The Idea-a-day Guide to Super Selling and Customer Service Jul 08 2021 How do salespeople become successful? According to the author, the only surefire way is to absorb new ideas and information one day at a time. That's the premise behind this sales guide that contains 250 "small" ideas that readers can put to work immediately to make a big improvement in selling and customer service effectiveness. Two basic formats are used for these idea-starters: FYI sections, simple checklists such as key points to remember when making a sales presentation, and forms and grids that guide the rep through such basic tasks as preparing a territory analysis or identifying specific customer service problems. Nearly 100 illustrations, charts, and worksheets are included.

Landmarks in Earth Reinforcement Jan 14 2022 Earth reinforcing techniques are increasingly becoming a useful, powerful and economical solution to various problems encountered in geotechnical engineering practice. Expansion of the experiences and knowledge in this area has succeeded in developing new techniques and their applications to geotechnical engineering problems. In order to discuss the latest experiences and knowledge, and with the purpose of spreading them all over the world for further development, the IS Kyushi conference series on the subject of earth reinforcement have been held in Fukuoka, Japan, every four years since 1988. This fourth symposium, entitled "Landmarks in Earth Reinforcement", is a continuation of the series IS Kyushu conferences, and also aims at being one of the landmarks in the progress of modern earth reinforcement practice. The first volume contains 137 papers selected for the symposium covering almost every aspect of earth reinforcement. The second volume contains texts of the special and keynote lectures.
