fassin, Kelly Gillespie, Ghassan Hage, Sherine Hamdy, Federico Neiburg, Unni Wikan Sixteen-year-old Persis Blake struggles to balance her life as a socialite and a secret spy in a future where Regs, or regular people, have power over the Reduced--those genetically engineered or drugged into physical and mental impairments. After her absentee father dies and leaves her a ranch as inheritance, Madeline flies to Colorado and encounters the two sisters she didn't know she had, and ruggedly handsome Luke, the man who feels he has a rightful claim to the ranch. This book evaluates the global status and prospects of democracy, with an emphasis on the quality of democratic institutions and the effectiveness of governance as key conditions for stable democracy. Bringing together a wide range of the author's work over the past three decades, it advances a framework for assessing the quality of democracy and it analyzes alternative measures of democracy. Drawing on the most recent data from Freedom House, it assesses the global state of democracy and freedom, as of the beginning of 2015, and it explains why the world has been experiencing a mild but now deepening

recession of democracy and freedom since 2005. A major theme of the book across the three decades of the author's work is the relationship between democratic quality and stability. Democracies break down, Diamond argues, not so much because of economic factors but because of corrupt, inept governance that violates individual rights and the rule of law. The best way to secure democracy is to ensure that democracy is accountable, transparent, genuinely competitive, respectful of individual rights, inclusive of diverse forms and sources of participation, and responsive to the needs and aspirations of ordinary citizens. Viable democracy requires not only a state that can mobilize power to achieve collective goals, but also one that can restrain and punish the abuse of power—a particularly steep challenge for poor countries and those with natural resource wealth. The book examines these themes both in broad comparative perspective and with a deeper analysis of historical trends and future prospects in Africa and Asia,. Concluding with lessons for sustaining and reforming policies to promote democracy internationally, this book is essential reading for students and scholars interested in democracy, as well as politics and international relations more generally. Her husband is cheating on her, and she talks to her daughter through a therapist. No, life is not perfect. So what should she do? Jane's not sure, but she figures a drive in her convertible might help her relax. Preventing humanitarian atrocities is becoming as important for the United Nations as dealing with inter-state war. In this book, Ramesh Thakur examines the transformation in UN operations, analysing its changing role and structure. He asks why, when and how force may be used and argues that the growing gulf between legality and legitimacy is evidence of an eroded sense of international community. He considers the tension between the US, with its capacity to use force and

project power, and the UN, as the centre of the international law enforcement system. He asserts the central importance of the rule of law and of a rules-based order focused on the UN as the foundation of a civilised system of international relations. This book will be of interest to students of the UN and international organisations in politics, law and international relations departments, as well as policymakers in the UN and other NGOs. This book describes how American international policy alternates between engagement and disengagement cycles in world affairs. These cycles provide a unique way to understand, assess, and describe fluctuations in America's involvement or non-involvement overseas. In addition to its basic thesis, the book presents a fair-minded account of four presidents' foreign policies in the post-Cold War period: George H.W. Bush, Bill Clinton, George W. Bush, and Barack Obama. It suggests recurring sources of cyclical change, along with implications for the future. An engaged or involved foreign policy entails the use of military power and diplomatic pressure against other powers to secure American ends. A disengaged or noninvolved policy relies on normal economic and political interaction with other states, which seeks to disassociation from entanglements. This is the second book in a brand new series from bestselling author, Maggie Stiefvater. Fans of SHIVER (9781407115009), LINGER (9781407121086) and FOREVER (9781407121116) will love this new quartet!
