In the vein of Kelley Armstrong and Patricia Briggs, Amanda Carlson's debut is a new urban fantasy that rewrites the werewolf myth. . . It's not easy being a girl. It's even harder when you're the only girl in a family of werewolves. But it's next to impossible when your very existence spells out the doom of your race. . . Meet Jessica McClain -- she just became part of the pack. Outskirts never die... After narrowly escaping

death, Holly is back on the streets in a quest to find the elusive pico. Discovering what's on the quantum drive—the same one the zealot had been willing to die for—is priority number one. Forgiving the kid has proven to be easier than she'd thought, but the cranky outskirts is another story. It doesn't take Holly long to discover that Tandor's crew hasn't been obliterated, and are actively seeking retribution. They're recruiting Northerners, but she's found one who's willing to spill. It's a good thing, too, since things are starting to get strange. On the hunt, she stumbles on an old man dressed in a burial cloth, and witnesses a seeker wandering the streets where it shouldn't be. After a friend gets caught up in the fray, Holly's hand is forced. She has to act quickly to procure the information she needs. But what she learns is harrowing. The outskirts aren't just taking over the city—they're infecting people with Plush, and the quantum drive may hold the only key. The only problem is, it might be too late... Magic, mayhem and madness explode in this third installment in the Jessica McClain series. Jessica McClain is on the run ... again. Finally reunited with Rourke, Jessica arrives home to find that her best friend has been kidnapped, her father has vanished, and the supernatural Sects -- witches, demons, and sorcerers --- don't even have the courtesy to wait until she is unpacked to attack. Now, mastering her powers as the sole female werewolf might not be enough to save them. Thrown together in a shaky truce with the Vampire Queen, Jessica must show all the different

Sects what the true meaning of "the enemy of my enemy" is or her father will die ... After my mate rejected me, I wanted to kill him. Instead, I ran away--which nearly killed me... A year ago, everything was different. I had just left my home, joining the infamous Mountainside Pack. The daughter of an omega wolf, I've always been prized--but not as prized as I would be if my new packmates found out my secret. But when my fated mate--Mountainside's Alpha--rejected me in front of his whole pack council and my secret got out, I realized I had one choice. Going lone wolf was the only option I had, and I took it. Now I live in Muncie, hiding in plain sight. If the wolves ever left the mountains surrounding the city, I'd be in big trouble. Good thing that the truce between the vampires and my people is shaky at best and Muncie? It's total vamp territory. Thanks to my new vamp roomie, I get a pass, and I try to forget all about the call of the wolf. It's tough, though. I... I just can't forget my embarrassment--and my anger--from that night. And then he shows up and my chance at forgetting flies out the damn window. Ryker Wolfson. He was supposed to be my fated mate, but he chose his pack over our bond. At least, he did--but now that he knows what I've been hiding, he wants me back. But doesn't he remember? I told him I'll never be his mate, and there isn't a single thing he can do to change my mind. To Ryker, that sounds like a challenge. And if there's one thing I know about wolf shifters, it's that they can never resist a challenge. Just like I'm finding it more

difficult than I should to resist him. ** Never His Mate is a new release (65,000+ words) featuring Gemma Swann, a wolf shifter who is hiding a damning secret. When her fated mate rejects her for another female, her anger and her embarrassment lead to that secret getting out. Since staying behind on the mountains is just not an option and going back to her home pack is impossible, Gem decides she has one choice: risk death by fang in Muncie, the vamp town surrounding the mountains. Luckily for her, she not only manages to survive the local vamps, but she makes friends with one. Things are looking up for her: she has a place with her roommate, a new job she loves, and the certainty that she'll never have to look at Ryker Wolfson's handsome face ever again. Until he stalks into Muncie and, suddenly, Gem is confronted by his rejection all over again. So what if he says he had a good reason? If he thinks she's going to take him back now, he has another trick coming. Because Gem? She'll never be his mate... From the Sunday Times bestselling author of Seven Devils Old magics are waking. But will the world survive their return? Micah Grey almost died when he fled the circus with Drystan - now he and the ex-clown seek to outrun disaster. Drystan persuades his old friend Jasper Maske, a once-renowned magician, to take them in. But when he agrees to teach them his trade, Maske is challenged to the ultimate high-stakes duel by his embittered arch-nemesis. Micah must perfect his skills of illusion, while navigating a tender new love. An investigator is also hunting the person he

once seemed to be - a noble family's runaway daughter. As the duel draws near, Micah increasingly suffers from visions showing him real magic and future terrors. In 2105, bad guys love gardening. Mina Kane's next undercover op is of the green thumb variety. Tasked to break into a penthouse at the tip-top of a megascraper and airmeld incriminating data on a hydro-shipping mogul, Mina must first pose as an apt gardener who knows a thing or two about roses. The only problem is the rookie's along for the ride and he's a pro at making everything more difficult than it has to be. Infiltrating the inner sanctum proves to be time consuming, and Agent Adam has a chance to shine, but that's not all Mina's in for. Her baby brother is in some trouble, and Vincent Kramer, the colonel-in-arms of the French Protectorate, is missing. An encrypted locator shows up at Mina's door, but her childhood-pal-turned-international-heartthrob, is still nowhere to be found. This op is one solar flare away from being the biggest, deadliest one yet. There's nowhere left to run. Back from Hell, Jessica arrives to find her world thrown into chaos. Now Jessica's plan of attack must change - but how can she defeat someone who can predict her every move? Time is running out... After defeating the uprising, and becoming infected with a dose of Plush, Holly is in a race to help a seeker before it's too late. Going South is the only option. But getting there is going to prove difficult, which is why Lockland has entrusted Daze with a secret weapon. A pulse storm, overzealous militia, and uncooperative siblings are only a few of the obstacles standing in their way. Once they arrive on the coast, the prospect of finding the supplies they need dwindles. But what they uncover may be far richer. A way to move the remaining survivors forward. But the people of the town don't see it that way. They want to protect what's theirs. With the militia closing in, they do the only thing they have left to do, fight.

NEW YORK TIMES BESTSELLER • MacKayla Lane faces the ultimate threat when war breaks out between the kingdoms of shadow and light, as the Fever series races to an explosive revelation. From the moment MacKayla Lane arrived in Dublin to hunt her sister's murderer, she's had to fight one dangerous battle after the next: to survive, to secure power, to keep her city safe, to protect the people she loves. The matter of who's good and who's evil can be decided by the answer to a single question: Whose side are you on? Now, as High Queen of the Fae, Mac faces her greatest challenge yet: ruling the very race she was born to hunt and kill—a race that wants her dead yesterday, so they can put a pure-blooded Fae queen on the throne. But challenges with her subjects are the least of her concerns when an ancient, deadly foe resurfaces, changing not only the rules of the game but the very game itself, initiating a catastrophic sequence of events that have devastating consequences and leave Mac questioning everything she's ever learned and everyone she's ever loved. Now begins an epic battle between Mortal and Fae, Seelie and Unseelie, would-be kings and would-be queens, with possession of the Unseelie King's virtually unlimited power and the fate of humanity at stake. From the exquisite, deadly gardens of the High Queen's court, to long-forgotten truths found in the Sacred Grove of Creation, from the

erotic bed of her enigmatic, powerful lover to the darkest, seductive reaches of the Unseelie kingdom, Mac's final journey takes her places no human has been before, and only one human could possibly survive . . . One who's willing to sacrifice everything. Love. Violence. Destiny. These powerful themes ricochet through Lorenzo Carcaterra's new novel like bullets from a machine gun. In *Gangster*, he surpasses even his bestselling *Sleepers* to create a brutal and brilliant American saga of murder, forgiveness, and redemption. Born in the midst of tragedy and violence and raised in the shadow of a shocking secret, young Angelo Vestieri chooses to flee both his past and his father to seek a second family—the criminals who preside over early 20th century New York. In his bloody rise from soldier to mob boss, he encounters ever more barbaric betrayals—in friendship, in his brutal business, in love—yet simultaneously comes to understand the meaning of loyalty, the virtue of relationships, and gains a perspective on the lonely, if powerful, life he has chosen. As the years pass, as enemies are made and defeated, as wars are fought and won, the old don meets an abandoned boy who needs a parent as much as protection. By taking Gabe under his wing and teaching him everything he knows, Angelo Vestieri will learn, in the winter of his life, which is greater: his love for the boy he cherishes, or his need to be a gangster and to live by the savage rules he helped create. A sweeping panoramic with riveting characters, a unique understanding of the underworld philosophy, and a

relentless pace, *Gangster* travels through the time of godfathers and goodfellas to our own world of suburban Sopranos. But this is more than just an authentic chronicle of crime. Setting a new standard for this acclaimed author, *Gangster* is a compassionate portrait of one man's fight against his fate—and an unforgettable epic of a family, a city, a century. During the turbulent 1960s, civil rights leader Whitney M. Young Jr. devised a new and effective strategy to achieve equality for African Americans. Young blended interracial mediation with direct protest, demonstrating that these methods pursued together were the best tactics for achieving social, economic, and political change. *Militant Mediator* is a powerful reassessment of this key and controversial figure in the civil rights movement. It is the first biography to explore in depth the influence Young's father, a civil rights leader in Kentucky, had on his son. Dickerson traces Young's swift rise to national prominence as a leader who could bridge the concerns of deprived blacks and powerful whites and mobilize the resources of the white America to battle the poverty and discrimination at the core of racial inequality. Alone among his civil rights colleagues -- Martin Luther King Jr., Roy Wilkins, James Farmer, John Lewis, and James Forman -- Young built support from black and white constituencies. As a National Urban League official in the Midwest and as a dean of the School of Social Work at Atlanta University during the 1940s and 1950s, Young developed a strategy of mediation and put it to work on a national

level upon becoming the executive director of the League in 1961. Though he worked with powerful whites, Young also drew support from middle- and working-class blacks from religious, fraternal, civil rights, and educational organizations. As he navigated this middle ground, though, Young came under fire from both black nationalists and white conservatives. When nurse Ellie discovers that her employer is creating human/animal hybrids for experiments, she saves one of them from a sadistic doctor and promises to set him free. When the experiment, codenamed Fury, manages to escape, he kidnaps Ellie and brings her to a secret compound called Homeland with other escaped hybrids, intending to use her as part of his plan of vengeance. The hunt is on... Holly won't rest until the outskirts are found. The militia who kidnapped him believe they have the upper hand, but they know nothing about what Holly carries in her pocket. With the status reader, Case is as good as found. But once she arrives, things get dangerous fast. Tillman and his crew are expecting her. There's nothing left to do but break through the walls before it's too late. But what Holly finds is beyond shattering. Once they arrive South, it's a race to save the outskirts' life. The scientists have some tricks up their sleeves, but time might run out before danger descends. When it does, they barely have time to make it out alive. The instant Sunday Times bestseller from the UK's number one true crime podcast, RedHanded! What is it about killers, cults, and cannibals that capture our

imaginings even as they terrify and disturb us? How do we carefully consume these cases and what can they teach us about what makes victims and their murderers our collective responsibility? *Red Handed* rejects the outdated narrative of killers as monsters and that a victim 'was just in the wrong place at the wrong time.' Instead, it dissects the stories of killers in a way that challenges perceptions and asks the hard questions about society, gender, poverty, culture, and even our politics. With Bala and Maguire's trademark humour, research on real-life cases, and unflinching analysis of what makes a criminal, the authors take you through the societal, behavioural, and cultural drivers of the most extreme of human behaviour to find out once and for all: what makes a killer tick?
