Whether it's a big-bore, high-end custom sportbike you're after, or a naked, bare knuckles streetfighting drag racer, this book has the goods for getting you there. In three different scenarios, the nation's top builders give blow-by-blow instructions for completely rebuilding three popular streetbikes -- from performance modifications and exhaust systems to flawless finishes and detail work. Focusing on highly customized Hayabusa drag bikes, including a slammed and lowered Suzuki GSX1300R Hayabusa, John Dantzler of the Charlotte, North Carolina, shop Two Wheel Customs outlines the suspension and engine modifications that the serious street and quarter-mile racer can make. He takes a salvaged, late-model four-cylinder street machine and transforms it into the kind of machine that both professional stunt riders and corner-carving enthusiasts favor. Next, author Mike Seate covers the details on constructing and installing popular modifications -- everything from engine crash guards and wheelie bars to motocross-style handlebars and bikini fairings -- while stunt riders and streetfighter builders from the United States and Europe weigh in with tips and advice. Last but not least, the builders at Wisconsin's Patrick's Performance and South Carolina's Coastal Motorcycles provide a step-by-step account of the construction of two high-end custom sportbikes -- transforming a Yamaha YZF R-1 and a Suzuki GSX-R 1000 into the kind of machines that are eye-popping everywhere on the streets or on the motorcycle show circuit. George Brough started building motorcycles shortly after the First World War. The machines were named Brough Superior both to distinguish them from his father's Brough machines and to denote the highest levels of performance and quality of manufacture. Throughout the 1920s and 1930s, the name Brough Superior was synonymous with the very best in motorcycle design. The machines gained fame in the hands of riders such as Bert le Vack, Eric Fernihough, Noel Pope and, of course, T. E. Lawrence 'Lawrence of Arabia'. This book documents the full story of Brough and Brough Superior from the early years of the twentieth century through to the end of production in the Second World War, and post-war attempts at revival. A motorcycle adventure through Europe, Russia, Asia and South America. Take a seat in a Russian banya, a Mongolian Ger, or a campfire in the deserted

pampas. Ride with the author through icy deserts, over dizzying mountain passes, through swamps and endless forests. Experience the driest desert as well as the deepest lake in the world. And more important than the places, meet the people that make a motorcycle trip the most memorable adventure of a lifetime. A 14-month motorcycle adventure through Europe, Russia, Asia and South America. Upon completion of university, Patrick packed his motorcycle and headed east. Or almost. First, there were Visa's to apply for, an apartment to pack up, and then winter to wait out. But once those hurdles were cleared Patrick rode from his city in the South of Germany to meet up with his riding partner in Berlin, and together they began a journey of a lifetime on their BMW motorcycles. Jupiter's Travels -Ted Simon's astonishing 4 year motorbike journey around the world The book that inspired Ewan McGregor's Long Way Round In the late 1970s Ted Simon set off on a Triumph and rode 63,000 miles over four years through fifty-four countries in a journey that took him around the world. Through breakdowns, prison, war, revolutions, disasters and a Californian commune, he travelled into the depths of fear and reached the heights of euphoria. He met astonishing people and was treated as a spy, a welcome stranger and even a god. For Simon the trip became a journey into his own soul, and for many others - including bikers Charley Boorman and Ewan McGregor - it provides an inspiration they will never forget. This classic text, which has informed a whole genre of travel writing in the thirty years since it was first published, will never be bettered for sheer adventure, passion, humour and honesty. Brought up in England by a German mother and a Romanian father, Ted Simon found himself impelled by an insatiable desire to explore the world. It led him to abandon an early scientific career in favour of journalism, and he has worked for several newspapers and magazines on Fleet Street and elsewhere. Ted Simon is also the author of Riding Home and The Gypsy in Me. The Untouchable Norton is how racer Rem Fowler described his machine after winning the twin-cylinder class of the first TT in 1907. The company would use the phrase in advertising for the next 50 years. This book charts the history of one of the oldest marques in the world: both the glorious racing tradition and the production machines, from the first clip-on engines to the F1 rotary superbike. Interviews with those closely involved (including James Norton's daughter Grace, who kindly provided original documents and photographs reproduced here for the first time) make this the definitive account of a key contribution to motorcycle history. Narrated by the visionary founding member, Hell's Angel provides a fascinating all-access pass to the secret world of the notorious Hell's Angels Motorcycle Club. Sonny Barger recounts the birth of the original Oakland Hell's Angels and the four turbulent decades that followed. Hell's Angel also chronicles the way the HAMC revolutionized the look of the Harley-Davidson motorcycle and built what has become a worldwide bike-riding fraternity, a beacon for freedom-seekers the world over. Dozens of photos, including many from private collections and from noted photographers, provide visual documentation to this extraordinary tale. Never simply a story about motorcycles, colorful characters, and high-speed thrills, Hell's Angel is the ultimate outlaw's tale of loyalty and betrayal, subcultures and brotherhood, and the real price of freedom. Presents photographs and descriptions of thirty-two machines that have made significant contributions to motorcycling history The Ducati Story is brought right up to date in this new edition of Ian Falloon's authoritative book, covering the complete history of the marque. Initially under government control, Ducati went through several decades of ups and downs, characterised by dubious managerial decisions. Held together by the great engineer Fabio Taglioni, the father of desmodromic valve gear, Ducati produced some of the finest motorcycles of the 1950s, 1960s and 1970s: the Marianna, desmo 125 single, Mach 1, 750 and Pantah. Taglioni also instigated Ducati's return to racing, and victory in the 1972 Imola 200 was the turning point. Mike Hailwood rode the 900 Ducati to victory in the 1978 Isle of Man Formula One race and Tony Rutter took four World TT2 Championships. Cagiva purchased Ducati in 1985, bringing a new engineer, Massimo Bordi, and new designs - most famously the Desmoquattro. In various guises, this model dominated the World Superbike Championship during the 1990s, particularly in the hands of Carl Fogarty. Landmark models included the 916 and Monster, and, with the sale of Ducati to the Texas Pacific Group in 1996, the company continued to grow. The racing programme expanded to MotoGP and new model families were introduced. With control taken by the Italian company InvestIndustrial in 2006, Ducati embarked on the next era of development, Casey Stoner winning the MotoGP World Championship in 2007. Now under the Audi umbrella Ducati continues to thrive. This new edition includes a brand new chapter featuring all the models from 2012 up to 2018. Ian Falloon is one of the world's foremost motorcycle historians, with numerous books including The Ducati 750 Bible, Ducati 900 Bible and The Moto Guzzi Story. He has forty years of experience with Ducati, and a collection of motorcycles that includes the 1973 Ducati 750 that he bought in 1976. The new doctrine reached the island nation of Japan where it was so well received that Christianity threatened to

supplant Buddhism as the dominant religion. By the close of the 16th century Japanese Christians numbered in the millions. Fifty years later Christianity was officially proscribed and Christians faced execution for openly practicing their faith.
