For as long as I can remember I have found solace in the ocean, in breathing in the salty air, hearing the roar of waves crashes, watching as the sets roll in and feeling the sand between my toes. It was during one of my toughest seasons of my life, when facing a physical condition that had me feeling hopeless, that God reminded me that He is living water, He calms seas. He empowers us to walk out on the water, and He leads us beside quiet streams. A close friend challenged me amidst a physical hardship I was living with, to return to a place where I hear God's voice the clearest, and so we spent a weekend at our beach house for to recoup and reconnect to God. I was hopeless, depressed, in physical pain and living under grey skies, but that's often where God meets us. His grace is found exactly where we are. God began to speak to me about suffering. He reminded me that my faith does not exclude me from suffering but that my hope is eternal. He spoke to me of Him being living water and that nothing on earth would ever fill me like He can. I knew this deep down but I suppose life had caused me to forget. And then He laid on heart the desire to write this devotional; a letter of love about our King. He is enough for you. For me. His grace is that good, His love that deep. Nothing can separate us from the love, which is found in Jesus. He is the happiness and the peace that our souls thirst for. May this devotional be a source of hope and encouragement to you on your faith journey, as you read through the various themed chapters. Through the colloquial devotions on each dated page, may you be encouraged to draw closer to Jesus, and to welcome Him into your life, your mess and your future. **ONE MOMENT CAN CHANGE A LIFE FOREVER.** 'An exceptional read' The Sunday Times 'Vital glimmers of hope enlighten this profoundly poignant book' Guardian A powerful and heart-breaking novel about three childhood friends living during the Second World War whose fates are closely intertwined, even when their lives take very different courses. Carefully crafted and deceptively simple, Linda Sue Park's sijo are a pleasure to read and an irresistible invitation to experiment with an unfamiliar poetic form. Animals move with astounding grace, speed, and versatility: how do they do it, and what can we learn from them? In *How to Walk on Water and Climb up Walls*, David Hu takes readers on an accessible, wondrous journey into the world of animal motion. From basement labs at MIT to the rain forests of Panama, Hu shows how animals have adapted and evolved to traverse their environments, taking advantage of physical laws with results that are startling and ingenious. In turn, the latest discoveries about animal mechanics are inspiring scientists to invent robots and devices that move with similar elegance and efficiency. Hu follows scientists as they investigate a multitude of animal movements, from the undulations of sandfish and the way that dogs shake off water in fractions of a second to the seemingly crash-resistant characteristics of insect flight. Not limiting his exploration to individual organisms, Hu describes the ways animals enact swarm intelligence, such as when army ants cooperate and link their bodies to create bridges that span ravines. He also looks at what scientists learn from nature's unexpected feats--such as snakes that fly, mosquitoes that survive rainstorms, and dead fish that swim upstream. As researchers better understand such

issues as energy, flexibility, and water repellency in animal movement, they are applying this knowledge to the development of cutting-edge technology. Integrating biology, engineering, physics, and robotics, [this book] demystifies the remarkable mechanics behind animal locomotion"--Page 4 of cover. From catfishing as a young girl in the red clay waters of Mississippi, to deep-sea fishing in the Florida Keys with her grandfather's younger brother, Leicester, Lorian Hemingway has spent a large part of her life with a fishing rod in her hand. Fishing was a passion that would sustain her even as the burden of a broken family and her own alcoholism threatened to overcome her. **WALK ON WATER** is a poignant and powerful memoir about loss, recovery, coping with the family you are born into, and making a family of your own. But above all it is a homage to fishing - its ability to bind people, to challenge, and ultimately to heal. Full of dry wit and keen appreciation for the absurdities of life, Lorian Hemingway sees fishing as more than simply a metaphor for her life; it is her own psychic barometer. By turns moving, raw, wry, and hilarious, **WALK ON WATER** is a stirring memoir by a woman who, like her quarry, is full of fight and life. In Rachel Swearingen's debut collection, *How to Walk on Water and Other Stories*, we meet grifters, account executives, waitresses, scientists, and artists who willingly open their doors to trouble. An investment banker falls for a self-made artist who transforms the rooms of her dingy apartment into eerie art installations. A young au pair turns her mundane life into a scene from *Key Largo*, endangering the child in her care. A down-on-his-luck son moves in with his mother and tries to piece together the brutal attack she survived when he was a baby. A brother helps his wayward sister kidnap her grandson to baptize him in the North Woods. Whether it's a run-down movie theater in Minneapolis, a haunted brownstone in Chicago, a primitive chapel in Northern Michigan, a seedy bar in Seattle, or a tourist hotel in Venice, Italy, Swearingen's powers of observation and suspense show that thoughts as much as place can haunt. The prose is nimble and often heartbreaking. Even as these stories bristle with menace, they soothe with tenderness and humor. The themes of crime and complicity, as well as art and commerce underpin many of these narratives, as does the question of what it means to survive in a world marked by violence and trauma. Only *Walk on Water When It Rains* is a guide for mystical cosmic consciousness and questing for unity in the wilderness. It is wisdom through stories and conversation with the great Bear Spirit. The stories and conversation

reveal astonishing magic, mystery, miracles and magical song. Meister Eckhart wrote, "This spirit seeks to be broken through by God." Source God, the creative Love-Intelligence, leads us through a desert into the wilderness and solitude of the divine where God is pure unity, where God gushes up within Itself. To live in the rightful means to live within consciousness. There is a cosmic life that lies within us as a compass on our path. An award-winning journalist draws back the hospital curtain for a unique look at the near-superhuman skill and dangerous politics surrounding critical surgery. The inspiring story of three young Sudanese boys who were driven from their homes by civil war and began an epic odyssey of survival, facing life-threatening perils, ultimately finding their way to a new life in America. Between 1987 and 1989, Alepho, Benjamin, and Benson, like tens of thousands of young boys, took flight from the massacres of Sudan's civil war. They became known as the Lost Boys. With little more than the clothes on their backs, sometimes not even that, they streamed out over Sudan in search of refuge. Their journey led them first to Ethiopia and then, driven back into Sudan, toward Kenya. They walked nearly one thousand miles, sustained only by the sheer will to live. They Poured Fire on Us from the Sky is the three boys' account of that unimaginable journey.

With the candor and the purity of their child's-eye-vision, Alephonsian, Benjamin, and Benson recall by turns: how they endured the hunger and strength-sapping illnesses—dysentery, malaria, and yellow fever; how they dodged the life-threatening predators—lions, snakes, crocodiles and soldiers alike—that dogged their footsteps; and how they grappled with a war that threatened continually to overwhelm them. Their story is a lyrical, captivating, timeless portrait of a childhood hurled into wartime and how they had the good fortune and belief in themselves to survive. A boy in Africa must walk long distances to obtain water for his family. Described by one surgeon as “soul-crushing, diamond-making stress,” surgery on congenital heart defects is arguably the most difficult of all surgical specialties. Drawing back the hospital curtain for a unique and captivating look at the extraordinary skill and dangerous politics of critical surgery in a pediatric heart center, Michael Ruhlman focuses on the world-renowned Cleveland Clinic, where a team of medical specialists—led by idiosyncratic virtuoso Dr. Roger Mee—work on the edge of disaster on a daily basis. *Walk on Water* offers a rare and dramatic glimpse into a world where the health of innocent children and the hopes of white-knuckled families rest in the hands of all-too-human doctors. When the Sudanese civil war reaches his village in 1985, eleven-year-old Salva becomes separated from his family and must walk with other Dinka tribe members through southern Sudan, Ethiopia, and Kenya in search of safe haven. Victor and his twin sister, Linesi, are close. Only, now that they are eight years old, she is no longer able to go to school with him.
