"Get Inside God's Head" tells how to activate the pre-installed personal spiritual GPS God gave us at all at birth. Activation, the book says, consists of learning and using the Common-sense-as-spiritual-GPS Principle. The author of the book, a former Eastern Orthodox Christian priest using the pen name Once-Reverend Basil, recounts the 50-year spiritual odyssey that led to his discovery of the principle. The odyssey culminated in a dramatic spiritual Aha moment, followed by a Eureka moment, which awakened the then-clergyman from a state of "spiritual zombie-ism" under whose spell he had been living since his formative years as a Roman Catholic. His religious faith, like that of most believers, had forbidden him to use common sense when it came to spiritual matters. His spiritual Aha convinced him God wouldn't have given him the inborn gift of common sense and then not expected him to use it for everything, spiritual matters included. Once free to do that, he realized that his half-century search for the perfect church had been in vain--that he could trust no one but himself and his God-given gifts, comprising a very real sixth sense, for accurate direction along the spiritual

path God wanted him to follow. The process he discovered for using his inborn gifts resulted in formulation of the Common-sense-as-spiritual-GPS Principle. Validating the principle inspired the now Once-Reverend Basil to make a personal Declaration of Spiritual Independence. It begins: "My spiritual trust, I place only In God, my Father Almighty, the maker of all things, visible and invisible; and in the true and real sixth sense He instilled in me at birth to provide certain spiritual direction . . . " The book reveals a simple easy-to-use process for applying the Common-sense-as-spiritual-GPS Principle to answer everyday spiritual questions and resolve moral/ethical dilemmas. In the process, it illustrates how difficult it was for Basil to escape the narrow, tunnel-vision mindset of organized religion and begin making personal spiritual decisions he is certain have God's stamp of approval. This book constitutes the refereed proceedings of the 7th International Conference on Pervasive Computing, Pervasive 2009, held in Nara, Japan, in May 2009. The papers are organized in topical sections on digital displays, navigation, at home with pervasive applications, sensors, sensors, everywhere, working together, tagging and tracking, methods and tools, and the importance of context. Is it possible for one book to be the catalyst for a great spiritual awakening in the United States? It only took one stone from Davids sling to defeat the giant that held the armies of God at bay for 40 days. A rout ensued. The key is to hit the mark with one solid shot. The Message of Pain is a spot-on heart discussion about today's American experience and what God is doing right now in our midst. Broken dreams, hopes and lives are all around us. Too many find themselves reeling in pain for years from the damages of a poor choice, the cruelty of another (Evil) or simply an accident. The Message of Pain explains how a person can become trapped in the Pain Cycle to live a life where the giant of pain is the rule. Satan uses pain to convince us of a lie about God. Believing a lie about God gets you started in a cycle of pain. The Message of Pain helps you find your way out or understand a friend in the cycle of self destruction so you can be ready to help them out.
