Excerpt from The Chemistry of Cooking and Cleaning: A Manual for House Keepers In this age of applied science, every opportunity of benefiting the household should be seized upon. The family is the heart of the country's life, and every philanthropist or social scientist must begin at that point. Whatever, then, will enlighten the mind, and lighten the burden of care, of every housekeeper will be a boon. At the present time, when electric light and the gas stove are familiar topics, there is, after all, no branch of science which might be of more benefit to the community, if it were properly understood, than Chemistry - the Chemistry of

Common Life. There is a space yet unoccupied for an elementary work which shall give to non-scientific readers some practical information as to the chemical composition of articles of daily use, and as to their action in the various operations in which they are employed. The public are the more ready for the application of this knowledge since Chemistry is taught in nearly all high schools, and most persons have a dim idea of what some part of it means. To gather up these indistinct notions into a definite and practical form is the aim of this little book. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. First collected by his devoted family and colleagues as a 75th birthday present, *The Unpublished David Ogilvy* collects a career's worth of public and private communications - memos, letters, speeches, notes and interviews - from the 'Father of Advertising' and founder of Ogilvy & Mather. Still fizzing with energy and freshness more than 25 years after it was first published, its success outside the private circle of friends and colleagues it was created for was, in the words of one of its editors: 'because so often he spoke out on important matters long before the crowd caught up to him; because all of what he says, he says so well; because so little of what he says in the book had ever before appeared in print'. It includes *The Theory and Practice of Selling the AGA Cooker*, described by *Fortune* magazine as 'the finest sales instruction manual ever written', and an

interview in which he makes disclosures that even long-standing associates had never heard before. This is a business book unlike any other: a straightforward and incisive look at subjects such as salesmanship, management and creativity, presented in his trademark crisp prose. Whether carefully prepared for a lecture or as a private joke to a friend, his writing always underlines the importance of the rule, 'it pays an agency to be imaginative and unorthodox'.

God designed us. Therefore, He knows how we function, including the best way to communicate with us human beings. God designed the human brain to receive and transmit most effectively through word pictures. Because God wants everyone to know about Him and His principles for life, He chose to reveal Himself to us through these various word pictures. In his book *Spiritual Lessons from the Body*, author Dr. Armand L. Weller shows us how God crafted the human body like a master artist or potter. God uses each part of the human body as a unique teaching tool. Weller explains how God's intricate design uses the human body to teach us invaluable life and spiritual lessons. The psalmist tells us we are "fearfully and wonderfully made." The human body is one of God's most glorious word pictures. As you read *Spiritual Lessons from the Body*, you will see in each aspect of God's artwork lessons about life contained within the physical reality of the human body. Time and again, God and the writers He inspired turn to

the human body as a source of insightful word pictures. In *Spiritual Lessons from the Body*, Armand Weller studies these word pictures and offers some fascinating and thought-provoking lessons about the spiritual realities of our earthly bodies. Read it, and you will discover God's character in a new and fresh way. You'll gain a deeper understanding of God's mind, His heart, and the way He is working in your life. – Rev. Dr. Mike Sigman, Lead Pastor of Grace Community Church of Willow Street, Past President Evangelical Seminary, and Bishop Emeritus of the Evangelical Congregational Church. I felt both a sense of amazement and intrigue as I read this book. You, too, can read it and be blessed. – Rev. Scott Johnston, Chaplain, Willow Valley Communities
