Attacking Currency Trends Feb 09 2022 The guide for reading long-term trends in the foreign currency market To thrive in the marketplace traders must anticipate, enter, and stay with trends in the foreign exchange market. In this much-needed guide top forex, expert Greg Michalowski clearly explains the attributes of successful traders, and shows how traders can set themselves up for success by drafting an explicit mission statement and game plan. The book also contains the tools and techniques traders need to read the markets and identify when a market is in a trend. Michalowski shows traders how to enter an

emerging trend, how to manage the position, and how to exit the position most effectively. Includes the technical tools needed to invest in the foreign exchange market: moving averages, trendlines, and Fibonacci levels Shows how to identify a trend and stick with the trend through its duration Written by Greg Michalowski who was cited by SmartMoney magazine as a "go to" source for making money moves With this book, Michalowski offers an important resource for identifying and riding out long-term trends in the volatile foreign currency.

Emotional Banking Dec 07 2021 Banking is under threat. Despite access to fast-paced technology known as FinTech, an antiquated business model and internal organizational paralysis do not allow for the creation of a truly beloved brand and are stifling change. To survive and thrive when their competition is catching up, banks must understand the principles behind Emotional Banking—a cultural change concept that brings the consumer to the center of rethinking banking products and delivery. This book starts with a history of the space then moves into an overview of what FinTech is. After discussing the state of banking today including stories from the biggest names in the industry, the concept of Emotional Banking and Brand are introduced as an answer to the problems outlined above. It concludes with examples of best practices and a hands-on approach on how to change the inertia, become a brand and make customers fall in love with their bank. Some of the questions this book tackles include: · Why don't banks "care"? · How many banks will survive? · What is FinTech and why does it matter? · Can Banks become beloved brands and find their way to the consumer's heart? · Why is there a disconnect between what we say and what we do in the industry? · Is inertia in banking a result of broken internal culture? · Which big brand or challenger will be at the top in 5 years?

Steidlmayer on Markets Apr 11 2022 Proven techniques for market profile users at any level A "market profile" presents a number of basic elements from the market in an easily understood graphic format that, when analyzed properly, can yield profitable intraday and swing trades that traditional indicators do not reveal. Steidlmayer on Markets shows readers how to find these opportunities using the innovative techniques developed by the author during his many years of trading the market. This fully updated Second Edition covers innovations in both technology and technique-and broadens the scope of "market profile" to include stocks. J. Peter Steidlmayer (Chicago, IL) joined the Chicago Board of Trade in 1963 and has been an independent trader ever since. Steidlmayer served on the Board of Directors of the Board of Trade in 1981-1983. While a director, he was responsible for initiating Market Profile and the Liquidity Data Bank. Steve Hawkins (Chicago, IL) has experience in trading in both stocks and commodities. Over the past seven years, Hawkins has educated traders across the globe. He has also collaborated on the writing of books on trading and written articles for industry trade publications. He is a graduate of the University of Illinois with a degree in economics. New technology and the advent of around the clock trading have opened the

floodgates to both foreign and domestic markets. Traders need the wisdom of industry veterans and the vision of innovators in today's volatile financial marketplace. The Wiley Trading series features books by traders who have survived the market's ever changing temperament and have prospered—some by reinventing systems, others by getting back to basics. Whether a novice trader, professional or somewhere in-between, these books will provide the advice and strategies needed to prosper today and well into the future.

How to Make Money Trading the Ichimoku System Nov 13 2019 How to Make Money Trading Ichimoku Cloud Charts
Ichimoku Kinko Hyu, commonly referred to as Ichimoku indicator, is one of today's most powerful trading systems. A Japanese innovation, like the candlesticks, it can be used with equal success to trade stocks, commodities, futures, currencies and bonds — in fact, to anything that can be charted! Ichimoku also works very well on all time frames, from the weekly all the way down to the one-minute chart. Loosely translated, Ichimoku chart means a 'one glance equilibrium' chart. Due to the unique construction of the Ichimoku cloud, which is the heart of this system, a trader can visually determine in an instant whether a chart is bullish or bearish! Not just that: ? Ichimoku clearly defines support and resistance, identifies trend direction, gauges momentum, and provides trading signals ? It is the only system with a built-in forward looking indicator ? Looking at Ichimoku charts on multiple time frames can offer a tell-all x-ray into the dynamics of any market ? It shows how to correctly time their entry and exit trades ? Most charting platforms today offer Ichimoku as an indicator. Packed with in-depth analysis of high-probability trading strategies and numerous real-market examples of stocks, derivatives, commodities and currency trades, this book reveals how you can make money using the powerful Ichimoku system, the candlestick cloud charts.

The Foreign Exchange Market May 20 2020 This book brings together a number of research studies, all of which examine the behaviour of foreign exchange rates. The main focus of the collection is on empirical characterisation of high-frequency exchange rate data. The pioneering studies demonstrate and explain, amongst other things, the regular patterns in intra-day foreign exchange rate activity, the effects of macroeconomic news on rates and analyse the profitability of technical trading rules in these markets. The collection will be of use to students, academics and practitioners who are interested in exchange rate dynamics.

Mind Markets and Money Aug 23 2020 Is intraday trading profitable? How do you apply market profile and order flow analysis for attractive intraday trade setups? How do you apply the practical concepts of Market Profile to live trading? Your search ends here. of intraday trading along with tailor-made systems for Indian market conditions. If you want to understand the successful journey of becoming a successful intraday trader, then this is the book you're looking for.

Technical Analysis Using Multiple Timeframes Jan 28 2021

Fibonacci Trading: How to Master the Time and Price Advantage Jul 22 2020 Made famous by the Italian mathematician Leonardo De Pisa, the Fibonacci number series holds a Golden Ratio that is universally found in nature and used by architects, plastic surgeons, and many others to achieve "perfect" aesthetic proportions. Now, in this groundbreaking guide, noted technical trading advisor Carolyn Boroden shows you how Fibonacci pattern studies can be used as an extremely effective method for achieving greater profitability in stocks, futures, and Forex markets. Fibonacci Trading provides a one-stop resource of reliable tools and clear explanations for both identifying and taking advantage of the trade setups naturally occurring in the markets that will enable you to reach the highest rate of profitable trades. Inside, you'll find a unique trading methodology based on Fibonacci ratios, and the author's personal experience analyzing and setting up the markets in real time, which makes this practical volume invaluable to the self-directed investor. Complete with detailed charts and insightful graphics in each chapter, Fibonacci Trading features: Dependable guidance for determining important support and resistance levels, along with expert advice for using them to maximize profits and limit losses Step-by-step processes for using Fibonacci analysis to predict turning points in the market far enough in advance to generate substantial profit Valuable tips for using Fibonacci analysis to establish optimal stop-loss placement Revealing coverage on how Fibonacci relationships can create a roadmap for the trader based on high percentage patterns Fibonacci Trading also provides a four-step formula for applying the covered techniques in a highly effective approach. Flexible enough for all markets and trading styles, the formula helps you focus your newly developed knowledge and skill sets into a solid trading methodology, defined trading plan, successful trading mindset, and disciplined trading approach that stacks the odds for profit in your favor. This hands-on guide is packed with a wealth of actual trading situations, setups, and scenarios that bring the four-step formula to life so you can immediately use it in the real world.

Trading with Ichimoku Clouds Oct 25 2020 The essential guide to today's hottest technical indicator-the Ichimoku Kinko Hyo cloud chart Ichimoku Kinko Hyo is a technical system that illustrates support and resistance values in a simplified form and is considered an extension of the very popular candlestick charting system. In fact, the system was built on the idea that at "one glance" you should be able to determine whether an instrument is in equilibrium (consolidation) or out of equilibrium (trending). Written in a straightforward and accessible style, Trading with Ichimoku Clouds offers a solid foundation in this discipline as well as its technical strategies. It shows you how to create and implement a trading plan based on this approach that can easily be tailored to your trading style. First available U.S. publication on this hot trading trend Reveals how Ichimoku Clouds work in

both bullish and bearish markets Highlights how these strategies can easily be adopted for stocks, futures, bonds, and other vehicles Works with all timeframes and all tradable instruments Filled with in-depth insights and expert advice, Trading with Ichimoku Clouds will help you implement a proven strategy designed to capture trends that maximize profits and minimize losses. Furthermore, the user will be taken step by step through the entire decision-making process of trading an instrument for two years (back test).

Mastering the Trade, Second Edition: Proven Techniques for Profiting from Intraday and Swing Trading Setups Apr 30 2021 The essential guide to launching a successful career in trading—updated for today’s turbulent markets “Mastering the Trade is an excellent source for a basic understanding of market action, be it day and/or longer-term trend trading. A programmer will have a field day with the many ideas that are in this book. It is highly recommended.” —John Hill, president of Futures Truth magazine “John Carter’s new book focuses quickly on the critical area of trader psychology, a realm that will often separate the trader from his wallet if it is not mastered first. The in-depth trading strategies clearly show how to respond to market moves based on real-world examples.” —Price Headley, founder of BigTrends.com and author of Big Trends in Trading “Well written and packed with the kind of insight about the nature of trading and the markets that can surely benefit every level of trader.”

—Mark Douglas, author of *Trading in the Zone* and *The Disciplined Trader* “This is a must read for all new traders, specifically for the psychological aspect of trading. I am recommending it to all of my clients.” —Carolyn Boroden, FibonacciQueen.com

About the Book: When it was first published in 2005, *Mastering the Trade* became an instant classic in the world of day trading. Now, veteran day trader and educator John F. Carter has updated his time-proven swing trading technique to help you succeed in an environment vastly transformed by volatility and technology. Universally acclaimed for its sophisticated yet easy-to-execute methods, this practical, results-driven guide provides everything you need to make a lucrative career as a day trader—from preparing yourself psychologically for the unique demands of day trading to timing the market, managing risk, and planning future trades. *Mastering the Trade* sets aside timeworn basics and rehashed ideas to examine in detail the underlying factors that cause prices to move. Providing the tools you need to make the right decisions at the right times, it helps you enter market shifts early and either pull out before losses accrue or hang on for a long and refreshingly predictable ride. *Mastering the Trade* covers: The five psychological truths that will transform you from a mistake-prone novice into a savvy trading professional Exact entry, exit, and stop-loss levels for the intraday trading of stocks, options, ETFs, e-mini futures, 30-year bonds, currencies, and more Seven key internals, from \$TICKS to five-minute volume—critical for gauging pending market direction from the opening bell Premarket checklists for analyzing recent market behavior and calculating on each trading day what you plan to do, how you plan to do it, and why Airtight risk control techniques for protecting trading capital—the most important component of a professional trading career After spending many years on various trading desks, Carter has developed an intuitive understanding of how the markets work. In *Mastering the Trade*, he gives you unlimited access to everything the markets have taught him—so you can make an exceptional living on the frontlines of professional trading.

The Logical Trader Feb 26 2021 An in-depth look at the trading system that anyone can use *The Logical Trader* presents a highly effective, yet simple trading methodology that any trader anywhere can use to trade almost anything. The "ACD Method" developed and refined by Mark Fisher after many years of successful trading, provides price points at which to buy and sell as determined by the opening range of virtually any stock or commodity. This comprehensive guide details a widely used system that is profitably implemented by many computer and floor traders at major New York exchanges. The author's highly accessible teaching style provides readers of *The Logical Trader* with a full examination of the theory behind the ACD Method and the examples and real-world trading stories involving it. Mark B. Fisher (New York, NY), an independent trader, is founder of MBF Clearing Corp., the largest clearing firm on the NYMEX. Founded in 1988, MBF Clearing has grown from handling under one percent of the volume on the NYMEX to nearly twenty percent of the trades today. A 1982 summa cum laude graduate from the Wharton School of Business, University of Pennsylvania, Fisher also received his master's degree in finance

and accounting from Wharton. New technology and the advent of around the clock trading have opened the floodgates to both foreign and domestic markets. Traders need the wisdom of industry veterans and the vision of innovators in today's volatile financial marketplace. The Wiley Trading series features books by traders who have survived the market's ever changing temperament and have prospered—some by reinventing systems, others by getting back to basics. Whether a novice trader, professional or somewhere in-between, these books will provide the advice and strategies needed to prosper today and well into the future.

Secrets of a Pivot Boss Mar 30 2021 *Secrets of a Pivot Boss* offers the most comprehensive collection of pivot-related trading ideas and concepts available to traders. Whether you are a real-time trader, swing trader, position trader, or investor, you will find great value in this book, regardless of the markets you trade or your level of experience. Frank Ochoa has analyzed the market every day over the past 12 years and has cultivated the techniques in this book into a fine art using the best leading indicators available to traders. The concepts in this book will help you become a more knowledgeable and confident trader. Professional traders use tools that are based purely on price, which is a leading indicator in its own class. In this book, we will discover the best leading indicators available to traders, including the Money Zone, Floor Pivots, and the Camarilla Equation. While you may have studied forms of pivots in the past, Frank Ochoa provides a fresh perspective that can only be described as a truly unique approach to playing these amazing levels for profit. You'll learn powerful concepts like Two-Day Pivot Relationships, Pivot Width Forecasting, Pivot Trend Analysis, and Multiple Pivot Hot Zones. Not only will you learn about incredible pivot relationships, but Frank will also divulge his best trading secrets, including Powerful Candlestick Setups, the Types of Trading Days, the Types of Buyers and Sellers, Powerful Setups, and Proprietary Indicators. Taking this a step farther, Frank also provides the actual code to each of the scripts that he's written and covered in the book! *Secrets of a Pivot Boss* brings a fresh approach to these powerful concepts that you will not find anywhere else.

Elements of Trading Jul 02 2021

Price Action Breakdown: Exclusive Price Action Trading Approach to Financial Markets Jul 14 2022 *Price Action Breakdown* is a book on pure price action analysis of financial markets. It is based on trading the pure price action using key supply and demand levels. **WHAT WILL YOU LEARN BY READING THIS BOOK?** Proven price action concepts and techniques to find the market trend, thoroughly analyze its overall strength and make the most informed judgments possible about its termination. Develop a clear market structure just by interpreting the price movements on your charts. How to discover the footprint of the big financial institutions entering the market. Perhaps the most important, you will learn a complete thought process that will make you a very versatile trader, able to adapt to the constantly changing market conditions. This will change the way you see

the market and the way you trade it. The methods explained in the book will give you the edge you need in order to become consistently profitable while trading Forex, Futures, Stocks, Options, Commodities, Indices and all the liquid markets.

Trading Price Action Trading Ranges Aug 03 2021 Praise for Trading Price Action Trading Ranges "Al Brooks has written a book every day trader should read. On all levels, he has kept trading simple, straightforward, and approachable. By teaching traders that there are no rules, just guidelines, he has allowed basic common sense to once again rule how real traders should approach the market. This is a must-read for any trader that wants to learn his own path to success." —Noble DraKoln, founder, SpeculatorAcademy.com, and author of Trade Like a Pro and Winning the Trading Game "A great trader once told me that success was a function of focused energy. This mantra is proven by Al Brooks, who left a thriving ophthalmology practice to become a day trader. Al's intense focus on daily price action has made him a successful trader. A born educator, Al also is generous with his time, providing detailed explanations on how he views daily price action and how other traders can implement his ideas with similar focus and dedication. Al's book is no quick read, but an in-depth road map on how he trades today's volatile markets, complete with detailed strategies, real-life examples, and hard-knocks advice." —Ginger Szala, Publisher and Editorial Director, Futures magazine Over the course of his career, author Al Brooks, a technical analysis contributor to Futures magazine and an independent trader for twenty-five years, has found a way to capture consistent profits regardless of market direction or economic climate. And now, with his new three-book series—which focuses on how to use price action to trade the markets—Brooks takes you step by step through the entire process. In order to put his methodology in perspective, Brooks examined an essential array of price action basics and trends in the first book of this series, Trading Price Action TRENDS. Now, in this second book, Trading Price Action TRADING RANGES, he provides important insights on trading ranges, breakouts, order management, and the mathematics of trading. Page by page, Brooks skillfully addresses how to spot and profit from trading ranges—which most markets are in, most of the time—using the technical analysis of price action. Along the way, he touches on some of the most important aspects of this approach, including trading breakouts, understanding support and resistance, and making the most informed entry and exit decisions possible. Throughout the book, Brooks focuses primarily on 5 minute candle charts—all of which are created with TradeStation—to illustrate basic principles, but also discusses daily and weekly charts. And since he trades more than just E-mini S&P 500 futures, Brooks also details how price action can be used as the basis for trading stocks, forex, Treasury Note futures, and options.

The Front Office Nov 25 2020 Getting into the Hedge Fund industry is hard, being successful in the hedge fund industry is even harder. But the most successful people in the hedge fund industry all have some ideas in common that often mean the difference between success and failure. The Front Office is a guide to those ideas. It's a manual for learning how to think about

markets in the way that's most likely to lead to sustained success in the way that the top Institutions, Investment Banks and Hedge Funds do. Anyone can tell you how to register a corporation or how to connect to a lawyer or broker. This isn't a book about those 'back office' issues. This is a book about the hardest part of running a hedge fund. The part that the vast majority of small hedge funds and trading system developers never learn on their own. The part that the accountants, settlement clerks, and back office staffers don't ever see. It explains why some trading systems never reach profitability, why some can't seem to stay profitable, and what to do about it if that happens to you. This isn't a get rich quick book for your average investor. There are no easy answers in it. If you need someone to explain what a stock option is or what Beta means, you should look somewhere else. But if you think you're ready to reach for the brass ring of a career in the institutional investing world, this is an excellent guide. This book explains what those people see when they look at the markets, and what nearly all of the other investors never do.

Forex Trading Strategien Dec 19 2022 Eines der besten Mittel, einen Handel zu gewinnen, ist das Portfolio von Forex Trading Strategien, die von Tradern in verschiedenen Situationen angewandt sind. Das Verwenden eines einzelnen Systems ist für einen erfolgreichen Handel nicht genug. Encyclopedia of Candlestick Charts also includes chapters that contain important discoveries and statistical summaries, as well as a glossary of relevant terms and a visual index to make candlestick identification easy.

7 Winning Strategies For Trading Forex May 12 2022 Many traders go around searching for that one perfect trading strategy that works all the time in the global FOREX (foreign exchange/currency) market. Frequently, they will complain that a strategy doesn't work. Few people understand that successful trading of the FOREX market entails the application of the right strategy for the right market condition. 7 Winning Strategies For Trading Forex covers: - Why people should be paying attention to the FOREX market, which is the world's largest and most liquid financial market - How understanding the structure of this market can be beneficial to the independent trader - How to overcome the odds and become a successful trader - How you can select high-probability trades with good entries and exits. Grace Cheng highlights seven trading strategies, each of which is to be applied in a unique way and is designed for differing market conditions. She shows how traders can use the various market conditions to their advantage by tailoring the strategy to suit each one. This revealing book also sheds light on how the FOREX market works, how you can incorporate sentiment analysis into your trading, and how trading in the direction of institutional activity can give you a competitive edge in the trading arena. This invaluable book is ideal for new and current traders wanting to improve their trading performance. Filled with practical advice, this book is a must-read for traders who want to know exactly how they can make money in the FOREX market.

International Finance Oct 05 2021 In this updated fourth edition, author Maurice Levi successfully integrates both the micro and macro aspects of international finance. He successfully explores managerial issues and focuses on problems arising from financial trading relations between nations, whilst covering key topics such as: * organization of foreign exchange markets * determination of exchange rates * the fundamental principles of international finance * foreign exchange risk and exposure * fixed and flexible exchange rates. This impressive new edition builds and improves upon the popular style and structure of the original. With new data, improved pedagogy, and coverage of all of the main developments in international finance over the last few years, this book will prove essential reading for students of economics and business.

High Probability Trading Setups for the Currency Market Aug 15 2022

Millionaire Traders Jun 13 2022 Trading is a battle between you and the market. And while you might not be a financial professional, that doesn't mean you can't win this battle. Through interviews with twelve ordinary individuals who have worked hard to transform themselves into extraordinary traders, Millionaire Traders reveals how you can beat Wall Street at its own game. Filled with in-depth insights and practical advice, this book introduces you to a dozen successful traders—some who focus on equities, others who deal in futures or foreign exchange—and examines the paths they've taken to capture considerable profits. With this book as your guide, you'll quickly become familiar with a variety of strategies that can be used to make money in today's financial markets. Those that will help you achieve this goal include: Tyrone Ball: trades Nasdaq stocks almost exclusively, and his ability to change with the times has enabled him to prosper during some of the most treacherous market environments in recent history. Ashkan Bolour: one of the earliest entrants into the retail forex market, he trades in the direction of the major trend, rather than trying to find reversals. Frank Law: a technician at heart, identifies a trading zone, commits to it, and scales down as long as the zone holds. Paul Willette: has mastered a method that allows him to harvest some profits right away, while ensuring that he can still benefit from an occasional extension run in his favor. Order your copy today and beat the Street.

The Forex Edge: Uncover the Secret Scams and Tricks to Profit in the World's Largest Financial Market Oct 13 2019
Generate greater profits while protecting your investments in the world's largest market Much has changed since leading forex expert and educator James Dicks introduced retail investors to trading in the foreign exchange currency market. The market's daily turnover has grown considerably, and more and more traders are achieving financial success by trading currencies—many

thanks to Dicks's advice. Now, in *The Forex Edge*, he warns you about the less-than-honest practices and elaborate schemes many brokers use to prevent prosperous traders from retaining their wealth. This cautionary book is the result of Dicks's personal investigation into an assembly of forex brokers after a suspicious reversal of fortune forced him to close his trading account. It shows you how dishonest brokers pass themselves off as legitimate, the types of scams they run, and the ways you can use this information to your advantage. It outlines a straight-through process for taking more control over your trades to minimize your exposure to the risk of deceptive practices. With *The Forex Edge* at your fingertips, you'll be armed with:

- Practical guidance for using popular automated trading systems
- Effective approaches to back-testing with recommended software platforms
- Expert tips for spotting false and misleading information in online forums
- Proven strategies for profiting from options, hedging, swing trading, and trends

From how the forex works and how brokers make money to the most common ways traders lose money—this accessible guide gives you everything you need to ensure your trading strategy draws maximum profits from the biggest financial market in the world. It features the same practical formulas and strategies Dicks uses to beat even the trickiest brokers. In today's forex market, you need more than a good trading strategy to survive. You need *The Forex Edge*.

[Technical Analysis of the Financial Markets](#) Mar 18 2020 John J. Murphy has now updated his landmark bestseller *Technical Analysis of the Futures Markets*, to include all of the financial markets. From how to read charts to understanding indicators and the crucial role technical analysis plays in investing, readers gain a thorough and accessible overview of the field of technical analysis, with a special emphasis on futures markets. Revised and expanded for the demands of today's financial world, this book is essential reading for anyone interested in tracking and analyzing market behavior.

Profitable Short Term Trading Strategies Mar 10 2022 How to make money using market-proven trading strategies This book is a valuable compendium of select tried and tested short term trading strategies. Followed with discipline and patience, these strategies can help you build solid wealth in the stock market. The book starts with an explanation of the key concepts of technical analysis that underlie trading. The big advantage of technical trading is that it eliminates guesswork since the risk, namely the worst-possible outcome of a trade, is known in advance even before a trade is initiated. Each trading strategy is explained in detail with entry, stop loss and exit rules and illustrated with real-life examples and charts. Find out: ? The logic of technical trading ? The key tools: charts and trends ? Proven trend trading strategies ? How to trade support and resistance ?

Strategies for trading trend lines ? Strategies for trading reversal and continuation patterns ? How to profitably trade gaps ? Retracement trading strategies ? Tried and tested trading strategies using leading and lagging indicators ? Mechanical trading strategies ? Introduction to algorithmic trading strategies ? And, lot's more. Come, profit from these market-proven trading strategies.

Sentiment Indicators Sep 16 2022 A practical guide to profiting from the proper use of sentiment indicators In Sentiment Indicators, noted trading expert Abe Cofnas draws on his own trading and training experience as he shares his knowledge about the latest techniques and strategies for using Renko, price break, Kagi, and point and figure tools to successfully analyze all markets. Written with the serious trader in mind, Sentiment Indicators offers key information on these potential-filled tools and how to use each in shaping trading strategies. Along the way, it provides a practical overview of how to implement these little-known indicators and why each can enhance your trading endeavors. Shows how these indicators work in different markets: futures, equities, forex, and others Provides a solid understanding of charting techniques and uses real-world examples to illustrate strategies and tactics Presents new sentiment research that analyzes word mining and what it means for markets From historical context and Robot Trading alerts to the critical factors of a trading system, Sentiment Indicators presents a proven approach to trading that will help you identify conditions that have a high probability of profit.

#FMJ Trust Transition Trade Sep 23 2020 #FMJ outlines the trading biographies of some successful female day traders of the world, who started from scratch and today live financially independent lives working only a couple hours a day! Evoking the interview style of Market Wizards by Jack Schwager, and Momo Traders by Brady Dahl; and like in Rich Dad Poor Dad by Robert Kiyosaki - it's time to make your money work for you. Take control of your financial future and say goodbye to making others rich through the example of these pioneering women who pronounced F\$%K my job, and chose not to sit in traffic or a stuffy office cubicle. Reviews by peers in the industry: "We need many more female traders so this book was a great way of helping them understand trading better and more importantly, we need more traders sharing ALL their experiences just like this so people can better understand there's no one magic formula for success, you must try various strategies and techniques to see what fits you best...Jane does a great job interviewing traders with a variety of backgrounds and it was a fun, quick read too!" - Timothy Sykes, <http://timothysykes.com> "Jane does a great job of providing the modern, humanized perspective of the individual investors in the hunt and what experiences lead to positive outcomes...Enjoy the book and see who you relate to and how their lessons can help you on your way to winning in the stock market." - Dan Mirkin, CEO of Trade Ideas, LLC "Great story of a segment of the trading community we often look past. Amazing collection of interviews by an aspiring group of traders." - Kunal Desai, President Bulls on Wall Street
