Rebels at the Gate May 15 2022 *Rebels at the Gate* is the dramatic story of the first Union victories of the Civil War and the events that caused Virginians to divide their state. In a defiant act to sustain President Lincoln's war effort, Virginia Unionists created their own state government in 1861—destined to become the new state of West Virginia.

John Beckley; Zealous Partisan in a Nation Divided May 23 2020

Divided America Nov 28 2020 *The AP* reveals the tensions and issues that underlined the tumultuous 2016 U.S. election, but it goes beyond the politics of the moment to ask: How will Americans face continued challenges well after a new president has been chosen?

Why the Civil War Came Jan 19 2020 In the early morning of April 12, 1861, Captain George S. James ordered the bombardment of Fort Sumter, beginning a war that would last four horrific years and claim a staggering number of lives. Since that fateful day, the debate over the causes of the American Civil War has never ceased. What events were instrumental in bringing it about? How did individuals and institutions function? What did Northerners and Southerners believe in the decades of strife preceding the war? What steps did they take to avoid war? Indeed, was the great armed conflict avoidable at all? Why the Civil War Came brings a talented chorus of voices together to recapture the feel of a very different time and place, helping the reader to grasp more fully the commencement of our bloodiest war. From William W. Freehling's discussion of the peculiarities of North American slavery to Charles Royster's disturbing piece on the combatants' savage readiness to fight, the contributors bring to life the climate of a country on the brink of disaster. Mark Summers, for instance, depicts the tragically jubilant first weeks of Northern recruitment, when Americans on both sides were as yet unaware of the hellish slaughter that awaited them. Glenna Matthews underscores the important war-catalyzing role played by extraordinary public women, who proved that neither side of the Mason-Dixon line was as patriarchal as is thought. David Blight reveals an African-American world that "knew what time it was," and welcomed war. And Gabor Boritt examines the struggle's central figure, Lincoln himself, illuminating in the years leading up to the war a blindness on the future president's part, an unwillingness to confront the looming calamity that was about to smash the nation asunder. William E. Gienapp notes perhaps the most unsettling fact about the Civil War, that democratic institutions could not resolve the slavery issue without resorting to violence on an epic scale. With gripping detail, *Why the Civil War Came* takes readers back to a country fraught with bitterness, confusion, and hatred—a country ripe for a war of unprecedented bloodshed—to show why democracy failed, and violence reigned.

A Nation Divided Jan 23 2023 Looks at the major causes of the Civil War, including cultural divisions, slavery, and the Presidential election of 1860.

A History of Germany 1918-2008 Jan 31 2021 The third edition of *A History of Germany* traces the dramatic social, cultural, and political tensions in Germany since 1918. Offers a persuasive interpretation of the dynamics of twentieth-century German history from 1918-2008 from the perspective of division and reunification, covering East and West German history in equal depth. Covers the self-destructive Weimar Republic, the extremes of genocide and military aggression in the Nazi era, the division of the nation in the Cold War, and the collapse of communist East Germany and unification in 1990. New edition includes updates throughout, especially covering the Nazi period and the Holocaust; a new chapter on Germany since the 1990s; and a substantially revised and updated bibliography.

Divided Nation? Sep 26 2020 An account of Australian public opinion about Aborigines, and the political uses of public opinion research. The authors portray the changes and continuities in Australians' public opinion about indigenous Australians, including their claims for recognition and for social justice.

Our Year of War Jun 16 2022 Two brothers—Chuck and Tom Hagel—who went to war in Vietnam, fought in the same unit, and saved each other's life. They disagreed about the war, but they fought it together. 1968. America was divided. Flag-draped caskets came home by the thousands. Riots ravaged our cities. Assassins shot our political leaders. Black fought white, young fought old, fathers fought sons. And it was the year that two brothers from Nebraska went to war. In Vietnam, Chuck and Tom Hagel served side by side in the same rifle platoon. Together they fought in the Mekong Delta, battled snipers in Saigon, chased the enemy through the jungle, and each saved the other's life under fire. But when their one-year tour was over, these two brothers came home side-by-side but no longer in step—one supporting the war, the other hating it. Former Secretary of Defense Chuck Hagel and his brother Tom epitomized the best, and withstood the worst, of the most tumultuous, shocking, and consequential year in the last half-century. Following the brothers' paths from the prairie heartland through a war on the far side of the world and back to a divided America, *Our Year of War* tells the story of two brothers at war—a gritty, poignant, and resonant story of a family and a nation divided yet still united.

Storms Gather Sep 19 2022 Randolph and Elizabeth Hudson were barely into their teens when they left the persecuted city of Nauvoo with their mother, Mary, and relocated to booming St. Louis. Years later, under the gathering clouds of civil war, Rand fights to keep the family's steamship business from a hypocritical uncle who has sold out to treacherous slaveholders and secessionists while Elizabeth struggles to end an ill-suited entanglement that could cripple her freedom --

Crisis of the House Divided Nov 16 2019 This definitive analysis of the Lincoln-Douglas debates is "one of the most influential works of American history and political philosophy ever published (National Review). In *Crisis of the House Divided*, noted conservative scholar and historian Harry V. Jaffa illuminates the political principles that guided Abraham Lincoln from his reentry into politics in 1854 through his Senate campaign against Stephen Douglas in 1858. Through critical analysis of the Lincoln-Douglas debates, Jaffa demonstrates that Lincoln's political career was grounded in his commitment to constitutionalism, the rule of law, and abolition. A landmark work of American history, it "has shaped the thought of a generation of Abraham Lincoln and Civil War scholars." To mark the fiftieth anniversary of the original publication, Jaffa has provided a new introduction (*Civil War History*). "A searching and provocative analysis of the issues confronted and the ideas expounded in the great debates...A book which displays such learning and insight that it cannot fail to excite the admiration even of scholars who disagree with its major arguments and conclusions."—D. E. Fehrenbacher, *American Historical Review*

Nations Divided Mar 13 2022 The anti-apartheid struggle remains one of the most fraught episodes in the history of modern Jewish identity. Just as many American Jews proudly fought for principles of justice and liberation in the Civil Rights Movement, so too did they give invaluable support to the movement for racial equality in South Africa. Today, however, the memory of apartheid bedevils the debate over Israel and Palestine, viewed by some as a cautionary tale for the Jewish state even as others decry the comparison as anti-Semitic. This pioneering history chronicles American Jewish involvement in the battle against racial injustice in South Africa, and more broadly the long historical encounter between American Jews and apartheid. In the years following World War II and the Holocaust, Jewish leaders across the world stressed the need for unity and shared purpose, and while many American Jews saw the fight against apartheid as a natural extension of their Civil Rights activism, others worried that such critiques would threaten Jewish solidarity and diminish Zionist loyalties. Even as the immorality of apartheid grew to be universally accepted, American Jews continued to struggle over persistent analogies between South African apartheid and Israel's Occupation. As author Marjorie N. Feld shows, the confrontation with apartheid tested American Jews' commitments to principles of global justice and reflected conflicting definitions of Jewishness itself.

The Third Option Oct 16 2019 Miles McPherson, founder of The Rock Church in San Diego, presents "a discussion about race that we desperately need...a must read" (Bishop T.D. Jakes, Senior Pastor, The Potter's House) and argues that we must learn to see people not by the color of their skin, but as God sees them—humans created in the image of God. Pastor Miles McPherson, senior pastor of The Rock Church in San Diego, addresses racial division, a topic many have shied away from, for fear of asking the wrong question or saying the wrong thing. Some are oblivious to the impact racism has, while others pretend it doesn't exist. Even the church has been affected by racial division, with Sunday now being the most segregated day of each week. Christians, who are called to love and honor their neighbors, have fallen into culture's trap by siding with one group against another: us vs. them. Cops vs. protestors. Blacks vs. whites. Racists vs. the "woke." The lure of choosing one option over another threatens God's plan for unity among His people. Instead of going along with the culture, Pastor Miles directs us to choose the Third Option: honoring the priceless value of God's image in every person we meet. He exposes common misconceptions that keep people from engaging with those of different racial and ethnic backgrounds, and identifies the privileges and pitfalls that we all face. The Third Option challenges us to fully embrace God's creativity and beauty, as expressed in the diversity of His people. By following the steps and praying the prayers outlined in his book, Pastor Miles teaches us how we can all become leaders in unifying our communities, our churches, and the nation.

Civil War Sites Jun 23 2020 This guide is the perfect Civil War buff travel companion, with exact directions and brief descriptions of all the important battle sites of the era.

The Mahathir Legacy Nov 21 2022 Malaysia is at a political and economic crossroad, and the direction it takes is of vital importance to the whole Southeast Asian region. This important book is the first comprehensive analysis of contemporary Malaysia and the struggle for its political and economic leadership.

The Koreas Aug 18 2022 What history, pop culture, and diaspora can teach us about North and South Korea today. Korea is one of the last divided countries in the world. Twins born of the Cold War, one is vilified as an isolated, impoverished, time-warped state with an abysmal human rights record and a reclusive leader who perennially threatens global security with his clandestine nuclear weapons program. The other is lauded as a thriving democratic and capitalist state with the thirteenth largest economy in the world and a model for developing countries to emulate. In *The Koreas*, Theodore Jun Yoo provides a compelling gateway to understanding the divergent developments of contemporary North and South Korea. In contrast to standard histories, Yoo examines the unique qualities of the

Korean diaspora experience, challenging the master narratives of national culture, homogeneity, belongingness, and identity. This book draws from the latest research to present a decidedly demythologized history, with chapters focusing on feature stories that capture the key issues of the day as they affect popular culture and everyday life. The Koreans will be indispensable to any historian, armchair or otherwise, in need of a discerning and reliable guide to the region.

Preaching to a Divided Nation Apr 14 2022 We live in angry times. No matter where we go, what we watch, or how we communicate, our culture is rife with division and polarization. Unfortunately, Christians appear to be caught up in the same animosity as the culture at large. While our faith calls us to Christian unity, the hard fact remains: our churches are tragically divided across class, ethnic, gender, and political lines. As these social chasms grow--both inside and outside the church--the role of the preacher becomes paramount. This book issues a prophetic call to pastors to use the influence of their pulpits to promote reconciliation and unity in their churches and communities. Two scholar-practitioners who are experts in homiletics and reconciliation present a practical, 7-step model that empowers faithful leaders to bring healing and peace to their fractured churches and world. The book includes questions for reflection, salient illustrations, and an accountability covenant. It also includes useful appendices on preaching themes, preaching texts, and sample sermons from three leading preachers: Ralph Douglas West, Rich Villodas, and Sandra Maria Van Opstal.

Morocco Feb 18 2020 In Morocco, Marvine Howe, a former correspondent for The New York Times, presents an incisive account of the Moroccan kingdom and its people, past and present. She provides a frank portrait of the late King Hassan, whom she credits with laying the foundations of a modern state, and she highlights the pressures his successor King Mohammed VI has come under to transform the monarchy into a modern democracy. Howe addresses emerging issues--equal rights for women, the correction of glaring economic disparities--and asks the question: can this ancient Muslim kingdom embrace democracy in an era of deepening divisions between Islam and the West?

The War Hits Home Aug 26 2020 In 1863 Confederate forces confronted the Union garrison at Suffolk Virginia, and an exhausting and deadly campaign followed. Wills (history and philosophy, U. of Virginia-Wise) focuses on how the ordinary people of the region responded to the war. He finds that many remained devoted to the Confederate cause, while others found the demands too difficult and opted in a number of ways not to carry them any longer. Lincoln on the Verge Jul 17 2022 WINNER OF THE LINCOLN FORUM BOOK PRIZE "A Lincoln classic...superb."—The Washington Post "A book for our time."—Doris Kearns Goodwin Lincoln on the Verge tells the dramatic story of America's greatest president discovering his own strength to save the Republic. As a divided nation plunges into the deepest crisis in its history, Abraham Lincoln boards a train for Washington and his inauguration—an inauguration Southerners have vowed to prevent. Lincoln on the Verge charts these pivotal thirteen days of travel, as Lincoln discovers his power, speaks directly to the public, and sees his country up close. Drawing on new research, this riveting account reveals the president-elect as a work in progress, showing him on the verge of greatness, as he foils an assassination attempt, forges an unbreakable bond with the American people, and overcomes formidable obstacles in order to take his oath of office.

Resolved Dec 18 2019 Born just one year before the United Nations itself, Ban Ki-moon came of age with the world body. His earliest memories are haunted by the sound of bombs dropping on his Korean village and the sight of fires consuming what remained. The six-year-old boy fled with his family, trudging for miles in mud-soaked shoes, suffering from incessant hunger, and wondering how they would survive—until the United Nations rescued them. Young Ban Ki-moon grew up determined to repay this lifesaving generosity. Resolved is Ban Ki-moon's personal account of his decade at the helm of the organization during a period of historic turmoil and promise. Meeting challenges and resistance with a belief in the UN's mission of peace, development, and human rights, he steered the United Nations through a volatile period that included the Arab Spring, nuclear pursuits in Iran and North Korea, the Ebola epidemic, and brutal new conflicts in Central Africa. As secretary-general, Ban also forged global agreements to fight extreme poverty and address the climate crisis. Ban performed what has been called "the most impossible job on this earth" with a genuine belief in collective action and global transformation. Freed from the diplomatic constraints of a lifetime of public service, he offers a candid assessment of the people and events that shape our era and a bracing analysis of what lies ahead.

Ancestors in a Nation Divided Dec 22 2022 Why Research Your Civil War ancestor? You may have a story or two handed down through your family about your Civil War ancestor. So what other info do you need? Was he a northerner called to service by the president? So with honor and the instilled need to preserve the Union he enlisted? Or was he a Confederate soldier fighting for his new country and its rights and freedom? Was he an African American, freedman or slave, fighting for the system with little acknowledgement? Why research? Because your Civil War ancestor's story is a part of our country's history. Yet more than that it's a part of your story. To know your Civil War ancestor, his life and military service, is to know a part of you. Ancestors In A Nation Divided will guide you through the steps of researching your Civil War ancestor. From the beginning if you only have a name - to an in-

depth search of his military and post-war life this book will guide you through the process. Packed with the resources you need to research you'll be able to:° Begin even if you don't know where to start° Understand Compiled Military Service Records and Pension Files° Find your Civil War ancestor in little known and under-used censuses° Take a look at Provost Marshall Records° Learn about Confederate Military History and the Official Records ° Take a look at long forgotten resources like the Old Soldiers Home, GAR and UVC membership° And so much more! Whether your ancestor fought for the Union or the Confederacy, *Ancestors In A Nation Divided* will help you open the doors to his military service. You'll learn about the battles he fought, camp life, injuries he may have sustained and more. Your research will put you alongside your ancestor in his Civil War journey. You'll learn about his experiences and in knowing what he lived through you'll be able to appreciate his service all the more. The Civil War changed this country's path, it shaped our nation into what we know today and your ancestor had a hand in that. *Ancestors In A Nation Divided* will help you start learning about your Civil War ancestor today.

Michael Moore's Fahrenheit 9/11 Jul 05 2021 Examines the development of Michael Moore's ideas and the evolution of his filmmaking, then dissects "Fahrenheit 9/11", and explores the many claims and disagreements about the movie's truthfulness. This study shows that Michael Moore's film did more than shake up a nation.

Ashe County's Civil War Oct 28 2020 Distinguished from traditional historical narrative by its balanced portrayal of wartime experiences both at home and on the battlefield and flavored by its vivid portrayal of a divided Appalachian community, *Ashe County's Civil War: Community and Society in the Appalachian South* breaks new ground in Southern social, political, and economic history. Martin Crawford contends that the experiences of Ashe County's men and women during the Civil War era were shaped as much by their membership in the wider American society as by uniquely local factors. Through a thoughtful blending of family correspondence, local and state historical documents, and the broader news of the divided country, Crawford re-creates the lives of Ashe County's citizens. Among them are teenager Selina Howell, whose suicide draws the reader into an intimate portrayal of kin and community dynamics, and Tom Crumpler, the young lawyer-politician who made the ultimate sacrifice for a cause he initially opposed. These people and their stories bring to life the very human side of the Civil War, carrying Crawford's narrative well beyond ordinary social history.

Still a House Divided Dec 10 2021 Why race remains the central political issue in America today? Why have American policies failed to reduce the racial inequalities still pervasive throughout the nation? Has President Barack Obama defined new political approaches to race that might spur unity and progress? *Still a House Divided* examines the enduring divisions of American racial politics and how these conflicts have been shaped by distinct political alliances and their competing race policies. Combining deep historical knowledge with a detailed exploration of such issues as housing, employment, criminal justice, multiracial census categories, immigration, voting in majority-minority districts, and school vouchers, Desmond King and Rogers Smith assess the significance of President Obama's election to the White House and the prospects for achieving constructive racial policies for America's future. Offering a fresh perspective on the networks of governing institutions, political groups, and political actors that influence the structure of American racial politics, King and Smith identify three distinct periods of opposing racial policy coalitions in American history. The authors investigate how today's alliances pit color-blind and race-conscious approaches against one another, contributing to political polarization and distorted policymaking. Contending that President Obama has so far inadequately confronted partisan divisions over race, the authors call for all sides to recognize the need for a balance of policy measures if America is to ever cease being a nation divided. Presenting a powerful account of American political alliances and their contending racial agendas, *Still a House Divided* sheds light on a policy path vital to the country's future.

Apostles of Disunion Jul 25 2020 Charles Dew's *Apostles of Disunion* has established itself as a modern classic and an indispensable account of the Southern states' secession from the Union. Addressing topics still hotly debated among historians and the public at large more than a century and a half after the Civil War, the book offers a compelling and clearly substantiated argument that slavery and race were at the heart of our great national crisis. The fifteen years since the original publication of *Apostles of Disunion* have seen an intensification of debates surrounding the Confederate flag and Civil War monuments. In a powerful new afterword to this anniversary edition, Dew situates the book in relation to these recent controversies and factors in the role of vast financial interests tied to the internal slave trade in pushing Virginia and other upper South states toward secession and war. Bridging the Gap in Our Divided Nation Dec 30 2020 Here, at last, is the tool for developing relationships with a mixed group of voters, enabling understanding of each other without judging feelings. Each of 15 chapters promotes a lively discussion. Counselors will find this a useful guide and workbook for helping those persons coping with feelings about our election. Teachers in Civic classes, group discussions in any setting will find provocative guidelines and tips for understanding differences. Dr. Baute is a retired psychologist who specialized in communications and relationships. He uses chapters on Avoiding Blaming and Understanding the Language of Feelings developed over a lifetime of therapy listening, so the program becomes a workshop in self-understanding and self-intimacy. Each of fifteen chapters become discussion events. Instructions on how to obtain an engaged discussion from the whole group is included, developed over one lifetime of facilitating group discussions. This is an election

which will be discussed and analyzed for a decade. This book contains a wealth of first hand experiences from diverse groups of voters.

Burning Nation Jan 11 2022 In this wrenching sequel to *DIVIDED WE FALL*, Danny and friends fight to defend Idaho against a Federal takeover and the ravages of a BURNING NATION. At the end of *DIVIDED WE FALL*, Danny Wright's beloved Idaho had been invaded by the federal government

Creating America: The nation divided and rebuilt Oct 20 2022 Each unit includes guided reading, building vocabulary, skillbuilder practice, geography application, primary sources, literature selections, reteaching activities, enrichment activities for gifted and talented students, history workshop resources and answer key.

The Nez Perce Nation Divided Nov 09 2021 These are contemporary accounts, mostly unpublished, about the Idaho gold rush of 1860 and the resulting decrease of the Nez Perce Reservation in the controversial Nez Perce Treaty of 1863.

Tales of Two Americas Sep 07 2021 Thirty-six major contemporary writers examine life in a deeply divided America—including Anthony Doerr, Ann Patchett, Roxane Gay, Rebecca Solnit, Hector Tobar, Joyce Carol Oates, Edwidge Danticat, Richard Russo, Eula Bliss, Karen Russell, and many more America is broken. You don't need a fistful of statistics to know this. Visit any city, and evidence of our shattered social compact will present itself. From Appalachia to the Rust Belt and down to rural Texas, the gap between the wealthiest and the poorest stretches to unimaginable chasms. Whether the cause of this inequality is systemic injustice, the entrenchment of racism in our culture, the long war on drugs, or immigration policies, it endangers not only the American Dream but our very lives. In *Tales of Two Americas*, some of the literary world's most exciting writers look beyond numbers and wages to convey what it feels like to live in this divided nation. Their extraordinarily powerful stories, essays, and poems demonstrate how boundaries break down when experiences are shared, and that in sharing our stories we can help to alleviate a suffering that touches so many people.

Young America Aug 06 2021 The Young Americans were a nationalist movement within the Democratic Party made up of writers and politicians associated with the New York periodical, the *Democratic Review*. In this revealing book, Mark Power Smith explores the ways in which—in dialogue with its critics—the movement forged contrasting visions of American nationalism in the decades leading up to the Civil War. Frustrated, fifty years after independence, by Britain's political and cultural influence on the United States, the Young Americans drew on a wide variety of intellectual authorities—in the fields of literature, political science, phrenology and international law—to tie popular sovereignty for white men to the universalist idea of natural rights. The movement supported a noxious program of foreign interventionism, racial segregation, and cultural nationalism. What united these policies was a new view of national allegiance: one that saw democracy and free trade not as political privileges but as natural rights for white men. Despite its national reach, this view of the Union inadvertently turned Northern and Southern states against each other, helping to cultivate the conditions for the Civil War. In the end, the Young America movement was ultimately consumed by the sectional ideologies it had brought into being.

Divided America Apr 02 2021 Is America still great or has the country lost its way? This and many other concerns weighing on the minds of everyday Americans is explored by reporters of The Associated Press in "Divided America: An AP Guide to the Fracturing of a Nation." The AP reveals the tensions and issues underlying the tumultuous 2016 U.S. election, but it goes beyond the politics of the moment to ask: How will Americans face continued challenges well after a new president has been chosen? "Divided America," is more than just Democrat vs. Republican or liberal vs. conservative. It's the 1 percent vs. the 99 percent and rural vs. urban. Climate doubters clash with believers. Bathrooms have become battlefields, borders are battle lines. It's sex and race, faith and ethnicity, and a melting pot that's boiling over. The stories examine how Americans define greatness, why evangelical Christians feel they are under siege in the U.S., where the heated rhetoric over immigration has exposed deep division in a once-quiet corner of the West, as well as the disconnect between improving economic data and the day-to-day struggles of ordinary people. AP also looks at the influence of Hispanic and millennial voters, the role of media in shaping a divisive electorate and many other questions that will continue to impact the country for years to come. These profiles are of people from every corner of the U.S. who are hopeful, angry, passionate, optimistic, fatalistic and, above all, divided. Additionally, the book features more than 75 images taken by AP's award-winning photographers. Proceeds from each purchase of "Divided America" will support the efforts of the National Freedom of Information Coalition and its mission to protect the rights of citizens to open government and ensure accessibility and transparency from public institutions, especially on the state and local level. "Divided America" is a must read for anyone looking to understand the pulse of the nation and the issues Americans face on a daily basis.

The Divided Nation Jun 04 2021 Covering all major aspects of German history from the Weimar Republic through reunification, this new textbook offers a remarkably rich, insightful survey of a difficult and controversial subject. It integrates East German history more fully than competing texts, offering a precisely nuanced picture of life in the GDR and a compelling account of the roots of the 1989 revolution, and incorporates the latest research in social and economic history to deepen and vivify the political narrative. A unique advantage is its full, and fully accessible, examination of current historiographical debates in the field. Comprehensive, cogent, and judiciously balanced,

The Divided Nation will become a standard text for undergraduate and graduate courses.

Repairing Our Divided Nation: How to Fix America's Broken Government, Racial Inequity, and Troubled Schools

Mar 21 2020 David Ellison wrote *Repairing Our Divided Nation* because he, like so many others, is frustrated with the division he sees in our nation, particularly when it comes to race and politics. In his desire to help create a better world for all - no matter one's color or political persuasion - Ellison studied the works of some of the world's most respected scholars and summaries of notable Supreme Court cases that continue to negatively impact society today. With malice toward none, *Repairing Our Divided Nation* offers: - History lessons that should be required reading for all Americans. - A demand that Congress stop abdicating its responsibilities. - A plan for running our elections so the best people are sent to Washington to serve We the People. - A proposal for improving our schools' curricula and administration. - A call for guaranteeing that all Americans, no matter their color, wealth, or zip code, have a real chance at becoming economically self-reliant and living a life with dignity. This book concludes with four of the most important documents in America's history: the Declaration of Independence, the Constitution, the Amendments to the Constitution, and Dr. Martin Luther King, Jr.'s "Letter from a Birmingham Jail." Ellison believes that if every American did a deep dive into understanding each document's message, we would have the more perfect Union our Founders envisioned.

Reconstruction Feb 12 2022 In the summer of 1868, a mere three years after the end of America's most destructive military struggle, the country was at war again.

Lincoln and the Fight for Peace Mar 01 2021 A groundbreaking, revelatory history of Abraham Lincoln's plan to secure a just and lasting peace after the Civil War—a vision that inspired future presidents as well as the world's most famous peacemakers, including Nelson Mandela, Mahatma Gandhi, and Martin Luther King, Jr. It is a story of war and peace, race and reconciliation. As the tide of the Civil War turned in the spring of 1865, Abraham Lincoln took a dangerous two-week trip to visit the troops on the front lines accompanied by his young son, seeing combat up close, meeting liberated slaves in the ruins of Richmond, and comforting wounded Union and Confederate soldiers. The power of Lincoln's personal example in the closing days of the war offers a portrait of a peacemaker. He did not demonize people he disagreed with. He used humor, logic, and scripture to depolarize bitter debates. Balancing moral courage with moderation, Lincoln believed that decency could be the most practical form of politics, but he understood that people were more inclined to listen to reason when greeted from a position of strength. Ulysses S. Grant's famously generous terms of surrender to General Robert E. Lee at Appomattox that April were a direct expression of the president's belief that a soft peace should follow a hard war. While his assassination sent the country careening off course, Lincoln's vision would be vindicated long after his death, inspiring future generations in their own quests to secure a just and lasting peace. As US General Lucius Clay, architect of the post-WWII German occupation, said when asked what guided his decisions: "I tried to think of the kind of occupation the South would have had if Abraham Lincoln had lived." *Lincoln and the Fight for Peace* reveals how Lincoln's character informed his commitment to unconditional surrender followed by a magnanimous peace. Even during the Civil War, surrounded by reactionaries and radicals, he refused to back down from his belief that there is more that unites us than divides us. But he also understood that peace needs to be waged with as much intensity as war. Lincoln's plan to win the peace is his unfinished symphony, but in its existing notes, we can find an anthem that can begin to bridge our divisions today.

American Republics: A Continental History of the United States, 1783-1850 May 03 2021 Winner of the 2022 New-York Historical Society Book Prize in American History A Washington Post and BookPage Best Nonfiction Book of the Year From a Pulitzer Prize-winning historian, the powerful story of a fragile nation as it expands across a contested continent. In this beautifully written history of America's formative period, a preeminent historian upends the traditional story of a young nation confidently marching to its continent-spanning destiny. The newly constituted United States actually emerged as a fragile, internally divided union of states contending still with European empires and other independent republics on the North American continent. Native peoples sought to defend their homelands from the flood of American settlers through strategic alliances with the other continental powers. The system of American slavery grew increasingly powerful and expansive, its vigorous internal trade in Black Americans separating parents and children, husbands and wives. Bitter party divisions pitted elites favoring strong government against those, like Andrew Jackson, espousing a democratic populism for white men. Violence was both routine and organized: the United States invaded Canada, Florida, Texas, and much of Mexico, and forcibly removed most of the Native peoples living east of the Mississippi. At the end of the period the United States, its conquered territory reaching the Pacific, remained internally divided, with sectional animosities over slavery growing more intense. Taylor's elegant history of this tumultuous period offers indelible miniatures of key characters from Frederick Douglass and Sojourner Truth to Elizabeth Stanton and Margaret Fuller. It captures the high-stakes political drama as Jackson and Adams, Clay, Calhoun, and Webster contend over slavery, the economy, Indian removal, and national expansion. A ground-level account of American industrialization conveys the everyday lives of factory workers and immigrant families. And the immersive narrative puts us on the streets of Port-au-Prince, Mexico City, Quebec, and the Cherokee capital, New Echota. Absorbing and chilling, American

Republics illuminates the continuities between our own social and political divisions and the events of this formative period.

Civil War In Greenbrier County, West Virginia Apr 21 2020 This is the story of a place, and a war. It makes sense that this area would be of utmost significance in the Civil War, as it sits on the spot where Virginia was ripped apart to form two states. A place where the war "came early and stayed late." Although strong Union support characterized Greenbrier County before the war, the majority of its citizens sided with the South when forced to choose. Greenbrier County sent no delegates to the conventions that gave birth to the Reorganized Government of Virginia. It cast no votes for Abraham Lincoln. When war came, the county supported the Confederate military with money, arms and men. An estimated 2,000 men and boys from Greenbrier County wore Confederate gray. This number represented approximately 80% of the county's males of "military was strategically important to both sides. It was a gateway to northwestern Virginia, Ohio and the rich Shenandoah Valley. It was a base from which either side could attack, or defend, the vital railroads of southwestern Virginia and the prized salt mines of the Great Kanawha Valley. In the years after the war Greenbrier County played a prominent role in shaping the new nation. At a meeting in at the Greenbrier in 1868, General Lee and other prominent veterans from both sides signed the Greenbrier Manifesto, a document calling for reconciliation between the North and South. In this way, Greenbrier County--crossroads of a nation divided--became a conduit for lasting peace. Tim McKinney's detailed account of the battle of Lewisburg has eliminated many assumptions and implications of previous historians. His is the best and most complete history of the Civil War in Greenbrier County. Jack Dickinson, bibliographer of the Rosanna Blake Confederate Collection at Morrow Library, Marshall University, Huntington, WV. One of McKinney's favorite parts of the book explains how the now-famous resort, The Greenbrier, played a role in the war. The Sisters of Charity took care of countless wounded and sick soldiers there. McKinney discovered that one nun, Sister De Sales, worked in a ward set up in the resort's great ballroom. A dance program was still posted at its entrance, he writes: "It must have been an odd sight to have the fancy ballroom, elaborate hotel, and luxurious cottages in use as hospital wards. Where once laughter and joviality reigned supreme, were found the moans and pleading entreaties of men in various stages of life-threatening disease. The scarcity of food and basic needs was in contrast to prewar days of opulence and abundance." The resort's beautiful grounds, enlivened with paths bearing such names as Courtship Maze and Lovers Rest, were now dotted with small earthen mounds indicating where yet another mother's son was laid to rest. "Thus at White Sulphur Springs was found incongruity, tragedy and despair. That bleak first winter of the war at The Old White left indelible images upon the minds of all who witnessed it. Its echo still reverberates across the years. The seldom-visited graves of those poor soldiers who perished at the resort-turned-hospital can yet be found by the modern visitor." McKinney said most people are familiar with the blood spilled on the battlefields, but fewer people know about "the pain and sacrifice on the home front." Thanks to his research, he was able to find previously unpublished information about the role of the Sisters of Charity in White Sulphur Springs during the war. He also walks readers through places in Greenbrier County that still exist. Anyone interested in local Civil War history could use his book as a guide.

Central America, a Nation Divided Feb 24 2023 This popular text surveys the history of the Central American region, covering Guatemala, Belize, Honduras, El Salvador, Nicaragua, Costa Rica, and Panama, from pre-Columbian times to the present. It emphasizes the common characteristics of the Central American states as well as their potential for political union. Now completely updated, the third edition of *Central America: A Nation Divided* encompasses the significant new research and tumultuous events that have taken place since the last edition was published. The text now includes coverage of the civil wars in Guatemala, El Salvador, and Nicaragua, as well as the restoration of peace to the region under the Central American peace accords. It also recounts and analyzes the substantial changes that have occurred in the economic and social arenas as Central American states have turned increasingly to neoliberal policies that emphasize the private sector and the development of exports while reducing government entitlement programs. Students will find this text enormously helpful for sorting through the vast amounts of significant research that has been written and compiled in the past decade. In addition, the *Selective Guide to the Literature* section has been completely revised to reflect the great increase in research and writing on Central America. Comprehensive and incisively written, *Central America: A Nation Divided* is an essential text for Latin American History courses.

Divided We Fall Oct 08 2021 David French warns of the potential dangers to the country—and the world—if we don't summon the courage to reconcile our political differences. Two decades into the 21st Century, the U.S. is less united than at any time in our history since the Civil War. We are more diverse in our beliefs and culture than ever before. But red and blue states, secular and religious groups, liberal and conservative idealists, and Republican and Democratic representatives all have one thing in common: each believes their distinct cultures and liberties are being threatened by an escalating violent opposition. This polarized tribalism, espoused by the loudest, angriest fringe extremists on both the left and the right, dismisses dialogue as appeasement; if left unchecked, it could very well lead to secession. An engaging mix of cutting edge research and fair-minded analysis, *Divided We Fall* is an unblinking look at the true dimensions and dangers of this widening ideological gap, and what could happen if we

don't take steps toward bridging it. French reveals chilling, plausible scenarios of how the United States could fracture into regions that will not only weaken the country but destabilize the world. But our future is not written in stone. By implementing James Madison's vision of pluralism—that all people have the right to form communities representing their personal values—we can prevent oppressive factions from seizing absolute power and instead maintain everyone's beliefs and identities across all fifty states. Reestablishing national unity will require the bravery to commit ourselves to embracing qualities of kindness, decency, and grace towards those we disagree with ideologically. French calls on all of us to demonstrate true tolerance so we can heal the American divide. If we want to remain united, we must learn to stand together again.
