"Coach Joe Friel touts the benefits of creating a scientific, self-coached training plan to refine your skills and improve your triathlon performance. You will learn how to train smarter, not harder, and apply proven techniques for increasing endurance without overtraining. Friel equips you with the know-how to build a personal training plan based on your individual needs and goals for the next racing season. In addition to the physical aspect of training, Friel addresses the importance of mental preparation and training, from attitude to zealotry. Whether you are an amateur, professional, or training for your first triathlon event, you will find comprehensive information to help you achieve your goals and reach your maximum potential." -- Page [4] cover. SHORTLISTED FOR THE TELEGRAPH SPORTS HEALTH & FITNESS BOOK OF THE YEAR AWARD 2019 RUNNING AWARDS 2019 - TOP BOOK

Dare to Tri is the amazing story of TV presenter Louise Minchin's journey from the BBC Breakfast sofa to representing Great Britain at the World Triathlon Championships. This is a warmly written and wonderfully honest adventure-through-sport that will both entertain and inspire. 'I didn't even know what a triathlon was before 2012... When I took up the sport three years ago I didn't imagine for a second then, that, one day, I would be able to represent my country internationally.' Louise Minchin What started out as a fun television cycling stunt culminated in BBC Breakfast's Louise Minchin wearing the colours of Great Britain at the World Triathlon Championships in her age group. This is the story of how a newly discovered sport became a passion - and then an obsession. Dare to Tri is Louise's candid memoir of her incredible journey, recounting her rediscovery of competitive sport after nearly 30 years and her first tentative steps as a triathlete. In a story encompassing equal measures of determination and self-doubt, Louise has to overcome personal nerves, a brutal training regime, the odd bike crash and the occasional drama. Her adventure as she strives to represent Great Britain in triathlon is an inspiration for sporting late-starters everywhere. Adapts the author's nutritional program to the needs of athletes in a diet based on natural selection and evolution that promotes weight loss, normalizes blood cholesterol, increases energy levels, and enhances overall fitness. In his quest to define 'sporting greatness', double Olympic champion Alistair Brownlee has spent nearly 4 years interviewing and training with some of the greatest minds in sport to discover what it takes to become - and remain - a champion. Hunter Allen and Andy Coggan, PhD have completely revised the book that made power meters understandable for amateur and professional cyclists and triathletes. Power meters have become essential tools for competitive cyclists and triathletes. No training tool can unlock as much speed and endurance as a power meter--for those who understand how to interpret their data. A power meter displays and records exactly how much energy a cyclist expends, which lends unprecedented insight into that rider's abilities and fitness. With the proper baseline data, a cyclist can use a power

meter to determine race strategy, pacing, and tactics. Training and Racing with a Power Meter makes it possible to exploit the incredible usefulness of the power meter by explaining how to profile strengths and weaknesses, measure fitness and fatigue, optimize workouts, time race readiness, and race using power. This new edition: Enables athletes to predict future performance and time peak form Introduces fatigue profiling, a new testing method to pinpoint weaknesses Includes two training plans to raise functional threshold power and time peaks for race day Offers 75 power-based workouts tuned for specific training goals This updated edition also includes new case studies, a full chapter on triathlon training and racing, and improved 2-color charts and tables throughout. Training and Racing with a Power Meter, will continue to be the definitive guide to the most important training tool ever developed for endurance sports. Internationally recognized triathlon coach and best-selling author Joe Friel teams up with ultra-endurance guru Gordon Byrn in Going Long, the most comprehensive guide to racing long-course and Ironman-distance triathlons. Combining science with personal experience, Friel and Byrn prepare anyone, from the working age-grouper to the podium contender, for success in triathlon's ultimate endurance event. Whether you are preparing for your first long-course triathlon or your fastest, Going Long will make every hour of training count. 40 sport-specific drills to improve technique and efficiency Updates to mental training Key training sessions, workout examples, and strength-building exercises A simple approach to balancing training, work, and family obligations A new chapter on active recovery, injury prevention and treatment Going Long is the best-selling book on Ironman training. Friel and Byrn guide the novice, intermediate, and elite triathlete, making it the most comprehensive and nuanced plan for Ironman training ever written. Going Long is the best resource to break through an Ironman performance plateau to find season after season of long-course race improvements. Power meters measure a cyclist's strength, but this revolutionary training technology can benefit everyone, not just the most powerful riders. The most trusted coach in endurance sports offers a simple user's guide to help cyclists and triathletes master the fundamentals of training. What would you do if half your town caught triathlon mania? If you're like Alicia DiFabio—a minivan-driving, harried mother of four small children whose daily look features stained yoga pants, a messy ponytail, and a big diaper bag—you would shrug your shoulders and try to hold on for that after-bedtime glass of wine. It was to her utter surprise that this middle-aged, out-of-shape mother found herself on the starting line of a triathlon. In Women Who Tri, DiFabio explores the triathlon phenomenon that has gripped her town and swept the nation. Her memoir is both inspiring and informative as it explores the popularity, psychology, subculture, and transformative power of triathlons among "ordinary" women. Set in a small New Jersey town that now hosts America's largest women-only triathlon club, Women Who Tri weaves together the insights of a psychologist, the research of a journalist, and the deep insecurities of a daunted newbie. DiFabio shares her journey from nervous newcomer to triathlon finisher as she investigates one of the world's most challenging and inspiring sports. She profiles women who have overcome challenges to become athletes and tri for themselves and to help others. Women Who Tri will entertain, enlighten, and inspire any triathlon enthusiast, from tri-addicts to the tri-curious. The Time-Crunched Cyclist reveals the fastest way to get fit for road racing, century rides, gravel grinders, cyclocross, Gran Fondos, and mountain bike events. With elite cycling coach Chris Carmichael's innovative, time-saving approach, busy cyclists will develop fitness, speed, and power in just 6 hours a week. Now powered by Strava, this updated third edition of The Time-Crunched Cyclist training program taps into the most popular cycling social network to help cyclists get fired up to crush their workouts, one segment at a time. Through his popular endurance coaching service, Carmichael noticed that many busy cyclists are unable to make performance gains using conventional training methods; they simply don't have enough time to train. So CTS developed a new approach—the Time-Crunched Training Program—to help cyclists achieve competitive fitness and power without the impossible time demands of traditional training methods. The Time-Crunched Cyclist shows cyclists how to build fitness on a realistic schedule by tapping the power of high-intensity interval training (HIIT) workouts. Cyclists learn the science behind this alternative approach to training before performing the CTS field tests to get a baseline reading of their fitness. Nine comprehensive training plans include effective time-crunched workouts, nutrition

guidelines, and strength training to develop the speed and endurance for a wide variety of cycling races and events. The new Time-Crunched Training Plans cover:

- New and Experienced plans for criteriums, road races, and cyclocross
- New, Experienced, and Competitive plans for century rides and Gran Fondos
- Gravel racing and ultraendurance mountain biking plans
- Intermediate and Advanced plans for commuters

This new, third edition integrates Strava, the popular ride tracking and analysis program. Powered by Strava, the Time-Crunched program becomes interactive, social, highly motivating—and focuses riders on the training data that matters most. It also adds the Time-Crunched Diet, a sports nutrition approach designed to help riders optimize their power-to-weight ratio with new guidelines on eating behaviors and delicious recipes from chefs Michael Chiarello and Matt Accarrino. A new chapter on hydration and managing heat stress will show athletes simple ways to avoid overheating that lead to better performance. The Time-Crunched Cyclist can help you capture your best performance—all in the time you have right now. Keeping a training diary helps athletes build confidence and stave off threats to performance: burnout, injury, illness, and overtraining. This simple, comprehensive diary makes it easy to record every component of triathlon workouts. Details of each swim, bike, run, crosstraining, or strength workout can be entered, with ample space for notes on the route or other variables. Users can consolidate training data, track progress, and reshape goals throughout the season with this useful book. If you use the second edition of *The Triathlete's Training Bible* to guide your training, there's good news: This Companion will quickly bring you up to speed with the most important advances in the sport.

Book jacket. This clear and comprehensive book from America's top triathlon coach prepares aspiring triathletes for the challenge of their first tri through a simple, 12-week training plan that requires fewer than five hours a week. 'I am blown away by the level of detail Phil Cavell brings to his work.' Elinor Barker MBE, multiple world champion and Olympic gold medallist 'Phil is eminently qualified to write the *Midlife Cyclist*. Well, he is certainly old enough.' Fabian Cancellara, Tour de France rider and two-time Olympic champion 'An amazing accomplishment... a simple-to-understand précis of your midlife as a cyclist - you won't want to put it down.' Phil Liggett, TV cycling commentator 'I'm determined to grow old gracefully in lycra, and Phil Cavell has been helping me to do it successfully for years.' Gary Kemp

Renowned cycling biomechanics pioneer, Phil Cavell, explores the growing trend of middle-aged and older cyclists seeking to achieve high-level performance. Using contributions from leading coaches, ex-professionals and pro-team doctors, he produces the ultimate manifesto for mature riders who want to stay healthy, avoid injury - and maximise their achievement levels. Time's arrow traditionally plots an incremental path into declining strength and speed for all of us. But we are different to every other generation of cyclists in human history. An ever-growing number of us are determined to scale the highest peaks of elite physical fitness into middle-age and beyond. Can the emerging medical and scientific research help us achieve the holy triumvirate of speed and health with age? *The Midlife Cyclist* offers a gold standard road-map for the mature cyclist who aims to train, perform and even race at the highest possible level. A perfect companion to any triathlon training program, *The Triathlete's Training Diary* offers an ideal way for you to plan, record, and better understand your workouts and performance. With undated pages for use any time of the year, this diary offers plenty of space for all the objective and subjective performance metrics you might want to track in a smart format that's been carefully designed, tested, and refined by Joe Friel, the top coach in the sport of triathlon. *The Triathlete's Training Diary* is wirebound to lay flat and flips easily so you can look up past workouts or settle your pre-race nerves by proving to yourself that you've done the work. This paper workout log is simple to use, never requires a login or password, and can be completely customized to meet your needs for any triathlon training schedule. This physical record of your workouts will reveal insights that don't display on an online dashboard. Fully compatible with Joe Friel's best-selling training programs like *The Triathlete's Training Bible*, *Your First Triathlon*, *Going Long*, and *Your Best Triathlon*, this diary simplifies the planning and execution of your triathlon training. High-performing athletes know that a training diary is an invaluable tool. Whether they work with a coach or train independently, even elite triathletes keep a training log to hone their feel for performance, consolidate training data in one location, track their progress, monitor for injuries and overtraining, and reshape their goals throughout

the season. The Triathlete's Training Diary includes: Coach Friel's introduction to the essential details of keeping a training log. Friel's guide to planning out your season. Season goals, Annual training hours, Weekly training hours 53 undated weekly spreads. Space for every training metric like rest/recovery, weight, workout type, route, distance/time, average heart rate and power, zones, weather, heart rate, RPE, and your custom notes Room for two-a-day workouts. Weekly Summary charts Race Results Summary to log finish times, split times, pre- and post-race nutrition, efforts, and age-group rankings Physiological test results such as VO2max and lactate threshold. Training Grids to graph the data you choose Road and mountain bike measurements with space to note adjustments Your favorite routes and best times Season results summary Race day gear checklist What gets measured gets managed. Add The Triathlete's Training Diary to your program and you'll unlock valuable insights that can help you improve in your sport. Joe Friel is the top coach in triathlon and his book *Your First Triathlon* is the best-selling book for beginner triathletes. This clear and comprehensive book makes preparing for sprint and Olympic triathlons simple and stress-free. Joe Friel's practical training plan takes fewer than 5 hours a week, giving aspiring triathletes the confidence and fitness to enjoy their first race. *Your First Triathlon* offers a 12-week training plan for total beginners as well as custom plans for athletes experienced in running, cycling, or swimming. Four easy-to-use plans include achievable swim, bike, run, and optional strength workouts that will gradually but surely build anyone into a triathlete. Joe offers helpful advice to simplify the complexities of the swim-bike-run sport. Even a total novice will learn commonsense tips and tricks to navigate packet pickup, set up a transition area, fuel for race day, finish a stress-free swim, and ensure that race day goes as smoothly as planned. Joe Friel is the coach experienced triathletes trust most. His book *The Triathlete's Training Bible* is the best-selling triathlon training resource and now his trusted advice is available to help beginners enjoy their first triathlon experience. In 1987, Joe Parkin was an amateur bike racer in California when he ran into Bob Roll, a pro on the powerhouse Team 7-Eleven. "Lobotomy Bob" told Parkin that, to become a pro, he must go to Belgium. Riding along a canal in Belgium years later, Roll encountered Parkin, who he saw as "a wraith, an avenging angel of misery, a twelve-toothed assassin". Roll barely recognized him. Belgium had forged Parkin into a pro bike racer, and changed him forever. *A Dog in a Hat* is Joe's remarkable story. Leaving California with a bag of clothes, two spare wheels, some cash, and a phone number, Parkin left the comforts of home for the windy, rainswept heartland of European cycling. As one of the first American pros in Europe, Parkin was what the Belgians call "a dog with a hat on" -- something familiar, yet decidedly out of place. Parkin lays out the hard reality of the life--the drugs, the payoffs, the betrayals by teammates, the battles with team owners for contracts and money, the endless promises that keep you going, the agony of racing day after day, and the glory of a good day in the saddle. *A Dog in a Hat* is the unforgettable story of the un-ordinary education of Joe Parkin and his love affair with racing, set in the hardest place in the world to be a bike racer. It is a story untold until now, and one that you will never forget. Outlines cutting-edge training techniques that can bolster the effectiveness of a workout, explaining how to use a heart rate monitor as a beneficial self-coaching tool, in a reference that discusses such topics as how to minimize injuries, using gym equipment, and recognizing when to increase and decrease a workout's intensity. Original. If you use the third edition of *The Cyclist's Training Bible* to guide your training, this Companion will quickly bring you up to speed with the most important advances in the sport. "A carefully maintained record of training is a great tool for improving racing," writes Joe Friel in the introduction to this cyclists' training diary. He shows how to record daily workout details and how to plan a season. The book includes photos, worksheets, and charts for weight changes and bike measurements. "Joe Friel is arguably the most experienced personal cycling coach in the U.S." -- *Bicycling* Provides expertise for triathlon athletes seeking to raise their game by fine-tuning their physique, developing a race strategy, and setting personal goals. *Fast After 50* is for every endurance athlete who wants to stay fast for years to come. For runners, cyclists, triathletes, swimmers, and cross-country skiers, getting older doesn't have to mean getting slower. Drawing from the most current research on aging and sports performance, Joe Friel--America's leading endurance sports coach--shows how athletes can race strong and stay healthy well past age 50. In his groundbreaking

book *Fast After 50*, Friel offers a smart approach for athletes to ward off the effects of age. Friel shows athletes how to extend their racing careers for decades--and race to win. *Fast After 50* presents guidelines for high-intensity workouts, focused strength training, recovery, crosstraining, and nutrition for high performance. You'll learn: How the body's response to training changes with age, how to adapt your training plan, and how to avoid overtraining How to shed body fat and regain muscle density How to create a progressive plan for training, rest, recovery, and competition Workout guidelines, field tests, and intensity measurement In *Fast After 50*, Joe Friel shows athletes that age is just a number--and race results are the only numbers that count. With contributions from: Mark Allen, Gale Bernhardt, Amby Burfoot, Dr. Larry Creswell, John Howard, Dr. Tim Noakes, Ned Overend, Dr. John Post, Dr. Andrew Pruitt, and Lisa Rainsberger. In *Fast-Track Triathlete*, elite triathlon coach Matt Dixon offers his plan of attack for high performance in long-course triathlon--without sacrificing work or life. Developed for busy professionals with demanding schedules, the *Fast-Track Triathlete* program makes your PR possible in Ironman®, Ironman 70.3®, Rev3, and Challenge triathlon in about 10 hours a week. Training for long-course triathlons once demanded 15-20 hours each week--on top of work, family, travel and other time commitments. For many, preparing for long-distance triathlon is more challenging than the race itself. Now *Fast-Track Triathlete* opens the door to your best performance in full- and half-distance triathlons in half the traditional training time. Dixon's laser-focused, effective approach to workouts, recovery, strength and mobility, and nutrition means you can prepare for triathlon's greatest challenges in just 7-10 hours per week for half-distance and 10-12 hours per week for full-distance. *Fast-Track Triathlete* includes • Dixon's complete guide to creating a successful sport and life performance recipe • How to plan out your triathlon training • Scaling workouts for time and fatigue • Training and racing during travel • Executing your swim-bike-run and transitions plan on race day • 10-week off-season training program with key workouts • 14-week pre-season training program with key workouts • 14-week comprehensive race-prep full and half training plans with fully integrated strength and conditioning Dixon's first book, *The Well-Built Triathlete*, revealed his four-tiered approach to success in all triathlon race distances. *Fast-Track Triathlete* turbocharges Dixon's well-built program so even the busiest athletes can achieve their long-distance triathlon dreams without sacrificing so much to achieve them. Raise your game and swim faster, run faster and cycle faster with *The Triathlon Book*, the one-stop reference for every triathlete. Find all the essentials you need to improve your performance: clear, customisable training plans for all triathlon distances from pool-based races to Ironman level. Step-by-step exercises help to build your strength and stamina, plus expert advice on race day strategy detailing everything from motivation and reducing transition times, to nutrition, kit and equipment. Tailor your training to your own individual needs with self-assessment questionnaires and customisable training plans so you can reach your goals. *The Triathlon Book* can also help when things go wrong, offering trustworthy advice on treating common triathlon injuries and maintaining a healthy body. Whether you're a novice or an Ironman, let *The Triathlon Book* show you how to train safely and effectively to reach your full potential as a triathlete. In *The Power Meter Handbook*, Joe Friel offers cyclists and triathletes a simple user's guide to using a power meter for big performance gains. In simple language, the most trusted coach in endurance sports makes understanding a power meter easy, no advanced degrees or tech savvy required. Cyclists and triathletes will master the basics to reveal how powerful they are. Focusing on their most important data, they'll discover hidden power, refine their pacing, and find out how many matches they can burn on any given day. Once they understand the fundamentals, Friel will show how to apply his proven training approach to gain big performance in road races, time trials, triathlons, and century rides. With *The Power Meter Handbook*, riders will: Precisely match their training to their race season Push their limits step by step Track fitness changes--reliably and accurately Peak predictably for key events Vastly improve training efficiency Power meters aren't just for the pros or racers anymore. Now *The Power Meter Handbook* makes it easy for any cyclist or triathlete to find new speed with cycling's most advanced gear. Noted mountain bike expert Joe Friel covers every aspect of training, helping rides maximize the experience and minimize the problems. 12 photos. 10 illustrations. 10 charts. 20 tables. Worksheets. Swim, Bike, Run

is the ultimate triathlon book, from Olympic heroes the Brownlee brothers *The Olympic Triathlon*, Hyde Park, London August 7th 2012 'We jogged to our positions on the pontoon: two brothers, side by side, the world and everyone we ever cared about looking on. Eighteen years of training, culminating in this single race. Noise from the crowd impossible to imagine. Hearts thumping. Swim-hats pulled tight, goggles lowered. Into a crouch, poised for the hooter. Three. Two. One...' This is the story of how two skinny lads from west Yorkshire became the best triathletes in the world. Meet the Brownlees: Olympic Champion Alistair, World Champion Jonny. Brothers, training partners, rivals. They have obliterated the competition and set new standards for swimming, biking and running. But the Brownlee brothers have never forgotten their roots. They still do their schoolboy hill runs and Dales rides; still train harder and longer than anyone; still push each other to new heights. In this revealing, often very funny book they take us inside their world and inside their races. It's both a riveting story of brotherly rivalry and a rare insight into what it takes to be the best. *Swim, Bike, Run* is also packed with training secrets. Whether you are thinking about your first triathlon or are a seasoned competitor, here are unique sections on how to swim, bike and run, and advice on nutrition, injury, and mental approach. With the Brownlees in your corner, you will do more than you ever thought possible. This book is essential reading for anyone interested in swimming, cycling and running and will be loved by readers of Mark Cavendish's *Boy Racer* and *Running with the Kenyans*. Alistair Brownlee, 24, is a British triathlete from Yorkshire. He is the reigning Olympic champion, a back-to-back European champion and a two-time World champion. Jonathan Brownlee, 22, is also a British triathlete from Yorkshire. He is the reigning World Champion, a two-time World Sprint champion and an Olympic bronze medalist. 'Sport has two new heroes: a couple of nice lads from Yorkshire' *The Times* Coach Joe Friel is the most trusted name in endurance sports coaching, and his *Cyclist's Training Bible* is the most comprehensive and reliable training resource ever written for cyclists. This new edition of the bestselling book includes all of the latest advances in training and technology. Using this book, cyclists can create a comprehensive, self-coached training plan that is both scientifically proven and shaped around their personal goals. Friel empowers athletes with every detail they need to consider when planning a season, lining up a week of workouts, or preparing to race. This fourth edition includes extensive revisions on the specifics of how to train and what to eat. Friel explains how cyclists can: best gauge intensity with power meters and other new training technology to maximize form and fitness and reduce fatigue; more knowledgeably and accurately make changes to their annual training plan over the course of a season; dramatically build muscular endurance with strength training; improve body composition and recovery with smarter nutrition. With more case studies to draw from and multiple contingency plans for those times when training doesn't progress as planned, *The Cyclist's Training Bible* continues to be the definitive guide to optimal cycling performance. Discover functional training like you've never seen or experienced! This training is easy, fast and fun and it will revolutionize your health and athletic performance. It will become a new way of life! Functional training is a scientific method for personal training, workouts at the gym, at home or outdoors. The book is divided into three parts: The first, theoretical part explains the 'why' at the foundation of functional training; the second, practical part contains bodyweight exercises and exercises with various tools (sandbags, medicine ball, kettlebells). The final section proposes several specific training programs for strength, hypertrophy and weight loss. Welcome to the revolution in functional training! Get your focus and follow it! This all-new *Cyclist's Training Bible* presents the latest discoveries in cycling science, data analysis, daily planning, and skills development to help you create a personal training plan for success. *The Official Tour De France Road Cycling Training Guide*, perfect for any fans of the tour that want to train like a pro. In *The Well-Built Triathlete*, elite triathlon coach Matt Dixon reveals the approach he has used to turn age-group triathletes into elite professionals and champions. Dixon's method breaks new ground in triathlon training, introducing a new, comprehensive approach that builds the whole athlete for stronger performance. Dixon details the four pillars of performance that form the foundation of his highly successful purplepatch fitness program, showing triathletes of all abilities how they can become well-built triathletes and perform better year after year. *The Well-Built Triathlete* does not focus narrowly on workouts and training, but instead gives equal

weight to training and workouts, recovery and rest, workout and daily nutrition, and functional strength and mobility. Dixon considers the demands of career and family to prepare athletes to achieve their goals through a realistic, practical ecosystem of stress and recovery. The Well-Built Triathlete is Dixon's guide to every aspect of triathlon performance. Chapters on swimming, cycling, and running explain the most effective ways to train for each. His pragmatic approach to stretching, recovery, and effective strength training shows athletes where they can recover valuable time. A purplepatch section shows how triathletes can achieve long streaks of high performance. Dixon's whole-athlete approach to triathlon will help triathletes become greater than the sum of their workouts. By becoming better all-around athletes, well-built triathletes will train and race faster than ever. From bad weather to business travel to traffic safety, there are dozens of reasons why cyclists and triathletes take their rides inside. Although indoor cycling workouts offer the ultimate control over workout conditions, most inside riders don't get the most out of their trainers or spin bikes. RIDE INSIDE offers cyclists and triathletes a smart guide to getting more fitness from every indoor cycling workout. From the world's most experienced personal cycling coach, Joe Friel, RIDE INSIDE reveals all the unique aspects of indoor riding: · Mental aspects like motivation, focus, and enjoyment · Changes in upper body stability, posture, and pedaling technique on a stationary bike · Respiration, hydration, and cooling · Inherent changes in power output · Lower leg tension and eccentric loading from flywheel momentum · Lower effort from lack of terrain changes, headwinds, and crosswinds · Road-like feel · Different shifting patterns All these differences of indoor riding add up to a big impact when the rubber hits the road. Drawing from the foundations of Friel's classic training guides, The Cyclist's Training Bible and The Triathlete's Training Bible, RIDE INSIDE shows how to apply smart and proven training concepts to indoor cycling. Riders will get expert guidance on the best ways to set up a trainer or smart trainer, how to modify outdoor workouts for indoor cycling, how to better monitor power and RPE, and how to use social online training platforms like Zwift to make training better and not worse. Most critically, RIDE INSIDE shows cyclists and triathletes how to do indoor cycling workouts that actually meet their training goals instead of compromising. Phil Burt and Martin Evans have worked with the world's best cyclists, including the Great Britain Cycling Team, devising and implementing highly effective off the bike training plans. Now, in Strength and Conditioning for Cyclists you can benefit from their wealth of knowledge and experience and apply it to make you a stronger, faster and more robust cyclist. Use the self-assessment, inspired by the Functional Movement Screening used by the Great Britain Cycling Team, to identify your strengths and weaknesses. Discover the mobility and strengthening movements that are most applicable to your needs, maximising effectiveness and avoiding wasted time. Learn how to devise your own personalised and progressive off the bike training plan, how to schedule it into your year and combine it most effectively with your cycling. A breakthrough program for triathletes -- beginner, intermediate, and advanced -- showing how to balance training intensity to maximize performance -- from a fitness expert and elite coach. Cutting-edge research has proven that triathletes and other endurance athletes experience their greatest performance when they do 80 percent of their training at low intensity and the remaining 20 percent at moderate to high intensity. But the vast majority of recreational triathletes are caught in the so-called "moderate-intensity rut," spending almost half of their time training too hard--harder than the pros. Training harder isn't smarter; it actually results in low-grade chronic fatigue that prevents recreational athletes from getting the best results. In 80/20 Triathlon, Matt Fitzgerald and David Warden lay out the real-world and scientific evidence, offering concrete tips and strategies, along with complete training plans for every distance--Sprint, Olympic, Half-Ironman, and Ironman--to help athletes implement the 80/20 rule of intensity balance. Benefits include reduced fatigue and injury risk, improved fitness, increased motivation, and better race results. A perfect companion to any cycling training program, The Cyclist's Training Diary offers an ideal way for you to plan, record, and better understand your workouts and performance. With undated pages for use any time of the year, this diary offers plenty of space for all the objective and subjective performance metrics you might want to track in a smart format that's been carefully designed, tested, and refined by Joe Friel, America's most experienced personal cycling coach. The Cyclist's Training Diary is

wirebound to lay flat and flips easily so you can look up past workouts or settle your pre-race nerves by proving to yourself that you've done the work. This paper workout log is simple to use, never requires a login or password, and can be completely customized to meet your needs for any cycling training schedule. This physical record of your workouts will reveal insights that don't display on an online dashboard. Fully compatible with Joe Friel's best-selling training programs like *The Cyclist's Training Bible* and *Fast After 50*, this diary simplifies the planning and execution of your training for all cycling events: road racing, criteriums, time trials, century rides, charity rides, gran fondos, enduro, gravel grinders, and cyclocross. Strong cyclists know that a training diary is an invaluable tool. Whether they work with a coach or train independently, even elite cyclists keep a training log to hone their feel for performance, consolidate training data in one location, track their progress, monitor for injuries and overtraining, and reshape their goals throughout the season. The *Cyclist's Training Diary* includes: Coach Friel's introduction to the essential details of keeping a training log. Friel's guide to planning out your season. Season goals, Annual training hours, Weekly training hours and summary charts 53 undated weekly spreads. Space for every training metric like workout type, route, and distance/time; heart rate and power; zones and RPE; weather; rest/recovery; weight; and your custom notes Race Results Summary to log finish times, nutrition, efforts, and more Physiological test results such as VO₂max and lactate threshold. Training Grids to graph the data you choose Road and mountain bike measurements with space to note adjustments Your favorite segments and best times Season results summary Race day gear checklist What gets measured gets managed. Add *The Cyclist's Training Diary* to your program and you'll unlock valuable insights that can help you improve in your sport. The *Triathlete's Training Bible* is the bestselling and most comprehensive guide for aspiring and experienced triathletes. Joe Friel is the most trusted coach in the world and his proven triathlon training program has helped hundreds of thousands find success in the sport of triathlon. Joe has completely rewritten this new 4th Edition of *The Triathlete's Training Bible* to incorporate new training principles and help athletes train smarter than ever. The *Triathlete's Training Bible* equips triathletes of all abilities with every detail they must consider when planning a season, lining up a week of workouts, or preparing for race day. With this new edition, Joe will guide you to develop your own personalized triathlon training program and:

- become a better swimmer, cyclist, and runner
- train with the right intensity and volume
- gain maximum fitness from every workout
- make up for missed workouts and avoid overtraining
- adapt your training plan based on your progress and conflicts
- build muscular endurance with a new approach to strength training
- improve body composition with smarter nutrition

The *Triathlete's Training Bible* is the best-selling book on tri training ever published. Get stronger, smarter, and faster with this newest version of the bible of the sport. What's New in the Fourth Edition of *The Triathlete's Training Bible*? Coach Joe Friel started writing the fourth edition of *The Triathlete's Training Bible* with a blank page: the entire book is new. The science and sport of triathlon have changed much since the previous edition released. This new edition adds emphasis to personalizing training plans, incorporates new power meter techniques for cycling and running, improves on the skill development techniques, updates the strength training approach, speeds recovery for busy athletes, and cuts through the noisy volume of training data to focus athletes on the numbers that mean the most to better performance. See Joe Friel's blog or VeloPress for an expanded summary of improvements to this fourth edition. *Your Best Triathlon* is a master plan that will guide experienced triathletes through every week of their season. For each phase of training, Joe lays out the path to success, outlining clear objectives and the guidelines to meet them. Joe Friel's highly refined training plans for sprint, Olympic, half-Ironman®, and Ironman® race distances will help serious triathletes deliver a breakout performance, even those with countless races under their belt. Joe offers a tool kit of proven workouts that will isolate and develop specific abilities. Within each workout and plan, he offers easy modifications to better manage personal limiters and improve performance. Hundreds of thousands of triathletes have relied on Joe Friel and his groundbreaking best seller, *The Triathlete's Training Bible*, to develop their own self-coached training programs. Now Joe Friel, the most experienced coach in triathlon, reveals his formula for advanced training and coaches triathletes to their best race ever. The

Triathlete's Training Bible is the bestselling and most comprehensive reference available to triathletes.
