As the mother of 5 kids -- 6 if you include her husband -- sat in the neurosurgery department in star-covered sweats too whimsical for the seriousness of the situation, all she could think was "Am I going to die?" Thankfully, Jeannie and her family were able to survive their time of crisis, and now she is sharing her deeply personal journey through this miraculous story: the challenging conversations she had with her children; how she came to terms with feeling powerless and ferociously crabby while bedridden and unable to eat for a month; and how she ultimately learned, re-learned and re re-learned to be more present in life. With sincerity and hilarity, Jeannie invites you into her heart (and brain) during this trying time, emphasizing the importance of family, faith and humor as keys to her recovery and leading a more fulfilling life. In 1932 the Al Saud family incorporated the kingdom of Hijaz, once the cultural hub of

the Arabian world, in to the kingdom of Saudi Arabia. The urban, cosmopolitan Hijazis were absorbed in to a new state whose codes of behavior and rules were determined by the Najdis, an ascetic desert people, from whom the Al Saud family came. But the Saudi rulers failed to fully integrate the Hijaz, which retains a distinctive identity to this day. In "Cradle of Islam", the product of years spent in Mecca, Medina, Jeddah and Taif, Mai Yamani traces the fortunes of the distinctive and resilient culture of the Hijazis, from the golden age of Hashemite Mecca to Saudi domination to its current resurgence. The Hijazis today emphasise their regional heritage in religious ritual, food, dress and language as a response to the 'Najdification' of everyday life. The Hijazi experience shows the vitality of cultural diversity in the face of political repression in the Arab world. Learn from home and explore the world with these fun and easy board books!
