Corvette from the Inside Feb 04 2021 Celebrations begin this year to mark the 50th Anniversary of the Chevrolet Corvette. There's no one more qualified than Dave McLellan to reflect upon the remarkable endurance of this legendary American icon. Dave McLellan belongs to a select group by having been the second of only three Corvette Chief Engineers to date. He is also the very first Corvette Chief Engineer to sit down and write his view of the incredible story of America's foremost sports car. In *Corvette from the Inside* Dave McLellan talks about his years at the center of Corvette Engineering, his take on Corvette history and many of the details that have made the Corvette a perennial favorite with millions of Americans. As McLellan describes the incredible highs and lows in the life of the Corvette, he also paints the bigger picture of the American auto industry's ability to rebuild itself whenever its survival is threatened. McLellan uses every tool at his disposal to tell his story, including original sketches and charts drawn by him exclusively for this book, scores of archival photos from GM, photos from his personal collection, and of course his own first-hand memories of 32 years at General Motors. Whether you're interested in the Corvette from an engineering perspective or simply a fan of the celebrated sports car, you'll want to own a copy of Dave McLellan's *Corvette from the Inside*.

A Cruel and Shocking Act Mar 08 2021 The questions have haunted our nation for half a century: Was the President killed by a single gunman? Was Lee Harvey Oswald part of a conspiracy? Did the Warren Commission discover the whole truth of what happened on November 22, 1963? Philip Shenon, a veteran investigative journalist who spent most of his career at The New York Times, finally provides many of the answers. Though A CRUEL AND SHOCKING ACT began as Shenon's attempt to write the first insider's history of the Warren Commission, it quickly became something much larger and more important when he discovered startling information that was withheld from the Warren Commission by the CIA, FBI and others in power in Washington. Shenon shows how the commission's ten-month investigation was doomed to fail because the man leading it - Chief Justice Earl Warren - was more committed to protecting the Kennedy family than getting to the full truth about what happened on that tragic day. A taut, page-turning narrative, Shenon's book features some of the most compelling figures of the twentieth century-Bobby Kennedy, Jackie Kennedy, Lyndon Johnson, J. Edgar Hoover, Chief Justice Warren, CIA spymasters Allen Dulles and Richard Helms, as well as the CIA's treacherous 'molehunter,' James Jesus Angleton. Based on hundreds of interviews and unprecedented access to the surviving commission staffers and many other key players, Philip Shenon's authoritative, scrupulously researched book will forever change the way we think about the Kennedy assassination and about the deeply flawed investigation that followed.

The Origin of Competitive Strength Dec 29 2022 When the war ended on August 15, 1945, I was a naval engineering cadet at the Kure Navy Yard near Hiroshima, Japan. A week later, I was demobilized and returned to my home in Tokyo, fortunate not to find it ravaged by firebombing. At the beginning of September, a large contingent of the American occupation forces led by General Douglas MacArthur moved its base from Yokohama to Tokyo. Near my home I watched a procession of American military motor vehicles snaking along Highway 1. This truly awe-inspiring cavalcade included jeeps, two-and-a-half-ton trucks, and enormous trailers mounted with tanks and artillery. At the time, I was a 21-year-old student in the Machinery Section of Engineering at the Tokyo Imperial University. Watching that magnificent parade of military vehicles, I was more than impressed by the gap in industrial strength between Japan and the U. S. That realization led me to devote my whole life to the development of the Japanese auto industry. I wrote a small article concerning this incident in Nikkei Sangyo Shimbun (one of the leading business newspapers in Japan) on May 2, 1983. The English translation of this story was carried in the July 3, 1983 edition of the Topeka Capital-Journal and the September 13, 1983 issue of the Asian Wall Street Journal. The Topeka Capital-Journal headline read, "MacArthur's Jeeps Were the Toyota Catalyst."

The Ultimate Question 2.0 (Revised and Expanded Edition) Apr 08 2021 In the first edition of this landmark book, business loyalty guru Fred Reichheld revealed the question most critical to your company's future: "Would you recommend us to a friend?" By asking customers this question, you identify detractors, who sully your firm's reputation and readily switch to competitors, and promoters, who generate good profits and true, sustainable growth. You also generate a vital metric: your Net Promoter Score. Since the book was first published, Net Promoter has transformed companies, across industries and sectors, constituting a game-changing system and ethos that rivals Six Sigma in its power. In this thoroughly updated and expanded edition, Reichheld, with Bain colleague Rob Markey, explains how practitioners have built Net

Promoter into a full-fledged management system that drives extraordinary financial and competitive results. With his trademark clarity, Reichheld:

- Defines the fundamental concept of Net Promoter, explaining its connection to your company's growth and sustained success
- Presents the closed-loop feedback process and demonstrates its power to energize employees and delight customers
- Shares new and compelling stories of companies that have transformed their performance by putting Net Promoter at the center of their business

It ends just over a decade later, with a remarkable turn of the tables, as Japan's car industry falters and America's Big Three emerge as formidable global competitors. *Comeback* is a story propelled by larger-than-life characters -- Lee Iacocca, Henry Ford II, Don Petersen, Roger Smith, among many others -- and their greed, pride, and sheer refusal to face facts. But it is also a story full of dedicated, unlikely heroes who struggled to make the Big Three change before it was too late.
