Performing Orthodox Ritual in Byzantium Dec 08 2021 In this groundbreaking, interdisciplinary study, Andrew Walker White explores the origins of Byzantine ritual - the rites of the early Greek Orthodox Church - and its unique relationship with traditional theatre. Tracing the secularization of pagan theatre, the rise of rhetoric as an alternative to acting, as well as the transmission of ancient methods of musical composition into the Byzantine era, White demonstrates how Christian ritual was in effect a post-theatrical performing art, created by intellectuals who were fully aware of traditional theatre but who endeavoured to avoid it. The book explores how Orthodox rites avoid the aesthetic appreciation associated with secular art, and conducts an in-depth study (and reconstruction) of the late Byzantine Service of the Furnace. Often treated as a liturgical drama, White translates and delineates the features of five extant versions, to show how and why it generated widely diverse audience reactions in both medieval times and our own.

Law and Apocalypse: The Moral Thought of Luis De León (1527?-1591) Mar 19 2020 This book has two purposes. The first is clearly historical, the second is more philosophical and interpretive. Its success in the former will be less arguable than its attainment of the latter. The contribution to the history of Spanish letters consists in critically establishing the fact that the sources of Fray Luis de Le6n's moral and spiritual thought are Hebraic and that he can be seen to stand as one in a long line of Christian Hebraists, both scholastic and humanist. His philosophical views are cast in an Hebraic tradition, not in an Hellenic one as supposed by nearly every other commentator. I have stressed the presence of a living Hebrew culture in Spain after 1492, and I have suggested that this and the Jewish parentage of Fray Luis are very significant. I have also identified an intellectual debt Fray Luis owed to non-Jewish Orientalists such as Egidio da Viterbo and Girolamo Seripando. But, even they learned from exiled Spaniards. I want to present Fray Luis as a most characteristic thinker in the world of Baroque Spain. I think most will agree with the picture I have outlined. The more audacious aspect is my wish to show the importance of the Jewish heritage as found in the literary and philosophical production of this remarkable genius. It is, of course, my contention that today know ledge about Fray Luis and what he stood for is extraordinarily important.

Program VSMOKE-users Manual Feb 22 2023 This is a users manual for VSMOKE, a computer program for predicting the smoke and dry weather visibility impact of a single prescribed fire at several downwind locations. VSMOKE is a FORTRAN 77 program that depends on the input in file VSMOKE.IPT to generate output in file VSMOKE.OUT. VSMOKE is based on steady-state Gaussian plume modeling principles compatible with those used by the U.S. Environmental Protection Agency. VSMOKE is uniquely tailored as a plume model for a low to moderate intensity ground fire as an emission source.

Renaissance Inquisitors Feb 16 2020 Based on extensive archival research, this study casts new light on the Inquisition in northern Italy during the Renaissance. It focuses on some representative inquisitors and their principal pursuits - the prosecution of heretics, Waldensians and Judaizers, and witch-hunting.

"The" Sack of Rome, 1527 Jul 23 2020 This richly illustrated study of the sack as a cultural and artistic phenomenon reveals the ambiguities of preceding events and the traumatic contrast between the flourishing world of art under Clement VII and the city as it existed after the troops of Emperor Charles V had looted Rome in 1527.

The Reformation of Prophecy Jun 02 2021 Protestant reformers found the prophet and biblical prophecy to be exceptionally effective for framing their reforming work under the authority of Scripture-for the true prophet speaks the Word of God alone and calls the people, their worship, and their beliefs and practices back to the Word of God. uses the prophet and biblical prophecy as a powerful lens through which to view many aspects of the reformers in the sixteenth and seventeenth centuries. G. Sujin Pak argues that these prophetic concepts served the substantial purposes of articulating a theology of the priesthood of all believers, a biblical model of the pastoral office, a biblical vision of the reform of worship, and biblical processes for discerning right interpretation of Scripture. Pak demonstrates the ways in which understandings of the prophet and biblical prophecy contributed to the formation of distinct confessional identities. She goes on to demonstrate the waning of explicit prophetic terminology, particularly among the next generation of Protestant leadership. Eventually, she shows, the Protestant reformers concluded that the figure of the prophet carried with it as many problems as it did benefits, though they continued to give much time and attention to the exegesis of biblical prophetic writings.
