**Adhesion 9** Dec 30 2020 The use of adhesives continues to increase both in importance and in areas of use, particularly in engineering construction. Alongside this is a steady growth in our fundamental understanding of the factors involved. Both of these topics are reflected in various meetings and nowhere more consistently than at the Annual Conference on Adhesion and Adhesives at The City University each Easter. 1984 was the twenty-second of these when, once again, people came from far and near to present accounts of their work and to discuss them in all their variety. This publication makes the papers available to the wider audience who were not able to attend in person. In presenting this volume, may I express sincere gratitude, both personally and on behalf of the University, to all those who contributed in so many and various ways to the conference. K. W. ALLEN Contents Preface. v 1. Textile-to-Rubber Adhesion: Theory and Practice David B. Wootton (Milliken Industrials Ltd, Wellington Mill, Wellington Street, Bury, Lancashire BL8 2AY, UK) 2. *Consumer Financial Vulnerabilities in Malaysia* Dec 10 2021 This book examines four aspects of Malaysian consumers' financial vulnerabilities. First, it discusses the issue of over-indebtedness due to excessive reliance on consumer financing. Second, the book investigates why Malaysians are ill-prepared for their golden years in terms of retirement planning and savings. Third, it delves into the problem of financial fraud victimisation among Malaysian consumers. Fourth, the book analyses the reasons why Malaysians are underinsured despite the distinct benefits of life insurance. Drawing on secondary data from government agencies such as Bank Negara Malaysia, Employees' Provident Fund, Royal Malaysian Police and the Department of Statistics Malaysia, each chapter presents statistical trends reflecting the four financial vulnerabilities. In-depth analyses of the literature reveal three broad psychological domains (cognition, motivation, and disposition) and specific psychological factors (e.g. over-confidence, self-control, social norms, and financial literacy) that significantly influence consumers' financial decisions. The four financial vulnerabilities investigated in this book directly address the strategic outcomes of the Malaysian National Strategy for Financial Literacy 2019–2023 (MNSFL), a five-year plan to elevate the financial literacy of Malaysians. Finally, the book presents strategic recommendations that are believed to be useful guidelines for relevant policymakers to promote positive financial behaviours and rational attitudes among consumers. It will be a useful resource for policymakers and researchers interested in economic psychology and behavioural finance.
