*The Cambridge Handbook of Copyright in Street Art and Graffiti* Jul 29 2020 In recent years, the number of conflicts related to the misuse of street art and graffiti has been on the rise around the world. Some cases involve claims of misappropriation related to corporate advertising campaigns, while others entail the destruction or 'surgical' removal of street art from the walls on which they were created. In this work, Enrico Bonadio brings together a group of experts to provide the first comprehensive analysis of issues related to copyright in street art and graffiti. Chapter authors shed light not only on the legal tools available in thirteen key jurisdictions for street and graffiti artists to object to unauthorized exploitations and unwanted treatments of their works, but also offer policy and sociological insights designed to spur further debate on whether and to what extent the street art and graffiti subcultures can benefit from copyright and moral rights protection.

Statues in Context Dec 26 2022 Moving beyond typological and stylistic discourses on Egyptian statuary, the papers gathered here seek to explore the architectural, cultic and production contexts of statuary, to shed light on religious or cultural practices, and the political or economic agenda behind the display or hiding of these sculptures. How and why were they originally displayed or kept invisible, transported, transformed or buried? New discoveries, the re-contextualisation of earlier excavated statues as well as recent scientific analyses provide significant new insights into the production, meaning and (re-)uses of statues. This collection of papers encompasses the full typological and chronological range - from the Old Kingdom to Late Antiquity - and include statuary of all scales, from colossi to figurines. The studies cover statues mainly set up in temples, palaces, houses and tombs, and the later biographies of statues' assemblages.

**Formal Methods in Architecture and**

**Urbanism** Sep 11 2021 The book promotes the use of formal methods in the creation of new explicit languages for problem solving in architecture and urbanism. Formal methods bring advantages to human actions and involve the use of theoretically driven techniques, expressed in languages stemmed from mathematics. Formalization seeks to guarantee that solutions for daily problems are produced in a manner that ensures their greatest possible adequacy and the least test time in direct confrontation with reality. This book contributes to the progress of formalization in architectural methodologies by finding points of convergence between state of the art research on ontologies in architecture, BIM/VDC, CAD/CAM, cellular automata, GIS, parametric processes, processing and space syntax presented within the 3rd Symposium of Formal Methods in Architecture. The contents reach from millennial geometry to current shape grammars, engaging several formal approaches to architecture and urbanism, with different points of view, fields of application, grades of abstraction and

formalization.

The New York Nobody Knows May 27 2020 "As a kid growing up in Manhattan, William Helmreich played a game with his father they called "Last Stop." They would pick a subway line and ride it to its final destination, and explore the neighborhood there. Decades later, Helmreich teaches university courses about New York, and his love for exploring the city is as strong as ever. Putting his feet to the test, he decided that the only way to truly understand New York was to walk virtually every block of all five boroughs-an astonishing 6,000 miles. His epic journey lasted four years and took him to every corner of Manhattan, Brooklyn, Queens, the Bronx, and Staten Island. Helmreich spoke with hundreds of New Yorkers from every part of the globe and from every walk of life, including Mayor Michael

Bloomberg and former mayors Rudolph Giuliani, David Dinkins, and Edward Koch. Their stories and his are the subject of this captivating and highly original book. We meet the Guyanese immigrant who grows beautiful flowers outside his modest Queens residence in order to always remember the homeland he left behind, the Brooklyn-raised grandchild of Italian immigrants who illuminates a window of his brownstone with the family's old neon grocery-store sign, and many, many others. Helmreich draws on firsthand insights to examine essential aspects of urban social life such as ethnicity, gentrification, and the use of space. He finds that to be a New Yorker is to struggle to understand the place and to make a life that is as highly local as it is dynamically cosmopolitan."--Publisher's description.

*Prison* Aug 10 2021 *Prison: Cultural Memory and Dark Tourism* discusses decommissioned Australian prisons currently or potentially functioning as tourist attractions. In particular, it addresses a fundamental question: Do the interpretations and presentations of the sites include and fairly represent the personal stories and experiences associated with those prisons? The author argues that the conventional understanding of most of Australia's historical prisons fosters a radical «othering» of inmates, and with it the exclusion, distortion and historical neglect of their narratives. This book examines avenues via which neglected narratives may be glimpsed or inferred, presenting a number of examples. This remedies the imbalance in some degree - and tests such avenues' potential as resources for inclusive interpretations by public historians and curators. The book also focuses on the influence of «celebrity prisoners», whose links to the penal system are exploited as promotional features by the sites and in some cases by the individuals themselves. Their narratives provide broad, if unwitting, support for the system and for the othering of the more general inmate population. The ramifications of the above with regard to aspects of Australian identity mean that certain

facets of the «Australian character» traditionally held to be emblematic are affected. These effects have subtle but tangible consequences for modern Australians' collective memory and deleterious consequences for current popular attitudes to penal practice.

[Rebellious Laughter](#) Oct 20 2019 Rebellious Laughter changes the way we think about the ordinary joke. Claiming that humor in America is a primary cultural weapon, Boskin surveys the multitude of joke cycles that have swept the country during the last fifty years. Dumb Blonde jokes. Elephant jokes. Jewish-American Princess jokes. Lightbulb jokes. Readers will enjoy humor from many diverse sources: whites, blacks, women, and Hispanics; conservatives and liberals; public workers and university students; the powerless and power brokers. Boskin argues that jokes provide a cultural barometer of concerns and anxieties, frequently appearing in our day-to-day language long before these issues become grist for stand-up comics.

Those who promote these standardized curricula fail to account for the unique situations and need.

Contemporary with the Israelite kingdom of Solomon and David, the Nubian conqueror Piye (Piankhy), and the Assyrian Assurbanipal, Egypt's Third Intermediate Period is of critical interest not only to Egyptologists but also to biblical historians, Africanists, and Assyriologists.

Spanning six centuries and as many dynasties, the turbulent era extended from approximately 1100 to 650 B.C.E. This volume, the first extensive collection of Third Intermediate Period inscriptions in any language, includes the primary sources for the history, society, and religion of Egypt during this complicated period, when Egypt was ruled by Libyan and Nubian dynasties and had occasional relations with Judah and the encroaching, and finally invading, Assyrian Empire. It includes the most significant texts of all genres, newly translated and revised. This volume will serve as a source book and companion for the most thorough study of the history of the period, Kitchen's *The Third Intermediate Period in Egypt*.

Rochdale ended—after seven incredible years—in drug raids, overdoses, and police surveillance, but it is remembered as Canada's most controversial symbol of the 1960s. The fascinating story of Rochdale's rise and fall is told in this well-researched, entertaining book."

**The Struggle for Jerusalem's Holy Places**

Sep 23 2022 *The Struggle for Jerusalem's Holy Places* investigates the role of architecture and urban identity in relation to the political economy of the city and its wider state context seen through the lens of the holy places.

Reflecting the broad disciplinary backgrounds of

the authors, this book provides perspectives from architecture, urbanism, and politics, and provides in-depth investigations of historical, ethnographic and policy-related case studies. The research is substantiated by fieldwork carried out in Jerusalem over the past ten years as part of the ESRC Large Grants project 'Conflict in Cities'. By analysing new dynamics of radicalisation through land seizure, the politicisation of parklands and tourism, the strategic manipulation of archaeological and historical narratives and material culture, and through examination of general appropriation of Jerusalem's varied rituals, memories and symbolism for factional uses, the book reveals how possibilities of co-existence are seriously threatened in Jerusalem. Shedding new light on the key role played by everyday urban life and its spatial settings for any future political agreements about the city and its religious sites, this book is a useful reference work for students and scholars of Middle East Studies, Architecture, Religion and Urban Studies.

**Planting Letters and Weaving Lines** Jan 23

2020 The illuminations of *The Saint John's Bible* have delighted many with their imaginative takes on Scripture. But many struggle to appreciate the calligraphy more deeply than merely noting its beauty. Does calligraphy mean something? How is it beautiful? This book, written by a biblical scholar who has spent years working with this Bible, shows how calligraphic art powerfully interplays visual form, textual content, and creative process. Homrighausen proposes five lenses for this art form: gardens, weaving, pilgrimage, touching, and enfleshing words. Each of these lenses springs from the poetry of the Song of Songs, its illuminations in *The Saint John's Bible*, and medieval ways of understanding the scribe's craft. While these metaphors for calligraphic art draw from this particular illuminated Bible, this book is aimed at all lovers of calligraphy, art, and sacred text. *The Graffiti of Tikal* May 19 2022 The graffiti incised on walls and other surfaces at the site of Tikal, Guatemala, afford an important and fascinating glimpse into a little-explored area of Classic Maya life. This wealth of figural and symbolic material was produced by the inhabitants of Tikal over a span of about 1500 years.
