Life and Labors of Miss Catherine S. Lawrence (Abridged, Annotated) Apr 17 2020 "Slavery and intemperance: the two evils of this country." From an early age, Catherine Lawrence devoted her life to the relief of the suffering of others. Like many strong women of her time, she eventually embraced abolition, the temperance movement, and women's suffrage. A deeply religious woman, she felt a calling to help others. During the American Civil War, she worked as a nurse to wounded and dying soldiers.

Management of Complications in Common Hand and Wrist Procedures Jul 21 2020 Management of Complications in Common Hand and Wrist Procedures: FESSH Instructional Course Book 2021 Operative complications can have a major impact on patients and surgeons. While most textbooks list them, few provide in-depth discussion on prevention, repercussions, and methods to resolve them. Management of Complications in Common Hand and Wrist Procedures: FESSH Instructional Course Book 2021, edited by renowned hand surgeons Brigitte van der Heijden, Jan-Ragnar Haugstvedt, and Henk Coert, features contributions from an impressive group of international hand surgery experts. This book provides in-depth, illustrated coverage on the prevention and management of complications that can occur during common hand and wrist approaches. It also provides insights on how meticulously performed hand therapy can help alleviate postsurgical problems, on the complex regional pain syndrome (CRPS), and on critical social issues. Key Highlights Firsthand clinical pearls, evidence-based interventions, and expert opinion for preventing and resolving complications from distinguished hand surgery experts The history of the catch-all term CRPS, why continued use of this term is a disservice to patients and medical progress, and an evidence-based argument on why it should be removed from the armamentarium and eventually the literature Managing expectations of patients with factitious disorders, the role of informed consent in preventing medicolegal issues, and the impact of complications on surgeons and patients This unique and insightful resource will be invaluable in the practice of plastic, orthopaedic, and trauma surgeons specializing in hand and wrist surgery. This book includes complimentary access to a digital copy on <https://medone.thieme.com>.

Laser-Driven Particle Acceleration Towards Radiobiology and Medicine Jan 07 2022 This book deals with the new method of laser-driven acceleration for application to radiation biophysics and medicine. It provides multidisciplinary contributions from world leading scientist in order to assess the state of the art of innovative tools for radiation biology research and medical applications of ionizing radiation. The book contains insightful contributions on highly topical aspects of spatio-temporal radiation biophysics, evolving over several orders of magnitude, typically from femtosecond and sub-micrometer scales. Particular attention is devoted to the emerging technology of laser-driven particle accelerators and their application to spatio-temporal radiation biology and medical physics, customization of non-conventional and selective radiotherapy and optimized radioprotection protocols.

The Dead of the Irish Revolution Sep 15 2022 The first comprehensive account to record and analyze all deaths arising from the Irish revolution between 1916 and 1921 This account covers the turbulent period from the 1916 Rising to the Anglo-Irish Treaty of December 1921—a period which saw the achievement of independence for most of nationalist Ireland and the establishment of Northern Ireland as a self-governing province of the United Kingdom. Separatists fought for independence against government forces and, in North East Ulster, armed loyalists. Civilians suffered violence from all combatants, sometimes as collateral damage, often as targets. Eunan O'Halpin and Daithí Ó Corráin catalogue and analyze the deaths of all men, women, and children who died during the revolutionary years—505 in 1916; 2,344 between 1917 and 1921. This study provides a unique and comprehensive picture of everyone who died: in what manner, by whose hands, and why. Through their stories we obtain original insight into the Irish revolution itself.

The Year After You Dec 14 2019 Up in the Alps, Cara's old life feels a million miles away. Nobody at Hope Hall knows her past. With secrets to keep, can Cara allow herself this chance to live again? New Year's Eve, San Francisco. The most promising party of the year ends in tragedy. Georgina is gone and nothing will bring her back. Nine months later, Cara's mother decides a Swiss boarding school will be the fresh start Cara needs. Up in the Alps, Cara's old life feels a million miles away. Nobody at Hope Hall knows her past - and she intends to keep it that way. Yet, as much as she keeps her distance, her new friends break down the walls she has so carefully built up - especially the offbeat, straight-talking Hector, who understands how she feels better than anyone. But the closer Cara grows to Hector, the more her old life slips away. Embracing life at Hope Hall means letting go of the past. With Georgina gone, how can Cara allow herself this second chance? Police Casualties in Ireland, 1919-1922 Jun 12 2022 The Royal Irish Constabulary are often portrayed as the villains of the War of Independence in Ireland, Irishmen who betrayed their country by serving the British regime. No memorial has been raised in Ireland to those who died during the conflict and their names are largely forgotten, apart from a few who gained notoriety through the fact that Michael Collins himself ordered their killing. As a result, while their deaths are recorded in histories of the time, little attention is paid to the men themselves. In *Police Casualties in Ireland 1919 - 1922*, Richard Abbott addresses this imbalance by recording in detail the deaths of over 500 police casualties during the war, not only from the RIC, but also the Dublin Metropolitan Police, the Auxiliaries, Black and Tans and Ulster Special Constabulary. His portrayals of these men remind us that behind the villainous caricatures were human beings, who left behind devastated families and friends, just as the victims on the other side did.

Markets for Schooling May 31 2021 Nick Adnett and Peter Davies develop an economic analysis of schooling markets, emphasizing both the strengths and weaknesses of orthodox analyses. They explain the economic and social contexts that have generated the widespread desire to reform state schooling and develop a systematic analysis of the key policy components examining both theory and international evidence. The authors employ a unique framework based upon economic analysis that is informed by research performed by educationalists and other social scientists. *Markets for Schooling* is designed to be accessible and of interest to all researchers, administrators and policy-makers concerned with education and economics.

Death Waits in the Dark Feb 14 2020 It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

Vascular Challenges in Skull Base Surgery Jun 19 2020 The essential multidisciplinary guide for the prevention and management of vascular injury from master skull base surgeons Vascular injury is the most significant source of morbidity or mortality during skull base surgery, regardless of the surgical approach. While skull base approaches always placed arteries and veins at risk, newer endoscopic endonasal approaches have introduced new challenges for the prevention and management of vascular injury. Greater anatomic knowledge, additional surgical options, improved instrumentation, advances in interventional neuroradiology, and enhanced training all contribute to successful outcomes. *Vascular Challenges in Skull Base Surgery* by renowned skull base experts Paul Gardner, Carl Snyderman, Brian Jankowitz, and distinguished contributors, fills a gap in the literature, with invaluable guidance on managing rare but potentially catastrophic surgical complications. The full range of surgical approaches to the anterior, middle, and posterior cranial fossae are covered in 22 chapters. Diverse topics encompass open and endoscopic endonasal surgical approaches, endovascular techniques including balloon test occlusion and embolization, and standard and alternative bypass procedures. The last three chapters discuss venous considerations, neurophysiologic monitoring, and the role of training and simulation in vascular injury prevention. Key learning points, illustrated discussion of relevant anatomy, and tips and tricks are targeted at helping skull base surgeons leverage practical strategies to improve patient outcomes. Key Highlights An impressive group of expert, highly-experienced surgeons share firsthand knowledge Insightful analyses of root causes and clinical pearls provide indispensable prevention tactics High-quality images and videos enhance visual understanding of surgical anatomy and techniques Trainees and practicing skull base surgeons will greatly benefit from the collective knowledge and evidence-based injury avoidance strategies shared by authors who have learned to master the art of skull base surgery.

Learning-Driven Schools Aug 02 2021 Many teachers are trained to approach their work with a set of teaching strategies and lessons that changes little over time. Because they are focused on how they teach, rather than on how their students learn, they use the same techniques day after day, making no adjustments for students' different learning needs. In *Learning-Driven Schools: A Practical Guide for Teachers and Principals*, Barry Beers shows how teachers can plan, teach, and assess for student learning--and how principals can support teachers in their efforts. The book includes * An overview of the research on knowledge retention; * Real-life samples of lesson plans that address state and local standards; * Strategies on accurately assessing student learning; * Advice for teachers on addressing the needs of struggling, intermediate, and advanced students at the same time; and * Advice for administrators on conducting effective classroom observations. A rallying cry and how-to guide rolled into one, this book is an invaluable resource for anyone passionate about learning. Having served as a veteran teacher and principal himself, Barry Beers brings his own experience and understanding to bear on the essential task of ensuring that student learning remains the clear focus of our schools.

Marry Me By Sundown Aug 22 2020 An enticing new historical romance from No. 1 New York Times bestselling author Johanna Lindsey. *Marry Me By Sundown* takes you on a captivating adventure in 1880s Montana where passions and gold fever run high as an American heiress turns to a rugged mountain man to help her locate her father's fortune. Perfect for fans of Julia Quinn's *Bridgerton*. Summoned back to Philadelphia from the social whirl in London, Violet Mitchell never expected to find her brothers living on the edge of financial ruin while their father seeks new wealth in Montana's gold fields. With the family's home and social standing at risk, Violet makes a drastic decision. Morgan Callahan rode away from his family's cattle ranch to make his own fortune. Now as he finishes exploiting a mother lode of silver, a young woman claiming to be his late partner's daughter turns up wanting to be taken to her father's mine. Suspecting that the pretty schemer works for the mining outfit that is trying to steal his land, he has no qualms about snatching her and holding her at his camp where she can do no harm. Morgan underestimated the new thorn in his side. Determined to claim what rightfully belongs to her family, Violet summons up the courage, grit, and spunk to cope with the hazards and discomforts of an untamed land and the disturbingly masculine stranger who holds her fate in his hands. But an error of judgment brings down a hailstorm of calamity and danger that upends her plans and deepens her bond to a man who is not the brilliant match a lady wishes to make but could be all that a strong, passionate woman desires. Utterly captivating. Wonderfully entertaining. Let legendary author Johanna Lindsey capture your heart with her unforgettable romance.
