theory of meaning that holds that the meaning of linguistic expressions can be explained in terms of the rules governing their use in performing various speech acts e.g. admonishing, asserting, commanding, etc. The term speech acts is used to define an utterance that has performative function in language and communication (Searle 1969) and was originally used by his mentor J.L. Austin in his theory of locutionary, illocutionary and perlocutionary acts. Drawing on these linguistic practices of Austin, Searle used his framework to base his work (Feb 1990). Conceptually, these definitions are centered around two criteria: 1. saying the opposite of what you mean and 2. saying something different from what you mean. It is the thesis of this paper that both these criteria can be integrated into a homogeneous pragmalinguistic frame of reference.

Web 5: Speech act theory: a speech act can be divided into three different smaller acts: locutionary act, illocutionary act, perlocutionary act (J.L. Austin).

6. The locutionary act: the act of performing words into utterances that make sense in a language with correct grammar and pronunciation. Locution: a form of expression, a phrase, an expression.

Web: focuses on directive speech acts in the Sleeping Beauty movie script. There are three reasons why this study about directive speech act is still freshly conducted:

1. Directive speech act is a kind of speech act that is often used by speakers in daily conversation.
2. Directive shows a strong relationship between web.

The term speech acts is used to define an utterance that has performative function in language and communication (Searle 1969) and was originally used by his mentor J.L. Austin in his theory of locutionary, illocutionary and perlocutionary acts (Web 8 Jan 2021).

Dore's operational definition of speech act is an utterance consisting formally of a single word or a single prosodic pattern with functions to convey the child's intention (Dore 1974). Four types of behavioral data were considered: the child's utterance, nonlinguistic behavior (e.g. gesture, facial expression) (Web 11 Jan 2011).

An analysis of the speech acts in an anthology of short stories (9 dari Nadira by Leila S. Chudori): the study of meaning in context is the core of pragmatics. In fact, the context of the language of any literary work may be felt in the text but not all the time since understanding literary works (Web 27 Jul 2021).

There are some types of speech acts found in Instagram captions in Indonesia: they are directive, representative, and expressive speech acts.

1. Directive speech act: is a speech act that is performed so that the speaker does what the speaker says. In directive speech act, shows 204 data or 61.45% consist of positive forms such as web.

Expressive speech act was mostly used for example when the viewers thanked a virtual YouTuber because she/he made the viewer have a happy year. By analyzing the viewers' speech act pattern, this study further raises the awareness of what the viewers are trying to express while they are watching their favorite streamers (Web).

A speech act is an action that is performed in saying something. Speech act theory is a subfield of pragmatics concerned with the way utterances can be used not only to give information but also to accomplish certain objectives. Speech act theory was first introduced by J.L. Austin and further developed by the philosopher J.R. Searle (Web).

The concept of speech acts was first developed by J.L. Austin in *How to do things with words* (1962) and elaborated by John Searle in *Speech acts* (1969) when we talk we do such things as greet, promise, warn, order, invite, congratulate, advise, thank, insult, and these are known as speech acts from a literary critical point of view (Speech Web).

Another highly influential view of speech acts has been in the conversation for action developed by Terry Winograd and Fernando Flores in their 1986 text *Understanding computers and cognition: a new foundation for design*, arguably the most
