More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. When it comes to their personal transportation, today's youth have shunned the large, heavy performance cars of their parents' generation and instead embraced what has become known as the "sport compact"--smaller, lightweight, modern sports cars of predominantly Japanese manufacture. These cars respond well to performance modifications due to their light weight and technology-laden, high-revving engines. And by far, the most sought-after and modified cars are the Hondas and Acuras of the mid-'80s to the present. An extremely popular method of improving vehicle performance is a process known as engine swapping. Engine swapping consists of removing a more powerful engine from a better-equipped or more modern vehicle and installing it into your own. It is one of

There is no fourth wall in popular performance. The show is firmly rooted in the here and now, and the performers address the audience directly, while the audience answer back with laughter, applause or heckling. Performer and role are interlaced, so that we are left uncertain about just how the persona we see onstage might relate to the private person who presents it to us. Popular Performance defines and surveys varieties of performance where the main purpose is to entertain, and where there is no shame in being trivial, frivolous or nonsensical as long as people go home happy at the end of the show. Contributions by new and established scholars focus particularly on how it is made, explaining the techniques of performance and production that make it so appealing to audiences. With sections examining how popular performance works in a range of historical and contemporary examples, readers will gain insights into: * performance forms associated with the variety tradition: music hall, vaudeville, cabaret, variety * performance forms associated with circus: wild west shows, clowning * issues relating to the identity of the performer in relation to magic, burlesque, pantomime in contemporary performance * issues relating to venue and audience in relation to contemporary street theatre, stand-up, and live sketch comedy.
