Manuals Combined: U.S. Marine Corps Competition in Arms Program (CIAP) RIFLE Course Instruction

Materials, Media & Division Match And Annual Rifle Databook Jan 09 2022 INTRODUCTION GAIN ATTENTION. A shooter who participates in a Division Match, while recognized as a proficient shooter, has also been selected to become a representative and participant in the Marine Corps Competition in Arms Program (CIAP). Throughout its history, this program and the events conducted within the program all stress the same principles: the development of proficient and combat-ready Marines through the practice and application of marksmanship fundamentals and shooting techniques. Success in requalification, combat, and competition rely on the shooter's ability to apply what he has learned in these environments. The competitive shooter's goal over the coming weeks will ultimately be to win the match, but the skills and knowledge that he receives will serve him and his fellow Marines long after the competition ends and the medals are awarded. The CIAP's mission to develop and perpetuate effective shooters is the foundation on which each shooter in the Marine Corps may achieve success. 2.

OVERVIEW. This lesson will cover an introduction to the CIAP to include history, traditions, objectives, scope, structure, quotas, and awards. 3. INTRODUCE LEARNING OBJECTIVES. The Division Match instruction is structured to prepare the shooter to fire the Division Match Course and is not a component of a formal school program. Therefore, there are no learning objectives. 4. METHOD. This lesson will be taught in a classroom setting using lecture. 5. EVALUATION. The Division Match instruction is structured to prepare the shooter to fire the Division Match Course and is not a component of a formal school program. Therefore, students are not evaluated on this material. Riding in the Zone May 13 2022 Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.

The Harley-Davidson Story Nov 19 2022 The Harley-Davidson Story: Tales from the Archives is a fascinating, visually driven overview of the motor company's rich story, created in cooperation with the Harley-Davidson Museum. The story of Harley-Davidson is a classic American tale of spirit, invention, and the right idea at the right time. From its beginning in a small Milwaukee shed in 1903, William Harley and his cousins, the Davidson brothers, set in motion what would eventually become the world's most iconic motorcycle company. While other motorcycle companies rose and fell through the teens and 1920s, Harley went from strength to strength, whether introducing its first V-twin motor or dominating race tracks across America. The Milwaukee Miracle even prospered during WWII, building war bikes for the armed forces. By the 1950s, they'd buried their last American-built competitor, Indian, and gained a hold over the US market that they maintain to this day. A remarkable story deserves a remarkable space to recount it. Such is the Harley-Davidson Museum in Milwaukee, which opened in 2009. Harley-Davidson partnered with Motorbooks to create this book relaying Harley-Davidson's story, as told through the museum's displays and archive assets.
