The Globalization of Music in History Nov 11 2021 This book contextualizes a globalization process that has since ancient times involved the creation, use, and world-wide movement of song, instrumental music, musical drama, music with dance, concert, secular, popular and religious music. Integral to the process have been political, economic, military, and religious forces that motivated or compelled performers to travel, often far beyond the borders of their homelands, to practice their art and craft. That this music was often a traveling companion to non-musical movements—military campaigns, religious missions, political events—does not make the distance it traveled, nor its cultural and social impact, less remarkable. The Globalization of Music in History contributes to a growing awareness of the power of music to give insight into those things that all cultures and civilizations hold in common, and that promote and nurture mankind's most noble virtues. The book adds a philosophical perspective to ongoing work in ethnomusicology, musicology, music therapy, and what may be an evolving global music. It attributes this evolution to the motivation by musicians to travel and to spread music around the globe, and even into outer space. It also provides connectivity between the people, activities and events in which music is used and the means by which it moves from one place to another.

Globalization and Its Discontents Jan 21 2020 From Nobel laureate Joseph Stiglitz, Globalization and its Discontents is the bestselling exposé of the all-powerful organizations that control our lives. Joseph Stiglitz's landmark book lifted the lid on how globalization was hurting those it was meant to help. Many of its predictions came true, and it became a touchstone in the debate. This major new edition looks afresh at the continuing mismanagement of globalization, and how it has led to our current political and economic discontents. Globalization can still be a force for good, Stiglitz argues. But the balance of power has to change. Here he offers real, tough solutions for the future. 'A massively important political as well as economic document ... we should listen to him urgently' Will Hutton, Guardian 'Stiglitz is a rare breed, an heretical economist who has ruffled the self-satisfied global establishment that once fed him. Globalization and its Discontents declares war on the entire Washington financial and economic establishment' Ian Fraser, Sunday Herald 'Gripping ... this landmark book shows him to be a worthy successor to Keynes' Robin Blackburn, Independent

The Globalization of Foreign Aid Apr 16 2022 Why do aid agencies from wealthy donor countries with diverse domestic political and economic contexts arrive at very similar positions on a wide array of aid policies and priorities? This book suggests that this homogenization of policy represents the effects of common processes of globalization manifest in the aid sector. Drawing on both quantitative and qualitative analysis of policy adoption, the book argues that we need to examine macro-level globalizing influences at the same time as understanding the micro-level social processes at work within aid agencies, in order to adequately explain the so-called 'emerging global consensus' that constitutes the globalization of aid. The book explores how global influences on aid agencies in Canada, Sweden, and the United States are mediated through micro-level processes. Using a mixed-methods approach, the book combines cross-national statistical analysis at the global level with two comparative case studies which look at the adoption of common policy priorities in the fields of gender and security. *The Globalization of Foreign Aid* will be useful to researchers of foreign aid, development, international relations and globalization, as well as to the aid policy community.

The Novel and the Globalization of Culture Nov 18 2019 Bringing together canonical European authors with authors from the Third World, this book analyzes the emergence of the modern global novel, and the way it mirrors the underlying process of cultural globalization. Through detailed readings of Stendhal, Hardy, Conrad, Achebe, and Vargas Llosa, this study reveals how the spread of Western modernity--materially and culturally--has been shadowed by the destruction of traditional societies. These novels focus on the individual tragedies of those who represent pre-modern ways of life; in the process, offering a corrective to Hegel's abstruse philosophy of history. From rural Victorian England to the Malay Archipelago, and from the Igbo heartland in Africa to the backlands of Brazil, a global narrative unfolds, one where the forces of modernization clash with the defenders of traditional society. Moses contributes to the ongoing debate on Alexandre Kojve and the "end of history", while, at the same time, moving beyond sterile oppositions--canonical versus non-canonical works, formal literary criticism versus political/historical critique. With its new conceptualization of modernity and globalization, this book will interest the literary scholar, cultural critic, social scientist, and political theorist.

The Globalization of Renaissance Art Apr 04 2021 An interdisciplinary group of scholars evaluates the global discourse on Early Modern European art.

The Globalization of Poverty and the New World Order May 17 2022 In this new and expanded edition of Chossudovskys international best-seller, the author outlines the contours of a New World Order which feeds on human poverty and the destruction of the environment, generates social apartheid, encourages racism and ethnic strife and undermines the rights of women. The result as his detailed examples from all parts of the world show so convincingly, is a globalisation of poverty. This book is a skilful combination of lucid explanation and cogently argued critique of the fundamental directions in which our world is moving financially and economically. In this new enlarged edition -- which includes ten new chapters and a new introduction -- the author reviews the causes and consequences of famine in Sub-Saharan Africa, the dramatic meltdown of financial markets, the demise of State social programs and the devastation resulting from corporate downsizing and trade liberalisation. The book has been published in 11 languages. Over 100,000 copies sold world-wide.

The Globalization of Internationalization Oct 30 2020 *The Globalization of Internationalization* is a timely text which gives voice to emerging perspectives as an increasing range of countries engage in the process of internationalization. The pressure to internationalize cannot be ignored by institutions anywhere in today's world, yet the dominant paradigms in the conception of internationalization traditionally come from the English-speaking world and Western Europe. This

book sets out to offer alternative viewpoints. Different dimensions and interpretations of internationalization in countries and regions whose perspectives have received little attention to date provide food for thought, and help to broaden understanding of its application in alternative contexts. Combining diverse perspectives from around the world, this new volume in the *Internationalization in Higher Education* series seeks answers to key questions such as: What are the main characteristics of internationalization viewed from different cultural and regional backgrounds and how do they differ from traditional models such as in Western Europe, North America and Australasia? What issues in different global contexts have an impact on internationalization processes? What are the key challenges and obstacles encountered in developing innovative and non-traditional models of internationalization? With contributions from world-renowned international authors, and perspectives from countries and contexts seen only rarely in the literature, *The Globalization of Internationalization* offers distinctive overviews and insights while exploring a range of thematic and regional issues arising from these considerations. This will be essential reading both as an academic resource and a practical manual for university leaders, academics, higher education policy advisers and non-governmental organizations which fund higher education.

A Very Short, Fairly Interesting and Reasonably Cheap Book about Globalization May 05 2021 In *Globalization*, the author explores the various intermingled aspects that make up the processes and controversies of globalization; he discusses the history and rise of the concept, sceptical and critical ideas about it, the debates around a global culture, and the implications of globalization for work, business, management and organizations. Conceived by Chris Grey as an antidote to conventional textbooks, each book in the 'Very Short, Fairly Interesting and Reasonably Cheap' series takes a core area of the curriculum and turns it on its head by providing a critical and sophisticated overview of the key issues and debates in an informal, conversational and often humorous way. Suitable for students of international business and anybody interested in the concept of globalization.

The Globalization of Politics Feb 26 2023 The book examines the kind of action that needs to be taken by world bodies in fields such as the trafficking of drugs, international terrorism, world hunger and other pressing problems, and the type of political activity through which individuals can seek to influence them.

The Globalization of Wine Dec 20 2019 *The Globalization of Wine* is a one-stop guide to understanding wine across the world today. Examining a broad range of developments in the wine world, it considers the social, cultural, economic, political and geographical dimensions of wine globalization. It investigates how large-scale changes in production, distribution and consumption are transforming the wine that we drink. Comprehensive background discussion is complemented by vivid case study chapters from a variety of international contributors. Many different countries and regions are covered, including China, the USA and Hong Kong, as are key themes, debates and controversies in contemporary wine worlds. Innovative, up-to-date and interdisciplinary, *The Globalization of Wine* illustrates the diversity and complexity of wine globalization processes across the planet, both in the past and at the present time. It is essential reading for academics and students in food and drink studies, sociology, anthropology, globalization studies, geography and cultural studies. It also provides a jargon-free resource for wine professionals and connoisseurs.

The Globalization of Nothing 2 Jul 19 2022 *The Globalization of Nothing* is back in a revised and completely updated Second Edition. In this reconceptualized volume, author George Ritzer focuses his attention squarely on the processes of globalization and how they relate to McDonaldization. This revision is shorter, more concise, and spends much less space on the Nothing-Something continuum that he introduced in the First Edition.

The Globalization of Irish Traditional Song Performance Mar 15 2022 In *The Globalization of Irish Traditional Song Performance* Susan Motherway examines the ways in which performers mediate the divide between local and global markets by negotiating this dichotomy in performance practice. In so doing, she discusses the globalizing processes that exert transformative influences upon traditional musics and examines the response to these influences by Irish traditional song performers. In developing this thesis the book provides an overview of the genre and its subgenres, illustrates patterns of musical change extant within the tradition as a result of globalization, and acknowledges music as a medium for re-negotiating an Irish cultural identity within the global. Given Ireland's long history of emigration and colonisation, globalization is recognised as both a synchronic and a diachronic phenomenon. Motherway thus examines Anglo-Irish song and songs of the Irish Diaspora. Her analysis reaches beyond essentialist definitions of the tradition to examine evolving sub-genres such as Country & Irish, Celtic and World Music. She also recognizes the singing traditions of other ethnic groups on the island of Ireland including Orange-Order, Ulster-Scots and Traveller song. In so doing, she shows the disparity between native conceptions and native realities in respect to Irish cultural Identity.

The Globalization of Christianity Sep 28 2020 While Christianity appears to be in decline in the West it is growing robustly in the global South. What does this mean for the Christianity that was once considered to be the religion of the West? The new contexts and trajectories require innovative responses and relevant theological reflection in the church. This volume addresses these changes through identifying and analyzing global shifts, highlighting practical innovations in the church that attempt to deal with new trajectories, and proposing theological positions intended to help face the issues and challenges of the twenty-first century. Contributors to this volume include Philip Jenkins (*The Next Christendom, The New Faces of Christianity, God's Continent*), Steven M. Studebaker, Gordon L. Heath, Bradley K. Broadhead, Christof Sauer, Lee Beach, Michael P. Knowles, Peter Althouse, Michael Wilkinson, John H. Issak, David K. Taurus, and Seongho Kang. "The rapidly shifting character of world Christianity demands active responses as well as intense scrutiny. This collection of essays adds significantly to awareness even as it challenges to action. The integration of Canada in the picture is a particularly welcome feature of this thought-provoking book." --Mark A. Noll, Francis A. McAnaney Professor of History, University of Notre Dame, Notre Dame, IN "The Globalization of Christianity provides comprehensive study on a variety of topics that are important for the life and ministry of the church today. After surveying current trends in global Christianity, the book argues for a global theology based on Scripture. Such theology ought to express the voices of all cultures in contemporary world context. . . . The book highlights the church's responsibility toward persecuted Christians using the Armenian genocide a century ago as well as examples of

contemporary persecuted Christians. The variety of topics presented in this study will benefit the global church. This book is highly recommended for the church and the academy." --Wafik Wahba, Associate Professor of Global Christianity, Tyndale Seminary, Toronto, ON, Canada
Gordon L. Heath is Associate Professor of Christian History at McMaster Divinity College, the Director of the Canadian Baptist Archives, and Centenary Chair in World Christianity. His publications include *A War with a Silver Lining: Canadian Protestant Churches and the South African War, 1899-1902* (2009). Steven M. Studebaker is Associate Professor of Systematic and Historical Theology at McMaster Divinity College, where he also serves as the Howard and Shirley Bentall Chair in Evangelical Thought. He writes in the area of Pentecostalism, missions, and Jonathan Edwards.

A Companion to the History of the Book Dec 24 2022 *A COMPANION TO THE HISTORY OF THE BOOK* Edited by Simon Eliot and Jonathan Rose
"As a stimulating overview of the multidimensional present state of the field, the Companion has no peer." Choice "If you want to understand how cultures come into being, endure, and change, then you need to come to terms with the rich and often surprising history Of the book ... Eliot and Rose have done a fine job. Their volume can be heartily recommended. " Adrian Johns, *Technology and Culture*
From the early Sumerian clay tablet through to the emergence of the electronic text, this Companion provides a continuous and coherent account of the history of the book. A team of expert contributors draws on the latest research in order to offer a cogent, transcontinental narrative. Many of them use illustrative examples and case studies of well-known texts, conveying the excitement surrounding this rapidly developing field. The Companion is organized around four distinct approaches to the history of the book. First, it introduces the variety of methods used by book historians and allied specialists, from the long-established discipline of bibliography to newer IT-based approaches. Next, it provides a broad chronological survey of the forms and content of texts. The third section situates the book in the context of text culture as a whole, while the final section addresses broader issues, such as literacy, copyright, and the future of the book.

Social Justice in the Globalization of Production May 25 2020 Md Saidul Islam and Md Ismail Hossain investigate how neoliberal globalization generates unique conditions, contradictions, and confrontations in labor, gender and environmental relations; and how a broader global social justice can mitigate the tensions and improve the conditions.

The Globalization of International Society Jun 06 2021 *The Globalization of International Society* re-examines the development of today's society of sovereign states, drawing on a wealth of new scholarship to challenge the landmark account presented in Bull and Watson's classic work, *The Expansion of International Society* (OUP, 1984). For Bull and Watson, international society originated in Europe, and expanded as successive waves of new states were integrated into a rule-governed order. International society, on their view, was thus a European cultural artefact - a claim that is at odds with recent scholarship in history, politics, and related fields of research. Bringing together leading scholars from Asia, Australia, Europe, and the United States, this book provides an alternative account: it draws out the diversity of polities that existed at around c1500; it shows how interacting identities, political orders, and economic forces were intensifying within and across regions; it details the tangled dynamics that helped to globalize the European

conception of a pluralist international society, through patterns of warfare and between East and West. *The Globalization of International Society* examines the institutional contours of contemporary international society, with its unique blend of universal sovereignty and global law, and its forms of hierarchy that coexist with commitments to international human rights. The book explores the multiple forms of contestation that challenge international society today: contests over the limits of sovereignty in relation to cosmopolitan conceptions of responsibility, disputes over global governance, concerns about persistent economic, racial, and gender-based patterns of disadvantage, and lastly the threat to the established order opened up by the disruptive power of digital communications.

The Globalization of NATO Jan 13 2022 Spawned by the Cold War, NATO's existence was justified by Soviet threats to Western Europe. That *raison d'être* is long gone with the collapse of the Soviet Union and the end of the Cold War. Still NATO globalized relentlessly, moving from defensive to offensive under pretexts of humanitarianism, starting with Yugoslavia, then East Africa, Afghanistan, and most recently Libya, acting as an arm of the Pentagon. The danger to global equilibrium is a growing NATO being expanded further by American and British ambitions into a monster military force of world proportions, way beyond any Atlantic or European alliance. NATO expansion, intrusive military hardware, such as cyber technology/interference and the murderous capacity of drones is threatening North/South peace. The creeping NATO expansion into Asia, the attempt to surround Russia, China and others can only end badly for the billions of human beings involved. The recent mini-US occupation of Australia, the interference in the ASEAN countries by US arms dealers and naval forces, the menacing presence of US aircraft carriers in the Indian Ocean, the South China Sea and the Strait of Malacca should remind historians of just why the Japanese considered it necessary to attack Pearl Harbor to end the US naval strangle hold imposed upon them. NATO as it expands today is absolutely not what the world of struggling economies and deprived populations require. It is nothing, but a negative force. "I hope this book will be read by very, very many who can turn this morbid fascination with violence into constructive conflict resolution." ♦Johan GALTUNG, Professor Emeritus of Peace Studies and Sociology at the University of Oslo "Mahdi Darius Nazemroaya's prolific writings give us a comprehensive understanding of the character of the military thrust and it's all out, no holds barred STRATEGIC plans and moves to invade, occupy and plunder the resources of nations, inflict unprecedented barbaric acts on the civil populations. He is one the prescient thinkers and writers in contemporary times who deserves to be read and acted upon by people with a conscience and concern for humanity's future". ♦VISHNU BHAGWAT, Admiral and Chief of the Naval Staff of India (1996-1998): Mumbai, India. "This book is a must read for those committed to reversing the tide of war and imperial conquest by the world's foremost military machine". ♦MICHEL CHOSSUDOVSKY, Professor Emeritus

The Globalization of Russian Gas Jan 01 2021 Since the collapse of the Soviet Union, Gazprom has dominated the Russian gas industry. However, the markets in which it operates have changed dramatically, with the company increasingly being challenged at home and abroad. At this critical moment, this insightful book analyses the involvement of the Russian gas industry in the changing international gas market and the dramatic implications for Russia's role as a global supplier of gas in the future.

The Globalization of Regional Clusters Oct 10 2021 Addressing the role of regional clusters in the context of ongoing globalization, this timely book investigates the two seemingly competing trends of globalization and localization from both quantitative and qualitative perspectives. International case studies offer pioneering insights into the internationalization process of regional clusters and the effect of this on regional as well as firm performance.

The Globalization of Retailing Mar 03 2021 This path-breaking collection brings together seminal contributions from the burgeoning multidisciplinary literature on the globalisation of retailing.

Globalisation and Ideology in Britain Aug 28 2020 The "globalization" concept has become ubiquitous in British politics, as it has in many countries of the world. This exciting new book examines discourse on foreign economic policy to determine the impact of globalization across the ideological landscape of British politics. The book critically interrogates the assumption that the

idea of globalization is derivative solely of neo-liberal ideology by profiling the discourse on globalization of five political groups involved in making and contesting British foreign economic policy between 1997 and 2009: New Labor, International Financial Services London, the Liberal Democrats, Oxfam and the Socialist Workers Party. In addition to the relationship between neo-liberalism and globalization, it also explores the core meaning of the idea of globalization, the implications for the principle of free trade, the impact on notions of the state, nation-state and global governance, and whether globalization means different things across the ideological spectrum. Topically, the book examines how the responses to the global financial crisis have been shaped by globalization discourse and the value of ideology as an analytical concept able to mitigate debates on the primacy of material and ideational explanations in political economy. It will be of vital use to students and scholars of global economic change, financial crisis, the state, the impact of globalization on national governance, and those interested in ideological change.

Transnational Hallyu Jul 27 2020 While the influence of Western, Anglophone popular culture has continued in the global cultural market, the Korean cultural industry has substantially developed and globally exported its various cultural products, such as television programs, pop music, video games and films. The global circulation of Korean popular culture is known as the Korean wave, or Hallyu. Given its empirical scope and theoretical contributions, this book will be highly appealing to any scholar or student interested in media globalization and contemporary Asia popular culture. These chapters present the evolution of Hallyu as a transnational process and addresses two distinctive aspects of the recent Hallyu phenomenon - digital technology integration and global reach. This book will be the first monograph to comprehensively and comparatively examine the translational flows of Hallyu through extensive field studies conducted in the US, Canada, Chile, Spain and Germany.

Surveillance, Privacy, and the Globalization of Personal Information Jun 25 2020 Covering a range of countries from China, Japan, Brazil, and Mexico to the United States, Canada, Spain, France, and Hungary, this volume reveals the similarities and differences among populations in their reactions to the surveillance era and in the amount each knows about government monitoring. Topics deal with pertinent issues such as global, national, and local transfer of personal information about citizens' financial transactions, work, and travel. The authors also analyse the collaboration of government and the private sector in the collection and transfer of private information. A remarkable resource in understanding attitudes towards surveillance, security, and privacy, *Surveillance, Privacy, and the Globalization of Personal Information* is indispensable for anyone curious about what governments, the private sector, and citizens know about each other.

The Globalization of Political Violence Aug 08 2021 The events of the 11th of September 2001 revealed most dramatically that globalization has a shadow. While large sections of the world's population enjoy the perceived benefits of globalization, others seek to utilize globalization for their own politically violent purposes. If 9/11 demonstrated anything, it is that globalization can as readily facilitate violence and insecurity as it can produce stability, prosperity and political order. This edited volume offers important new methodological and multi-disciplinary insights into the study of globalization and political violence. It brings together studies from various disciplines in order to address the precise nature of the relationship between globalization and political violence as it seeks to offer new theoretical and empirical understandings of the types of actors involved in political violence, either as perpetrators or victims. Examples of the studies include the changing character of state militaries and state-to-state conflict under globalization, the emergence of 'new wars' fuelled by globalization, the role of state militaries in intervention, new forms of violence directed by states against refugees and anti-globalization protesters, the role of terrorist actors post-9/11, networks for the proliferation of weapons of mass destruction and the rise of private military firms amongst others. *The Globalization of Political Violence* will be of interest to students and researchers of politics, international relations, security studies and international political economy.

The Globalization of Addiction Nov 23 2022 Addiction is increasing all around the world, and the conventional remedies don't work. *The Globalization of Addiction* argues that the cause of this failure to control addiction is that past treatments have focused too single-mindedly on the afflicted individual addict. This book presents a radical rethink about the nature of addiction.

The Globalization of Inequality Feb 20 2020 Why national and international equality matter and

what we can do to ensure a fairer world In *The Globalization of Inequality*, distinguished economist and policymaker François Bourguignon examines the complex and paradoxical links between a vibrant world economy that has raised the living standard of over half a billion people in emerging nations such as China, India, and Brazil, and the exponentially increasing inequality within countries. Exploring globalization's role in the evolution of inequality, Bourguignon takes an original and truly international approach to the decrease in inequality between nations, the increase in inequality within nations, and the policies that might moderate inequality's negative effects. Demonstrating that in a globalized world it becomes harder to separate out the factors leading to domestic or international inequality, Bourguignon examines each trend through a variety of sources, and looks at how these inequalities sometimes balance each other out or reinforce one another. Factoring in the most recent economic crisis, Bourguignon investigates why inequality in some countries has dropped back to levels that have not existed for several decades, and he asks if these should be considered in the context of globalization or if they are in fact specific to individual nations. Ultimately, Bourguignon argues that it will be up to countries in the developed and developing world to implement better policies, even though globalization limits the scope for some potential redistributive instruments. An informed and original contribution to the current debates about inequality, this book will be essential reading for anyone who is interested in the future of the world economy.

[The Globalization of Pentecostalism](#) Feb 02 2021 ""This book, comprising a sweeping range of well-documented articles on Pentecostal theology, hermeneutics, missiology, and the social sciences, provides for the student of Pentecostals a window on contemporary Pentecostal scholarship that discloses vigorous engagement with critical issues. The editors have provided a resource that promises to stimulate further research and reflection."" William Menzies, Chancellor, Asia Pacific Theological Seminary, Baguio City, Philippines. Excerpts from Respondents Jose Miguez Bonino on Changing Paradigms: ""An updating of Pentecostal thinking on a whole spectrum of theological disciplines: systematics, missiology, biblical studies, history, and praxis . . . a wealth of information and reflection."" Vinay Samuel on Global Culture: ""Global Pentecostalism can bring a new impetus to the movement for Christian unity . . . it has much to contribute to the shaping of a new 21st century definition for Christian unity."" Harvey Cox on A Postmodern World: ""There was a time when Pentecostals warned themselves and anyone else who would listen not to become entangled with and dependent on the 'things of the world.' Pentecostals were suspicious of the passing fads of stylish clothing, the latest hairdo, and glitzy new consumer products. They were also, as it turns out rightly, suspicious that the powerful new mass media could be a seductive lure, tricking people into the empty values of the consumer market culture. Perhaps it is time for a rebirth of that ethic of simplicity, that suspicion for 'the things for the world' for which the early Pentecostals were so famous.""
