Thousands of years ago, the twin gods Kiriah and Bellias made a wager as to who could raise the best civilization. Starborn and Godsons Sep 11 2021 THE LONG-AWAITED CONCLUSION OF THE HEOROT SERIES FROM GENRE LEGENDS LARRY NIVEN, JERRY POURNELLE, AND STEVEN BARNES Avalon was thriving. The cold sleep colonists from Earth had settled on a verdant, livable world. The fast and cunning predators humans named grendels were under control, and the mainland outposts well established. Avalon's new mainland hydroelectric power station was nearly complete, and when on-line would compensate for the nuclear power systems lost in the Grendel Wars. Humans would have power, and with power came the ability to make all the necessities for life. They would survive. They would not survive as a spacefaring people. What they were losing faster than they knew was the ability to get to space. But unbeknownst to the planet-bound humans, something was moving out

there in the stars, decelerating at a rate impossible for a natural object. And its destination was Avalon. The most probable origin was Earth's Solar System. This is a novel of first contact—between the human Starborn and the self-named Godsons who followed on, between the first generation of Avalon born humans and their descendants, and between humans and the almost ineffably alien species native to their new world At the publisher's request, this title is sold without DRM (Digital Rights Management). About prequel *The Legacy of Heorot*: "Page-turning action and suspense, good characterization and convincing setting . . . may be the best thing any of those authors has written."—The Denver Post "Outstanding! ...The best ever, by the best in the field . . . the ultimate combination of imagination and realism."—Tom Clancy "Well written, action-packed, and tension filled ... makes Aliens look like a Disney nature film."—The Washington Post "Spine-tingling ecological tale of terror."—Locus About prequel *Beowulf's Children*: "Few writers have a finer pedigree than those here . . . The Red One Nov 01 2020 Jack London (January 12, 1876 - November 22, 1916), was an American author who wrote The Call of the Wild and other books. A pioneer in the then-burgeoning world of commercial magazine fiction, he was one of the first Americans to make a huge financial success from writing. The Scarlet Plague was written by Jack London and originally published in London Magazine in 1912. It was re-released in February of 2007 by Echo Library. The story takes place in 2072, sixty years after the scarlet plague has depopulated the planet. James Howard Smith is one of the few people left alive in the San Francisco area, and as he realizes his time grows short, he tries to impart the value of knowledge and wisdom to his grandsons. American society at the time of the plague has become severely stratified and there is a large hereditary underclass of servants and "nurses"; and the political system has been replaced by a formalized oligarchy. Commercial airship lines exist, as do some airships privately owned by the very rich.

***The Education of Innocence* Mar 17 2022 Author's Note By looking into The Book of Life, Humanity's Soul Records, Sophia witnessed that Souls began their sacred journey in a "fall" from grace that shattered their innocence and caused a splintering of the personality. In four simple words, Sophia**

came to understand the Soul's *raison d'être* for existence--it is for The Education of Innocence. That secret has been well hidden within great Mysteries coveted by ancients in the sacred Temples of old. But why was that secret hidden? What does that secret reveal about the true essence of our nature? Once that true essence is known, how could that awareness bring knowledge that could change our lives? In essence, what does innocence have to do with Divine power? The Education of Innocence portrays the archetypal story that rings true for every incarnated Soul. The stages of a Soul's sacred journey are metaphorically portrayed, revealing the "fall" that had devastating consequences upon humanity's collective psyche, and what now compels an awakening in global consciousness critical for survival. When innocence became shattered, a shadow rose in place of light. Without understanding the shadow, one can never transcend illusions. Without transcending illusions, the admonition (deliberate use) in the bible, "Ye are Gods," can never be known again. The Master awaits. Book II opens in the Underworld of Darkness where a Dark Lord is reminiscing about events that shaped his brutal character, accountable for his splintered Soul. Striving to fulfill the Black Oracle to claim dominion over the Empire of Darkness, he must overcome impossible odds. Little Sol awakens to his destiny, with

Initiations of remembrance guided by the Wizard Domaine. A whole host of sea creatures portraying Shadow and Light clash during the Apocalyptic times of The Final Reckoning. With the outcome unknown, the Immortals of the Original Ancestry of the Gods must come into remembrance if the Kingdom of Oceana is to be rescued from its terrifying fate.

Rivermist: Starborn Jul 21 2022 Long ago, a sorcerer split Phant in two. The day was stretched to match the year, and a Wall was built to separate the light from the dark. A Spire and a city to surround it were dreamt into place beneath the Seat

The only Elders who knew how to slow its progression left their bodies long ago, leaving behind only echoes of their memories. The reborn Elders of the present have been exiled into forced stasis for centuries, awakening near the end of the world with their powers stripped, their Oracle gone, and no way to escape the planet in time. The last two Elders to awaken in the vault are unrecognizable and have no reliable memories of their own. Before their exile, the one called the Starborn had a pendant that could unlock a celestial path at the end of the world. With the Starborn nowhere to be found and no less than two copies of his pendant to puzzle over, the Elders must look into their pasts in order to have a future. The rift in the Spire is expanding unabated and what may be multiple Oracles of Daki are working against them at every turn; the end of Phant may be upon them far sooner than anticipated. The dread sorcerer disrupting the balance of space-time is still there. "Separation is the very nature of Daki. Love is sacred because it is that which unifies..." Rivermist is a series following a family of souls as they reincarnate on a variety of planets, in various dimensions, even across timelines. Exploring metaphysics alongside human (or Seta) nature, Rivermist is a series for celestial wanderers.
