This guide focuses on points relating to three vital subjects: reading and reading comprehension; and strategies for identifying content and details. Second, there is a section for writing that includes grammar, vocabulary, spelling, phonics, word usage, synonyms, antonyms, syllables, the parts of a sentence, vocabulary, phonics, and strategies for planning a document. Third, there is a segment on mathematics that concentrates on general mathematics including computation of addition, subtraction, and division of whole numbers, mixed numbers, fractions and decimal numbers, algebra, and geometry and various concepts involved in the field of mathematics.
