In January 2016, after a complete and expert restoration project lasting a decade, Flying Scotsman returned to the UK's mainline as one of the jewels in the National Railway Museum's collection. **Isabelle Huppert stands out among actresses due to her audacious choices of roles, both for films as well as for the theater. Her intelligence and intuition are evident in the parts she plays. Her renown as an actress is not limited to the French cinema but embraces Europe and the rest of the world. This most mysterious of actresses likes to be photographed but she is not an easy subject. She offers herself to the eye of the camera yet remains secretive, almost absent. The great photographers of our time -- Richard Avedon, Edouard Boubat, Guy Bourdin, Henri Cartier-Bresson, Elliot Erwitt, Lartigues, Annie Leibovitz, Steven Meisel, Helmut Newton, Sylvia Plachy, Marc Riboud, and Scavullo -- took up the challenge. Huppert's energy and strength are often shrouded behind a kind of melancholy, and these photographers have captured beautifully that contradictory quality. Not only a collection of gorgeous images, this haunting book also unveils the bond between the public image and the secret soul of this unique woman. A heroic battle to uphold the balance of Eberon(R) Gaven has fulfilled part of the prophecy and become the Storm Dragon. Now he seeks the Draconic Prophecy at its source in Argonessen, the dragon nation--but as he travels toward that ancient continent, Gaven may discover more than he suspected. Meanwhile, Aundairian loyalists--assisted by a sinister dragon cabal--are assembling the Dragon Forge: an eldritch machine designed to harness the power of a Siberys dragonmark and amplify it. In this case, to create a devastating storm of hail and acid rain to go before Aundair's armies as they march into the Eldeen Reaches. And they know just the dragonmarked to use...**

The American M1 Abrams main battle tank is a revolutionary design: it broke an evolutionary development lineage from the M20 medium tank of 1941 to the M60 (which it replaced, and which stayed in production until 1987). The M1 remains the only main battle tank in the inventories of the US Army and the US Marine Corps, with years of service to come, while no replacement has been procured. It is believed that the M1 will easily serve for more than 50 years in the US alone. The US retains about 6,000 M1s, while almost 2,000 are in use with the armies of other countries including Australia, Egypt, Iraq, Kuwait, and Saudi Arabia. The dinner with Emma was a gift after the tense period in Budapest. While eating, I looked at her face as she was talking, animated, relaxed, laughing, with short periods of seriousness. I wished I could take pictures in those moments, moments that I had missed, moments that I usually miss. I often thought about my pictures, what sort of photographer was I? A portrait photographer? A journalist? In that moment, thinking of taking pictures of her while she was eating, of the way she closed her eyes with each bite, and laughed under the calming light in the room, I considered myself a photographer of moods.
