By 1920, Marcus Garvey's Black uplift organization, the Universal Negro Improvement Association (UNIA), with eleven million dues-paying members, was the most powerful Black economic and social uplift establishment on the planet. Its plans for unifying Africa and developing a homeland for people of African descent complete, the UNIA poured its fortune into the nation of Liberia. But Liberia sold out the UNIA, leaving it in shambles, its fortune seemingly lost forever. Nine decades later, Dr. Abrian Malone receives an email from Arthel Johnson, the current president of this supposedly dead organization, urging that they meet. But before this can happen, Johnson is brutally murdered, his death making international headlines. Fortunately, Johnson has made arrangements for informing Malone of his intentions should he meet a violent end. Malone finds that the UNIA fortune has not been lost but has increased a thousandfold and is held in abeyance for future use, specifically to implement Garvey's Liberian Redemptive and unify Africa. Malone and his five closest friends, a gender and racially diverse group, are sent on a dangerous mission to locate the

fortune by a certain date, least the fortune be lost forever, and initiate the redemptive. The trail to the fortune has been laid by Marcus Garvey himself and can only be deciphered by Malone and his friends. Further, through an indirect line of filiations, Garvey has endowed Malone with three physiological abilities to assist him in his quest. They also make him the greatest martial artist on the planet. But they are pursued over three continents by a villainous group of militarily trained Liberian assassins who want the fortune for themselves. Historical background necessarily is rich and the characters well-developed. The timeliness of the narrative is witnessed by the renewed interest in the continent of Africa by people of all nationalities. Will the implementation of Garvey's hypothetical Liberian Redemptive stabilize Africa and the Middle East and the rest of the modern world? The educational system is societys best ally and should not be allowed to break down. Our objective in this study was to identify the causes of high dropout rates and low passion for learning among college students. The common view that students are lazy or lacking interest in education is unfounded. On the contrary, we found that, but for factors beyond their control, most students would work hard to achieve their educational objectives. To avoid the judgmental trap, students were asked to identify the factors that would unlock their passion for learning. The factors identified by the students are analyzed in this book. It is hoped that students, parents, teachers, and school authorities will find this book a light to their path. Udoh

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature - his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal

Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Politics and the English Language*, the second in the Orwell's Essays series, Orwell takes aim at the language used in politics, which, he says, 'is designed to make lies sound truthful and murder respectable, and to give an appearance of solidity to pure wind'. In an age where the language used in politics is constantly under the microscope, Orwell's *Politics and the English Language* is just as relevant today, and gives the reader a vital understanding of the tactics at play. 'A writer who can - and must - be rediscovered with every age.' - Irish Times

What is the place of corporate worship in theological education? Certainly it is not unexpected to have ministry students attending seminary chapel, but what are the expectations for the students who attend chapel? Is it to form their liturgical sensibilities into conformity with a particular worship tradition or style? Or is it to provide a safe place to try things that one would be reluctant to experiment with in congregational worship? Although common worship for ministry students is almost a given in all theological schools, there are few common understandings about its goals and purposes. *Common Worship in Theological Education* is the first book to address the theological, pedagogical, and political issues involved in the planning and execution of seminary chapel. It offers voices from across the theological and ecumenical spectrum about chapel, as well as involving multiple disciplines in the conversation. This volume provides the first comprehensive survey of the worship issues at stake in seminary education today. The essays in this collection provide the foundation for a productive conversation within a seminary faculty or among colleagues within a theological discipline. This volume makes the case that the chapel ought to have a seat at the table when the education mission of a theological school is being discussed. So pull up a chair and prepare for a fascinating conversation. This last title in the series covers the most important findings of the five years EU sponsored ANTICORRP

Although few want to deny the importance of individual rights, many political theorists have recently complained that their importance has been greatly over-emphasized. The result, as they see it, is an excessive individualism that blinds people to the needs of the community or state to which they belong. We should be less concerned with our rights, in their view, and more concerned with our responsibilities. Those who advanced this view typically argue against liberalism. In *Civic Virtues*, a compelling addition to the distinguished Oxford Political Theory series, Richard Dagger takes a different approach. Finding the proper relationship between rights and responsibilities requires us not to choose between liberalism and republicanism, he argues, but to unite them in a republican form of liberalism. Is such a marriage of republicanism and liberalism possible? Is it desirable? Dagger demonstrates how republican liberalism proceeds from a fundamental right of autonomy, to the recognition of interdependence and reciprocity, and on to the cultivation of the civic virtues of the public-spirited citizen. Indeed, republican liberalism promises not only to reconcile individual rights and civic duties, but to enhance political deliberation and the sense of community as well. Timely, vigorous, and accessibly written, *Civic Virtues* will be crucial interest to students of political philosophy and to all who hope to revive civic life. in Danish higher education.
