Encounters with Violence in Latin America Apr 01 2021 Latin America is both the world's most urbanized fastest developing regions, where the links between social exclusion, inequality and violence are clearly visible. The banal, ubiquitous nature of drug crime, robbery, gang and intra-family violence destabilizes countries' economies and harms their people and social structures. *Encounters with Violence & Crime in Latin America* explores the meaning of violence and insecurity in nine towns and cities in Columbia and Guatemala to create a framework of how and why daily violence takes place at the community level. It uses pioneering new methods of participatory urban appraisal to ask local people about their own perceptions of violence as mediated by family, gender, ethnicity and age. It develops a typology which distinguishes between the political, social, and economic violence that afflicts communities, and which assesses the costs of consequences of violence in terms of community cohesion and social capital. This gives voice to those whose daily lives and dominated by widespread aggression, and provides important new insights for researchers and policy-makers.

Private Capital Markets Nov 27 2020 Praise for Private Capital Markets Valuation, Capitalization, and Transfer of Private Business Interests SECOND EDITION "In the years since publication of the first edition of Private Capital Markets, the concepts and ideas that it presents have been widely accepted by progressive members of the business valuation community. Now with the Second Edition, author Rob Slee has included empirical data on capital markets for mid-sized businesses. This book remains a must for everyone involved in appraising, buying, selling, or financing privately owned businesses." —Raymond C. Miles, founder, The Institute of Business Appraisers "The Graziadio School of Business has used the Private Capital Markets book for several years with great success. This course, along with the Pepperdine Private Capital Markets Survey project, has helped our students better prepare for careers in middle market companies." —Linda Livingstone, Dean of the Graziadio School of Business and Management, Pepperdine University "Our international association of independent M&A professionals recommends this text as the most comprehensive foundation for understanding the private capital marketplace. This book is essential reading for middle market M&A advisors, investors, and other decision-makers in the private capital markets." —Mike Nall, founder, Alliance of M&A Advisors A practical road map for making sound investment and financing decisions based on real experiences and market needs Now fully revised and in a second edition, Private Capital Markets provides lawyers, accountants, bankers, estate planners, intermediaries, and other professionals with a workable framework for making sound investment and financing decisions based on their own needs and experiences. This landmark resource covers: Private business valuation Middle market capital sources The business ownership transfer spectrum And much more Private Capital Markets, Second Edition surveys the private capital markets and presents the proven guidance you need to navigate through these uncharted waters.

Capital Projects Feb 28 2021 A real-world framework for driving capital project success Capital Projects provides an empirically-based framework for capital project strategy and implementation, based on the histories of over 20,000 capital projects ranging from \$50,000 to \$40 billion. Derived from the detailed, carefully normalized database at preeminent project consultancy IPA, this solid framework is applicable to all types of capital investment projects large and small, in any sector, including technology, life sciences, petroleum, consumer products, and more. Although grounded in empirical research and rigorous data analysis, this book is not an academic discussion or a conceptual dissertation; it's a practical, actionable, on-the-ground guide to making your project succeed. Clear discussion tackles the challenges that cause capital projects to fail or underperform, and lays out exactly what it takes to successfully manage a project using real-world methods that apply at any level. Businesses report that 60 percent of their projects fail to meet all business objectives, and IPA's database shows that projects' final average net present value undershoots initial estimates by 28 percent. This book provides concrete, actionable solutions to help you avoid the pitfalls and lead the way toward a more positive outcome. Avoid the missteps that make capital projects fail Learn the specific practices that drive project success Understand what effective capital project management entails Discover real-world best practices that generate more value from capital When capital projects fail, it is almost always preventable. Inefficiency, underestimated timelines, and unforeseen costs are the primary weights that drag a project down—and they are all avoidable with good management. Capital Projects gives you the insight and practical tools you need to drive a successful project.

ECIC 2017 - 9th European Conference on Intellectual Capital Feb 17 2020 These proceedings represent the work of researchers participating in the 9th European Conference on Intellectual Capital (ECIC 2017) which is being hosted this year by the Instituto Universitário de Lisboa (ISCTE-IUL) on 6-7 April 2017. ECIC is a recognised event on the international research conferences calendar and provides a valuable platform for individuals to present their research findings, display their work in progress and discuss conceptual and empirical advances in the area of Intellectual Capital. It provides an important opportunity for researchers and practitioners to come together to share their experiences of researching in this varied and expanding field. The conference this year will be opened with a keynote presentation by Dr José Maria Viedma Martí from U.P.C., Polytechnic University of Catalonia in Barcelona, Spain and Prof. Maria Do Rosario Cabrita from Universidade Nova de Lisboa, Portugal who will together be talking about The Practice of Intellectual Capital in the Fourth Industrial Revolution. The second day of the conference will be opened by Dr Gregorio Martín-de Castro, from Complutense University of Madrid, Spain, who will address the topic Intellectual Capital: Linking Theory and Practice. With an initial submission of 98 abstracts, after the double blind, peer-review process there are 42 academic Research papers, 2 PhD Research, 1 Masters

Research and 1 Work in Progress papers published in these Conference Proceedings. These papers represent truly global research in the field, with contributions from Australia, Colombia, Croatia, Egypt, Finland, France, Greece, Iran, Italy, Kazakhstan, Latvia, Lithuania, Poland, Portugal, Romania, Russia, South Africa, Spain, The Netherlands, Turkey, United Arab Emirates, UK and USA.

The Intelligent REIT Investor Guide Oct 27 2020 Demystify real estate investment trusts with this masterful guide from an industry expert. In *The Intelligent REIT Investor Guide*, author Brad Thomas walks you through both basic and advanced topics in the profitable, sustainable world of real estate investment trusts. From historical industry performance to the equations needed to calculate key metrics in REIT stocks, this book covers the history, vocabulary, principles, and analysis you'll need to invest wisely in this growing asset class. Find out how you can strengthen your investment decisions and conclusions with publicly traded REITs in the short- and long-terms alike. With this book you'll: Understand exactly what REITs are, how they work, and why they've achieved such impressive historical returns Discover how REITs have performed over the decades up against other asset classes Compare and contrast the various subsectors – such as residential, retail, office, healthcare, self-storage, lodging, technology, and more – to understand which ones can work better in your personal portfolio. Perfect for personal and professional investors alike, *The Intelligent REIT Investor Guide* is an invaluable guide to a crucial asset class that is often overlooked or poorly understood despite its undeniable impact on portfolios over the past 60 years.

Human Capital Formation for the Fourth Industrial Revolution Nov 15 2019 Advances in technological innovations, automation, and the latest developments in artificial intelligence (AI) have revolutionized the nature of work and created a demand for a new set of skills to navigate the Fourth Industrial Revolution (Industry 4.0). Therefore, it is necessary to equip displaced workers with a new set of skills that are essential for conversion into technical or other functional areas of business.

Human Capital Formation for the Fourth Industrial Revolution is an essential research publication that recognizes the need to revitalize human capital formation for graduate employability in Industry 4.0 and discusses new skills and competencies needed to cope with the challenges present within this industrial revolution. The book seeks to provide a basis for curriculum design in line with the advances in technological innovations, automation, and artificial intelligence to enhance current and future employment. Featuring an array of topics such as curriculum design, emotional intelligence, and healthcare, this book is ideal for human resource managers, development specialists, training officers, teachers, universities, practitioners, academicians, researchers, managers, policymakers, and students.

After the double blind, peer review process there are 43 academic papers, 13 PhD papers and 2 Masters Research Papers and 1 Work In Progress Paper published in these Conference Proceedings. These papers represent truly global research from some xx different countries, including the Albania, Australia, Austria, Canada, Czech Republic, Espana, Finland, France, Germany, Hungary, Indonesia, Italy, Kazakhstan, Malaysia Netherlands, Nigeria, Pakistan, Portugal, Romania, Russia, Slovakia, Spain Thailand, United Arab Emirates, UK and the USA

Cost Management Feb 23 2023 Innovation and cost management are the key requirements for companies to survive the current global economic crisis. Cost management not only leads to incremental performance improvement bur also to transformational change across the value chain. Cost management is viewed as part of a larger business process to influence decisions on pricing and profitability across several dimensions: product, customer, region, and distribution channel. In this book you can learn how your costing process aligns with industry best practices, and be on the leading edge of emerging practices such as value chain costing, shared services costing and outsourcing. This book also tells us how cost management and accounting are being put into practice.

Insurance Linked Securities Aug 25 2020 Securitisations of insurance risk as new methods of risk transfer have been emerging in the global financial market during the recent twenty years. Christoph Weber analyses the techniques of traditional methods in comparison with securitisations for life- and non-life insurance risk.

Human Capital 2002 Nov 08 2021 *Human Capital 2002* provides eight studies on the 'state' of human capital in government today. From these studies, Mark A. Abramson, Ruby Butler DeMesme, and Nicole Willenz Gardner describe the human capital challenge now facing government and how it might best respond to the people and workplace challenge it now faces.

Merger Arbitrage Aug 17 2022 A detailed look at an important hedge fund strategy Written by a fund manager who invests solely in merger arbitrage, also referred to as risk arbitrage, and other event-driven strategies, *Merger Arbitrage* is the definitive book on how this alternative hedge fund strategy works. Initial chapters are dedicated to the ins and outs of the strategy—cash mergers versus stock for stock mergers, legal aspects of mergers, and pitfalls of the merger process—while later chapters focus on giving the reader sound advice for integrating merger arbitrage into an investment portfolio. *Merger Arbitrage* helps readers understand leverage and options, shorting stocks, and legal aspects of merger arbitrage, including seeking appraisal or filing lawsuits for inadequate merger consideration. For those looking to gain an edge in the merger arbitrage arena, this book has everything they need to succeed. Thomas F. Kirchner, CFA (New York, NY), is the founder and portfolio manager of Pennsylvania Avenue Funds (www.pennavefunds.com), which invests in merger arbitrage and other event-driven strategies.

Mining Capital Jul 24 2020 Mining is a capital-intensive industry, and involves long lead times to develop projects that demand a structured approach, from mine exploration to exit. This book provides mine developers, investors, owners, shareholders, and mineral policymakers a comprehensive game plan to raise capital for the development of new mining projects or to bolster operational mines. The author, an experienced mining capital consultant, shows how mine developers and mine owners can secure capital in any phase of the commodity price cycle, at any site, and at any project stage. The book follows a proven and structured approach that enables mine developers and owners to successfully raise capital for their projects. With the aid of case studies and practical methods, the reader will learn the essentials on topics ranging from developing and marketing a business case for investment, to the types and sources of mining capital for different project stages, as well as the structure and significance of due diligence. The author presents actual mining projects and their funding plans, transaction structures and term sheets for capital. The mining projects discussed represent various project stages, commodities, and parts of the globe, offering a comprehensive reference guide for mine developers, investors and promoters alike.

Natural Capital, Agriculture and the Law Mar 20 2020 This timely Research Handbook provides a broad analysis and discussion on how academics are managed. It addresses key issues, including the changing nature of academic work and

academic labour markets, issues of power, leadership, ageing, human resource management practices, and mobility.

Internet Guide to Knowledge Management and Intellectual Capital Dec 17 2019 Inhaltsangabe:Abstract: This survey has shown that, although the internet is full of information, it is difficult to find the information required fast. Before starting an internet survey, it is essential to be conscious of the intention of the search and the expected results and to translate this into one or more keywords. The intention of the keyword searches knowledge management and intellectual capital was to find out how the topic is treated on different pages. The categorization by content has shown that a main part of the links can be assigned in the advertisement categories. This is the case for both, the hits of MetaCrawler and those of Umap. A further community of the results of the two search instruments is that the categories knowledge base and best practices only take a small part whereas the categories content discussion and collection of resources are relatively well-attended. Great importance has been attached to the category content discussion in the index and chapter 6 is fully dedicated to interesting links concerning the content. This is because the discussion of the topics, combined with definitions and explanations, is the background and the basis for the rest of the categories. As the assignment to the category content discussion does not declare anything about the quality of the discussions, the index in chapter 4 has to be included in the study. Strictly speaking, a great part of those links is dedicated to advertisement and gives some explanations concerning the topics. It has been detected that most of the pages with content discussion give only a short introduction into the topic. The pages that examine the topics more closely are an exception to the rule. Five links of this minority are introduced in chapter 6. Two of them are very interesting pages concerning the content. They are listed at top position, because different opinions concerning knowledge management and intellectual capital are introduced, the topics are treated in great detail and the explanations are good and quite easy to duplicate. In order to find out, if the results are capable to represent the totality, the reliability of the categorization, built up with Umap (artificial intelligence) and that built by human intelligence have been analyzed with the means of hypotheses. The test of the hypotheses, that are based on a comparison of the results and processes of the categorizations, has shown that the categorization by [...]

Advancing U.S. Latino Entrepreneurship Oct 15 2019 Advancing U.S. Latino Entrepreneurship examines business formation and success among Latinos by identifying arrangements that enhance entrepreneurship and by understanding the sociopolitical contexts that shape entrepreneurial trajectories. While it is well known that Latinos make up one of the largest and fastest growing populations in the U.S., Latino-owned businesses are now outpacing this population growth and the startup business growth of all other demographic groups in the country. The institutional arrangements shaping business formation are no level playing field. Minority entrepreneurs face racism and sexism, but structural barriers are not the only obstacles that matter; there are agentic barriers and coethnics present challenges as well as support to each other. Yet minorities engage in business formation, and in doing so, change institutional arrangements by transforming the attitudes of society and the practices of policymakers. The economic future of the country is tied to the prospects of Latinos forming and growing business. The diversity of Latino experience constitutes an economic resource for those interested in forming businesses that appeal to native-born citizens and fellow immigrants alike, ranging from local to national to international markets. This book makes a substantial contribution to the literature on entrepreneurship and wealth creation by focusing on Latinos, a population vastly understudied on these topics, by describing processes and outcomes for Latino entrepreneurs. Unfairly, the dominant story of Latinos—especially Mexican Americans—is that of dispossession and its consequences. Advancing U.S. Latino Entrepreneurship makes clear the undiminished ambitions of Latinos as well as the transformative relationships among people, their practices, and the political context in which they operate. The reality of Latino entrepreneurs demands new attention and focus.
