Charles Ryder, a lonely student at Oxford, is captivated by the outrageous and decadent Sebastian Flyte. Invited to Brideshead, Sebastian's magnificent family home, Charles welcomes the attentions of its eccentric, aristocratic inhabitants, gradually becoming infatuated with them and the life of privilege they inhabit - in particular, with Sebastian's remote sister, Julia. But he gradually comes to recognize his spiritual and social distance from them, eventually discovering a world where duty and desire, faith and happiness are in conflict. "Funny, nuanced and wonderful" -Jon Ronson, bestselling author of *SO YOU'VE BEEN PUBLICLY SHAMED* and *THE PSYCHOPATH TEST* "Outraged is as hilarious as it is smart, and as insightful as it is provocative. A book that had me hollering, nodding and questioning at the same time." -Candice Carty-Williams, author of *Queenie* A candid exploration of the state of outrage in our culture, how it debases our civil discourse, and how we can channel it back into the fights that matter, from radio host Ashley "Dotty" Charles. We're living in a post-modern utopia of sorts, where thanks to our resolute predecessors, we've checked a bunch of items off our outrage shopping list. Slavery? Abolished. Apartheid? Not anymore buddy. Women's suffrage? Nailed it. But what do you do when you keep winning your battles? Well, you pick new ones, of course. Ours is a society where many get by on provocation, the tactless but effective tool of peddling outrage--and we all too quickly take the bait. If outrage has become abundant, activism has definitely become subdued. Are we so exhausted from our hashtags that we simply don't have the energy to be outraged in the real world? Or are we simply pretending to be bothered? There is still much to be outraged by in our final frontier--the gender pay gap, racial bias, gun control--but in order to enact change, we must learn to channel our responses. Passionate, funny and unrelentingly wise, this is the essential guide to living through the age of outrage. "Agatha Christie meets Patrick O'Brian in Finch's accomplished fifth whodunit set in Victorian England (after 2010's *A Stranger in Mayfair*), the best in the series to date." —Starred Review, *Publisher's Weekly* 9/12/2011 Charles Lenox, Member of Parliament, sets sail on a clandestine mission for the government. When an officer is savagely murdered, however, Lenox is drawn toward his old profession, determined to capture another killer. 1873 is a perilous time in the relationship between France and England. When a string of English spies is found dead on French soil, the threat of all-out war prompts government officials to ask Charles Lenox to visit the newly-dug Suez Canal on a secret mission. Once he is on board the *Lucy*, however, Lenox finds himself using not his new skills of diplomacy but his old ones: the ship's second lieutenant is found dead on the voyage's first night, his body cruelly abused. The ship's captain begs the temporarily retired detective to join in the hunt for a criminal. Lenox finds the trail, but in the claustrophobic atmosphere on board, where nobody can come or go and everyone is a suspect, he has to race against the next crime—and also hope he won't be the victim. At once a compulsive murder mystery, a spy story, and an intimate and joyful journey with the Victorian navy, this book shows that no matter how far Lenox strays from his old life, it will always come back to find him. From bestselling author Charles Finch comes the third and final in a prequel trilogy to his lauded Charles Lenox series, *The Last Passenger...* Charles Yeats had a privileged upbringing as a White South African in the late 1970's and early 80's, and seemed destined to remain one of the social elite. However he felt increasingly uncomfortable with the Apartheid regime and moved to London to escape military service at home. Later he returned to face inevitable arrest as a conscientious objector. He was court martialled and sentenced to the now well-known Detention Barracks, where he refused to wear military uniform, and was put in solitary confinement five times. All this led to an unprecedented second court martial and a further year's incarceration in the notorious Pretoria Central Prison. During this period he was adopted by Amnesty International as one of their Prisoners of Conscience. After his release (in February 83) he studied Theology at Oxford and today teaches at Durham University. He also advises corporations on their social, environmental and moral responsibilities. 'Prisoner of Conscience' is a fascinating slice of history from one man who lived it in the front line. But, much more than that, given his experiences in southern Africa as well as his contemporary concerns, the author also makes trenchant comments about Western imperialism, and the way the Church (the Anglican one in particular) is losing the opportunity to show us that love and friendship offer the only way forward to a lasting peace. At the dusk of the twenty-first century, Welsh technophobe Huw is one of the billion or so hominids left on Earth, living in a preserve at the bottom of a gravity well. The rest have emigrated, uploading their consciousness to a vast cloud that fogs the inner solar system with a dust of molecular machinery, and occasionally spams Earth with plans for cataclysmically disruptive technologies. Wary of anything more sophisticated than his bicycle, Huw jumps at the chance to attend tech jury service and defend the Earth from the scum of the post-singularity patent office. But his long-awaited stint is cut short when he becomes infected with an itchy technovirus, and unwittingly becomes the last hope of the entire universe. In the small hours of the morning one autumn day in 1866, a frantic widow visits detective Charles Lenox. Lady Annabelle's problem is simple: her beloved son, George, has vanished from his room at Oxford. When Lenox visits his alma mater to investigate, he discovers a series of bizarre clues, including a murdered cat and a card cryptically referring to the September Society. Then, just as Lenox realizes that the case may be deeper than it appears, a student dies, the victim of foul play. What could the September Society have to do with it? What specter, returned from the past, is haunting gentle Oxford? Lenox, with the support of his devoted friends in London's upper crust, must race to discover the truth before it comes searching for him... "Going into Society" by Charles Dickens. adventure... fascinating and true' Grayson Perry This funny and personal memoir is the account of an audacious attempt by James Birch, a young British curator, to mount the groundbreaking retrospective of Francis Bacon's work at the newly refurbished Central House of Artists, Moscow in 1988. Side-lined by the British establishment, Birch found himself at the heart of a honey-trap and the focus for a picaresque cast of Soviet officials, attachés and politicians under the forbidding eye of the KGB as he attempted to bring an unseen western cultural icon to Russia during the time of 'Glasnost', just before the fall of the Berlin Wall. Bacon in Moscow is the story of the evolution of an exhibition that was at the artistic and political heart of a sea of change that culminated with the fall of the USSR. 'A rollicking cultural adventure before the fall of the Berlin Wall and the meteoric rise of contemporary art in the nineties' Grayson Perry

The Last Enchantments is a powerfully moving and lyrically written novel. A young American embarks on a year at Oxford and has an impassioned affair that will change his life forever After graduating from Yale, William Baker, scion of an old line patrician family, goes to work in presidential politics. But when the campaign into which he's poured his heart ends in disappointment, he decides to leave New York behind, along with the devoted, ambitious, and well-connected woman he's been in love with for the last four years. Will expects nothing more than a year off before resuming the comfortable life he's always known, but he's soon caught up in a whirlwind of unexpected friendships and romantic entanglements that threaten his safe plans. As he explores the heady social world of Oxford, he becomes fast friends with Tom, his snobbish but affable flat mate; Anil, an Indian economist with a deep love for gangster rap; Anneliese, a German historian obsessed with photography; and Timmo, whose chief ambition is to become a reality television star. What he's least prepared for is Sophie, a witty, beautiful and enigmatic woman who makes him question everything he knows about himself. For readers who made a classic of Richard Yates's A Good School, Charles Finch's The Last Enchantments is a sweeping novel about love and loss that redefines what it means to grow up as an American in the twenty-first century. "The upper-class amateur sleuth is very much alive in Charles Finch's charming Victorian whodunits." -The New York Times Book Review In this critically-acclaimed, Agatha-Award nominated series The New York Times calls "beguiling," gentleman sleuth Charles Lenox investigates in the grand tradition of Sherlock Holmes and Lord Peter Wimsey. Here together for the first time in one eBook bundle are the first three books in the beloved series: A Beautiful Blue Death Victorian gentleman and armchair explorer Charles Lenox is pulled from his reverie when his lifelong friend Lady Jane asks for his help. Jane's former servants, Prudence Smith, is dead - an apparent suicide. But Lenox suspects something far more sinister: murder, by a rare and deadly poison. When another body turns up during the London season's most fashionable ball, Lenox must untangle a web of loyalties and animosities. The September Society While searching for the missing son of a family friend, Lenox stumbles upon some rather dastardly secrets and soon discovers a secret group of young college students involved in an organization called The September Society. Might they have something to do with the disappearance? And is he in for some danger himself? The Fleet Street Murders Across London two journalists have just met with violent deaths-one shot, one throttled. Lenox soon involves himself in the strange case, but must leave it behind to go north to Stirrington, where he is running for Parliament. Once there, he gets a further shock when Lady Jane sends him a letter whose contents may threaten their nuptials. Based on extensive ethnographic fieldwork in Chinese communities and featuring a wide range of case studies, this book reflects upon 'ordinary' moral life in contemporary China. With all the humanity, glamor, and mystery that readers have come to love, the next Charles Lenox Mystery, The Laws of Murder, is a shining confirmation of the enduring popularity of Charles Finch's Victorian series. It's 1876, and Charles Lenox, once London's leading private investigator, has just given up his seat in Parliament after six years, primed to return to his first love, detection. With high hopes he and three colleagues start a new detective agency, the first of its kind. But as the months pass, and he is the only detective who cannot find work, Lenox begins to question whether he can still play the game as he once did. Then comes a chance to redeem himself, though at a terrible price: a friend, a member of Scotland Yard, is shot near Regent's Park. As Lenox begins to parse the peculiar details of the death – an unlaced boot, a days-old wound, an untraceable luggage ticket – he realizes that the incident may lead him into grave personal danger, beyond which lies a terrible truth. This original and panoramic book proposes that the underlying forces of demography and globalisation will shortly reverse three multi-decade global trends – it will raise inflation and interest rates, but lead to a pullback in inequality. “Whatever the future holds”, the authors argue, “it will be nothing like the past”. Deflationary headwinds over the last three decades have been primarily due to an enormous surge in the world’s available labour supply, owing to very favourable demographic trends and the entry of China and Eastern Europe into the world’s trading system. This book demonstrates how these demographic trends are on the point of reversing sharply, coinciding with a retreat from globalisation. The result? Ageing can be expected to raise inflation and interest rates, bringing a slew of problems for an over-indebted world economy, but is also anticipated to increase the share of labour, so that inequality falls. Covering many social and political factors, as well as those that are more purely macroeconomic, the authors address topics including ageing, dementia, inequality, populism, retirement and debt finance, among others. This book will be of interest and understandable to anyone with an interest on where the world’s economy may be going. The first in a new series of 12th-century murder mysteries, perfect for fans of Ellis Peters' Brother Cadfael series June 1143: the Lord Bishop of Winchester's Clerk is bludgeoned to death in Pershore Abbey, and laid before the altar in the attitude of a penitent. Everyone who had contact with him had reason to dislike him, but who had reason to kill him? The Sheriff of Worcestershire's thief taker, the wily Serjeant Catchpoll, and his new and unwanted superior, Acting Under-Sheriff Hugh Bradecote, have to find the answer when nobody wants the murderer apprehended until the next death." His days of regularly investigating the crimes of Victorian London now some years behind him, he plans a trip to his uncle's estate in Somerset, with the expectation of a few calm weeks to write an important speech. When he arrives in the quiet village of Plumley, however, what greets him is a series of strange vandalisms upon the local shops: broken windows, minor thefts, threatening scrawls. Only when a far more serious crime is committed does he begin to understand the great stakes of those events, and the complex and sinister mind that is wreaking fear and suspicion in Plumley. Now, with his protege, John Dallington, at his side, the race is on for Lenox to find the culprit before he strikes again. And this time his victim may be someone that Lenox loves... found in the man's mouth. Master Hugh's quest for the chapman's assailants, and his search for the origin of the coin, makes steady progress - but there are men of wealth and power who wish to halt his search, and an old nemesis, Sir Simon Trillowe, is in league with them. But Master Hugh, and his assistant, the groom Arthur, are determined to uncover the thieves and murderers, and the source of the chapman's coin. They do, but not before they become involved with a kidnapped maiden, a tyrannical abbot, and a suffering monk - who needs Master Hugh's surgical skills and in return provides clues which assist Hugh in solving the mystery of the tainted coin. In 1593, the controversial young playwright Christopher Marlowe was stabbed to death in a Deptford lodging house and the official account -- a violent quarrel over the bill -- has long been regarded as dubious. This rich study explores the elements of Hegel's social and political thought that are most relevant to our society today. Combating the prevailing post-World War II stereotype of Hegel as a proto-fascist, Charles Taylor argues that Hegel aimed not to deny the rights of individuality but to synthesise them with the intrinsic good of community membership. Hegel's goal of a society of free individuals whose social activity is expressive of who they are seems an even more distant goal now, and Taylor's discussion has renewed relevance for our increasingly globalised and industrialised society. This classic work is presented in a fresh series livery for the twenty-first century with a specially commissioned new preface written by Frederick Neuhauser. From a rare map of yellow fever in eighteenth-century New York, to Charles Booth's famous maps of poverty in nineteenth-century London, an Italian racial zoning map of early twentieth-century Asmara, to a map of wealth disparities in the banlieues of twenty-first-century Paris, Mapping Society traces the evolution of social cartography over the past two centuries. In this richly illustrated book, Laura Vaughan examines maps of ethnic or religious difference, poverty, and health inequalities, demonstrating how they not only serve as historical records of social enquiry, but also constitute inscriptions of social patterns that have been etched deeply on the surface of cities. The book covers themes such as the use of visual rhetoric to change public opinion, the evolution of sociology as an academic practice, changing attitudes to physical disorder, and the complexity of segregation as an urban phenomenon. While the focus is on historical maps, the narrative carries the discussion of the spatial dimensions of social cartography forward to the present day, showing how disciplines such as public health, crime science, and urban planning, chart spatial data in their current practice. Containing examples of space syntax analysis alongside full colour maps and photographs, this volume will appeal to all those interested in the long-term forces that shape how people live in cities. Since this book was first published a large amount of new material on the king and his reign has emerged. This book contains a new preface which takes account of the new work. A surprising take on how you can help tackle the really big problems in society—from one of America's most successful entrepreneurs. People are looking for a better way. Towering barriers are holding millions of people back, and the institutions that should help everyone rise are not doing the job. Crumbling communities. One-size fits all education. Businesses that rig the economy. Public policy that stifles opportunity and emboldens the extremes. As a result, this country is quickly heading toward a two-tiered society. Today's challenges call for nothing short of a paradigm shift – away from a top-down approach that sees people as problems to be managed, toward bottom-up solutions that empower everyone to realize their potential and foster a more inclusive society. Such a shift starts by asking: What would it mean to truly believe in people? Businessman and philanthropist Charles Koch has devoted his life to answering that question. Learn what he's discovered during his 60-year career to help you apply the principles of empowerment in your life, in your business, and in society. By learning from the social movements and applying the principles that have enabled social progress throughout history, Koch has achieved more than he dreamed possible – building one of the world's most successful companies and founding Stand Together, one of America's most innovative philanthropic communities. Stand Together CEO Brian Hooks and Koch show how the only way to solve the really big problems – from poverty and addiction to harmful business practices and destructive public policy – is for each and every one of us to find and take action in our unique role as part of the solution. Full of compelling examples of what works – including several first-person accounts from individuals whose lives have been transformed – Koch and Hooks' refreshing approach promotes partnership instead of partisanship and speaks to people from different perspectives and all walks of life. They show that no injustice is too tough to overcome if you share a deep belief in people, are willing to unite with anyone to do right, and work to empower others from the bottom up.
