Portraits of Jewish Learning Feb 25 2021 Portraits of Jewish Learning brings together colorful accounts of the ways that Jewish students today are having meaningful learning experiences in day school classrooms, Hebrew programs, synagogue-based schools, and high school and college courses that push students out of their comfort zone. Whether the students are second graders engaged in text analysis, sixth graders solving complex "mystery puzzles" about Jewish values, or teens encountering "counter-narratives" about Israel's history, these stories--informed by careful and disciplined inquiry--prompt readers to reflect on questions of what Jewish learning is, what we can

discover by studying experiences of learning at close range and over time, and how Jewish education can respond to the needs and interests of Jewish learners who seek a Judaism that is relevant in today's world. The work of researchers and practitioners who are changing the landscape of contemporary Jewish education, these portraits are designed to encourage critical discussion among educational leaders, clergy, policymakers, philanthropists, and parents, as well as teachers and those aspiring to work in Jewish education. They invite us to think about the many ways that today's Jewish education can be enriched by experimentation and innovation.

Life at the End of a Rod Oct 12 2019 *Life at the End of the Rod: Tales of a Fisherman* is the lifelong journey of Robert Veltidi as he grows into a man. The outdoors was an important part of his upbringing, and he transported that love of the outdoors into his way of life. This book begins with his earliest recollection of fishing, takes us through a time of self-discovery and exploration, then to a rebirth of his love of fishing. Then the author leaps back into fishing as a means of relaxation and camaraderie between him and his father and brothers. Later on, after the death of his father, his son joins the group, along with a host of friends of all the Veltidi boys. Each story is the tale of one time that

the author feels either fishing has affected his life or that he affected somebody else's life by fishing. "My Fishing Beginnings" is the author's first recollections of his fishing life. It introduces you to the boy that he was and later the man he would become. Like the prologue, "My Fishing Beginnings," gives you the background information about the people in the rest of the stories. "The Home Pond" is a tribute to the author's grandparents. They played a huge role in his early childhood. Although the story takes place on one brief day, it depicts life in a rural area in the early 1950s. "Huck Grows Up" takes place over two summers and tells of the fishing adventures of the author when he was first given his independence and allowed to go out fishing and into town on his own. It was a turning point in his life when childhood dreams change and his life takes a new direction. "The Norma K" is the author's first experience into ocean fishing. It's interesting because the story is divided into three sub-chapters: "The Norma K," "The Norma K II," and "The Norman K III." All three were party boats out of Point Pleasant, New Jersey, that the author fished on in various times in his life, first with his father, then with his wife, and finally with his son. All three experiences were surprisingly similar in some ways and subtly different in others. "The Norma K" is the last story of the author as a child and it finishes up with him as an adult. The remaining stories depict the author as an adult or as near to one as he can be while still having as much fun as he can while fishing. "My Turn" is the first story the

author ever wrote. It came after the death of his father, and it was part of the grieving process the author went through. The story tells of the changing of the guard when the son becomes the leader, and mentor, and fulfills one of his father's lifelong dreams with surprising results. "Fixing a Roof" is a whimsical tale of grown men deciding to play hooky for the day and go fishing. This is where you meet Alan, the author's brother, and are introduced to one of Alan's friends. "Lake Ontario" is an ongoing process; it started in 1987 when the author's father died and chronicled the first eight years of an ongoing trip that continues even to today. In this tale you become more acquainted with Doug, the author's son, and he becomes a vital part of the rest of the saga. "New Jersey Trout" is the exploration into new waters and the discovery of a whole new fishery. Along the way, the author meets new friends and bonds closely with his son. "Tiger Muskies" is the start of something new; the author has stepped up and bought a bigger boat. The small lake fishing and wading by the edge of the streams has been replaced by fishing for trophy sport fish. It is also the second story written by the author. "Thoughts on Retirement" is a reflective essay that was written one afternoon in August when the author was sitting down in his shed by the lake and was a little scared of what the future would bring. For the first time in fifty years the author was free of any obligations. "Shark Fishing at Montau

organizing our collection of letters, accounts, thoughts and memories into this tale of an incredible 20-year adventure; reliving a tropical paradise, exploring a rain forest, a high mountain. Fleeing in terror from pirates. Camping with wild animals in Africa. It began so long ago. How very little we knew of the life ahead. How our senses would be stretched and filled. We have experienced so much more than we ever envisioned. Now we find ourselves at another crossroads. What do we really want to do next- we have hardly more than scratched the surface of this wonderful planet? Shall we go on traveling and exploring? Should we make short or long trips? Visit warm climes, or cold? Establish a land base? A permanent home for Oriana? In the United States? On which coast? In which State? How about New Zealand or South Africa? We are planners and dreamers. Travelers, explorers and provisioners. Savers and innovators. Foragers, readers, relaxers . . loners. The drummer we followed: a child, unbound. Our world only limited by imagination. How could we ever be the same?

Philip's City Aug 14 2022 In this major revision of his prize-winning 1998 book, *Bethsaida: Home of the Apostles*, Fred Strickert presents nonspecialist readers with the latest findings in the ongoing excavation and evaluation of et-Tell, now identified by many archaeologists as the site of biblical-era Bethsaida. New discoveries have linked the site back to the Iron Age time of David and revealed new connections to the tetrarch Philip and his family. Strickert develops an explanation for the decline and destruction of the city sharply different from his previous conclusion. Readers of *Bethsaida: Home of the Apostles* will want to follow the story into this sequel. Fred Strickert is professor emeritus of religion at Wartburg College in Waverly, Iowa, and is pastor of the Lutheran Church of the Redeemer, Jerusalem. He is the author of *Rachel Weeping: Jews, Christians, and Muslims at the Fortress Tomb* (Liturgical Press).

Mental Disorders and Disabilities Among Low-Income Children May 19 2020 Children living in poverty are more likely to have mental health problems, and their conditions are more likely to be severe. Of the approximately 1.3 million children who were recipients of Supplemental Security Income (SSI) disability benefits in 2013, about 50% were disabled primarily due to a mental disorder. An increase in the number of children who are recipients of SSI benefits due to mental disorders has been observed through several decades of the program beginning in 1985 and continuing through 2010. Nevertheless, less than 1% of children in the United States are recipients of SSI disability benefits for a mental disorder. At the request of the Social Security Administration, *Mental Disorders and Disability Among Low-Income Children* compares national trends in the number of children with mental disorders with the trends in the number of children receiving benefits from the SSI program, and describes the possible factors that may contribute to any differences between the two groups. This report provides an overview of the current status of the diagnosis and treatment of mental disorders, and the levels of impairment in the U.S. population under age 18. The report focuses on 6 mental disorders, chosen due to their prevalence and the severity of disability attributed to those disorders within the SSI disability program: attention-deficit/hyperactivity disorder, oppositional defiant disorder/conduct disorder, autism spectrum disorder, intellectual disability, learning

disabilities, and mood disorders. While this report is not a comprehensive discussion of these disorders, Mental Disorders and Disability Among Low-Income Children provides the best currently available information regarding demographics, diagnosis, treatment, and expectations for the disorder time course - both the natural course and under treatment.
