Pure Economic Loss Jan 06 2021 Today, pure economic loss is probably one of the main problems in expanding tort law. In some countries, it is associated with uncontrollable and unforeseeable floods of claims to which there may be

no end. In this book, leading authors shed light on the subject. An attempt is made to include a possible road towards a common European denominator on compensation for pure economic loss. The perspectives presented in this book are manifold.

Contributions on the following topics are included: pure economic loss under specific national legal systems and from several comparative law perspectives, legal and

economic analyses, tortious liability of banks and auditors, and an outlook on further developments.

Biscriptality Nov 03 2020 Serbs write their language in Cyrillic or Latin letters in seemingly random distribution. Hindi-Urdu is written in Nagari by Hindus and in the Arabic script by Muslims. In medieval Scandinavia the Latin alphabet, ink and parchment were used for texts 'for eternity', whereas ephemeral messages were

carved into wood in runes. The Occitan language has two competing orthographies. German texts were set either in blackletter or in roman type between 1749 and 1941. In Ancient Egypt the distribution of hieroglyphs, hieratic and demotic was much more complex than commonly assumed. Chinese is written with traditional and simplified characters in different countries. This collective monograph, which includes contributions from eleven specialists in different philological areas, for the first time develops a coherent typological model on the basis of sociolinguistic and graphematic criteria to

describe and classify these and many other linguistic situations in which two or more writing systems are used simultaneously for one and the same language.

Reading Song Lyrics Dec 29
2022 Reading Song Lyrics
offers the first systematic
introduction to lyrics as a
vibrant genre of (performed)
literature. It takes lyrics
seriously as a complex form of
verbal art that has been
unjustly neglected in literary,
music, and, to a lesser degree,

cultural studies, partly as it cuts squarely across institutional boundaries. The first part of this book accordingly introduces a thoroughly transdisciplinary interpretive framework. It outlines theoretical approaches to issues such as performance and performativity, generic convention and cultural capital, sound and songfulness, mediality and musical multimedia, and step by step applies them to the example of a single song. The second part then offers three extended case studies which showcase the larger cultural and historical viability of this model. Probing into the relationship between lyrics and the ambivalent

performance of national culture in Britain, it offers exemplary readings of a highly subversive 1597 ayre by John Dowland, of an 1811 broadside ballad about Sara Baartman, 'The Hottentot Venus', and of a 2000 song by 'jungle punk' collective Asian Dub Foundation. Reading Song Lyrics demonstrates how and why song lyrics matter as a paradigmatic art form in the culture of modernity.

Slavery and South Asian

History Mar 08 2021 "[W]ill be welcomed by students of comparative slavery.... [It] makes us reconsider the significance of slavery in the subcontinent." -- Edward A. Alpers, UCLA Despite its

pervasive presence in the South Asian past, slavery is largely overlooked in the region's historiography, in part because the forms of bondage in question did not always fit models based on plantation slavery in the Atlantic world. This important volume will contribute to a rethinking of slavery in world history, and even the category of slavery itself. Most slaves in South Asia were not agricultural laborers, but military or domestic workers, and the latter were overwhelmingly women and children. Individuals might become slaves at birth or through capture, sale by relatives, indenture, or as a result of accusations of

criminality or inappropriate sexual behavior. For centuries, trade in slaves linked South Asia with Africa, the Middle East, and Central Asia. The contributors to this collection of original essays describe a wide range of sites and contexts covering more than a thousand years, foregrounding the life stories of individual slaves wherever possible. Contributors are Daud Ali, Indrani Chatterjee, Richard M. Eaton, Michael H. Fisher, Sumit Guha, Peter Jackson, Sunil Kumar, Avril A. Powell, Ramya Sreenivasan, Sylvia Vatuk, and Timothy Walker. [The Law and Economics of Irrational Behavior](#) May 10 2021 This collection of essays

explores the most relevant developments at the interface of economics and psychology, giving special attention to models of irrational behavior, and draws the relevant implications of such models for the design of legal rules and institutions. The application of economic models of irrational behavior to law is especially challenging because specific departures from rational behavior differ markedly from one another. Furthermore, the analytical and deductive instruments of economic theory have to be reshaped to deal with the fragmented and heterogeneous findings of psychological research, turning towards a more experimental

and inductive methodology. This volume brings together pioneering scholars in this area, along with some of the most exciting developments in the field of legal and economic theory. Areas of application include criminal law and sentencing, tort law, contract law, corporate law, and financial markets.

The Meaning of Life Aug 13 2021 Love is divine and Divinity is love personified. The author explains that divine love is the meaning of life and shows the reader how everyone can attain peace, love, immortality and happiness by the easy method of mantra meditation. The book elaborately describes love as

the ultimate reality, love is divine, reincarnation and its significance, immortality and bliss, law of karma, mind and meditation, bhakti yoga and the art of dying. The book also presents a unified system of spiritual knowledge and a synthesis of science and religion by explaining the fundamentals of life and consciousness and giving a comparison of the characteristics of life and matter. Included are some fascinating tales from ancient Vedic scriptures which illustrate the philosophy with the medium of real life drama. Topics covered include: * The Meaning of Life * Love is the ultimate reality * Immortality

and bliss * Meditation and bhakti yoga * Reincarnation and its significance * Laws of karma, morality and peace * Proof of God's existence * Location of soul * Life is but a dream * The art of dying Love is the highest value. From our experience we can surmise that the feeling of love is the most pleasing and gives us ecstasy and pleasure. The feeling of love is cherished by all and the exchange of feelings of love is remembered fondly within our hearts. Love nourishes us and really love is our life. Without love life is meaningless. Indeed the meaning of life is love. Our present education system does not teach students the meaning of life. The tragedy of life is

that, consequently, a person may go through life without ever knowing the meaning of life or why he came to this world in the first place. trends in explaining and understanding economic behavior in a social world. It provides insights from both fields, communicated by eloquent scholars, and demonstrates through recent research and theory how economic behaviors may be more effectively examined using a combination of both fields. Social Psychology and Economics comes at a particularly fitting time, as a psychological approach to economics has begun to flourish in recent years, and papers exploring the intersection of these two disciplines have appeared in peer-reviewed journals, opening a dynamic dialogue

between previously separated fields. This volume, the first in the Society for Judgment and Decision Making Series since acquired by Psychology Press, includes chapters by economists and psychologists. It addresses a variety of economic phenomena within a social context, such as scarcity and materialism, emphasizing the importance of integrating social psychology and economics. Social Psychology and Economics is arranged in seven parts that discuss: an introduction to the topic; preferences, utility, and choice; emotions; reciprocity, cooperation, and fairness; social distance; challenges to social psychology and

economics; and collaborative reflections and projections. The market for this book is students, researchers, and professionals in the disciplines of economics, psychology, business, and behavioral decision making. Graduate students and upper-level undergraduate students will consider it a useful supplemental text.

The Forgotten Rohingya: Their Struggle for Human Rights in Burma Apr 28 2020 Imagine that you are living in a country that does not recognize you as a citizen in spite of the fact that your people have maintained a continuous existence there for

several centuries. If that was not enough of a traumatic experience, consider that because of your racial, ethnic and religious identity other ethnic groups that are fighting the brutal military regime in your country for their self-determination and human rights consider you as "settlers" from a neighboring country. It must be your worst nightmare when you realize that half of your people (almost 2 million) have been forced to take asylum or refuge outside, and you may be the next in line to seek a way out of this living hell of xenophobia, discrimination, intolerance, racism and bigotry. The victims are the Rohingya people of

Burma (Myanmar). Because of their religion, race, ethnicity, color and language they are the most discriminated and persecuted people in our planet. Some argue that they are also one of the most forgotten. The Myanmar military regime has denied their citizenship rights, claiming that they are illegal settlers from nearby Bangladesh who have moved into Arakan during the British occupation of Burma in the 19th century. Is there any truth to such allegations? Does the military junta apply the same litmus test against all ethnic and religious groups in matters of citizenship? What is the basis for a nation's claim to

self-determination? Must a people wander in the wilderness for two millennia and suffer repeated persecution, humiliation and genocide to qualify? How about the rights of a minority community to survive with their culture and traditions intact? Do they need to be 'children' of a 'higher' God to qualify? What makes the children of a 'lesser' God to be forgotten and denied the same treatment and privilege that was granted hitherto to other nations? For much of its history, Burma has been ruled by military. As has once again been demonstrated recently they are brutal, savage and tyrannical. They have ignored

people's verdict in the election and imprisoned leaders and workers of the democracy movement. They cannot be guarantors or protectors of human rights of anyone, let alone religious and ethnic minorities. Do you know that the Rohingyas - face cruel restriction on marriage and those married without government authorization are paraded naked on the streets?- Are restricted from traveling outside their villages?- Have no legal right to own land or property?- Are restricted from getting education, finding work, getting medical and health care? - Are subjected to land confiscation, forced eviction and destruction of

homes, offices, schools, mosques, shops, etc., and face religious persecution on a daily basis? - Are victims of staged riots, forced starvation, arbitrary taxation, extortion, arrest, torture and extra-judicial killings?- Are forced to do slave labor for establishment of government infrastructure, new Buddhist settlements, pagodas and monasteries on evicted lands with the government intent of changing the landscape and demography of Arakan?- Are forced to convert to Buddhism &/or worship Buddha? Do you know that when it comes to the Rohingya people, the Burmese government doesn't uphold any of the Articles of the Universal

Declaration of Human Rights? Nothing can excuse us from the criminal silence that we practice in not voicing our concern about the plight of the Rohingya people. "The Forgotten Rohingya" makes a strong case for mobilizing concerned citizens of our globe to ease their sufferings. The author analyzes origin of the Rohingya people and offers ideas to solve their problem. The author also discusses problems of xenophobia and racism, which are so rampant in this country of many races, ethnicities and religions. He also analyzes the role of Daw Suu Kyi and failure of Burma's orange revolution.

The Problem of a National
Script for India Jan 24 2020
Krishna Krishna Oct 27 2022

Indira Parthasarathy calls Krishna a metaphor that fulfils all the dark and lurking desires in our deep Unconscious and

represents the collective vision of the community as a whole. In his view Krishna cannot be judged by the moral yardstick set for others. Krishna's magical charm has always appealed to people of all generations. People from different lifestyles have interpreted his ideologies based on their values. He exists in the imagination of the Indian people as the fountainhead of eternal energy, pranks and wisdom. His godfather-like relationship with the Pandavas, his political strategies and his solutions to various problems continue to impress us even in the twenty-first century. Narada, the narrator of the novel, begins the story with Jara the hunter shooting an arrow at

Krishna's feet in the aftermath of the Kurukshetra war. Narada's witticisms enhance the spirit of the story. He unfolds the life of Krishna as revealed to Jara by Krishna himself. The pranky young Krishna played on the gopikas, his battle with various evil forces, his role in the lives of the Pandavas and the part he played in the Kurukshetra war all these form interesting episodes in Krishna's life. Indira Parthasarathy's Krishna Krishna is more than the the lord's story as told in the Harivamsam, Sri Bhagavatam, Vishnu Purana and the Mahabharata. Here he is the hero, the central figure around whom things happen

unlike the Krishna of the epics. The novel gives us the essence of the Krishnavatara, revealing the surpassing love and compassion with which Krishna blesses all living things. The tale is told in a contemporary idiom, sparkling with reference to events and personalities across aeons.

The Bengal Delta Dec 05 2020 With a focus on colonial Bengal, this book demonstrates how the dynamics of agrarian prosperity or decline, communal conflicts, poverty and famine can only be properly understood from an ecological perspective as well as discussions of state's coercion and popular resistance, market forces and

dependency, or contested cultures and consciousness. *Poonachi, Or, the Story of a Black Goat* Jan 30 2023 "Through a seeming act of providence, an old couple receives a day-old female goat kid as a gift from the cosmos. Thus begins the story of Poonachi, the little orphan goat, who survives against the odds and carries the burden of being different all her life long. As you follow her story from forest to habitation, independence to motherhood, you recognise in its significant moments the depth and magnitude of your own fears and longings, fuelled by instinct for survival that animates all life."--Provided by

Timescapes of Modernity Jul

12 2021 Timescapes of

Modernity explores the relationship between time and environmental and socio-cultural concerns. Using examples such as the BSE crisis, the Sea Empress oil pollution and the Chernobyl radiation Barbara Adam argues that environmental hazards are inescapably tied to the successes of the industrial way of life. Global markets and economic growth; large-scale production of food; the speed of transport and communication; the 24 hour

society and even democratic politics are among the invisible hazards we face. With this unique 'timescape' perspective the author dislodges assumptions about environmental change, enables a rethinking of environmental problems and provides the potential for new strategies to deal with environmental hazards.

32 Forms of God Ganesh Apr

20 2022 The book 32 Forms of God Ganesh is trying to pass the information regarding different forms of God Ganesh, also known as Ganapthy, Vinayaka, Ganesha, etc. God Ganapthy is one among the main God forms of Hinduism. The Book also includes

Ganesha's 108 names with meaning. Here the book also shares different Ganapathy mantras of each form and also a Ganapathy stotra. You can also find information about main Lord Ganesh temples for you to visit in India.

Fundamentally the scope of the book is to provide rare details like mentioned above, rather than going deep into Indian spirituality. This book, 32 Forms of God Ganesh, will be a better choice for adding up your rare collection..

The Languages and

Linguistics of South Asia Oct

03 2020 With nearly a quarter of the world's population, members of at least five major language families plus several

putative language isolates, South Asia is a fascinating arena for linguistic investigations, whether comparative-historical linguistics, studies of language contact and multilingualism, or general linguistic theory. This volume provides a state-of-the-art survey of linguistic research on the languages of South Asia, with contributions by well-known experts. Focus is both on what has been accomplished so far and on what remains unresolved or controversial and hence offers challenges for future research. In addition to covering the languages, their histories, and their genetic classification, as well as phonetics/phonology,

morphology, syntax, and sociolinguistics, the volume provides special coverage of contact and convergence, indigenous South Asian grammatical traditions, applications of modern technology to South Asian languages, and South Asian writing systems. An appendix offers a classified listing of major sources and resources, both digital/online and printed.

They Came They Conquered Jul 24 2022 Beginning with Timur, Sultan Ghazni who invaded India seventeen times at the head of a large army,

plundering the country of its great wealth, to the last Mughal Emperor Bahadur Shah, banished from the country by the British - details and descriptions of every incident and each king astonish and exhilarate us. The approach is direct, simple and unambiguous. From Timur to Bahadur Shah it is one engaging account. The book should find a place in every household, as an authentic account of ourselves. A flawless portrait. -THE HINDU Madhan while explaining historical events uses modern similes... In spite of being a cartoonist in his previous avatar Madhan did not caricature the Moghul Emperors and their subjects. I

Annual Bibliography of Indian Archaeology Sep 25 2022 When in 1925 the initiative was taken by the Kern Institute Leiden to start the publication of an Annual Bibliography of Indian Archaeology, the Board of the Institute could do so with confidence, as it was sure of the assistance of scholars all over the world as to the supply of publications as well as of information. With the help of this material a bibliography could be compiled by a small team of highly skilled archaeologists who could

devote part of their time and attention to such a task for the benefit of their colleagues in all parts of the world. Times since then have changed, and circumstances have become less and less favourable. To find classified labour for the compilation and editing of such a bibliography has become extremely difficult, and this the more so as this work cannot be paid in accordance with the standards for this branch of classified documentation. The work has to be done as a part of the daily routine work even a scholar in today's time is expected to perform, and which he cannot but consider as being detrimental to the performing of those parts of his

work, that demand the use of those qualifications that actually make him the expert. *Children in New Religions* Jan 18 2022 The late 1960s and early 1970s constituted a remarkable period for spiritual experimentation and for the proliferation of new religious groups. Now the children born into these religions have come of age. While their parents made the decision as adults to embrace alternative religious practices, the children have been raised with a very different orientation toward the larger society. While they take their religious communities for granted, many of these children gaze with curiosity at the surrounding secular world

which their parents, not they, chose to reject. The contributors to this volume examine children from many different alternative religious movements worldwide, including The Family, Hare Krishna, Wiccans, and Pagans, Messianic Communities, and the Rajneesh (Osho) Movement. The essays explore two general questions: 1) What impact does the presence of children have on a new religion's lifestyle and chance of surviving into the future? 2) Is child abuse more likely to occur in unconventional religions, or are children born into them, the 'new' religions have grown up and have become an important and

rapidly changing social force that we cannot reasonably dismiss or wisely ignore **Alderdene** Nov 15 2021 **Emotions and Mind** May 22 2022 This book first looks at what is meant by motivation, the kinds of motivation that occur and its neurological basis. It then goes on to examine addiction and its relevance to understanding the biological and psychological basis of motivation and vice versa. Some of the areas covered by research into emotions are highlighted. It considers the universality, features and function of emotions, the brain structures and pathways involved, and the different kinds of emotional

disorders that can occur. It then deals with schizophrenia, one of the most serious, widespread, and disabling mental disorders. It explores the question of how much understanding can be obtained about brain function by examining the brain and behaviour of people whose thoughts and feelings are affected by serious mental illness. 'Consciousness revisited' briefly revisits the issue of human consciousness and self-awareness in the light of what has been covered in previous chapters, particularly those in Book 6.

Misunderstanding Cults Oct 15 2021 Misunderstanding Cults provides a uniquely balanced contribution to what has become a highly polarized area of study. Working towards a moderate "third path" in the heated debate over new religious movements or cults, this collection includes contributions from both scholars who have been characterized as "anticult" and those characterized as "cult-apologists." The study incorporates multiple viewpoints as well as a variety of theoretical and methodological perspectives, with the stated goal of

depolarizing the discussion over alternative religious movements. A prominent section within the book focuses explicitly on the issue of scholarly objectivity and the danger of partisanship in the study of cults. The collection also includes contributions on the controversial and much misunderstood topic of brainwashing, as well as discussions of cult violence, children brought up in unconventional religious movements, and the conflicts between alternative religious movements and their critics. Unique in its breadth, this is the first study of new religious movements to address the main points of controversy within the

field while attempting to find a middle ground between opposing camps of scholarship. **Macnab's Backache** Aug 25 2022 Macnab's Backache, Fourth Edition is an enhancement and update of Ian Macnab's classic principles of spinal anatomy and pathology, which form the cornerstones of clinical evaluation and treatment of spinal disorders. This edition is geared to practitioners in a wide variety of specialties and emphasizes the initial evaluation and treatment of patients with back pain and/or sciatica. The book thoroughly describes and illustrates the pathoanatomy of various spinal disorders and its correlation with clinical

symptoms. Also included are chapters on history taking, examination of the back, differential diagnosis of low back pain, pain management, and a new chapter on injections.
