This book reports on cutting-edge research carried out within the context of the EU-funded Dicode project, which aims at facilitating and augmenting collaboration and decision making in data-intensive and cognitively complex settings. Whenever appropriate, Dicode builds on prominent high-performance computing paradigms and large data processing technologies to meaningfully search, analyze, and aggregate data from diverse, extremely large and rapidly evolving sources. The Dicode approach and services are fully explained and particular emphasis is placed on deepening insights regarding the exploitation of big data, as well as on collaboration and issues relating to sense-making support. Building on current advances, the solution developed in the Dicode project brings together the reasoning capabilities of both the machine and humans. It can be viewed as an innovative “workbench” incorporating and orchestrating a set of interoperable services that reduce the data intensiveness and complexity overload at critical decision points to a manageable level, thus permitting stakeholders to be more productive and effective in their work practices. Build your own seasonal retreat programmes with this unique resource. Offering material for use throughout the Christian year, it uses the Church's seasons to explore the different ways that Christ meets us, the saving mysteries of each season, and the ways that the seasons resonate with varying life stages: • Advent: Beginning again • Christmas: Finding God • Epiphany: Seeing glory • Lent: Finding acceptance • Passiontide: Growing in compassion • Easter: Growing in faith • Ascensiontide: Making sense of it all • Pentecost: Sensing the Spirit • Ordinary Time: Visions of the whole. Drawing on on Scripture, Christian tradition and contemporary psychological insights such as the Enneagram, it offers two outline retreat programmes for each season, with a wide range of imaginative activities and spiritual exercises. The outlines are readily adaptable to half day, whole day or weekend retreats and are suitable for group or individually-guided

retreats. The Achiever: Motivated by the need to be productive, to achieve success, and to avoid failure. The Romantic: Motivated by the need to understand your feelings and to be understood to search for the meaning of life, and to avoid being ordinary. The Observer: Motivated by the need to know everything and understand the universe, to be self-sufficient and left alone, and to avoid not having the answer or looking foolish. The Questioner: Motivated by the need for security, to feel taken care of, or to confront your fears. The Adventurer: Motivated by the need to be happy and plan fun things, to contribute to the world, and to avoid suffering and pain. The Asserter: Motivated by the need to be self-reliant and strong, to make an impact on the world, and to avoid being weak. The Peacemaker: Motivated by the need to keep the peace, merge with others, and avoid conflict. An accessible, authoritative guide to numerology and how it can help you understand yourself and work with the energies each year ahead holds for you. Our date of birth and our name can say a lot about our life's purpose, and even help us make informed decisions for the future. The answers are easy to discover through numerology. Michelle Buchanan began studying numerology 27 years ago after her life was turned around by a reading she received. She now helps others transform their lives through the wisdom of this ancient system. In this book, she explains how numerology can provide insight into who we are, why we are here and where we are going. This book will help readers to: - Uncover their pre-chosen destiny and life purpose - Forecast and plan their future - Discover their strengths, challenges, life lessons, and potential - Choose a suitable career, relationship, and place of residence - Plan important life events such as a marriage, job change, house move or trip This title was previously published within the Hay House Basics series. The thing about plotting is... It seems needlessly complicated. But does it have to be? You're looking for a simple way to outline your novel in record time because—let's face it—in today's fast-paced publishing world, the more time you spend writing, and the less time you spend planning, the better. Whether you're new to writing, or an experienced author with several novels under

your belt, this book can help you. In *How to Plot Your Novel: Outlining for Authors Made Easy*, you'll discover: - Why mapping out your key story beats ahead of time is important - How to hook readers into your story from the first sentence - Why you should destroy your main character's everyday world - How to avoid a "saggy middle" and keep readers engaged - How to end your novel with a show-stopping showdown readers will remember - And more... With a little intention, and the right skills, you can craft an attention grabbing plot that compels readers to keep reading. "In Enneagram: #1 Made Easy Guide to the 9 Type of Personalities the author will guide you step-by-step in a wise and deep explanation, showing you all the different implications (or facets?) and possible interpretation of these concepts practically in your life."-- Economics is taught in some form in the secondary schools of nations throughout the world. The subject is rarely taught in elementary schools, and while economics courses are offered in universities, the majority of students end their formal education with secondary school. Thus, the best opportunity for the economic education of the youth of a nation occurs in secondary schools. This book examines economic education at this critical level of the educational system. The teaching of economics in secondary schools varies across countries. These differences occur because of history, the structure of education, and other national factors. At the same time, there are common elements in the economic education of many countries, especially in content coverage. This contrast between the common features and the uniqueness of economic education in secondary schools of major industrial nations exemplifies the international perspective presented in this book. The international perspective is developed in the six sections of the volume. The first section discusses why nations should include economics in school curricula, and presents a framework for teaching economics that should have global appeal. Dissension and consensus on economic issues among North American and European economists are examined in the second section. The third section surveys the U.S. research literature on precollege economic education and assesses the current state of economics instruction in U.S. schools. The economics curricula and educational practices in seven other nations -- the U.K., Canada, Japan, Germany, Austria, Korea, and Australia -- are described in the fourth and fifth sections. The fifth section also presents international comparisons of economic understanding based on national testing in six of those nations. The sixth and final section explores the role of economic education in centrally planned economies, and its effects on the transition to a market economy, using Russia, Bulgaria, and China as case studies. This book covers the Ubuntu 19.04 (Disco Dingo) release, focusing on applications and administrative tools. The emphasis here is on what users will face when using Ubuntu, covering topics like installation, applications, software management, the Ubuntu desktops (GNOME, MATE, and KDE), shell commands, network connections, and system administration tasks. There are four parts: Getting Started, Applications, Desktops, and Administration. Part 1 focuses on getting started, covering Ubuntu information and resources, using Ubuntu Live DVD/USB discs, installing and setting up Ubuntu, upgrading Ubuntu, basic use of the desktop interface, and connecting to wired and wireless networks. Ubuntu Software and Synaptic Package manager, which provides easy and effective software management, are both discussed. Part 2 keys in on office, multimedia, mail, Internet, and social media applications. Part 3 covers the Ubuntu, Kubuntu, Ubuntu MATE, Xubuntu, and Lubuntu desktops, as well as the BASH shell. The Ubuntu desktop with the GNOME interface is examined in detail. Part 4 deals with administration topics, first discussing system tools like the GNOME system monitor, the Disk Usage Analyzer, and Disk Utility. Then a detailed chapter on Ubuntu system administration tools is presented, covering tasks such as managing users and file systems, Bluetooth setup, network folder sharing, backups, and printing. The network connections chapter covers a variety of network tasks, including manual configuration of wired and wireless connections, and firewalls. Dear writer—page ten is too late!
