Its goal is to make the exodus come alive for the reader--not to just read about the exodus but to experience the exodus, not to just read about the Passover but to experience the Passover, to catapult the reader back through time like a time traveler entering a time portal. *thoughts on time, the creative mind, and great lives and works. The irrealis mood knows no boundaries between what is and what isn't, between what happened and what won't. In more ways than one, the essay about the artists, writers, and great minds gathered in this volume have nothing to do with who I am, or who they were, and my reading of them may be entirely erroneous. But I misread them the better to read myself. From meditations on subway poetry and the temporal resonances of an empty Italian street, to considerations of the lives and work of Sigmund Freud, Constantine Cavafy, W. G. Sebald, John Sloan, Éric Rohmer, Marcel Proust, and Fernando Pessoa, and portraits of cities such as Alexandria and St. Petersburg, Homo Irrealis is a deep reflection of the imagination's power to shape our memories under time's seemingly intractable hold.*

*“Did I Not Bring Israel Out of Egypt?” Jun 12 2022 The Hebrew Scriptures consider the exodus from Egypt to be Israel’s formative and foundational event. Indeed, the Bible offers no other explanation for Israel’s origin as a people. It is also true that no contemporary record regarding a man named Moses or the Israelites generally, either living in or leaving Egypt has been found. Hence, many biblical scholars and archaeologists take a skeptical attitude, dismissing the exodus from the realm of history. However, the contributors to this volume are convinced that there is an alternative, more positive approach. Using textual and archaeological materials from the ancient Near East in a comparative way, in conjunction with the Torah’s narratives and with other biblical texts, the contributors to this volume (specialists in ancient Egypt, ancient Near Eastern culture and history, and biblical studies) maintain that the reports in the Hebrew Bible should not be cavalierly dismissed for ideological reasons but, rather, should be deemed to contain authentic memories.*

*The Time Between Places Apr 17 2020 This collection of twenty stories delves into the lives of Egyptian characters, from those living in Egypt to those who have immigrated to the United States. With subtle and eloquent prose, the complexities of these characters are revealed, opening a door into their intimate struggles with identity and place. We meet people who are tempted by the possibilities of America and others who are tempted by the desire to return home. Some are in the throes of re-creating themselves in the new world*

**while others seem to be embedded in the loss of their homeland. Many of these characters, although physically located in either the United States or Egypt, have lives that embrace both cultures. "A Game of Chance" follows the actions of a young man when he wins the immigration lottery and then must decide whether or not to change his life. "Cumin and Coriander" takes us inside a woman's thoughts as she tries to come to terms with the path her life has taken while working as a cook for American expatriates in Egypt. "The Top" enters the mind of a man whose immigration results in a loss of identity and sanity. These compelling stories pull us into the lives of many different characters and offer us striking insights into the Arab American experience.**

**Out of Egypt Mar 17 2020 Like The Cross-Legged Scribe he describes so vividly, Ihab Hassan lives under Medu-netcher, the sign of the word. For Hassan, a critic is far more than a conservator or maker of judgments. In his work he has investigated not only the state of current literature but the thoughts and feelings that inform it. "The important questions before the human race are not literary questions," he acknowledges in Paracriticisms (1975). "They are questions of consciousness? reason, dream, love." If humanity, as Hassan's work progressively suggests, is being transformed by a new universal consciousness, it is appropriate, perhaps essential, that critics such as he examine their own evolution as thinking and feeling beings. Out of Egypt, Hassan has never returned, preferring instead the continuing journey: "In journeys, we hear the cadences of the universe itself, and endure our death, going hence, coming hither. "Ripeness is all." The process of "ripening" is dependent in this inter-textual age upon the blending of minds into minds, voices into voices, making it necessary for Hassan to weave into his narrative brief essays, citations, and quotations including some from his previous work.**

***Find Me May 31 2021 A New York Times Bestseller In this spellbinding exploration of the varieties of love, the author of the worldwide bestseller Call Me by Your Name revisits its complex and beguiling characters decades after their first meeting. No novel in recent memory has spoken more movingly to contemporary readers about the nature of love than André Aciman's haunting Call Me by Your Name. First published in 2007, it was hailed as "a love letter, an invocation . . . an exceptionally beautiful book" (Stacey D'Erasmus, The New York Times Book Review). Nearly three quarters of a million copies have been sold, and the book became a much-loved, Academy Award-winning film starring Timothée Chalamet as the young Elio and Armie Hammer as Oliver, the graduate student with whom he falls in love. In Find Me, Aciman shows us Elio's father, Samuel, on a trip from Florence to Rome to visit Elio, who has become a gifted classical pianist. A chance encounter on the train with a beautiful young woman upends Sami's plans and changes his life forever. Elio soon moves to Paris, where he, too, has a consequential affair, while Oliver, now a New England college professor with a family, suddenly finds himself contemplating a return trip across the Atlantic. We remember because memory is our most intimate, most familiar gesture. Most people are convinced I love Alexandria. In truth, I love remembering Alexandria. For it is not Alexandria that is beautiful. Remembering is beautiful." Celebrated as one of the most poignant stylists of his generation, André Aciman has written a witty, surprising series of linked essays that ponder the experience of loss, moving from his forced departure from Alexandria as a teenager, through his brief stay in Europe, and finally to the home he's made (and half invented) on Manhattan's Upper West Side.**

He was intolerant of poor posture and bad table manners, and he detested what he called the atavisms by which Jews gave themselves away. #3 Vili was a brilliant peddler, and after the war, he was given a Georgian estate in Surrey, where he lived in lordly penury under the assumed name of Dr. H. ***Jewish family with Italian and Turkish roots that tied its future to Egypt and made its home there for three generations, only to find itself peremptorily expelled by the Government in the early 1960's. **The Struggle for Egypt Jan 15 2020** The recent revolution in Egypt has shaken the Arab world to its roots. The most populous Arab country and the historical center of Arab intellectual life, Egypt is a linchpin of the US's Middle East strategy, receiving more aid than any nation except Israel. This is not the first time that the world and has turned its gaze to Egypt, however. A half century ago, Egypt under Nasser became the putative leader of the Arab world and a beacon for all developing nations. Yet in the decades prior to the 2011 revolution, it was ruled over by a sclerotic regime plagued by nepotism and corruption. During that time, its economy declined into near shambles, a severely overpopulated Cairo fell into disrepair, and it produced scores of violent Islamic extremists such as Ayman al-Zawahiri and Mohammed Atta. In *The Struggle for Egypt*, Steven Cook--a Senior Fellow at the Council on Foreign Relations--explains how this parlous state of affairs came to be, why the revolution occurred, and where Egypt might be headed next. A sweeping account of Egypt in the modern era, it incisively chronicles all of the nation's central historical episodes: the decline of British rule, the rise of Nasser and his quest to become a pan-Arab leader, Egypt's decision to make peace with Israel and ally with the United States, the assassination of Sadat, the emergence of the Muslim Brotherhood, and--finally--the demonstrations that convulsed Tahrir Square and overthrew an entrenched regime. Throughout Egypt's history, there has been an intense debate to define what Egypt is, what it stands for, and its relation to the world. Egyptians now have an opportunity to finally answer these questions. Doing so in a way that appeals to the vast majority of Egyptians, Cook notes, will be difficult but ultimately necessary if Egypt is to become an economically dynamic and politically vibrant society.
