Our inherent value and worth comes from God's love for us, but our modern world is filled with sexual expression that too often leads us away from the life of Christ. As Christians seeking to live a life worthy of our calling and desiring to pass along these values to our children and youth, this book explores how we (as parents and adults) can explore issues of sexuality in the context of our faith. A sexuality education resource from a mainline/progressive denominational prospective aids the adult

reader/teacher/parent in learning and using skills that enable them to embrace and affirm the wholeness of sexuality and to talk openly and honestly about the connection of sexuality and faith. This book, grounded from a theological perspective, focuses on foundational issues for addressing how we (and why we) are called to have these conversations in a faithful community to support families. The importance of looking at one's sexuality throughout the lifespan through the lenses of decision making, faith and daily life, respect, growth and change, behavior, responsibility, values, prayer, and intentionality is explored, offering a grounding as well as stand-alone resource for individuals and churches to build upon. 'An exceptional guide to creating the impact you want while enjoying the reward Rising energy prices and concerns about climate change are driving us towards a new kind of economy - a low-carbon economy. What will this low-carbon economy be like, and what does your business have to do to prosper in this new business environment? Larry Reynolds shows how successful organisations are already learning to be more energy efficient, manage their carbon footprint, adapt to climate change and become truly sustainable. As well as explaining how to future-proof your organisation against possible threats, The Business Leader's Guide to the Low-carbon Economy, tells you how to make the most of the many opportunities that the low-carbon economy will bring, especially in growing profits from new products and services. The *Walking with God* series of studies encourages disciples to dig deeper in building their personal relationship with God whilst, at the same time, challenging them to nurture a missionary mind set which is to see people as Jesus sees them with a heart to demonstrate His love through various means of service. This book contains all the teaching notes as well as lots of hints and tips for leading a small group through the first set of studies in the series - *Walking with God in Relationship - Prayer & God's Word*. The aim is to lay a foundation of worship, prayer and personal study of the Word of God in the life of the

disciple. It is hoped that as disciples enjoy gathering and growing together regularly they will want to carry on in their journey of discipleship by completing other Bible studies in the *Walking with God* series or other studies within *New Beginnings Discipleship*. The end-goal is that some will become effective disciple-makers themselves. In today's school environment educational leaders are mandated to use academic standards to measure the progress of their school's teachers and students. Despite the wealth of material that addresses the topic of academic standards there is little written for those who must lead the effort to put in place an effective standards system. *The Leader's Guide to Standards* is a landmark book-- written by Douglas Reeves, an expert in academic standards, performance assessment, and accountability-- that shows school principals, assistant principals, teachers, and district-level administrators how to build a comprehensive accountability system for standards-based reform that focuses on leadership skills. Reeves offers practical recommendations for assessing and nurturing teacher performance, setting up balanced assessment and accountability policies, and making the case for standards to the public. In addition, the book addresses the vital role that policymakers from the local school board to state and national leaders play in the successful implementation of educational standards. This is a companion book to *Living in God's Kingdom: a practical study guide on the Christian life*. This guide is intended to give you suggestions for discussion and further study. You may also use the discussion questions in the chapters to dig deeper. The format of the chapters allows for a 6-week class, covering the basic truths in each chapter. If you plan to teach the course in 6 weeks, focus on the chapter summaries and headings. If you wish to take more time, each chapter is subdivided into two topics (e.g., Chapter 1 - God Revealed and Listening to God), facilitating a 12-week class. A radical new management model for twenty-first century leaders Organizations today face a crisis. The crisis is of long standing and its signs are widespread. Most proposals for improving management address one element of the crisis at the expense of the others. The principles described by award-winning author Stephen Denning simultaneously inspire high productivity, continuous innovation, deep job satisfaction and client delight. Denning puts forward a fundamentally different approach to management, with seven inter-locking principles of continuous innovation: focusing the entire organization on delighting clients; working in self-organizing teams; operating in client-driven iterations; delivering value to clients with each iteration; fostering radical transparency; nurturing continuous self-improvement and communicating interactively. In sum, the principles comprise a new mental model of management. Author outlines the basic seven principles of continuous innovation The book describes more than seventy supporting practices Denning offers a rethinking of management from first principles This book is written by the author of *The Secret Language of Leadership*—a *Financial Times Selection in Best Books of 2007*. Even high-performing individuals and groups can be overlooked and underestimated. The antidote is

The Power of Empowering Others Leadership isn't easy. It takes grit, courage, and vision, among other things, that can be hard to come by on your toughest days. When leaders and aspiring leaders seek out advice, they're often told to try harder. Dig deeper. Look in the mirror and own your natural-born strengths and fix any real or perceived career-limiting deficiencies. Frances Frei and Anne Morriss offer a different worldview. They argue that this popular leadership advice glosses over the most important thing you do as a leader: build others up. Leadership isn't about you. It's about how effective you are at empowering other people—and making sure this impact endures even in your absence. As Frei and Morriss show through inspiring stories from ancient Rome to present-day Silicon Valley, the origins of great leadership are found, paradoxically, not in worrying about your own status and advancement, but in the unrelenting focus on other people's potential. Unleashed provides radical advice for the practice of leadership today. Showing how the boldest, most effective leaders use a special combination of trust, love, and belonging to create an environment in which other people can excel, Frei and Morriss offer practical, battle-tested tools—based on their work with companies such as Uber, Riot Games, WeWork, and others—along with interviews and stories from their own personal experience, to make these ideas come alive. This book is your indispensable guide for unleashing greatness in other people . . . and, ultimately, in yourself. To learn more, please visit theleadersguide.com. A timely, must-have guide to understanding and overcoming bias in the workplace, from the experts at FranklinCovey. Unconscious bias affects everyone. It can look like the disappointment of an HR professional when a candidate for a new position asks about maternity leave. It can look like preferring the application of an Ivy League graduate over one from a state school. It can look like assuming a man is more entitled to speak in a meeting than his female junior colleague. Ideal for every manager who wants to understand and move past their own preconceived ideas, The Leader's Guide to Unconscious Bias explains that bias is the result of mental shortcuts, our likes and dislikes, and is a natural part of the human condition. And what we assume about each other and how we interact with one another has vast effects on our organizational success—especially in the workplace. Teaching you how to overcome unconscious bias, this book provides more than thirty unique tools, such as a prep worksheet and a list of ways to

reframe your unconscious thoughts. According to the experts at FranklinCovey, your workplace can achieve its highest performance rate once you start to overcome your biases and allow your employees to be whole people. By recognizing bias, emphasizing empathy and curiosity, and making true understanding a priority in the workplace, we can unlock the potential of every person we encounter. 'Walking Together' reveals that church discipline was a ministry that was very important to earlier believers, and that the modern church has abandoned it to her own detriment. It is a clarion call for individuals and churches to come back to this vital but long-neglected aspect of congregational and personal life. By doing so, churches can be healed and interpersonal relationships can be restored. The best book on leadership available!
