Love as violence, love as a curse, love as redemption, as suffering, as wisdom, as innocence, as delusion - each story takes place on the night of 19 March 1929 and a character tries to understand or express love from his or her perspective: as dancer,

lawyer, astronomer, mathematician, artist, actor, doctor, mirror-maker. This book, inhabited by real and imagined characters at the mid point between the two world wars, was an early landmark in a career that includes the controversial novel *Borderliners* and perhaps the most attractive thriller of the decade, *Miss Smilla's Feeling for Snow*. She thinks more highly of snow and ice than she does of love. She lives in a world of numbers, science and memories--a dark, exotic stranger in a strange land. And now Smilla Jaspersen is convinced she has uncovered a shattering crime... It happened in the Copenhagen snow. A six-year-old boy, a Greenlander like Smilla, fell to his death from the top of his apartment building. While the boy's body is still warm, the police pronounce his death an accident. But Smilla knows her young neighbor didn't fall from the roof on his own. Soon she is following a path of clues as clear to her as footsteps in the snow. For her dead neighbor, and for herself, she must embark on a harrowing journey of lies, revelation and violence that will take her back to the world of ice and snow from which she comes, where an explosive secret waits beneath the ice.... These stories, which vary in theme but all bear the mark of Peter Hoeg's graceful and thoughtful prose, are set in eight separate

corners of the world. On this fateful night, a young mathematician encounters Joseph Conrad during a train ride through the war-torn Congo in "Journey into a Dark Heart; " a pair of star-crossed lovers in Lisbon dance through their memories of the Danish ballet in "Homage to Bournonville; " a seaside community struggles with the threat of a smallpox epidemic in "Pity for the Children of Vaden Town; " and in "The Verdict of Ignatio Lanstad Rasker", an idealistic young writer is prosecuted for his homosexuality by the conservative Lord Chief Justice of Denmark. Illuminating, acrobatic, and enriched with historical fact and foreshadowing, the stories in *Tales of the Night* should "consolidate Hoeg's reputation as one of the world's most versatile authors" (Seattle Times). Fusing social commentary and history with vibrant descriptions of people and places, Jensen brilliantly evokes the sights, sounds, and smells of these venerable civilizations. 3 maps. This volume gives an insight into the making of the film *Miss Smilla's Feeling for Snow*. It contains interviews with the director, Bille August, and the cast: Julia Ormond, Gabriel Byrne, Vanessa Redgrave, Richard Harris and Jim Broadbent, and also with the author himself, Peter Hoeg The memories of a German soldier who stayed in

Russia following World War II are contrasted with two comrades, one gung-ho and one introspective, and with three German women. Erasmus Levine has a job like no other. He travels with the President of the United States at all times, and holds in his hands the power to obliterate life as we know it. Levine is the man with the nuclear briefcase, part of a crack team of top-secret operatives established after 9/11, led by a man code-named Edelweiss. But not even Edelweiss knows the identity of their ultimate authority, Alpha. But Levine has a secret, for years he has been receiving cryptic messages from Alpha, an elaborate communication that began with the words: we two against the world. Now he's thinking of escape and his chance comes during an official visit to Sweden. But Alpha has other plans. From their first meeting in a network of tunnels and bunkers beneath the city, Levine is drawn into a plan to eliminate the world's nuclear arsenals. But is controlled demolition really the endgame? Could he be working towards a controlled apocalypse designed to wipe humanity from the face of the earth? From one of the world's most acclaimed authors comes a tale that explores the complex relationship between Blanche Whitman, the famous hysteria patient of Professor J. M. Charcot and Marie Curie,

Polish physicist and Nobel Prize winner.
Wuthering Heights is the name of Mr.
Heathcliff's dwelling. "Wuthering" being a
significant provincial adjective, descriptive
of the atmospheric tumult to which its station
is exposed in stormy weather. Pure, bracing
ventilation they must have up there at all
times, indeed: one may guess the power of the
north wind blowing over the edge, by the
excessive slant of a few stunted firs at the
end of the house; and by a range of gaunt
thorns all stretching their limbs one way, as
if craving alms of the sun. Happily, the
architect had foresight to build it strong:
the narrow windows are deeply set in the wall,
and the corners defended with large jutting
stones. Before passing the threshold, I paused
to admire a quantity of grotesque carving
lavished over the front, and especially about
the principal door; above which, among a
wilderness of crumbling griffins and shameless
little boys, I detected the date "1500," and
the name "Hareton Earnshaw." I would have made
a few comments, and requested a short history
of the place from the surly owner; but his
attitude at the door appeared to demand my
speedy entrance, or complete departure, and I
had no desire to aggravate his impatience
previous to inspecting the penetralium. One
stop brought us into the family sitting-room,

without any introductory lobby or passage: they call it here *the house* pre-eminently. It includes kitchen and parlour, generally; but I believe at *Wuthering Heights* the kitchen is forced to retreat altogether into another quarter: at least I distinguished a chatter of tongues, and a clatter of culinary utensils, deep within; and I observed no signs of roasting, boiling, or baking, about the huge fireplace; nor any glitter of copper saucepans and tin cullenders on the walls. One end, indeed, reflected splendidly both light and heat from ranks of immense pewter dishes, interspersed with silver jugs and tankards, towering row after row, on a vast oak dresser, to the very roof. The latter had never been under-drawn: its entire anatomy lay bare to an inquiring eye, except where a frame of wood laden with oatcakes and clusters of legs of beef, mutton, and ham, concealed it. Above the chimney were sundry villainous old guns, and a couple of horse-pistols: and, by way of ornament, three gaudily-painted canisters disposed along its ledge. The floor was of smooth, white stone; the chairs, high-backed, primitive structures, painted green: one or two heavy black ones lurking in the shade. In an arch under the dresser reposed a huge, liver-coloured bitch pointer, surrounded by a swarm of squealing puppies; and other dogs

haunted other recesses. Based on historic events, and frighteningly relevant to today's headlines -- a taut thriller about one American diplomat's year of living dangerously in Tehran in the days leading up to the Iranian Revolution ... In the style of Alan Furst, this suspenseful thriller -- based on real events -- places an idealistic American diplomat in a turbulent, US-hating Tehran in the days leading up to the Iranian Revolution. Backed by the CIA, and trailed by a beautiful and engaging French journalist he suspects is a spy, David Weiseman's mission is to ease the Shah of Iran out of power and find the best alternative between the military, religious extremists, and the political ruling class -- many of whom are simultaneously trying to kill him. I et net, knyttet af skæbnetråde fra sin slægts brogede og mangfoldige, tragikomiske, groteske historie, prøver fortælleren at indfange de danske drømme og se, hvad de førte til 'Effortlessly cool, funny yet sad, breezy but thoughtful - this is an edgy and unputdownable work of modern literature' Sharlene Teo, author of Ponti 'Crimson is written with immense courage - there's no faking the feeling of honesty on each page. It is a brave novel reminiscent of Irvine Welsh's Trainspotting' Laline Paull, author of The Bees The island has run out of oxygen. The

island is swollen. The island is rotten. The island has taken my beloved from me. The island is a Greenlander. It's the fault of the Greenlander. In Nuuk, Greenland . . . Fia breaks up with her long-term boyfriend and falls for Sara. Sara is in love with Ivik who holds a deep secret and is about to break promises. Ivik struggles with gender dysphoria as their friends become addicted to social media, listen to American pop music and get blind drunk in downtown bars and uptown house parties. Then there is Inuk, who also has something to hide - it will take him beyond his limits to madness, and question what it means to be a Greenlander, while Arnaq, the party queen, pulls the strings of manipulation, bringing a web of relationships to a shocking crescendo. Crimson weaves through restlessness, depression, love and queer experiences to tell the story of Greenlanders through a unique and challenging form. The original text was written and published in the Greenlandic language. A novel that challenges ideas of education and childhood relates the tale of a boy who grows up in institutions and becomes drawn to outsiders at an elite private school. These eight stories are linked by a date and a motif. All of them have to do with love. Love and its conditions on the night of March 19,

1929. In his second book and his only collection of stories, Peter Høeg proves himself to be a true storyteller in the tradition of Karen Blixen and Joseph Conrad. These beautifully constructed tales deal with love, the classic arts and sciences, and the confrontation of Western and non-Western cultures. Moving from a railroad car in the Congo to a sailboat in Lisbon's harbor to an upper-class apartment in Copenhagen, they include the tales of a young, disillusioned mathematician who comes face-to-face with his culture's distortion of Africa; an esteemed judge who runs off with the young man he has just sentenced to prison for his homosexual tendencies; and a town--sealed off from the plague--that is infiltrated by a troupe of traveling actors. You'll tell her your darkest secrets Susan Svendsen has an unusual talent. She is an expert in finding out secrets. People feel compelled to confide in her and unwittingly confess their innermost thoughts. Her whole life, she has exploited this talent, but now her family is in jeopardy and there is a prison sentence hanging over her head. Then Susan gets a timely offer from a former government official: use her power one more time and have all charges dropped. But there are some powerful people determined to stop her. From passionate home cook to Australia's

most popular food blogger, Lorraine Elliott has her cake and eats it too - and she's never been happier. Lorraine Elliott has long been a food enthusiast who believes cakes belong in an art gallery. Not so long ago she decided to ditch her day job as a highly paid media strategist to cook, eat and write - even though she's not quite Nigella. Now her fabulous food blog Not Quite Nigella is the go-to internet destination for hundreds of thousands of foodies from around the world. This is the story behind that journey. With her irresistible humour and optimism, Lorraine reveals the pitfalls, triumphs and challenges of becoming a full-time food blogger, and shares the best of her new-found wisdom: the secret to winning a man's heart through food, the key to baking perfect macarons, tips on hosting unforgettable dinner parties, and how to create a successful blog. More than a celebration of food, Not Quite Nigella is the inspiring and delightful story of how one woman set about turning a dream into a reality. Following in the maverick mold of Quentin Tarantino, Spike Lee, and Richard Rodriguez, Joe Queenan becomes an auteur and, in the process, funnier than ever, as he tries to master the art of writing, directing, scoring, casting, and marketing a movie--all by himself. Peter Høeg's first novel is an

interweaving of the lives and loves of four families, within which histories time expands, clocks stop or race forward at will. The dreams and disappointments of the children of the author's magnificent imagination foreshadow the themes of *Miss Smilla's Feeling for Snow* and *Borderliners* While swimming in the clear blue waters of the Rainbow Hotel, Daniel Benchimol finds a waterproof camera, floating seemingly lost in the sea. He goes on to discover that the camera belongs to Moira, a Mozambican artist famous for a series of photos depicting her own dreams. On seeing the images, Daniel realises that Moira is also the mysterious woman whom he has been dreaming about repeatedly. The two meet, and Daniel becomes involved in a unusual dream experiment with a Brazilian neuroscientist, who's working with Moira on a machine to film and photograph people's dreams. Meanwhile, Daniel's daughter Karinguiri, one of Angola's young dreamers, is arrested along with six friends for staging a protest during a presidential press conference in Luanda. The group go on hunger strike, attracting worldwide press attention, showing the power of young people when they raise their voices against the regime. *The Society of Reluctant Dreamers* is a surreal, vivid novel about the slipperiness of truth and reality, art versus dictatorship, courage

versus fear, change and the old order, amidst the politics of Angola's tumultuous past, present and future. She thinks more highly of snow and ice than she does of love. FOX News host Pete Hegseth is back with what he says is his most important book yet: A revolutionary road map to saving our children from leftist indoctrination. Behind a smokescreen of "preparing students for the new industrial economy," early progressives had political control in mind. America's original schools didn't just make kids memorize facts

or learn skills; they taught them to think freely and arrive at wisdom. They assigned the classics, inspired love of God and country, and raised future citizens that changed the world forever. Today, after 16,000 hours of K-12 indoctrination, our kids come out of government schools hating America. They roll their eyes at religion and disdain our history. We spend more money on education than ever, but kids can barely read and write—let alone reason with discernment. Western culture is on the ropes. Kids are bored and aimless, flailing for purpose in a system that says racial and gender identity is everything. Battle for the American Mind is the untold story of the Progressive plan to neutralize the basis of our Republic - by removing the one ingredient that had sustained Western Civilization for thousands of years. Pete Hegseth and David Goodwin explain why, no matter what political skirmishes conservatives win, progressives are winning the war—and control the “supply lines” of future citizens. Reversing this reality will require parents to radically reorient their children’s education; even most homeschooling and Christian schooling are infused with progressive assumptions. We need to recover a lost philosophy of education - grounded in virtue and excellence - that can arm future

generations to fight for freedom. It's called classical Christian education. Never heard of it? You're not alone. *Battle for the American Mind* is more than a book; it's a field guide for remaking school in the United States. We've ceded our kids' minds to the left for far too long—this book gives patriotic parents the ammunition to join an insurgency that gives America a fighting chance. A stunning literary thriller in the tradition of *Gorky Park* and the novels of John Le Carré. Smilla Qaaviqaaq Jaspersen is the daughter of a Danish doctor and an Inuit woman from Greenland. Raised in Greenland, she lives in Copenhagen and, as befits her ancestry, is an expert on snow. When one of her few friends, an Inuit boy, dies under mysterious circumstances, she refuses to believe it was an accident. She decides to investigate and discovers that even the police don't want her involved. But Smilla persists, and as snow-covered Copenhagen settles down for a quiet Christmas, Smilla's investigation leads her from a fanatically religious accountant, to a tough-talking pathologist, to the secret files of the Danish company responsible for extracting most of Greenland's mineral wealth. Finally, she boards a ship with an international cast of villains — and a large stash of cocaine — bound for a mysterious

mission on an inhospitable island off Greenland. The first novel in Arne Dahl's gripping Intercrime series—considered one of Sweden's best—*Misterioso* is a piercingly dark and absorbing detective thriller. After dismantling a bloody hostage situation at a bank outside Stockholm, Detective Paul Hjelm is dropped into an elite task-force assembled to find an elusive murderer with a sophisticated method. The killer breaks into the homes of Sweden's high-profile business leaders at night, places two bullets in their heads with deadly precision, then removes the bullets from the walls—a ritual enacted to a rare bootleg recording of Thelonious Monk's jazz classic "Misterioso." As Hjelm and the rest of the team follow one lead after another, they must navigate the murky underworld of the Russian mafia, penetrate the secret society of Sweden's wealthiest denizens, and battle one of the country's most persistent ills: a deep-rooted xenophobia that affects both the police and the perpetrator. Set in Denmark in the here and now, *The Quiet Girl* centres around Kaspar Krone, a world-renowned circus clown with a deep love for the music of Johann Sebastian Bach, and an even deeper gambling debt. Wanted for tax evasion and on the verge of extradition, Krone is drafted into the service of a mysterious order

of nuns who promise him reprieve from the international authorities in return for his help safeguarding a group of children with mystical abilities. When one of the children goes missing a year later, Krone sets off to find the young girl and bring her back, making a shocking series of discoveries along the way about her identity and the true intentions of his young wards. This handbook to spirituality gathers together Danish meditation teacher Jes Bertelsen's advice on training the mind through wordless prayer and meditation to realize the essence of consciousness.

Bertelsen has been teaching philosophy and meditation since the early 1970s; in 1989, he met the Tibetan lama Tulku Urgyen Rinpoche, who authorized Jes Bertelsen to teach Dzogchen, and to do so using his own judgment as to the most appropriate way to assimilate these teachings into Western culture.

Bertelsen's teachings are based on an experiential investigation of the nature of consciousness, using comparative analysis of Eastern and Western spiritual teachings and consciousness practices on a foundation of modern psychological, philosophical, and scientific approaches. *Essence of Mind* outlines the author's experience and approach to Dzogchen, the natural primordial state of human consciousness that is timeless, pure,

and untouched by suffering. The book is divided into three parts. The first part describes different methods for pointing out the essence of consciousness and the techniques related to them. The second part seeks to outline the key principles of a training system suited to Western students that can lead to realization. The final section outlines the significance of continuous exercises, and describes the way spiritual practice slowly permeates daily life, dreams, sleep, and eventually death. Through the mind-training process, the practitioner approaches an almost ecstatic state of completion, a luminous, blissful wakefulness in which the consciousness is also fully relaxed, not clinging to bliss or desiring ecstasy, but transparent and open. Bertelsen emphasizes that while more advanced forms of spiritual training can only take place in a face-to-face, deeply engaged mutual process between teacher and student, books are useful as sources of inspiration, in particular to help review one's insights and refresh one's practice. *Essence of Mind* systematizes the experiences that occur along the spiritual path and helps students to refine, correct, and clarify their efforts; it is the author's hope that many students in the West will be able to benefit from his

comparative approach to Dzogchen. After receiving a magic dreydl at Aunt Leah's Chanukah party, Sara is catapulted into an alternate world of demons, fools, sorcerers, and sages. Without them, humanity would perish. But the thirty-six do not know that they are the chosen ones. In Beijing, a monk collapses in his chamber. A fiery mark has spread across his back and down his spine. In Mumbai, a man who served the poor dies suddenly. His body shows the same mark. Similar deaths are reported in cities around the world - the victims all humanitarians, all with the same death mark. In Copenhagen, it falls to veteran detective Niels Bentzon to investigate. He is told to find eight 'good people' of Denmark and warn them of this threat. But Bentzon is trained to see the worst in people and he becomes increasingly skeptical as he realizes that not

everyone perceived to be good is truly good. It is only when Niels meets Hannah, a brilliant astrophysicist mourning the death of her husband, that the pair begin to piece together the puzzle and a pattern emerges. There have been thirty-four deaths and there are two more to come. According to the pattern, Bentzon and Hannah can predict the time and place of the final two. The murders will occur in Venice and Copenhagen. And the time is now. In the decade from 1870 to 1880 a new spirit was stirring in the intellectual and literary world of Denmark. George Brandes was delivering his lectures on the Main Currents of Nineteenth Century Literature; from Norway came the deeply probing questionings of the granitic Ibsen; from across the North Sea from England echoes of the evolutionary theory and Darwinism. It was a time of controversy and bitterness, of a conflict joined between the old and the new, both going to extremes, in which nearly every one had a share. How many of the works of that period are already outworn, and how old-fashioned the theories that were then so violently defended and attacked! Too much logic, too much contention for its

own sake, one might say, and too little art. This was the period when Jens Peter Jacobsen began to write, but he stood aside from the conflict, content to be merely artist, a creator of beauty and a seeker after truth, eager to bring into the realm of literature "the eternal laws of nature, its glories, its riddles, its miracles," as he once put it. That is why his work has retained its living colors until to-day, without the least trace of fading. There is in his work something of the passion for form and style that one finds in Flaubert and Pater, but where they are often hard, percussive, like a piano, he is soft and strong and intimate like a violin on which he plays his reading of life. Such analogies, however, have little significance, except that they indicate a unique and powerful artistic personality. Jacobsen is more than a mere stylist. The art of writers who are too consciously that is a sort of decorative representation of life, a formal composition, not a plastic composition. One element particularly characteristic of Jacobsen is his accuracy of observation and minuteness of detail welded with a deep and intimate understanding of the human heart. His characters are not studied tissue by tissue as under a scientist's microscope, rather they are built up living cell by living cell out of

the author's experience and imagination. He shows how they are conditioned and modified by their physical being, their inheritance and environment, Through each of his senses he lets impressions from without pour into him. He harmonizes them with a passionate desire for beauty into marvelously plastic figures and moods. A style which grows thus organically from within is style out of richness; the other is style out of poverty.Ê
